FONCANNON went into a storeroom next to the kitchen bathroom, where he stayed for approximately two hours. He stated that he heard shots during that time. He and the others were ultimately escorted from the building by the SWAT team. FONCANNON believed that he heard shots during this time. FONCANNON estimated that there were 18 individuals in the storage room and that he did not know any of them. He believed that three were cafeteria employees, one was a janitor, one a male faculty member, and the rest, students.

FONCANNON stated that the SWAT team led them up the stairs on the west side of the cafeteria, and behind a fire truck which escorted them away from the building. FONCANNON was then driven in a marked police unit to the student parking lot located in Clement Park.

FONCANNON stated that he never saw the gunman, nor any unusual items or objects within the cafeteria. FONCANNON stated that he did remember that the school announcement said something to the effect of "You shouldn't be here".

FONCANNON advised that he did not know Eric HARRIS or Dylan KLEBOLD. He had heard of the Trench Coat Mafia, and believed there were approximately ten students who wore dark trench coats to school on occasion. FONCANNON stated that he did not know anything else about the group, or any of its members.

FONCANNON advised that he has access to the Internet via America On Line. His screen name is KFT43. He was not aware of the Eric HARRIS or Trench Coat Mafia-related websites until after the incident.

FONCANNON stated that on April 20, 1999, he wore a white baseball cap, a grey "T" shirt under a green long sleeve shirt, and blue jeans. FONCANNON stated that he left the green shirt behind in the storage room.

NVESTIGATION:

On 04-22-99, I telephoned witness Sandra Inman at 1445 hours due to the fact that she had called the Sheriff's Office stating that she had information concerning the Columbine High School shootings.

Witness Inman stated that she had a student named Lisa Forgan who had told her that she was in the cafeteria the entire time the incident was occurring, and that Forgan was hiding underneath a table when two armed suspects entered the cafeteria. Witness Inman said she was told by Forgan that these individuals were not wearing trench coats and described the individuals as one having long blond hair and an orange shirt and the other individual having blond hair.

Witness Inman stated that she believes Forgan told her that possibly she could ID these individuals if she could look through a yearbook and those photos were in there.

TERROR IN THE CAFETERIA

The date was Tuesday, April 20, 1999, and a terrible thing happened. I was sitting at one of the far corner tables in the lunchroom. My friends Billy and J. J. was sitting next to me. There was nothing different about the day. It was beautiful and jammed packed in the cafeteria. My friends and I talked about the school's system and stories. It was half-way into the period of "A" lunch. That's when the unexpected happened. I saw kids run into the cafeteria in fright. I was scared and confused. The kids were screaming and saying that there was a man with a gun. A girl was crying hysterically as the man try to get in. The doors were locked. Everyone got under the tables. One of the janitors yelled at me to get down. I noticed that he was tall and skinny. He had a bald area on his head. He was wearing a red sleeve-white shirt. I got under the center of my table. My friends were by the edge of me. I asked the girl what was the matter because she was sitting by the garbage still crying. She told me that AnnMarie got shot. I was scared. I heard gun shots in the cafeteria. I started to shake and cry silently. Everyone screamed in terror. I then heard the gunman throw pipe bombs. He was moving fast. I saw Mr. Kritzer. I felt so scared and worried and wondered what's going to happen. As the gunman ran into the cooking area, I heard Mr. Kritzer yell to get out. I saw everyone run towards the foreign language hall. Fear stood in my stomach. I told Billy and J. J. not to move and stay with me. As the other kids tried to leave, I heard everyone scream in terror as their lives were about to end. I saw the man shooting... he was tall with long blond hair and a big nose. He shot kids in that crowd. I heard more pipe bombs go off. Everyone left but I'm guessing 9kids were there in the corner near me. Smoke was in the room. I saw the first

gunman… he was medium size, narrow face, and had on a orange T-shirt with a blue cap. His hair was shaggy-curly blond. He kept throwing pipe bombs across the room. This guy also kept getting closer to us. Billy was going to leave and run. I told him not to leave and to stay. He did and I pointed to the direction that the second gunman may come in from. He did enter from there and he shot across the room and under most of the tables. Then, I saw the first gunman run across throwing more pipe bombs and being only 5ft from us. I saw him run towards (I think) the janitor. The other gunman was circling around inside and out. I was fearing that he could see me. I had nothing blocking me from sight. I heard what may have been the janitor yell at the man to put the gun down. The gunman yelled something back in German. I heard gunshots and the cooks scream. Silence swept across for a minute. They continued to throw pipe bombs and shoot in the cafeteria. I could feel the floor shake more violently. After being under the table for over an hour or more, I felt as if I was going to vomit. Smoke was everywhere. I heard them fire and a loud burst of a gas pipe. Gas swept into the room. My mind cried of panic. I knew it was gas and feared that the gunmen may fire. They shot into the gas and fire swept across the ground. It took one second for it to reach 3ft to me. I panicked and felt the heat seek through me. I yelled run-fire-run-fire. We ran out the nearest door. We feared of being burned alive-getting shot also than escaping-getting shot. We ran down the South Parking Lot and hid behind a brown car as someone yelled that there was a man on the roof. We heard gun shots outside. We all felt the need of using the bathroom. Every 15minutes the gunman would run outside and shoot. We feared of being noticed. Especially since, it may have been, Channel 4News helicopter circling around us. A girl with red hair cam up and hid with us. Another girl hiding behind another nearby car told

us that kids were still inside and were waving to get out. We sat in fear waiting to be rescued. We saw an ambulance drive by. I definitely knew that Billy, J. J., the girl, and I wanted to jump onto the ambulance and bring us home. Of course we didn't, but we waited. It was another hour or more till another cop directed us to safety. We ran to the fence and ran out towards the track field. A cop searched each of us to make sure that we didn't have any weapons. We were brought to a safe area around the corner in the street. A cop talked to me and I knew that he wasn't really caring about what I saw. I saw Mr. Kritzer limping. I asked him why he was limping and he told me it was because the pipe bomb struck near him. A brave man he is to help direct kids through the slaughtering nightmare. Billy and I stood near for feel of safety. We walked towards Leawood Elementary. That is where Billy met with his family and my brother, Mike, found me in tears.

INVESTIGATION:

JC-001-003014

On 09-27-99, at approximately 1020 hours, Lisa Forgan and her father Emanuel "Manny" Forgan responded to JCSO Investigations Unit so that a follow-up interview could be conducted with Lisa Forgan. Present during the interview with Lisa was her father, Emanuel Forgan. At this time I asked Lisa Forgan to relate what had occurred on the date of the incident, 04-20-99, at which time she advised me that at approximately 1100 hours she sat at what she indicated was table "J" in the cafeteria with William Hanifen and Justin Cozart. She said they were the only people sitting at this table, which is verified by the videotape of the cafeteria. She stated that she had her back to the main portion of the cafeteria and that Cozart was to her right and Hanifen was to her left, and both parties had their back to the wall and doors. She advised that they were just talking when people started getting under the tables around them. She stated at first they didn't realize what was going on. She said that Jay, the janitor, had run by telling them to get under the table. Lisa Forgan stated when she got under the table at this time she still did not realize wha s happening. After getting under the table she said she heard gunshots coming from outside the cafeteria area, and that she

thought it was approximately five shots that were fired. Lisa Forgan advised that people began to scream in the cafeteria area and it became very loud. She stated that she remained laying flat underneath table "J" with both Cozart and Hanifen when she believes she sees one of the gunman run from the school store area, which is inside the cafeteria, towards the teacher's lounge. She said that she thought the gunman had a gun in his right hand and that he was firing into the air. Forgan described the gunman as wearing an orange T-shirt with a blue baseball cap on backwards, 17 to 18 years of age, white male with a large nose with what she believed was either a dirty dishwater colored hair sticking out from underneath the cap. She advised that she thought the gunman fired ten shots into the air as he was running across the cafeteria area. She advised that everybody was still in the cafeteria while this was going on. The video shows during this time sequence that Forgan is talking about is actually teachers and janitors running with portable radios in their hands. After this, she stated everybody began to get up and run towards the stairway and the halls, away from where she was sitting. Forgan stated that she stayed underneath the table, along with Cozart and Hanifen, and that she could hear more gunshots, approximately eight, going off. She said everybody began screaming again and that at this time she [illegible] her face buried in her arms. She advised she also saw a teacher by the name of Kritzer, who was wearing bluish colored dress pants, and a multi colored plaid dress shirt, in the cafeteria with the kids and that he also left with the kids when they all started to move towards the staircase area. The videotape of the cafeteria shows that Kritzer remains behind in the cafeteria after the kids have fled. The video also shows a pipe bomb going off near Kritzer, which knocked him down. Forgan then stated she saw a second suspect, who was possibly wearing a black shirt or coat, and who was tall, over by the cafeteria line. She stated that the suspect again was running from the serving line towards the school store inside the cafeteria. She also advised that there was explosions going on during this time frame. She advised that the room was filling with smoke from the explosions and that after a while the first suspect she described started shooting under tables. The video shows pipe bombs going off and Harris and Klebold coming into the cafeteria. The video then shows Harris firing his weapon. She stated she then began to hear gas escaping, which she believed was coming from the kitchen area. She stated that this suspect was approximately five to ten feet away from her. She stated that eventually the gas erupted into flames and exploded. She said the flames came close to her feet, at which time her, Cozart, and Hanifen ran out of the cafeteria. She advised that she believed there were at least five other kids in the cafeteria with her when they all exited the door. She stated she estimated her time inside the cafeteria anywhere from 30 minutes to an hour Once exiting the cafeteria, she stated that they ran in a crouched position to the parking lot area, and while doing so they ran past a person lying on the ground, who she just glanced at and could not tell if they were injured or alive or dead. She stated that Hanifen stated "Oh a dead body." She advised she was just concerned with getting out into the parking lot area and undercover.

I asked her about the reference she made in her typed report about a person being on the roof. She stated she heard somebody say there was someone on the roof, but she did not see this person because when she got behind a car in the parking lot she put her head down into someone's lap and did not look up after that. I had Forgan indicate to me where in the parking lot she was. She indicated she was possibly behind car #GBN4990. I then asked her about the reference she made to the gunmen coming out every 15 minutes and shooting. She again stated that she did not see anything because her head was down and that she heard gunshots in about this time frame and assumed it was possibly the gunmen coming outside to shoot. I indicated to her that she noted in her report that a girl with red hair had joined them. She stated that she did not know this girl's name, and did not know who she was. She said that this girl had come to where she was at during the shooting.

I then told Forgan that I would like to go over her report and ask specific questions about statements she had made in it tha had not already been clarified by her statement to me to this point. She indicated in her report that someone was trying to get in the doors of the cafeteria and was knocking on them and alluded to the fact that possibly it was a suspect. She stated that she did not see who was knocking on the doors, and had no idea if it was students trying to get in out of the line of fire or if i was suspects trying to get inside. I then asked about the statement where she said that he shot kids in the crowd. She stated that she thought the suspects were shooting kids in the cafeteria that were trying to flee. She stated that she thought the suspect was inside the cafeteria at this time when the kids were initially trying to flee the area. This was later clarified by the video and conversations with Forgan, which showed that the people inside the cafeteria at this time who she originally thought were the gunmen were in fact the janitors and some teachers running back and forth. Forgan stated she had heard gunfire going off at this time and thought it was now inside the cafeteria. I then asked her about her statement that the gunmen were going inside and out. She stated that this was inside and out of the cafeteria. She advised that she never actually saw the gunmen go inside or out of the cafeteria, and that she just assumed that's what they were doing. Forgan indicated in the report that once she was outside in the parking lot that there were still kids inside and they were waving to get out. Forgan said that she did not see this and only heard kids in the area talking about kids still inside the school and waving. Forgan advised me that during the time that she was in the cafeteria there were no alarms going off. She stated that the only noise inside the cafeteria was gunshots, explosions or kids screaming. She stated that the alarms did not actually go off until the explosions and fireball when she exited the cafeteria, and that is the first time she heard any fire alarms. During the interview, Forgan indicated where she thought the gunmen were running back and forth in the cafeteria.

which was from the staircase to the serving line of the cafeteria. Upon viewing the video and speaking further with Forgan. it was clarified that in fact what she was seeing was the janitors and teachers in this area prior to the suspects entering the cafeteria. After Forgan again described the suspects she saw, she was shown photographs of Dylan Klebold and Eric Harris in the cafeteria area. Forgan pointed at the photograph of Dylan Klebold and stated, "That's the guy I saw." She stated also that the gun Klebold was carrying was the same gun she described and that she saw during the incident that the gunman was holding. She then pointed to Eric Harris and stated that this was in fact the other person she had seen during the incident. Forgan advised me that she had her face buried in her arms during part of the incident in the cafeteria and after seeing the

photographs and discussing the incident with me, she advised that she thought that the gunmen had come down into the cafeteria sooner than they actually did. The interview with Forgan was concluded at approximately 1220 hours.

Summary of Statement (cont.) for almost 2 hours. outside the Class Room We heard yelling + Gunshots. The Person I heard yelling was cussing and said, "I don't care anymore" it was a high pitched voice from a male. I didn't recognize the voice though. Only one gun shot got through our Class Room that we were hiding in. it went through the door and put a hole in the table against the door. ~~Shortly after that~~ About 30 min. A ~~the Police came in~~ About an hour and 30 min. later the Police came in and got us out of the School.

During the time I was in the Classroom I was not able to see who was doing the shooting. I also did not see anyone who was shot.

The only thing I can add as to a reason for the shooting was the fact that today is April 20th (4/20) and 4-20 is symbolic for a group of "stoners" at School because that is a typical time of day that they go smoke pot and get high.

I have read the foregoing statement and the facts contained therein are true to the best of my knowledge and belief. I do not maintain that it contains all of the facts or details of the incident, but only those facts about which I have been asked.

INVESTIGATION:

On 05-04-99, at about 0930 hours, I met with witness Bartholomew Foster and his mother, witness Mona Kail, at their residence, 6172 West Alder Avenue. Bartholomew Foster advised me of the following.

On 04-20-99, just after 1100 hours, Bartholomew Foster was in the cafeteria at Columbine High School eating his lunch, when he saw several other students stand up and look out of the windows of the cafeteria. Foster advised he did not look out of the window to see what was taking place; however, he believed there was a fight going on outside of the cafeteria. Foster advised he glanced towards the windows at one point and saw smoke outside of the cafeteria. At approximately the same time, a teacher by the name of Mr. Sanders, came into the cafeteria from outside of the cafeteria doors and told everyone inside to get down on the floor. Foster advised that at this time, he was with other students, only two of which he could remember their names, one was Eric Sunde and the other was Sean Hooker. Foster advised there were four other students; however, he does not remember who they were, nor did he remember where each of the students were sitting at the table in the cafeteria prior to this incident. Foster advised after he was under the table for approximately two minutes, he began crawling across the cafeteria floor towards the hallway and the stairs which lead to the second floor of the high school. Foster advised he crawled a short distance, and then he stood up and began running with other students towards the stairway and up the stairs. He also advised that he could see smoke on the stairway. Foster said once at the top of the stairway, he turned to his left and ran down the hall a short distance to the Science room, where he entered the Science room with six other students to hide.

Foster advised that while they were hiding in the Science room, the total of the people that would eventually be in this room was 20 people including two teachers. Foster advised that one of the teachers stood at the two doors holding a fire extinguisher in case the suspects were able to gain entry to this room through the door. they were going to use the extinguishers as weapons for protection. Foster said at one point, he heard somebody outside of the door, and heard two voices talking, of which he could only hear the words "didn't care." Foster advised it sounded like male voices; however, he was not certain. He said when the voices were heard, or just prior to this, the students and teachers had put a table up against the door to block it from opening. Foster said a gunshot went through the window of the door and continued inside of the room through the table that had been put up against the door to block it. He said this bullet narrowly missed hitting Mr Sanders. Foster advised people were hiding in the Science room and were there approximately one to two hours, until they were rescued from this room by SWAT Team members

Foster advised he did not see either suspect during the incident; however, he remembers seeing Dylan Klebold and Eric Harris inside Columbine High School in the past. He said he recalls one of the suspect's wearing a red baret one time when he saw him inside the school. He said he did not know any of their names prior to this incident however. He also advised he has not heard anyone talk about the Trench Coat Mafia as being violent students within the school. He said they hung around with each other, and pretty much stayed to themselves.

ADDITIONAL INFORMATION:

Bartholomew Foster said he did not see any duffle bags inside the cafeteria on 04-20-99, nor did he see a propane tank that was in the cafeteria. He said it would have been difficult to see these bags due to the fact that most of the students that go into the cafeteria carry their own backpacks and set them down. Foster advised he had taken his blue Jansport backpack into the cafeteria when he entered it at about 1100 hours, and put it on the floor next to the table he was sitting at, and said he also had a lacrosse stick that was with him in the cafeteria that he left behind when he ran. Foster said he had been sitting at a table closest to the window within the cafeteria with his back to the window, facing into the interior of the cafeteria. This is when he heard "a couple of bangs."

I advised Bartholomew Foster and his mother, Mona Kail, that should they desire any counseling in reference to this incident, to contact me and I would arrange for a JCSO Victim Advocate to contact them.

INVESTIGATION:

On April 20, 1999, while assisting with interviews on the scene of a multiple homicide at Columbine High School, I interviewed Columbine student named Paul R. Freeman. Freeman told me that he was eating lunch in the cafeteria of the school when a teacher ran into the room and shouted, "Run." At about the same time, he heard someone else yelling about some "guys with guns" and he heard what sounded like gunshots. Freeman said that he saw "a real tall" male wearing a black trenchcoat with some type of gun, but he was unsure of the exact description of the firearm. Freeman told me that he had seen the male around the school wearing his black trenchcoat, but said that he did not know the male's name. Freeman told me that this male normally wore a black ball cap of some type, and generally wore that ball cap turned around backwards. When I asked for a further description, Freeman told me that this male was about 6'3" tall, with medium to long brown hair and a "thin beard."

Freeman told me that he did not see anyone shot, and again said that he really didn't look at the gun(s) long enough to get any type of description of them. Freeman said that "everybody ran" from the cafeteria, and he remembered hearing "big explosions" as he ran.

Jessica Jade Friedman, DOB 10/13/1982, 5349 West Geddes Avenue, Littleton, Colorado, telephone (303)973-5557, was interviewed at her home in the presence of her brother, Matthew Friedman, by Special Agent(SA) Ricky V. Wright regarding the incident that took place on 04/20/1999 at Columbine High School. After being advised as to the identity of the interviewing agent and the nature of the interview, Friedman provided the following information:

At approximately 11:10 am, Friedman got out of class and then went directly to the cafeteria. Friedman did not see anything unusual on the way to the cafeteria. Friedman set her bookbag at the lunchroom table (marked HH on diagram sketch), got lunch, and sat back down. Friedman was sitting facing east. Friedman remembers that Ashley Pimley, Bryan Adam, Jill Kamens, and Tim Vacca were also sitting at her table. Ashley Pimley was sitting to the left of Friedman. Friedman does not recall who was sitting to her right.

Friedman had been eating for about five minutes, when she looked over and saw that everyone on the west end of the cafeteria was getting under the tables. Friedman and everyone around her then climbed under their tables. After about two minutes, Friedman heard a couple of shots and everyone took off running. Friedman looked outside and saw a girl standing outside on the southwest corner of the cafeteria. The girl looked to be in shock and was holding her hands over her mouth and looking to the northwest. Friedman ran up the stairs and heard shots as she ran. Friedman then ran east down the main hall and out the exit at the end of the hall.

Friedman did not remember seeing any large duffle bags sitting in the cafeteria. Friedman did not see any of the gunmen. Friedman recalls seeing Dustin Gordon sitting at a lunchroom table in the vicinity of table marked QQ on the diagram sketch. Friedman did not know Eric Harris, Dylan Klebold, or any of the other members of the Trenchcoat Mafia.

Friedman has heard rumors from some of the students that something bad is also supposed to happen 13 days after the incident at Columbine High School. Some of the students are

INVESTIGATION:

On 5/21/99, I was assigned information control number DN3537 for follow up investigation. The information control narrative stated that Robert Matt Friend is on the original cafeteria backpack list.

On 5/24/99, I responded to 5764 South Everett Way where I met with Matt Friend and his mother Barbara Friend. Matt confirmed that he had left his backpack in the cafeteria, and had been in the cafeteria when the

incident began.

Friend said that he took the bus to school on 4/20/99 and it was Express #S1 that dropped him off at the main entrance. He estimated that he arrived at the school between 7:00am and 7:05am. He said that he usually then goes down to the commons to get something to eat. He said that he doesn't use his locker and carries all his books with him in his pack. He said that he would have arrived in the commons at approximately 7:05 to 7:10am and that he stayed there until approximately 7:25am. He viewed the two diagrams that the cafeteria provided, and indicated that he was sitting at table DD. He said that he was sitting with his friends Jeff Noll, Nate Canelli, and Justin and Mike Nafe. He said that at approximately 7:25 he left the commons area to go to his first hour Science class, which is located on the main level and taught by Ms. Mossier. He left his first hour Science class; he has second hour off and he went back to the commons area. He again viewed the diagram and Jicated that he had been seated at table JJ for second hour. He said that his friends Ben Johnson, Max Anderson, Drew McClusky, Jenny Nafe, and Arty Mar were also at table JJ during second hour, since they also have it off. Friend said that he left second hour to go to his third hour Spanish class which is in the lower level foreign language hall. The class is taught by Ms. Brug. He then went to his fourth hour class which is Team Sports, located in the gymnasium, taught by Coach Place and Coach Marshall. He said that he traveled down the main corridor to the stairwell to arrive at the "A" lunch. He said that he arrived just prior to the lunch bell, and that he didn't really sit down, but went over and put a pack on the table near the student entrance to the cafeteria across from the Rebel stand. He said that his attention was drawn to the main commons area when he saw students looking over tables towards the west windows. He went to approach the main commons area when two students ran into him as they were exiting out of the main commons area and told him that someone had a gun and that he should run. He and these two students then ran out the student entrance and to the east around the building. He said that they went up the hill and around the building into the first alcove where they found three students sitting eating lunch. He said while they were there with these three students, they heard a loud explosion, and then continued eastbound, stopped in another small alcove and then ran to a car that was out on

the street. The car was driven by a friend, Chris Dovan. He said Chris then took him to Pierce Street, and they went north on Pierce Street. As they were passing the main entrance to the school, there were masses of students and teachers running from the entrances crossing Pierce Street into Leawood Park. He said they had to stop their car because of all the students that were running across the street. He said they next went to Southwest Plaza where they met with other students and told them not to go back to the school.

Friend did not see any of the suspects. He also did not see any backpacks or duffle bags in the commons during any of the times that he was in there during the morning of 4/20/99.

Friend describes his backpack as a black, western pack, very large, and contains his math book, Spanish book, numerous binders, his calculator, and numerous homework papers with his name on them. He couldn't be sure at he was wearing, but thought he was wearing shorts, a long sleeve T-shirt covered by a short sleeve T-shirt. Friend indicated that he'd heard of the trench coat mafia, but all he knew was that they were kids that liked to dress in black. He said the only person that he ever actually knew by name was Robert Perry, and he didn't really know him, just could recognize him. He did not know Eric Harris or Dylan Klebold. Friend said that he does have Internet access at home but does not have an ICQ account. He had heard that the trench coat mafia liked the band KMFDM, and that there were KMFDM sites on the Internet. He said that this was some type of European or German Techno-Rock band. Friend does not know anybody with a double pierced eyebrow. He is not aware of any problems with the trench coat mafia and other students, and he is not aware of any students stockpiling weapons, ammunition or talking about making bombs.

INVESTIGATION:

On 5/3/99 there was assigned Information Control Number DN2122 for follow-up investigation. The Information Control Number stated that Jon Fries had been in the cafeteria at the time the incident occurred.

On 5/4/99, at 0930 hours, I responded to the Fries's residence and met with Jonathan Fries and his mother and father. Jonathan Fries said that he was in the cafeteria at the time the incident began.

Jonathan Fries said that he was running late for school on 4/20/99; he usually rides the bus, but on that particular day his mother drove him to school. When he arrived, he went in through the main entrance, and estimated that he arrived there at 0729 hours. He said that he immediately went to his first hour class, which is English, as he was running late. He says that he never goes to his locker between classes because he has all the books and paperwork that he needs in his pack. He said from English he went to his second hour class, which is Science, in the Science Hall, Mr. Moses is the Science teacher there. From the Science Hall he went to third hour class, Math, in the Math Hall. In his fourth hour class he went to the Band Room where he has Orchestra. He said his fourth hour class is usually ended a little early so that the students can put away their instruments, and from forth hour he goes to the "A" lunch in the commons, or cafeteria.

Fries said that he went down the stairs into the cafeteria and arrived there fairly early, approximately ten utes prior to the bell ringing. He estimated that he arrived there at 11:05. He said that he went right to his table and that the other students were already at the table. He identified the other students at the table as his friend Bo Lockwood , Eric Sunde, Jamie Arno, Tim Mulchey, Patrick Caruso, Justin (last name unknown), Laurie Reynolds, and a student he only knows as "Bear". He said that Bear is only a Freshman, but he is on the JV Football Team and he's nicknamed Bear because he is very large. He also said that other people came to visit and were moving from table to table. He said that Patrick Caruso's pack was at the table but he was actually at the lunch line when the incident began.

Fries did not buy lunch that day, but he did purchase a cherry Pepsi from the pop machine and a bag of Doritos. He went back to his table and at the table he took a sip of his soda and then heard a "pop" sound. Then he heard someone yell that there was a fight. He decided not to get up to go to the window to look , but then he heard a second "pop". He described this pop as coming from outside by the stairs. He said that then a teacher, Mr. Sanders, came in and was yelling for everyone to *get down*. He said that he lied down next to his table for approximately ten to fifteen seconds then he heard a few more shots. He said didn't want to raise his head for

fear of being shot, and then he heard someone yell *they have guns, get out! They're coming in!* He said that there was a panic and "a mad dash" for the stairs. He said that there were some other kids nearby that said that this was only a Senior prank. He could see that the stairs were packed, and a teacher, a janitor, opened the back stage doors to the auditorium. Fries said that he belly crawled from his position at the table to the east and he got up when he got by the auditorium doors. He said once they went through the doors they were on the stage in the auditorium. He said there was a guitar class going on, and they didn't believe the students as they came into the stage as to what was going on. He said that one student jumped up from playing his guitar and yelled "we're all going to die!", and sat back down and continued playing his guitar. He said that they then moved into the lighting room and down off the stage into the auditorium. He said they then worked their way through the auditorium to the rear doors. He said that as they reached the rear door and was about to leave the auditorium he heard the fire alarm go off. He exited the auditorium and started down the hall, he noticed that the fire doors .e shut. He said that as he ran through the hallways, there were people standing there, he would pull them, and they would ask why he was running. He said that as he ran toward the main entrance he could see that there was glass broken out of the main doors. He said that his friend Bo Lockwood was with him the entire time.

Fries said that as they approached the main entry doors and saw the broken glass, they immediately turned to their left and ran down towards the band rooms. He said as they arrived at the next juncture in the hallway, Mr. Andres, Jr. was there directing them out of the building. He said once they got out of the building they headed towards Clement Park. He said they headed to the area known as the smoker's pits. He said there is a new fence there and that there was a coach throwing students over the fence, because the girls couldn't climb the fence. Fries said that he and some other students got a picnic table and brought it over and tried to knock the fence down, but placed it there so kids could get over the fence. He said that once they got into Clement Park they stopped several times but they were told to keep running. He said that he eventually stopped at Pierce & Bowles, and that there was a student there with a cell phone that allowed him to call his parents. His parents indicated that he called home at approximately 11:45 to 11:50; they were just sitting down to lunch and were

getting ready to turn on the news.

Fries said that when he was in the cafeteria he heard what he described as five distinct shots coming from outside. He could provide no description on the shooters.

Fries said that he left behind a red and black Burton backpack with red flaps. He says it's a large pack with plastic backboard. He said it contains his calculator, TI86 Graphics, his reading book, math book, several folders and three-ring notebooks, his Science folder, his Math folder, and a vocabulary book and a Daytimer.

Fries said he was wearing khaki pants and a white t-shirt with another blue shirt with two stripes on it over top of the white t-shirt.

Fries said that he was aware of the *trench coat mafia*. He knew that they wore long black trench coats. He said that he was told by a friend, Kyle, that he should never have anything to do with them and that he should never look them in the eyes, and just avoid them at all costs. He said that a friend of his, Doug Ford, who is a violinist, and he thinks is an Explorer for the Jefferson County Sheriff's Department, might have more information about the trench coat mafia.

Fries said that the only incident that he ever had directly with the trench coat mafia was that one day he was cleaning up railroad ties as part of his community service on the cafeteria side of the school. He said that there were a number of students all wearing trench coats and he assumed that they were trench coat mafia. He said they were hanging around an older black BMW. He said that one of them called out "hey look...there's a little punk! Hey, punk rock!" Fries said at the time, he had his hair bleached out and he didn't look at the students that were calling to him and he couldn't ID who was saying anything.

Fries said that he doesn't know Eric Harris but that he did know Dylan Klebold, that they had gone to Governor's Ranch Elementary School together. He said he was never close to him but that he knew who he was. He said that he also knew a student named Brent Krolicki who he believes is an original, or even the founder, of the trench coat mafia. He said that he'd also heard second hand, but he doesn't know who he heard it from at one of the memorials, that a girl named Courtney, who has been nicknamed by the other students, "the Devil Girl", was asked about going to the cafeteria or the smoking pit, and she told whomever asked her that she wasn't going to the cafeteria because "something big is going to happen". Fries describes Courtney as a girl who always dresses in black and purports to be a *Goth.*

Fries also said that a girl whose nickname is Lydia, he believes her real name is Jamie Schoffne, is a trench coat member wannabe, believes she is a Freshman and the trench coat mafia has scorned her as she's not intelligent ugh to join their group.

Fries also indicated that he was concerned that Brooks Brown was telling the media and people that he was an outcast from the trench coat mafia. Fries believes that Brown was actually involved with the group and stated that the Senior pictures taken in the gymnasium, in which Brooks is in the picture with Harris and Klebold, is an indication to him that they are still friends. Fries questions why anyone who would be threatened would be hanging around out with them all the time. Fries does not have an Internet site, and says he hasn't accessed the trench coat mafia sites. Fries said that, in retrospect, he didn't recall seeing anything unusual in the school that day, unattended backpacks and large duffle bags in the cafeteria.

Supplementary Report

Ref: Interview with Columbine Teacher Kathy Frommer

On 05-12-99 at 10:30 A.M. Detective Terry Demmel, assigned with the Columbine Law Enforcement Task Force, met with Columbine Faculty member Kathy Frommer at her home. Kathy stated that on Tues. the 20th that she had scheduled a banquet for her Marketing Education class. Kathy explained that the banquet was called " DECA " which stands for Distributing Education Clubs Association which the class is no longer called but that " DECA " is more recognizable so they have kept that symbol.

The banquet was scheduled to recognize outstanding students and was from 8:20 to 10:45 A.M. at the Welshire Rest. on So. Colorado Blvd. Kathy provided a list of 45 students that attended. See attached list for names.

Kathy reported that when the banquet was over she returned to the school with Pauline Colby who had asked for a ride both ways. When they got back Pauline informed Kathy that she wouldn't be working at the student run store at Rebel Corner that day where she normally worked every day. The store is staffed by four students daily. Pauline informed Kathy that her father had made a Doctors appointment for her and that she was sick. Kathy then told Det. Demmel that Pauline Colby was in the Trench Coat Mafia photo in last years year book and that after everything happened the way it did that she couldn't help but wonder if Pauline really was sick or may have known something was going to happen.

Kathy stated that they had gotten a large shipment of food in that day at the store and she noticed that there weren't many kids inside for lunch. In conversation Kathy stated to

contact Nick Shuman as he reported to Kathy that before everything happened he saw a suspicious person looking into the windows along the south side of the cafeteria.

Kathy was in her office in the class room when she heard shots and looked out to see kids running. She and the class students scooped up the money off the counter and ran into the class room and locked the doors. They turned off the lights and waited making calls to parents on her cell phone. They could hear bombs going off while waiting. After about 3 hours they were rescued by a Swat Team and taken out of the school.

Kathy advised Det. Demmel that she has $1200. in cash lying on the floor of the classroom that she hopes is safe. The money was the prior days receipts and she asked to please contact her when the money is ready to be returned.

Kathy stated that she was familiar with student [redacted] and had an altercation with him at one time. She stated that he sat in the same chair at cafeteria table VV every day like clock work. She did not recall seeing him that day. Kathy marked the table on the map which is attached.

Kathy Frommer

CHS teacher, in charge of the Rebel Corner Store.

On May 15, 1999, this investigator met with Kathy Frommer at her residence. Her students are involved in the daily operation of the Rebel Corner Store which is open during the school's lunch periods.

She advised that on the day of this incident, she and her students had attended a DECA banquet and returned to the school at approximately 10:45 a.m.. She said she parked her vehicle in the student lot and did not notice anything unusual at that time. The store opened at 11:10 a.m., and by 11:15 a.m., all of her student helpers had arrived with the exception of one - PAULINE COLBY.
Mrs. Frommer stated that Pauline had gone to the banquet with her and returned to the school with her as well. She said that when they arrived back at the school, Pauline told her that she was going to go home as she was not feeling well. She was last seen by Mrs. Frommer in the courtyard area adjacent to the cafeteria.

Mrs. Frommer stated that while her store manager, Nick Schumann was counting the cash on hand, she went into the store office and immediately heard "popping sounds" and screams of students. She heard some of her students say "there's gunfire," or words to that effect. She gathered her students and they went into a classroom which was next to the store's office. She said that she was able to look out of a window there, giving her a view into the Rebel Corner area and saw one of the janitors running. She stated that she went back into the store office to get her keys and then went back into the classroom and locked the door from the inside. She advised that there were several loud explosions and one much louder than those previous. She said they continued to hear what sounded like gunshots and these louder explosions. She thought that the sounds were farther and farther away from their location in the cafeteria. She said there were noises coming from the science lab on the floor above them which sounded like tables being overturned. She stated that "around noon" she heard more gunfire which sounded far away. She said it was quiet after that and between 2:30 and 3:00 p.m., SWAT officers came in and took them out of the area.

Mrs. Frommer advised that she did not know Harris or Klebold. She believed that [redacted] had some involvement with the trench coat group last year, but not this year. She said she had one confrontation with [redacted] after [redacted] had been cursing at another student. She said when she warned him about his language, he "got in my face," and was acting in an agressive manner. She said she separated the students and that was the end of it.

Mrs. Frommer advised that she left her keys in the classroom, and approximately nine hundred dollars in cash belonging to the school store.

Investigation continues.

Following Geometry Class, Fuselier proceeded down the stairs, adjacent to the library, and headed down, toward the cafeteria. He stated he has fourth period off, which begins at 10:15 AM and is over at 11:05 AM. Fuselier stated he sat at table "XX" located in the northwest corner of the cafeteria area with Matt Owens, Nick Antonio, Chris Wisher, Brian Bay, Chris Wisher's brother (Robbie), Gifford Ceawright and Jordan Grimm.

Following fourth period being over, Fuselier stated he remained in the cafeteria for "A" lunch which begins at either 11:10 AM or 11:15 AM. He again sat at table "XX" located in the northwest corner of the cafeteria. He then moved from table "XX" to table "CC", located adjacent to the west exterior windows. He stated that while moving to table "CC," he got a Taco Salad from the fourth serving line located on the west end of the serving lines. He returned back to table "CC" and started eating his lunch. He stated that while eating his lunch, he was talking to his classmates. He stated that about half way through his lunch he heard "pops". He thinks he heard two pops and then noticed people starting to get down. He described the students in the cafeteria getting down, starting in the northwest quadrant of the cafeteria area. Fuselier stated he had just returned from getting Junior Mints from the serving line and was standing at table "CC" when the sound of "pops" began. He started getting down and crouched next to table "CC". He heard another gunshot. He looked up and looked outside of the cafeteria through the windows. Fuselier stated he saw a gun barrel being held by an unknown individual, which he believed was a shotgun. He stated he saw the gun barrel of the weapon. Fuselier described the gunfire as either a pistol or small rifle that sounded like semi-automatic gunfire. He kept peeking and looking through the windows out of curiosity of what was happening. He noticed a tall white male, measuring over six feet tall, wearing a long black trench coat, a dark colored ball cap being worn backwards, long hair, curly, shoulder length, color-brown, and identified the individual holding the gun as Dylan Klebold. Fuselier advised that he did not know Klebold's identity initially, however, identified him as the same individual he has seen in the media since April 20, 1999. He further described Klebold's dress as wearing black combat boots and that his jacket was just hanging, what he believed was open, not zipped or buttoned. He stated he could not see the gunman's right arm due to the

position of how he was standing. He stated he only saw the side view of the gunman. He ducked down, hearing gunfire outside.

The next time Fuselier glanced outside the window, he noticed an explosion in the senior parking lot. He thought, initially, that the device was a smoke bomb. He further stated that he saw a pipe rolling on the ground and coming to a stop. At this point, from looking outside the window through the cafeteria glass, he proceeded to move between tables "AA" and "CC". He stated that people near the stairway in the cafeteria were beginning to move quickly. He further stated that he heard "run" either from a teacher or a custodian, due to the voice of the person telling everyone to run. Fuselier stated that he saw two CHS students injured on the hill located adjacent to the stairway outside of the northwest exit of the cafeteria. He stated he saw a body on the ground.

Fuselier described his movements out of the cafeteria as moving toward the stairs located on the opposite side of the west glass and headed up the stairs toward the library and science area. While proceeding up the stairs, he turned around and saw Dylan Klebold inside the cafeteria located in the vicinity of the tables identified as ""WW"" located in the northwest corner of the cafeteria. He described Klebold's entry into the cafeteria as being approximately five yards inside the door. He identified Klebold as the same person that he had noticed while looking through the glass outside. He stated that Klebold was standing inside the northwest door and pointed his weapon directly toward the stair section of the lower level. He then heard four or five gunshots which he believed was semi-automatic gunfire. Fuselier described the fire as definitely being inside the cafeteria and it sounded like fire works. While proceeding up the stairs to exit the cafeteria, he noticed a CHS female student kneeling on the stairs and he thought she had tripped. He described the area where the girl was located as being approximately half way up the stairs past the landing on the east side of the railing. Fuselier described that at this point, students of the school were terrified. He described a black male CHS 9th grade student, name Devon (Last Name Unknown) (LNU), was just ahead of him while he was exiting the school through the east doors.

Fuselier proceeded east bound out of CHS toward Pierce Street, crossed the street, hopped the fence, and ended up in the area of Leawood Park. He described his clothing as wearing brown leather shoes, a blue Abercrombie hat, old navy blue jeans, and was unable to provide details of what shirt he was wearing. He noticed a group of students in a small compact car with students he identified as CHS students who were asking what was going on. While Fuselier was at Leawood Park, he advised he had found his friend, Mike Naifeh. He further stated that he found Mike's brother in the crowd located around Leawood Park. While at the park, he heard two or three big bombs that sounded deeper and louder than the ones he heard previously while on the school grounds.

Fuselier described table "CC" as being adjacent to the windows on the west side of the cafeteria, approximately in the middle of the cafeteria. Fuselier stated that he was sitting on the north side of table "CC" facing south westerly. He stated that Justin Alber was seated to his right with Seth Dubois seated to his right and Daniel Grange seated to his left. He stated that directly across from him was Spencer Wright facing north east. Fuselier stated that Michael Naifeh was seated directly behind him at table "TT." He described those CHS students as Ken Foncannon, Bo Baribeau (phonetic), Ken Rupp, and Nat Owens.

Question: Did you see or talk to any of the Trench Coat Mafia (TCM) members on Monday? Tuesday? How about the prior week or weekend?

Response: Fuselier advised that he knew who the TCM people were and described them as being a group of ten students, none being freshmen, dressed up in combat boots, cargo pants, and wore Nazi type of clothing. He further stated they wore military type dress. He knew of one individual that wore a black or dark colored beret, however, was unable to identify the individual wearing that hat. He stated he had seen members of the TCM around.

Question: Have you heard anything from anybody else about other suspects, bomb making, gun buying, etc.?

Response: Fuselier replied, "No."

Question: What were you wearing? Did you have a back-pack? What did it look like and/or have in it?

Response: Fuselier stated he was wearing brown leather shoes, a blue Abercrombie hat, old navy blue jeans, and was unable to provide details of his shirt.

Fuselier advised he had a black colored back-pack with many of his school belongings inside of the back-pack. He stated he had a calculator, pens, pencils, a dark blue binder, a light blue binder, and a white and blue binder inside the back-pack. He stated that his back-pack was full and also had two purple folders inside. He advised one of the purple folders was for his French class, the other was for loose leaf items. He further stated he had a math book, science book, and several other miscellaneous items.

Question: How did you leave the cafeteria? What were the events that made you leave?

Response: Fuselier described his movements out of the cafeteria as moving toward the stairs located on the opposite side of the west glass and headed up the stairs toward the library and science area. While proceeding up the stairs he turned around and saw Dylan Klebold inside the cafeteria located in the vicinity of the table identified as ""WW"" located in the northwest corner of the cafeteria. He described Klebold's entry into the cafeteria as being approximately five yards inside the door. He identified Klebold as the same person that he had noticed while looking thorough the glass outside. He stated that Klebold was standing inside the northwest door and pointed his weapon directly toward the stair section of the lower level. He then heard four or five gunshots which he believed to was semi-automatic gun fire. Fuselier described the fire as definitely being inside the cafeteria and it sounded like fire works. While proceeding up the stairs to exit the cafeteria, he noticed a CHS female student kneeling on the stairs and he thought she had tripped. He described the area where the girl was located as

being approximately halfway up the stairs past the landing on the east side of the building.

Fuselier stated that while eating his lunch, he was talking to his classmates. He stated that about half way through his lunch he heard "pops". He thinks he heard two pops and noticed people starting to get down. He described the students in the cafeteria getting down, starting in the northwest quadrant of the cafeteria area. He noticed a tall white male, measuring over six feet tall, wearing a long black trench coat, a dark colored ball cap being worn backwards, long hair, curly, shoulder length, color-brown, and identified the individual holding the gun as Dylan Klebold. Fuselier advised that he did not know Klebold's identity initially, however, identified him as the same individual he has seen in the media since April 20, 1999. He stated he could not see the gunman's right arm due to the position of how he was standing. He stated he only saw the side view of the gunman.

Fuselier ducked down, hearing gunfire outside. The next time he glanced outside the window, he noticed an explosion in the senior parking lot, detonating. He thought, initially, that the device was a smoke bomb. He further stated that he saw a pipe rolling on the ground and coming to a stop. At this point, from looking outside the window through the cafeteria glass, he proceeded to move between tables "AA" and "CC". He stated that people near the stairway at the cafeteria

were beginning to move quickly. He further stated that he heard "run" either from a teacher or a custodian, due to the voice of the person telling everyone to run. Fuselier stated that he saw two CHS students injured on the hill located adjacent to the stairway outside of the northwest exit of the cafeteria. He stated he saw a body on the ground.

Question: What time did you enter the cafeteria? Where did you come from prior to the cafeteria?

Response: Fuselier stated he entered the cafeteria shortly after 10:15 AM. Following 4th period, Geometry Class, he proceeded down the stairs, adjacent to the library, and headed to the cafeteria.

Question: Would you mark where you were sitting, your route out of the building and whom they were with, if known?

Response: Fuselier marked the diagrams which are attached to this FD-302.

Question: How did you exit the building? Where did you go when you got out? What did you see on the outside of the building?

Response: Fuselier exited the building through the east doors. Devon (LNU), black male 9th grader, was just ahead of him. Fuselier proceeded east bound out of CHS toward Pierce Street.

Fuselier crossed the street, hopped the fence and ended up in the area of Leawood Park.

Fuselier stated he saw two CHS students injured on the hill located adjacent to the stairway outside of the northwest exit of the cafeteria. He saw a body on the ground.

Question: Do you use the Internet? If so, what is your screen name? Do you have an ICQ account?

Response: Fuselier replied that he does use the Internet, however does not have a screen name. He further stated he does not have an ICQ account.

Question: Do you know anybody with a "double pierced eyebrow?"

Response: Fuselier replied he knew of a couple of individuals with a "double pierced eyebrow" naming Brandon Reisbeck and Mark Hingle.

Question: Did you see or hear anything unusual or did you hear any unusual announcements prior to the shootings? Do you know what the "thought of the day" was over the Rebel News Network (RNN)?

Response: Fuselier replied "No" to these questions.

Question: Can you provide any further information on the members of the Trench Coat Mafia?

Response: Fuselier replied that at one time during the fall, 1998, approximately October of last year, he noticed Dylan Klebold wearing black eye shadow.

Attached to FD-302 is a diagram of the CHS cafeteria marked with the initials BAF and an "X" which identifies where Brian Fuselier was sitting when the shooting began at the high school. Also depicted on the diagram is an exit route with arrows toward the stairs. Also on the diagram is an "X" where Fuselier is located on the north side of table "CC" facing in a south westerly direction. He further marked an "X" adjacent to table "WW" where he described seeing Dylan Klebold.

Also attached to FD-302 is an outside diagram of CHS, where he noticed several students that appeared to be shot outside and an "X" in the parking lot that shows where he noticed a bomb detonating. Both diagrams are initialed "BAF" for Brian Fuselier and dated 5/11/99.

Michael John Gagne, DOB 09/19/1983, 9167 West Cross Drive #104, Littleton, Colorado, telephone (303)979-5338, a freshman at Columbine High School, was interviewed at his home in the presence of his mother, Genevela Gagne, by Special Agent(SA) Ricky V. Wright regarding the incident that took place on 04/20/1999 at Columbine High School. After being advised as to the identity of the interviewing agent and the nature of the interview, Gagne provided the following information:

At approximately 11:10 am, Gagne got out of math class, left the math department, went west down the south main hall, and down the stairs to the cafeteria. Gagne went to cafeteria table marked G on the diagram sketch and stood there talking to his friends at the table. Jessica Guertz was also standing by Gagne. Gagne recalls that Jocelyn Provo and Betsy Kwerneland were seated at table G. Gagne was standing on the east side of the table facing west. Guertz was to his right.

Gagne was standing there when he heard people yelling to get under the table and he noticed that the west half of the cafeteria was under their tables. Gagne go under the table for a few seconds and then stood back up to look around. Because everyone was staying down, Gagne got back under the table. After a few more seconds, everyone got up and started running toward the stairs. Gagne started running with them and ran up the stairs. While running, Gagne heard approximately four shots coming from the direction of the cafeteria. At the top of the stairs, Gagne turned east down the south main hall and ran out the exit at the end of the hall. Once outside, Gagne ran across Pierce Street to Leawood Park and then a few minutes later went to Leawood Elementary.

Gagne was also in the cafeteria before first period with Greg Last Name Unknown(LNU) and David LNU, aka Bo. They were sitting at the tables along the west wall near the student entrance. Gagne thinks he was there from approximately 7:15 am to 7:30 am. Gagne did not see any large duffle bags in the cafeteria before first period or at lunch. Gagne has seen Dylan Klebold around school and has seen Eric Harris at the mall a few times with an unknown female in March and April 1999. Gagne did

SUPPLEMENTAL REPORT

Date: April 26, 1999 **Case Number:** 99A062N

Deputy D.A.: **Investigator:** Terry Paczosa

****

On April 26, 1999, I spoke with Mr. Jay Gallentine at his residence located at 20661 Willobend Lane in Parker, CO..
Gallentine is a custodian at Columbine High School and has been employed by the schools for approximately 17 years.

Gallentine said that on April 19th and the 20th, he arrived at the school at about 0430 to to 0500 on both days. His normal work hours are 0600 to 1430. He recently lost his vehicle in a bankruptcy so his wife takes him to work and picks him up.

Gallentine said that he was in the cafeteria when a female student came running in yelling that a a student had been shot. He looked outside and saw a body on the ground and yelled for the students to get out or get under the tables. As the students were running out of the area he heared a loud explosion then gun shots from upstairs. He describes this time as complete pandemonium. He ran upstairs near the music room and could hear explosions and gun shots coming from the library area. The music room was full of kids. He saw science teacher, Theresa Lara who said that Mr. Sanders had been shot or that two students had been shot and for him to call an ambulance. As he was communicating with Lara (phonetic spelling) he said that she was looking past him with terror in her eyes and he turned around and "saw the tall gunman dressed in black, some white, ski mask, hand gun and a large gun or grenade launcher strapped to

his shoulder like a sling". Gallentin said that he leaped from the top step to the first landing towards the cafeteria and heard gun shots. Once in the cafeteria he saw John Curtis and teacher Eric Kritzer. The three of them ran to the kitchen. Curtis was first and Gallentine said that he is sure that Curtis was being shot at. Then there was a loud explosion and Kritzer went down tried to get up and fell again then crawled to the kitchen and shut the door behind him where they all huddled under a stainless steel table. Student, Dusty Hoffschnider (phonetic) and three other students also made it to this room. They, mainly Hoffschnider, didn't want to stay in this room so Hoffschnider made a run for it and made it outside through the west door. Gallentine left this room and went to the lower auditorium door and went inside. He observed "the Andreas's (father and son teachers) and about 50 to 80 students. He explained to them that they had to leave the building and to do exactly as he said which was exit the auditorium, turn right and run down the hall (business and foreign language hall) and get outside. He checked the hall way and led them out. He said that when the boys and girls exited the room the girls heard the gun shots and explosions, became very frightened and started screaming as they were running. He felt the screaming drew attention to the gunman and knew he was being shot at as he ran back to the kitchen area. He thought that the shots he heard at this time were that of a shotgun. Gallentine ran to the walk-in cooler accompanied by another custodian by the name of John Curtis. They had been in the cooler for a while (he dosen't know how long) and remembers looking at his watch and the time was 1:50PM. At approximately 4:15PM, the Swat Team removed them from the cooler.

Gallentine cleans up the cafeteria after the students use the room and often cleans up while a few students are still there. He does not recall seeing any bags around ar anything unusual. When asked wheather or not certain students hang around the tables, he mentioned one kid that almost always dressed in black including a black trench coat, black boots and either a black or white T shirt. This person ALWAYS wears a black beret. While Gallentine sweeps and cleans tables, he has heard this individual talk about guns to the

other males with him. Gallentine said that he has mentioned this to other custodians. When asked if this male was the same as the gunman he didn't think it was. He describes him as tall and wears wire rimmed glasses but the black beret is an outstanding feature. It appeared to Gallentine that he is frequently is accompanied by another male that dresses normally but has dark bushy hair. He said that both of these students normally get to the school cafeteria about 0630 to 0700, however neither student was there on the day of the shooting.

INVESTIGATION:
On 05/05/99, I met with Tyler Gamble at his residence reference the Columbine shooting. I explained to Tyler that I was there to talk with him about the shooting and where he was during the shooting. At this time I brought out a sketch of the cafeteria and asked Tyler if he could circle the table where he was sitting on the day of the shooting. Tyler said he could not remember for sure, but he was either at table "JJ" or table "U". Tyler made a mark at each table where he would be sitting. I asked Tyler to tell me what had happened that day. Tyler said he was sitting with three friends, Jeff Barnett, Russell Hanke and Steve Poole. Tyler said two students came running into the cafeteria saying someone was shooting outside. Tyler said this was approximately 11:20 hours. Tyler said that Mr. Sanders came into the cafeteria and told everyone to get under the tables because someone was shooting. Tyler said he remained under the table for a short time and while there heard a loud "boom". Tyler said he looked up and out the windows and saw smoke coming from the area of a car. When asked what type of car, he said he does not remember, he just remembers seeing the smoke. Tyler said that he then got up with the rest of the students and ran up the stairs, down the science and math hallway and left through the door at the end of the hallway. Tyler said he then ran to Leewood Park. I asked Tyler if he had seen who was doing the shooting and he said, no, he did not. I asked him if he heard any shots and he says he believes he heard shots when he got to the top of the stairway, as that's where the shots were coming from....they were in the cafeteria. I asked Tyler how many explosions he heard and he said he only remembers the one that was outside. I asked Tyler if there was any other time that he was in the cafeteria that day and he said, "no". I asked tyler if he saw anyone carrying or in possession of two duffel bags and he said "no". I asked if he saw two duffel bags in the cafeteria and he said, no, he did not. I asked if he remembered seeing Eric or Dylan on Monday or Tuesday and he said, "no". I asked Tyler if he left anything in the cafeteria and he said he left his backpack, which was an East pack and black in color. I asked if he heard anything from anyone else about any other suspects making bombs or buying guns and he said "no". I asked what he was wearing that day and he said Khaki shorts, white tee shirt and a baseball cap. I asked Tyler if he could provide any information on the Trench Coat Mafia gang and he said he believed most of the gang were seniors that graduated last year. Tyler said that his opinion of Eric was that he was more of a "wantta be" than an actual gang member. Tyler says he remembers in choir someone asked Eric to translate German music for them because he was good at translating German. I asked Tyler if he remembers who the student was and he said, "no". I asked Tyler if there was any other information that he could provide that would be helpful to our investigation and he said at this time, he couldn't think of anything else. I gave Tyler my business card and asked that he call me with any other information.

On 4/26/99 I interviewed 16 year old CHS student Greg Garcia at his home in Littleton Co. Greg's mother was present for this interview. Greg stated he was in the CHS cafeteria on "A" lunch around 11:15am on 4/20/99. He had gone to lunch with Kristin Garramone and they each had gone through the food line and sat down together. He recalled he sat at a table with about 7 other students. He stated most of this group sits together on a regular basis at school.

I showed Greg a drawing of the cafeteria with specific tables marked. I asked him to look at this drawing and mark which table he was sitting at. I clarified the directions in the drawing and pointed out specific things, such as columns, windows and the food line. Greg pointed to table EE first, then pointed to table ZZ. He could not be sure which table, but was positive it was one of these. He recalled that he sat down at the table facing to the south.

Greg stated he did not recall seeing any unusual duffle bags in the cafeteria that morning, or prior to this. He stated that many students carry large duffle bags, specifically cheerleaders and lacrosse players. However, Greg did not recall seeing any such bags that morning. He also did not recall seeing anybody carrying an unusual bag that morning or any days prior to this. He did not know Eric Harris or Dylan Klebold, but believed he probably saw them at school during the past year.

JC-001-003097

Greg stated he left only his green unlabeled backpack in the cafeteria near his table when he exited the area. Greg was wearing a white t-shirt with denim shorts. Around 11:25am a teacher came running into the cafeteria and told everyone to get down. Greg heard gunshots and an explosion which appeared to have come from outside. He got down on the floor and immediately crawled into the kitchen and back into the left storage area. He stated that about 9 students and Tony the janitor were with him. They waited about 3 hours before being rescued by SWAT. Greg did not see anybody with a weapon, nor did he hear anybody talking outside the storage room. He continued hearing gunfire outside the room.

Greg stated the following students were seated at his table:
Dustin Gorten, Shawn Roberts, Bret Kostalink, Richy Green, John Bohatje, Kristin Garramone, Austin Meers.

VESTIGATION

On 082299, I telephonically interviewed Kristin Garramone, a student at Columbine High School. Kristen reported to me that she was interviewed once before by Jefferson County District Attorneys Office. Possibly by John Lauck.
On 042099, around 1115 hours Kristen Garramone was in the cafeteria eating lunch when the shooting incident began. Kristin said she was sitting at a table almost directly in the middle of the cafeteria. She was sitting with, Dustin Gordon, Greg Garcia, Sean Roberts, Richie Green, Bret Kostnalik, Paul Andrews, Dustin Meyers and others that she could not recall their names. While eating lunch a commotion broke out. Soon afterwards she saw students and Mr. Sanders run in and yelled for students to get down on the floor. She could hear gunshot. She told me the gunshots sounded like firecrackers. Garramone and her friends hid on the cafeteria floor for awhile. She then got up and ran into the kitchen where she hid in a mop closet with Sean Roberts, Greg Garcia, Austin Meyers, Paul Andrews, some of the lunch staff, some teachers and others that she could not recall their names. She was later rescued.

Garramone recalled stepping over a large pack on her way into the cafeteria on that day. She thought it was a duffel bag, but could not be sure. She reported that this was not unusual, because the cafeteria always had backpacks lying all over the floor.
Garramone said that she could not see the shooting or the shooters from her table location. She was only able to hear the shooting. Garramone told me that she was surrounded by her friends and could not see anything.
Garramone did report to losing her backpack on 042099 in the cafeteria. She said it was black.

Supplementary Report

Ref Interview of Columbine Sophomore Melinda Gattoni DOB 09-21-83

On 05-11-99 at 11 00 A.M. Detective Terry Demmel, who is assigned with The Columbine Law Enforcement Task Force, contacted Columbine Sophomore stduent Melinda Gattoni at her home. Melinda's mother was present for the interview. Melinda reported that on Tuesday the 20th she had 4th hour off and was in the Commons when she heard what sounded like fire works going off outside of the cafeteria that caused about 50 students to get up and run towards the windows Melinda heard 4 loud bangs and heard the cafeteria window get hit and glass break. People were yelling to get down and she momentarily crawled under a table Melinda marked on the map which table she was seated at when the incident began. Melinda had gotten down when she saw a person dressed in all black, wearing a trench coat with something dark wrapped around his upper face; she couldn't see if he was wearing a hat or not; walk into the cafeteria from the north door by the pop machines. Melinda stated that the party had a long black gun and was alone.

Melinda reported that she knew who Dylan was and had said " Hi " to him several times but that she could not identify the person who walked into the cafeteria wearing the trench coat and carrying the gun.

When the party with the gun came into the cafeteria Melinda stated she began to run when she tripped over a chair and fell down. Melinda then ran up some stairs and started to go into the Library when she changed her direction and went into the auditorium where she stayed for a while. She began screaming and was helped up and led out by another student that she stated was Matt Kechter; one the victims that was then killed.

Melinda reported that she ran into the main hallway and out of the east main entrance door The glass from the door fell on them as they wee going through it. Melinda suspects that the glass was already broken from what she thought was baseballs as she reports seeing baseballs lying on the ground outside of the door.

Det. Demmel asked Melinda if she saw any unusual items or bags in the cafeteria while she was in there with Melinda reporting that she thinks she saw a big red duffel bag that was larger than the many back packs that are normally in the cafeteria. Melinda reported that the bag was approximately 10 feet south of the table she was seated at and was sitting on top of a table. Melinda says that she got to the cafeteria table about 11.15 A.M. she believes and that was about the time that she saw the bag.

Melinda stated that a girl by the name of Ashley Eagland had told her that she had observed [redacted] come into the cafeteria and that [redacted] was involved. Det. Demmel checked with Group 4 and was advised by Det. Mark Woodward that Ashley Eagland had been contacted and interviewed and that Ashley did report that [redacted] was in the cafeteria and was involved in the incident.

INVESTIGATION:

On 06-29-99, between the hours of 1058 and 1204, I had an opportunity to speak with Bae Gattoni in reference to the Columbine High School incident that occurred on 04-20-99. Bae had been identified through witness interviews as being in the school cafeteria on the incident date.

Upon contacting Bae, she told me that she arrived at school on 04-20-99 at about 0705 hours and that she rode to school that morning with Brandi and Monica Malonson. They had driven to school in Monica's car, parked the vehicle over near Leawood Park and walked into the main entrance Bae attended her normally scheduled classes, telling me that she has first hour Math

class taught by Mr Capra Her second period class is English, taught by Ms. Bonin Her third period class is Biology, taught by Ms Williams and she has fourth hour free. Bae told me that after her third period Biology class, she went to her locker and then proceeded down into the cafeteria area at the high school, telling me that she got down there at about 1030 hours I showed Bae a diagram of the cafeteria and asked if she could tell me where she was seated on the incident date She told me that she was seated at Table II and seated there with her were her friends, Natalie Baker, home telephone number of 303-978-0293, Kelsey Fowler, home telephone number of 303-973-2022, Jenny Polock, home telephone number unknown, Kristin Griffith, home telephone number unknown, Naomi Lucero, home telephone number 303-973-1368, Brandi Molonson, home telephone number 303-933-3269, Laura Green, home telephone number unknown and a student only known to her as "Renee."

Bae was asked if while she was seated in the cafeteria if she observed two large duffle bags or sports bags, one being blue in color and the other being an orangish red in color, which were located in the central core area. I was asking if she observed those bags or if she observed anyone bring those bags in on the incident date. She could not provide any information reference the bags Bae proceeded to tell me that between the hours of 1115 and 1120, that she had gone up to the food service line where she got her lunch and proceeded back to her table, telling me that she was seated on the south east corner of the table and that she could easily look out the west windows of the cafeteria.

At about 1125 hours, Bae recalled hearing popping noises. She referred to them as firecrackers coming from outside the cafeteria She told me that shortly after the popping noises, she saw two janitors, one janitor she identified as "Joe," the second janitor she did not know his name but described him as a white male, short, slender build, brown hair, mustache, had on blue jeans, tennis shoes and a black baseball cap. She told me that the two janitors were yelling at the students to get down under the tables. She initially thought that there was a fight going on between students or was possibly some type of a senior prank, but she got under the table, not knowing what was going on.

Bae recalls that she heard four additional popping noises coming from outside and that she began to look up from under her table and at this point she observed two suspects or gunmen standing outside the cafeteria out on the west sidewalk. Bae described the first suspect as being a white male, around 6'0" tall, blondish brown hair, shoulder length. The individual was wearing dark Army pants, a black t-shirt and he had black boots, just below his knees. She also stated that the individual was wearing a black

trench coat and that he was carrying some type of a weapon Bae described the gun as being a smaller gun. It was only about 18 inches long and she recalls the suspect held the gun, using only his right hand. Bae told me through the media reports that she identified that gunman as being Dylan Klebold.

Bae then described suspect #2 as being a white male, around 6'0', telling me she didn't get a good description of this individual such as his hair color because he had some type of a hat or something else on top of his head She told me the individual was wearing dark pants, had a white t-shirt on, a black trench coat and that he had a long gun telling me that this individual's gun was longer than suspect #1 I asked her to describe how the suspect was holding the weapon. She told me that he was holding the gun with both hands and that his right hand was near the trigger area. Bae stated that shortly after seeing the two suspects outside that she proceeded to run from Table II toward the staircase As she was going up the stairs, she told me that she stopped on the landing area at the top of the first set of stairs, looked back into the cafeteria and observed suspect #1 who she identified as Dylan Klebold walk inside the cafeteria. Again, using the map of the cafeteria, I asked her where she observed this individual She pointed out that he was standing in the row with Table L through XX over the west side of the cafeteria Bae was asked if she observed suspect #2 at this point. She stated that due to the confusion, students started to run toward the stairs She was not sure if suspect #2 entered into the cafeteria. Bae explained that once she got to the top of the stairs and was in the main level of the high school, she stopped for a few minutes, telling me that she had just recently transferred to Columbine High School and she wasn't sure where she should run. She told me that later she spoke with a friend of hers by the name of David Smith, who told her that he had yelled at her when she was standing up near the top of the stairs. David was telling her to run, but she did not, as she was trying to figure out where she would go Bae told me that she ran into the auditorium Once inside the auditorium, she tried to get into the audio room, but the door was locked. At that point, she told me that she sat down in a corner and there were several other students around her. She couldn't provide any identities to those students and they just waited in the auditorium.

Bae explained that she was probably in the auditorium for about ten minutes, when an unidentified white male student came into the auditorium and told them that they needed to leave the school She told me that this individual led them out of the auditorium where they exited into the main hallway of the school and ran east toward the main office As they reached the doors at the main entrance, Bae recalls hearing gunshots coming from down the hallway, just behind her and as she reached the glass doors, she

recalls that the glass panels in the doors shattered. She continued to run out the doors and ran east into the subdivision east of Pierce Street

I asked Bae if she had ever looked back when she got to the main exits to see who was firing the weapon behind her She stated that she did look back and she described seeing a white male, wearing dark jeans and a white short sleeved shirt He had light brown hair and was carrying a long gun She could provide no additional information or description reference this person, telling me she just saw him at a quick glance as she was going out the doors. Through the description that Bae had given me in reference to suspect #2 who she saw outside, west of the cafeteria. This description sounds like Eric Harris after he had shed his black trench coat prior to entering into the west doors of the school.

Bae was shown photo line up #9 and asked if she could identify any of the subjects as being the individuals she observed in the school on 04-20-99 Bae immediately picked picture #3, who was identified as Dylan Klebold, telling me he is the individual he described as suspect #1, and later observed walking in the cafeteria at the high school. Bae was then shown photo line up page #3 and asked if she could identify any of those subjects. She immediately pointed to picture #2, which depicts Eric Harris and stated she recognized Eric Harris from the media accounts, but she could not positively identify him as being suspect #2

Bae was asked if she knew Eric Harris or Dylan Klebold or any of the associates of the Trench Coat Mafia. She stated that she knew the two were students but she couldn't provide any additional information about the two. She also told me that the only associate that she knew of the Trench Coat Mafia was a Melissa Sowder and she briefly mentioned an incident that occurred at Chatfield High School where Melissa told some of the athletes there that she wished she could have helped Eric and Dylan kill some of the athletes. She proceeded to tell me that apparently Melissa had been taken out of the school reference the threats she made toward the other students.

I had Bae described her clothing on the incident date. She told me that she was wearing a pair of khaki shorts, had on a white tank top, and had a blue long sleeve hooded jacket over the tank top. Bae was unable to provide any additional information reference this incident.

He further stated that the gunmen belong to the Trench Coat Mafia. He further related that he had seen three or four bodies on stairs as he ran from the building at approximately 1445 to 1450 hours.

Kristine KOELLNER of CBI related that she had located information from the Internet on this group of people who identified themselves as the Trench Coat Mafia. Information that she had located was relayed to the R.A. at the High School and I relayed it to the Command Post. One page of the information was a message from a person identifying himself as LANG SILAS. He related in his message that he was the leader of the Trench Coat Mafia and that he would die on April 20, 1999.

At 2045 hours on April 20, 1999, Barrie GOETZ of the Colorado Bureau of Investigation, Pueblo office related to me that he had noticed a carving in a picnic table in the park to the north of the High School. A canopy covers a picnic area were laboratory personnel were gathered and being briefed on the scene. The carvings were the numbers "4:20" and on the opposite side of the same wooden table were the numbers "187" Both carving appeared that they had been freshly cut through the painted surface of the tables. This information was related to Chief Investigation Kate BATTON.

On April 21, 1999 the R.A. assisted in the identification of the vehicles in the parking lots adjacent to the High School. Lists of registration information were relayed between CBI and the Command Post that were obtained through the Colorado Department of Motor Vehicles. Each vehicle in the parking lots had a piece of tape attached to a window and the names of the registered owners were written on the tape.

The Bomb Squad searched several cars to identify suspicious items that could be seen or that had any potential association with the shootings. The following lists of vehicles were searched by the Bomb Squad during the time period I was involved with the vehicle identification:

5B33910 Idaho. blue Ford
GBB 5573 - blue Precis
RCT 578
94957 RS Black Chevrolet Pickup Truck
RCT 578 Dodge Caravan
GBY 7690 blue Toyota Corolla
H11 5730 owner – Marcy JOHNSON – provided keys and authorized search

After marking numerous vehicles in the north student parking lot, the R.A. assisted inside the High School with Evidence Team #5 in the collection of evidence in the main hallway of the building.

SUMMARY: Linda HOLLOWAY of CBI arrived on the scene at 1:20 p.m. I contacted several students who were being shuttled from the High School, search them and debriefed them for any pertinent information. Their parents were contacted and they were turned over to victim advocates or school counselors. I also assisted in identifying and marking vehicles located in adjacent parking lots and kept track of some of the vehicles that were searched by the Bomb Squad. I later assisted Team 5 with evidence collection inside the school

WITNESSES:

Araceli (NMN) Gaucin / DOB 061682

6979 South Reed Court

Littleton, Colorado 80121

303-948-8803

Columbine High School - 11th grade

INVESTIGATION:

On 05-11-99, at about 10:30 a.m., I interviewed CHS student Araceli Gaucin as follow up on DN2475 Although the lead sheet indicated that Araceli was previously interviewed, she told me that she was not The interview was conducted at Araceli's home, while her parents were at work.

Araceli told me that on 04-20-99, at about 11:10 a.m., she had just finished her fourth period class, which is located on the school's upper level. After leaving class, Araceli said that she went to her locker and placed her backpack inside it. She then waited for her friend, student Michelle Huff (11th), who arrived at Araceli's locker within a minute or so. Araceli said that she and Michelle then exited the school's west doors, by the library, walked down the (outside) stairway, and entered the cafeteria through its northwest door, next to the teacher's lounge. Araceli said that they then stood in the serving line and purchased their lunches Araceli estimated that it would have been about 11 15 a.m. at that time.

After Araceli and Michelle received their lunch trays, she said they both began walking back toward the cafeteria's northwest door with the intent of going outside to eat their lunch. Araceli said that upon reaching the door, but prior to exiting it (they were both still inside), they stopped and saw "about five students" at the door. Araceli said that there was a commotion, and assumed that a fight was taking place outside the door. Araceli said that she then took a closer look, still from inside, and saw

a male lying on the ground directly outside and to the right (west) of the door Araceli said that a female teacher, whom she identified as Chris Redmerski, was leaning over this student and appeared to be touching him Araceli said that she then looked outside the window to her right (west side of the door, facing west) and saw another male student lying on the ground, to the west of the base of the stairway. Araceli said that she was not sure what was happening, and thought it might be some kind of joke. At that point, Araceli said she heard what she thought was a gunshot, immediately followed by a couple of people who yelled, "Get down! Get down!" Araceli said that she then realized something serious was happening, and that she and Michelle dropped their lunch trays and ducked down onto the floor. Araceli said that she and Michelle were near the soda machines at this time, and heard one more gunshot that sounded fairly close. Araceli said that this gunshot sounded to her like it had struck glass. Araceli said that she and Michelle remained on the floor in that location for "about a minute," then began crawling toward the east door of the teacher's lounge.

Araceli said that she and Michelle crawled into the teacher's lounge, where she remembered seeing teacher Judy Greco, another female teacher (unknown), and a female kitchen worker. Araceli said that she and Michelle crawled to and hid between two soda machines located on the south wall of the teacher's lounge. Araceli said that they both remained in that location, between the soda machines, while the kitchen worker called for help on a phone inside the lounge Araceli said that she and Michelle remained inside the teacher's lounge for approximately forty-five minutes, during which time she said she kept her head down and didn't see anyone outside the west window. Araceli said that she and Michelle finally exited the teacher's lounge after hearing someone announce "they're coming in!" Araceli said that she and Michelle crawled out the easternmost (south side) door of the teacher's lounge, and into the kitchen area. From there, Araceli said that she and Michelle ran toward the back (north) side of the kitchen, near the walk-in refrigerators / freezers Araceli said that she and Michelle remained in that area with a group of people for "about five minutes," whereupon they ran into a small "storage room" located near the back of the kitchen. Araceli said that she remembers teachers Chris Redmerski, Judy Greco, an unknown male teacher, a janitor with a walkie-talkie, four female kitchen workers, and seven other people inside the storage room with she and Michelle (total of seventeen)

Araceli said that she and the others remained inside the storage room for approximately two hours, during which time she heard

what sounded like "people running and jumping" above her Araceli said that she did not hear gunshots or explosions, and that as time progressed, the noises coming from above eventually ceased. Araceli said that at about 2:30 p m , a SWAT team found them and ushered them out of the school by way of the broken window in the teacher's lounge.

Araceli said that she did not see any shooter(s) or anyone wearing a trench coat at any time. Araceli said that she did not recall seeing any duffle bag(s) or anything else that she might consider suspicious /out of the ordinary Araceli said that she did not personally know Eric Harris or Dylan Klebold, nor any of their associates as presented by the media. On May 5, 1999 at about 1900 hours I met with Katherine Karen Gerum (dob / 5-16-83) at 7889 West Caley Drive in Littleton, CO for the purposes of an interview. Mr. Peter Gerum was also present.

Katherine Gerum provided the following information regarding the April 20, 1999 incident at Columbine High School:

It should be noted that Katherine normally wears a hearing aid and appears to be a special needs student.

- Katherine was in Mr. Sander's Keyboard class prior to lunch (near the Marketing Department on the lower level). She stated that she got out at 11:10 and went straight to lunch. She sits at the bottom of the stairs at a rectangular table. She stated that she did not go into the cafeteria at any time and therefore did not see any large bags, duffel or otherwise, sitting on the floor.

- Katherine denies going into Rebel Corner or to the Student Store. She stated that she was sitting with a Sarah (from keyboarding class) and Heather (unknown last name). She stated that the second bell had already rang (post 11:15 a.m.). She thought that it was "just another day" at school.

- Katherine stated that a short time later a female student came in the south cafeteria doors and said "that a girl got shot". She stated that Mr. Sanders then came in and told everyone to "get down". She stated that she got on the floor for about "2 seconds" and then got up and ran at the direction of Mr. Sanders.

- Katherine stated that the went to the Auditorium via the hall near the cafeteria. She stated that from the auditorium, a bunch of students were trying to go up the right side, but that they all turned around. She "figures that there was a gunman up there", but did not see one. She stated that they all went up the left side after that. She stated that they then went east toward the main entrance and then took a left and down a hall. Katherine stated that they left the building and ran across the park.

On 4/30/99, Brittany Gillette, DOB 7/16/84, 7871 West Quarto Drive, Littleton, Colorado, was advised of the identity of the interviewing Agent, and the nature and purpose of the interview. She was interviewed in the presence of her Mother, Marilyn Gillette, DOB 1/20/49. She provided the following information.

On 4/20/99, Brittany arrived at school at approximately 7:15 a.m. She went to the cafeteria/commons area to work on a school science project. She noticed many backpacks, and also athletes type duffel bags, but none that stood out of the ordinary to her. There were approximately 75 other students in the area as well. After this, she went to her normal days classes, the last class she had was gym class, but she had a headache, so she went back to the commons to work on her science project at approximately 10:15 a.m. She then stayed in the cafeteria until lunch hour began. She was seated at table II. Seated at the table with her were the following students:

1. Valerie Yoghourt
2. Amanda Heningsen
3. Marnee Mack

Marnee Mack and Brittany went up to the lunch line, bought lunch, and returned to their table. Brittanny heard people gasping, and she then heard Mr. Sanders yelling for everyone to get down. Outside of the west cafeteria windows, she could see someone in a black trench coat moving around. Her and Marnee then got under their table. While under the table, she could hear shots, and she noted that students began to stand up and run for the stairs. She did the same, but fell as she went up the stairs, and had a difficult time getting up because of an injury sustained from gymnastics. She lay on the stair landing and saw a male in a trench coat that she could not identify come through the door of the cafeteria. He was pointing the gun in her direction and randomly shooting. She was then helped up by an unidentified student, got to the top of the stairs, and with the assistance of this student, ran down the math science wing hallway. At this point, she heard shots coming from near the library, and looked back and heard an explosion from near the library, and saw smoke in this vicinity as well. As she was running down the hallway,

she said that cement chips were flying, presumably from gun fire in her general direction. She exited the building on the east side, and ran across Pierce into the park, and went to the home of Lindsey Blair.

She didn't know Harris or Klebold, nor did she see anyone resembling them on Monday or Tuesday. She has heard of the Trench Coat Mafia (TCM), but did not know them or associate with any of them. She does believe however, that two brothers named Nick and Brandon Schott may hang out with the TCM.

During her second period Jewelery class, she and James Helmes were talking about Senior prank day, and how unpleasant it would be. Another student heard them discussing this, and he said "that is nothing compared to what is going to happen". She did not know the name of this boy, but did know that he is a Junior, often wears black pants, a t-shirt and a vest, and has blond hair.

Brittanny does use the Internet, and has a screen name of Britty. She had heard that either Klebold or Harris may have had a screen name of "Red", and may have entered a chat room that she was in 3-4 months ago.

A previous interview conducted with Brittany on 4/30/99, was referenced and the 302 provided for her to review. Specific reference in the body of the 302 was made to her viewing a gunman entering the cafeteria during the course of the Columbine High School shooting incident. She was then shown a series of photographs in a photo lineup in order to determine if any of these photographs were the same individual that she saw on 4/20/99, previously referenced. She positively identified a photograph of Dylan Klebold as the gunman who entered the cafeteria on 4/20/99 as related in the interview conducted on 4/20/99.

-CHS student; backpack at table K; was in far west lunch line when shooting began with a Chris Lucas and Kim Dehart; was told by a student named Gabe Montoya who lives on W. Plymouth Place that a neighbor of his named "Nathan" told him at 2:00 p.m. the day of the shooting that Corey DePooter was killed in the shooting, Nathan told Gabe that he found that out on news reports when no such reports were aired; Gabe also told her that he saw Dylan's black car and another tan sedan at Nathan's house the morning of the shooting; said Nathan is an "outcast" student who has Marilyn Manson posters in his room, said that Nathan now has moved to Florida with his family.

INVESTIGATION:

On May 5, 1999 at 1930 hours I contacted Sarah Gillings at her home for an interview. Her parents were present. Sarah then told me the following:

* She is a freshman at Columbine High.

JC-001-003142

* When asked, she said she has seen Eric Harris around the school halls at times and knew he hung out with trench coat students, but she did not know his name.

* When asked about Dylan Klebold, she said said she has also seen him around school but did not know his name. She said that Dylan looks a lot like another trench coat student named Robert. When asked if that last name might be Perry, she said "yeah, that's his name."

* When asked about [redacted], she said that he was the student who used to wear a beret. She did not know his name but has heard other students mention his name as a trench coat student. The last time she saw [redacted] was about a month ago. She either saw [redacted] out front of school or by the commons.

* When asked about [redacted] she had never heard that name before the shooting, but has heard it mentioned since.

* She did not know any other names of trench coat students or associates. She thought about 12 to 15 different students wore the trench coat at times. She has heard the name, Trench Coat Mafia, and said it was another name for that social group.

* When asked, she did not see any of the students mentioned above or other trench coat students or associates in the school the day of the shooting.

* She never saw any unusual objects in school the day of the shooting. When asked specifically about a duffle bag, she said that there are always larger sport bags around from students who are in sports. When asked specifically about duffle bags in the cafeteria, she said there were too many backpacks and bags to notice.

* The day of the shooting, she had 4th hour French class in the foreign language area. After getting out at 11:10 a.m., she went directly to the cafeteria and saw a male friend named Chris Lucas

who then walked with her to her locker by the gym so she could get her Walkman. She returned to the cafeteria and dropped her backpack off at a table. She looked at the diagram and thought the table was K. This was confirmed by the backpack location list.

* After dropping her backpack off, she went to the pop machines by the west cafeteria door. She started to walk back to the table and noticed Chris was in the far west lunch line. She turned around and got in line with Chris. She did not see any other students at table K when she dropped off her backpack. She said that her friends usually occupy table K and L for lunch.

* The time now was around 11:15 or 11:20 a.m. She heard what she thought was a car in the lot backfire. She then saw coach Sanders come in the cafeteria from the west door area and tell everyone to, "get down, get down." She did not know where coach Sanders then went. She saw janitors running in the cafeteria also telling students to get down.

* She then got down under a small ledge in the food line with Chris and a Kim Dehart. She heard an explosion, looked out west in the lot and saw the fire and smoke from that explosion. She saw students start to run out of the cafeteria and over the railing to the stairs.

* She decided to leave and went with Chris east along the food line and then got herded in by the kitchen door at the east end of the kitchen. She was with about 30 students. She said there was a lot of screaming and crying from students.

* She may have heard some gunshots, but was not sure. She then heard and felt the next explosion that she though went off somewhere in the cafeteria because is sounded so close.

* Mr. Andres Jr. and a gray haired janitor who was tall with a mustache then took her group to the door that leads to the back of the stage in the auditorium. They then went up the left auditorium

aisle and out to the main hallway. Once at the hallway, she glanced left and noticed that the set of doors that she thought were fire doors just west of the auditorium door were closed. They went down the main hallway toward the main doors but were herded north down the hallway to the arts area. They then came out the set of doors by the northeast corner of the gym. A Mr. Butts was their also. They then went to "smoker's pit" and then out to Clement park.

* She thought it took from 5 to 10 minutes to get out of the school from the time the incident began. She was wearing a black tank top, loose fitting jeans and black shoes.

* She then said that she had talked to a neighbor student who lives on Plymouth Place named Gabe Montoya. She said that Gabe told her that the Nathan who lives on his street told him at 2:00 p.m. the day of the shooting that Corey DePooter had died. She said Gabe told her that Nathan told him he heard that on the news. She thought that was suspicious because no names were released that early. She said that she has seen this Nathan before and described him as tall, skinny, oval face, with black buzz cut hair. She said that Gabe also told her that he saw what he thought was Dylan's small black car and another tan sedan at Nathan's house the morning before the shooting. She said that Nathan dresses normal but apparently has Marilyn Manson posters in his room. She said that Nathan has since moved to Florida with his parents.

This concluded my interview with Sarah Gillings.

On 05-05-99, contact was made with Alexandra Goldberg at her residence at 5415 Sunset Dr., Littleton, CO She confirmed being a freshman at CHS and being in attendance on 04-20-99. She confirmed being assigned to "A" lunch and noted arriving in the cafeteria at 1110. She noted being seated at table "V" with Sara Filipiak, Lindsey Blair, Loren Bayer, Julie Naslund and Nicole Wray. She was first made aware of trouble, when she saw a number of students in the west part of the cafeteria getting under tables. She initially thought it was a big fight, then heard a janitor run through the area yelling that someone had a gun and for everyone to get down.

She reports getting under the table for about 30 seconds then ran up the stairs as other students began exiting the cafeteria. She ran up the main stairs, past the library and started down the main hallway towards the exit, when she observed the windows in these exterior doors shatter. She does not recall hearing gunfire in this area. She and 5-6 other students turned around ran towards the auditorium where they hid for 1-2 minutes before exiting a north door with another student, Salli Melfi.

Once outside she proceed to Clements Park, eventually calling her mother and leaving the area.

She reports seeing no duffle bags nor observing any suspicious activity in the cafeteria prior to the initial announcement of trouble.

She utilizes the internet and her screen name is Lileva14@aol.com .

On 5/5/99, Daniel Gonzales, DOB 2/5/83, 7339 South Zephyr Way, Littleton, Colorado, was advised of the identity of the interviewing Agent, and the nature and purpose of the interview. He was interviewed in the presence of his Mother, Valerie Hightower, DOB 8/4/59, he provided the following information.

On 4/20/99, Daniel reported to Columbine High School at 6:30 a.m. for a football weight workout which was held in the school weight room. After the workout, he went to the cafeteria/commons area for breakfast at approximately 8:10 a.m. There were approximately 30-40 students in the cafeteria at this time. He didn't notice any large duffel bags that stood out to him, or notice anyone carry any duffel bags into the cafeteria. After he ate, he went to his normal morning classes. His last class prior to first period lunch was his science class.

Directly after science class, Daniel went to the cafeteria via the stairs near the library. Again, Daniel didn't notice any duffel bags in the cafeteria that stood out to him. He located himself at table JJ or possibly U, bought his lunch, and then returned to his table. He was seated at his table with the following individuals.

1. Mike Leary
2. Dusty Hoffschneider
3. Johnathan Caruso
4. Pat Simmington

After he finished eating, Daniel noted approximately six freshman run into the cafeteria from the west side area. He then heard an individual named Justin Norman yell that someone just got shot. An explosion and a shot were heard while a janitor was yelling for everyone to get down; the janitor came in from outside of the school. Daniel and his friends then got down under the table. Next, students began getting up and running towards the stairs. The group that Daniel was with ran to the elevator, got on and took it to near the library upstairs. However, when the elevator opened, they saw a lot of smoke near the library, and rode the elevator back down. From their, they went into the auditorium with Coach Andres Jr., and a janitor. The janitor then unlocked one of the doors, and the group ran out the foreign language halls, outside the school, across Pierce, and into Leawood park. After several minutes in the park, someone yelled "they are shooting". At this point, they ran into the neighborhood, and into a house of an unknown lady.

As previously mentioned, Daniel did not see any duffel bags at any time, that stood out to him. Additionally, he did not see Klebold or Harris on Monday or Tuesday. Although he knows who the Trench Coat Mafia (TCM) is, he does not associate with them. He said that the athlete crowd and TCM would banter insults back and forth, but that he didn't think it was a big deal. Joey Mallazo told Daniel that he saw four people in trench coats outside.

Daniel does use the Internet, however he does not have a screen name or ICQ. He uses the Internet only for school projects.

Although he didn't hear or see the Rebel News Network, he heard that the thought for the day was something to the effect of "you'll wish you hadn't come today".

Rebecca Anne Goodwin, DOB 01/20/1983, 7754 West Plymouth Place, Littleton, Colorado, telephone (303)973-2746, a sophomore at Columbine High School, was interviewed at her home in the presence of her mother, Margo Goodwin, by Special Agent(SA) Ricky V. Wright regarding the incident that took place on 04/20/1999 at Columbine High School. After being advised as to the identity of the interviewing agent and the nature of the interview, Goodwin provided the following information:

At approximately 11:10 am, Goodwin got out of Algebra II, located in the math department, and went to her locker, which is located directly outside the math department in the south main hall. Goodwin was with her friend, Lauren Bonin, and walked directly from her locker down the stairs to the cafeteria. Goodwin then sat down at a lunchroom table(marked NN on diagram sketch). Goodwin recalls that Kristen Sheffield, Lara Kenney, Andrea Launer, Niki Lawson, Katie Sullivan, and Sarah Dodrill were also seated at her table. Goodwin was sitting facing southwest. Lara Kenney was sitting to Goodwin's left and Kristen Sheffield was sitting to her right.

Goodwin did not get lunch and just sat and talked to her friends. After Goodwin had been sitting approximately five minutes, Goodwin noticed Mr. Brookfield hurry east along the north side of the cafeteria carrying a tray of food. Mr. Brookfield was hunched down and quickly set down his tray on a nearby table. A janitor along the north side of the cafeteria then started yelling and telling people to get down and not to get up. Goodwin and her friends got under the table and stayed there approximately 30 seconds. Goodwin heard several pops coming from outside the west side of the cafeteria. Some male students on the east end of the cafeteria then started yelling for everyone to get out.

Goodwin left the auditorium by running up the stairs, east down the south main hall, and into the auditorium from a door on the southeast side. There was a teacher in the auditorium who was telling the students to hide in the back of the auditorium. Goodwin estimates that there were 30 students in the upper end of the auditorium. Goodwin saw Stefania Ubowski and Samantha Haviland hiding in the auditorium as well. Goodwin

was in the auditorium only a few minutes, when Michelle Romero grabbed her hand and they ran out the northeast door of the auditorium into the north main hall. There were a lot of students in the hall. Goodwin and Romero ran east down the north main hall toward the main entrance to the school. When they were 10-15 feet from the inner door of the main entrance, one of the windows on the left side of the door shattered. Goodwin does not know what made the window shatter. Goodwin and Romero continued out the main entrance, through the teachers' parking lot, and to Clement Park. Goodwin recalls that Mr. Peterson was in the teachers' parking lot directing the students to Clement Park.

Goodwin was not in the cafeteria at any other time that day. Goodwin did not see the gunmen and did not see any large duffle bags sitting in the cafeteria during lunch. the table. Bryan Grande said he was with the following other students. Heather Wrabetz and Stephanie (unknown last name). Bryan Grande said that he was facing in a northwesterly direction when he heard two to three what he described as pops from outside of the cafeteria and when he looked out of the windows he saw a female fall to the ground outside of the cafeteria. Bryan Grande said he did not know who this female was, but believed it was a student. and said a male student. who he knows as Jason Otenwreath, was helping this female. Bryan said he did not know what happened to Jason due to the fact that he got underneath the table when told to do so and hid. He said other students began to stand up from the tables and run toward the stairs. which was east of their current location. Bryan Grande said behind his table and to the east a few feet was a trash can by an exterior door. He said he hid behind this trash can for an estimated 45 minutes Bryan Grande said during his time behind the trash can he estimated that he heard 30 to 40 other gunshots and they sounded like they were coming from the library He described the sound as coming from above his location. which he said would be the library on the second floor of the high school Bryan Grande said at no time did he see any of the suspects. nor did he see anyone with a weapon. He said while he was hiding. however, he heard somebody say. "Let's shoot up." He said he does not believe they were referring to narcotics, but rather getting ready to shoot their weapons. He also said he heard the name "Dominic" mentioned. but he did not know who that might be. Bryan said she does not know anyone named "Dominic." I asked Bryan Grande if he considered running from the trash can to the exterior door of the cafeteria that was behind him. He stated he did not think to do this because he did not want to take any chance and try to run out if the suspects were in the cafeteria. Bryan Grande said when he saw an explosion take place in the cafeteria. he stood up from behind the trash can and ran out of the door behind him. exiting the school through the cafeteria Bryan Grande said he then ran through the senior parking lot and hid behind a car until he was contacted by the police.

I asked Bryan Grande about the "Trench Coat Mafia." He advised me that he does not know any members of the "Trench Coat Mafia." nor did he know any of their names prior to this incident. He did say approximately two weeks before this incident he may have seen a student carrying a blue duffle bag in the school and he said this student was a male, possibly. Bryan said he does not recall any other further information about where in the school it was being carried or any other description of the item being carried

Bryan Grande advised me that on 4-20-99 he was wearing a black T-shirt that has three to four buttons on the front of it, blue jeans, and blue high top tennis shoes.

On May 6, 1999, at about 1820 hours, I responded to 7912 South Otis Court to interview witness Candace Grande, along with her father, witness Gary Grande, in reference to the shooting at columbine High School on 04-20-99 Candace told me the following: She said on 4-20-99, between 1115 and 1117 hours, she arrived into the cafeteria at Columbine High School. She said at that time she was wearing a yellow "Old Navy" backpack with a stuffed penguin attached to it, about the size of a baseball, and she said she also had a clear tupperware container. Candace Grande said she put the backpack underneath the seat she was sitting at and brought out the tupperware container which had her lunch in it. On a map of the cafeteria of Columbine High

School, Candace Grande showed me where she had been seated. This was a table along the south side of the cafeteria and west of the stairs. She said her table was closest to the doors on the south side of the cafeteria that lead outside. Candace Grande said she was at this table with the following other students. Jennifer Arzola, Matt Bruce, Andrea Elsner, and Ben Schuman. Candace Grande said approximately two minutes after sitting down, a fellow student named Ben Schuman came running to their table from the student store, located in Columbine High School, and said, "Someone go shot." Candace Grande said the janitor inside the cafeteria yelled at everybody to get down on the ground and underneath their tables, which is what they did. Candace Grande said approximately one to three minutes later several students got up from under the tables and began running in a north easterly direction toward the stairs that lead to the upper part of Columbine High School. Candace Grande said that as she got to the top of the stairs she heard three what she called gunshots that sounded like, "pop, pop, pop" and she said they sounded to her like they were coming from the downstairs part of the high school. Candace Grande said after running to the top of these stairs she turned to her left and ran down the school until she got to the exterior doors and exited the school. Candace Grande said she ran from the school, across Pierce, and into Leawood Park, where several other students were at. Candace Grande said while in Leawood Park she heard what she believed was a bomb that detonated inside of the high school.

Candace Grande advised me that until this incident she knew nothing of the "Trench Coat Mafia," nor did she know any of the members or activities. Candace said about one to two weeks prior to this incident she saw a male subject she described as tall, approximately 6'2", wearing a black baseball cap backwards that had a red bill, and said he it was a male subject and he was wearing a dark colored trench coat. As far as Candace Grande could remember, this party was alone and at the time was walking down a hallway in Columbine High School by himself. She said on 4-20-99, prior to or during this incident, she did not see any people wearing trench coats or other clothing that the the "Trench Coat Mafia" students wear.

Candace Grande said that on 4-20-99, the clothing she was wearing was a white men's dress shirt, worn over a black tank top, gray pants, and brown sandals. She said she did not see any duffle bags or the propane tanks in the cafeteria on 4-20-99 Candace Grande said she does not know of any other students or other people that may be manufacturing explosive devices and/or in possession of firearms. Candace Grande said she does not know anybody at Columbine High School with a double pierced eyebrow.

ADDITIONAL INFORMATION:

Candace Grande advised that while she was running from the top of the stairs to exit the school, the shots that she described may possibly have came from the library or the commons area. She said either one could be possible, she does not know.

Candace Grande said when she was in Leawood Park she did not hear any gunshots directed towards the students in the park, nor was she aware that anybody had believed they had been shot at in the park. She said she went with Matt Bruce eastbound on Fair to Gray Street, where Kevin Kuoni picked them up and took them to Matt Bruce's place. It was at Matt Bruce's place where Candace Grande contacted Gary Grande by telephone.

I gave Candace Grande a business card and advised her if she needed to talk to a JCSO Victim Advocate to contact me and I would make those arrangements for her. She did say that she has been in contact with a counselor through a private organization.

GRANGE, D

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/05/1999

Daniel R. Grange, DOB 03/09/1984, 5484 South Hoyt Street, Littleton, Colorado, telephone (303)979-0265, a freshman at Columbine High School, was interviewed at his home in the presence of his mother, Dixie Grange, by Special Agent(SA) Ricky V. Wright regarding the incident that took place on 04/20/1999 at Columbine High School. After being advised as to the identity of the interviewing agent and the nature of the interview, Grange provided the following information:

At approximately 11:10 am, Grange got out of Spanish class, taught by Mr. Freund, and left the foreign language department and went directly to the cafeteria. Grange sat down at a cafeteria table(marked BB on the diagram sketch). Also sitting at the same table as Grange, were Spencer Wright, Aaron Wright, Seth Dubois, and Michael Huntington. Grange was sitting facing west with Aaron Wright sitting to his left. Grange does not remember who was sitting to his right.

Grange had not gotten his lunch yet, when he heard a pop, which sounded like a firework outside the cafeteria. Grange looked out the west windows of the cafeteria and saw a boy running up the hill to the northwest of the cafeteria. Grange estimates that the boy was about 40-45 feet away from the building. Grange was unable to describe the boy further. Grange did not see anyone else outside the cafeteria. Grange thinks that someone then yelled for everyone to get down. Grange got down under his table. While under his table, he observed an explosion next to a black Honda Passport in the parking lot approximately 30-35 feet from the building. Grange does not think anyone was around the explosion.

After the explosion, someone told the students to run. Grange grabbed his backpack and got up and ran up the stairs to the main level. Grange saw Mr. Sanders lying about 15 feet to the right of the top of the stairs. He was struggling to get up and had blood coming out of his mouth. Just east down the main hallway, a teacher, Ms. Miller, was directing students into the science area and Grange ran into a classroom in the southwest corner of the science area.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

There were about 60 students hiding in the classroom, including a teacher, Mr. Friesen. After a few minutes, Mr. Sanders came in and fell just inside the door. They locked the classroom door and used their shirts to try and stop the bleeding on Mr. Sanders. There were no other injured in the classroom. The class huddled in the classroom for approximately three hours. Grange did not see the gunmen, but thinks that at some time they did go into one of the science classrooms east of where he was and tried to start a fire by turning on the gas and throwing a bomb.

After three hours, a SWAT team came and evacuated them from the classroom. The SWAT team made them all put their hands on their heads and sent them out down the stairs and out the school by the faculty lounge. Once outside the students waited for police cars to take them to Clement Park.

Grange was also in the cafeteria before fist period with Spencer Grange, Aaron Wright, Spencer Wright, and Spencer Taylor. They were sitting in the vicinity of the table marked H on the diagram sketch. The cafeteria was approximately two-thirds full at that time. Grange did not remember seeing any large duffle bags sitting in the cafeteria before first period or at lunch. Grange did not know Eric Harris, Dylan Klebold, or any of the other members of the Trenchcoat Mafia. Grange did not see any of the gunmen during the shooting.

Grange is aware that his friend Aaron Wright saw one of the gunmen in the parking lot prior to the shooting with a large black duffle bag. On the day of the shooting, Grange was wearing khaki shorts, bright blue shirt, white socks, and white and blue shoes. Grange may also have been wearing a Cleveland Indians hat.

A description of Grange is as follows:

Race:	white
Sex:	male
Height:	5'7"

Narrative:Re: Control #35

On 04-27-1999, contact was made with Samuel Granillo regarding his observations on 04-17-99. He noted being in 1st (A) lunch, seated with Sarah Slater (303-973-5968), at table "YY" as identified on the drawing as prepared by S/A Dirito. He reports no suspicious items in the area of the table. Nor did he observe either suspect or known associates in the lunchroom prior to the incident.

He was first alerted of trouble by Mr Dave Sanders running into the lunchroom from the area of the senior parking lot and yelling "Get Down". He initially thought it to be a fight in the parking lot, and maybe someone had a gun. A very short time later, Mr Sanders ran into the lunchroom a second time and again yelled "Everyone under the tables". He began to exit the lunchroom with other students via the main stairway, when he heard a loud explosion from that direction and turned and ran into the kitchen area where he met 2 kitchen workers, and 14 other students. (Included among the 14 was Sarah Slater, Ricky Green, Heather Leitz and Tanya (LNU).

They all entered a storage room in the kitchen and Granillo barricaded the door, and laid on the floor with his feet against the door. On two occasions, person(s) unk tried to get in the door, but he was able to hold it ed. While in the storage room, on at least 2 occasions he heard someone enter a walk in frig in the kitchen. He heard voices in the kitchen, and described them being in normal tones, but could not understand what was being said. He thought he heard walkie-talkies during this time.

While in the storage room, a 911 call was made and the occupants of the room talked with a dispatcher identified as Heather Leitz's father. They remained in the storage room from 1130 until 1400, at which time SWAT officers broke into the room and escorted them from the school via the teachers

Summary of Statement (cont.) were moving towards the stairs. There was a second explosion and the people ran back towards windows. They turned again and ran. Sarah and I stayed where we were. They (kleboid) were starting to come in so Sarah and I along with about 20 other people crawled into the kitchen. There were 2 lunch ladies holding a door open to a small storage area. Sarah & I and about 13 others went in and closed the door. The door swung into the area where we were. I layed down on the floor with my feet against the door. Somebody came and tried to push the door in. They left. I stayed there for about an hour and heard gunshots and explosions. In then built a barricade against the door. I kept hearing the walk in fridge door open & close. walkie, talkies. We stayed there till the swat team came and took us out.

Possibly the Friday before the incident I saw a large blue duffle bag open on the floor next to the table. I remarked about it to Sarah.

Green, Laura, DOB: 9/5/84

Littleton, CO 80123
Ph: 303-904-1508

CONTROL NUMBER: 2695

NVESTIGATION:
On 5/4/99 Investigator Reker and I met with Laura Green at her residence, reference the Columbine shooting. I explained to Laura why we were there talking to her today. I asked Laura if she was in the cafeteria at the time of the shooting and she said "Yes" she was. At this time I showed her a sketch of the cafeteria and asked Laura to circle the area where she had been sitting. Laura circled table "KK" and placed an "x" where she was sitting. I asked Laura to tell me what happened that day when she was in the cafeteria. Laura said that she was sitting at the table and saw Mr. Sanders run by telling everyone to get down underneath the tables. Laura said she then heard a gunshot. Laura said everyone stayed under the tables for a short time and then started running up the stairway. I asked Laura if she knew where the gu ots were coming from and she said she believed they were coming from outside by the cafeteria window. Laura said when they ran up the stairs, they went to the choir room. They stayed there for a short time and then she and approximately 60 other students went into the choir office. Laura said that while in the choir office, various students barricaded themselves in there by putting filing cabinets and desks by the door so no one could get in. Laura said someone turned off the lights to make it look like no one was there. I asked Laura how long she was in that office and she said approximately 4 hours until a SWAT team came and opened the door to get them out. I asked Laura if she heard any other gunshots while in the choir office and she said yes, she heard "heavy gunshots" and felt possibly one or two explosions through the flooring of the school. I asked Laura how she exited the building once the SWAT team was there and she said they went through the auditorium to the stage and out the back door towards the cafeteria and then up the stairs and outside.

I asked Laura if she saw any of the shooters and she said no, she did not. I asked Laura what time she was in the cafeteria, and she said approximately 11:00 a.m. I asked Laura if she saw any duffel bags in the cafeteria when she was there and she said, "no". I asked if she saw anyone carrying in large duffel bags and she again said "no". I asked Laura if she saw Eric or Dylan on Monday or Tuesday of that week and she said no, she did not. I asked Laura if she left any of her property in the cafeteria and she said she did leave an Eddie Bauer purple backpack containing her school books and papers. I asked Laura if she had heard any rumors regarding any other suspects, bombs or guns which were involved. Laura said that she remembers talking to a girl in her church, who said she saw a shooter dressed in a white shirt. I asked Laura what the girl's name is and she said Nicole Janda. I asked Laura what she was wearing on the day of shooting and she said she had on a green skirt and blue sweater.

Veronica told me that on or about 05-06-99, she was told by her twin sister, Kristin Griffith (9th), that she (Kristin) was told by fellow student Daniel Romero (9th) that student Melissa Sowder (9th) told him that she (Melissa) 'knew about the Columbine shooting before it happened', and that she (Melissa) felt that the students 'got what they deserved.'

Veronica said that she had been at home during an evening around 05-06-99, and that Kristin was also at home, talking on the phone with Daniel. Veronica said that when Kristin finished her phone conversation, Kristin told her what Daniel had said he heard directly from Melissa. Veronica said that Kristin was angry, and that upon hearing this, she also became angry Veronica said the idea that someone may have known about this in advance, but chose not to tell anyone, shocked and angered both she and Kristin. Veronica said that both she and Kristin immediately told their mother what Daniel had said about Melissa. Veronica's mother confirmed this.

Veronica said that she and Kristin are twins, and that both are in the same grade. Veronica said that both she and Kristin are

friends with Melissa, and that she (Veronica) is probably closer to Melissa than Kristin. Veronica said that she and Kristin have known Melissa for several years, going back to elementary school, and that Melissa lives nearby in the neighborhood. Veronica said that although she considers Melissa a friend, she and Melissa have grown apart over the years and Melissa now hangs out with a different circle of friends.

Veronica said that Melissa is somewhat odd in her everyday dress and behavior, and considers her "kind of on the fringe." Veronica characterized Melissa as "nice, but a little weird now." Veronica said that Melissa is somewhat of a "loner" who has relatively few friends, and is very selective as to who she hangs around with. Veronica said that it almost seems as though Melissa "doesn't want a lot of friends."

Veronica said that the day after Kristin told her what Daniel had said, fellow student Michelle Castro (9th) told her "exactly what Daniel had told Kristin." Veronica said that she assumed Michelle also heard this from Melissa, but isn't sure. Like she and Kristin, Veronica said that Michelle was very angry upon hearing this. Veronica said that since the shootings, she has heard talk among several students that some students knew what was going to happen on 04-20-99 and decided to stay at home that day. Melissa was unable to provide specific names.

Veronica said that to her knowledge, Melissa did not know Eric Harris or Dylan Klebold. Veronica said that she and Kristin do not have any classes with Melissa, and have not seen Melissa since prior to 05-06-99.

I was unable to interview Kristin Griffith at this time because she was at work. I arranged through Veronica's mother, Christy, to have Kristin call me on 05-17-99 for a phone interview.

Veronica said that her backpack was left inside the cafeteria, and that she was previously interviewed about what she saw and did during the shootings. The interview was concluded at about 10:25 a.m.

The names of those students provided by Veronica were run through Rapid Start. Lead sheets were prepared and submitted

by me for students Kristin Griffith and Michelle Castro. All others were either previously interviewed, or scheduled to be interviewed.

Note: On 05-13-99, at about 9:00 a.m., I telephoned Melissa Sowder's residence and spoke to Melissa's mother She told me that Melissa was admitted to the Cleo Wallace Youth Center on 05-06-99, where she is undergoing therapy with a counselor named Sharon Olson. She told me that Sharon Olson has been Melissa's counselor for about the last year She told me that Melissa has been having difficulty dealing with the Columbine incident, and has been a problem at home. Melissa's mother told me that she and her husband are aware that Melissa is alleged to have told other students that she had previous knowledge of the shootings, but that Melissa was known to "embellish" stories and tell lies. She told me that she would not object to Melissa Being interviewed by law enforcement, but requested that she and her husband and/or Sharon Olson be present during the interview. Before committing to a specific date and time for such interview, she told me that she wanted to discuss the matter with Sharon Olson. She said that she would call me back after doing so.

On 05-13-99, at about 5:00 p.m., I telephoned Melissa's mother She told me that she had spoken with Sharon Olson, who is on vacation until next week. She told me that Sharon Olson did not object to Melissa being interviewed, but that the parents needed to be present. Melissa's mother said that she did not want Melissa being interviewed at Cleo Wallace, and that she expected Melissa to be released some time next week (05-17). I told her that I or someone else will call her next week to set up the interview with Melissa.

Supplementary Report

Ref: Interview with Senior Columbine student Vannessa Grimes DOB 05-18-81 at her home located at 6441 So. Quay St. [303] 904-9695

On 04-29-99 at 10:25 A.M. Denver Police Detective Terry Demmel and Colorado State Trooper Jill Reuteler, both assigned with the Columbine Law Enforcement Task Force interviewed Columbine High student Vannessa Grimes DOB 05-18-81 at her home. Vannessa's mother Karen Badalamenti and stepfather Charles Badalamenti were both present. Vannessa stated that she knew Eric Harris and had met him this year after transferring over from Bear Creek . Vannessa reported that she also knew Dylan Klebold and that her good friend Aljeandra [Alex] Marsch was also a mutual friend. Alex had told her that the Trench Coat Mafia was the art students and that they liked to wear the trench coats. Vannessa stated that she thought that Eric Harris and Dylan Klebold were on the fringes of the group and added that she had never been to either of their homes nor had they ever been to her home.

The morning of the incident, Tuesday April 20th, Vannessa stated that she was in 3rd hour Philosophy Class with Eric Harris. She described Eric as wearing black cargo pants, black boots, and was unsure about the shirt but thought it may have been a greenish color. She stated that the class was talking about Chinese Philosophy; that she had a discussion with Brooks Brown whom she was close with and that their teacher was a Mr. Kritzer. Vannessa stated that Eric normally carried a dark blue or black back pack but she is not sure if he had it with him that day. When asked if Eric had made any statements that day or given any warning of what he would be doing Vannessa stated that Eric made a comment about 4-20 which she thought was in reference to marijuana day or something. She stated that she did not ever see either Eric or Dylan smoke marijuana but that they talked about it a lot.

Vannessa reported that she had 5th hour off for lunch and had walked home the last half of 4th hour going then to the nearby King Soopers store to check on some prom pictures. She came back to the school at about 11:10 or 11:15 A.M. and was in the Commons area near the cafeteria when she heard

what she thought was back firing. When asked to explain the sounds Vannessa stated that a lot of the high school kids had old cars and that they were commonly back firing. She explained that some one yelled and screamed and that the students started leaving and she stepped back to see if her friend Alex Marsch was getting out. Vannessa then stated that she then saw Dylan Klebold outside the cafeteria window wearing a balaclava [dark blue or black] , and a trench coat; did not see if he was wearing a hat or not. When asked by both Investigators how she knew it was Dylan Vannessa stated that they made eye contact, that the party was the same build as Dylan and that she just knew. She said Dylan walked up to approximately 15 feet from the window and then saw the window glass explode with a boy inside being shot and falling backwards. She stated that she thought the victim's was a Brian Anderson but was not sure. Dylan then walked into the cafeteria through the double doors and was approximately 40 feet away when they made direct eye contact and she knew without a doubt it was Dylan Klebold.

In talking about her association and knowledge of both Eric Harris and Dylan Klebold Vannessa stated that Chris Morris, Eric and Dylan belonged to a paint ball team called the " Fighting Amish " and talked about doing it a lot. She described Chris Morris as always wearing a black beret and sunglass's that were prescription. He also always wore black army fatigue pants with at times the matching shirt.

Vannessa stated she was not close with Robin Anderson and then gave the name of a Tiffany Burke who she said was a good friend of Robin

Vannessa then mentioned Zack Heckler and admitted to being close with Zack and accepting rides home from him frequently. She added that Zach worked as a stage technician and did the lighting for the theater groups and plays and was teaching Dylan how to do it; that he used Mrs. Sue Cruthers key's to get access where he needed to go. Vannessa knew that Zach was very knowledgeable about computers and that Zach, Chris Morris, Eric Harris and Dylan Klebold were close friends.

When asked about the kinds of video games they liked to play Vannessa stated that Eric and Dylan liked to play Dungeons and Dragons and a game called Magic. She said that she had never played any video games with them. Vannessa said that they used to like to play a card game in the mornings that consisted of setting the cards up like towns and knocking them down, and that aspects of the game included food shortages, diplomacy ect.

Vannessa reported that she went out a door into the auditorium and out an east door with approximately 40 other students. She did'nt hear any explosions or bombs go off and denies having any prior knowledge of the events.

INVESTIGATION:

On 05-13-99, between the hours of 0901 and 0940, I had an opportunity to speak with Emily Hackett in reference to the Columbine incident that occurred on 04-20-99. Also present during the interview was her father, Dan Hackett.

Emily told me that she arrived at school on 04-20-99, at about 0800 hours, and that her father had driven her to school that morning. She stated that she entered into the school through the main entrance, located near the main office area. After proceeding to her locker, which is located between the math/science halls, locker #701, she went to her second hour band class, taught by Mr. Biskup. After being released from her second hour class, she went to third period, which is gym class, which is taught by Mr Marshall. Her fourth hour science class is taught by Ms. Wyatt and after being released from that class at about 1110 hours, she proceeded back to her locker, and then went directly to the cafeteria and believed she arrived at 1115 hours.

Emily was shown a diagram of the cafeteria area at the high school and asked if she could tell me where she was seated After looking at the map, she told me that she was seated at U. I asked who was seated at the table with her. She told me that Sarah Roseberry was there, Sarah Wehmeyer, Gina Rohde, Breanna (last name unknown) and Veronica Griffith. Emily proceeded to tell me that after placing her backpack at the table, she went to the food service line and later returned to the table where she began to eat lunch. Upon returning to her table, Emily stated that her and Veronica Griffith got into a verbal argument and while the two of them were arguing, she recalls at about 1125 hours, seeing two janitors near the south doors and the janitors were telling students to get down, to get underneath their tables. Emily also recalls seeing Mr. Sanders near the same door and he appeared to be running east toward the stairs of the cafeteria. Shortly after Mr Sanders disappeared near the stairs, she recalls that the janitors started yelling at the students telling them to leave the cafeteria area, at which time she got up and ran to the stairs. When she reached the top of the stairs, she stated that she ran east down the math/science hallway and exited the school, where she went to Leawood Park.

Emily was asked if she observed two large duffle bags or gym type bags, one being blue in color and the other being a reddish/orange in color, which were located in the central core area of the cafeteria. She was asked if she observed who might have of brought those bags and she stated that she had no information about the bags, and she could have seen them but she doesn't recall it because there were so many backpacks and other bags located in the cafeteria area. Emily was asked if she observed any gunmen while she was in the cafeteria or if she saw any gunmen to the west of the cafeteria outside. I was told that she never saw any gunmen while she was in the school or after she exited from the school.

Emily was asked a few questions about the Trench Coat Mafia, specifically questions about Eric Harris and Dylan Klebold. She stated that she did not know Eric Harris and that her family knew the Klebolds but she did not socialize with Dylan Klebold. I asked her if she knew any other members of the Trench Coat Mafia. She stated that she knew Chris Morris and his girlfriend by the last name of Markham and that Robert Perry and Brooks Brown were also members. She proceeded to tell me that she knows Brooks Brown and she can't believe he is involved in this incident. I asked her about Eric Harris' website and if she had any information about it. She stated that she had no idea that he had a website. Emily was asked if there were any rumors or any information that would lead her to believe that something was going to happen on the 04-20-99 She told me April 20th is National Pot Smoking Day. I asked her if she knew what the phrase of the day was and she said that it was something to the

Emily also stated that one of rumors that she has heard around school is that the bodies of Eric Harris and Dylan Klebold were found in the gymnasium. She also stated that she heard Eric Harris had shot Dylan Klebold and that Dylan had run to the gymnasium to get away from Eric Harris, but later committed suicide in the gym and Eric also committed suicide in the gymnasium

I had Emily describe her dress on 04-20-99 She stated she was wearing dark blue Abercrombie Fitch pants She had a white Gap tank top shirt and over the tank top was a purple Abercrombie shirt. She also stated that she was swearing brown American Eagle sandals. Emily couldn't provide any additional information reference this incident. At the completion of this interview, I had Emily depict where she was seated in the cafeteria and draw her movements out of the building. INVESTIGATION:

On May 17, 1999 at 1107 hours I contacted Joshua Halder at his home for an interview. His mother was present. Joshua then told me the following:

* He is a sophomore at Columbine High.

* When asked about Eric Harris, he said that he has seen him around school before. He thought Eric was the student who had "NIN" on his backpack which are the initials for the rock group "Nine Inch Nails." He did not know Eric's name until he looked him up in the yearbook after the shooting. He never saw Eric in a trench coat, saying he was usually in jeans and a flannel shirt.

* When asked about Dylan Klebold, he said he also saw him around school before. He said Dylan was the student who usually wore a dark blue with red letter Boston Red Sox ball cap on backwards. He did not know Dylan's name until after the incident. He said Dylan's hair always was "flying out" from under the hat. He had seen Dylan last semester pulling into the school lot in his BMW during lunch time. He said Dylan would be with others who wore the black trench coats. He said that Dylan also wore a black trench coat to school often.

* When asked, he did not know [redacted] or [redacted]

* When asked about [redacted] he said he graduated last year. He knew this because a friend of his knew [redacted] He also knows [redacted] He said that [redacted] did wear the trench coat last year.

* When asked about [redacted] he said he thought he was the student he saw from time to time at school also wearing a trench coat. He said that student was tall. He does not know anything about that student. (His mother thought that was the student that she also saw at times while dropping off or picking up Josh at school.)

* He thought this student also played cards during lunch period last year. He said this student played cards at table WW (referring to the diagram). He said he noticed that the card games were "Dungeons and Dragons" and "Nuclear War."

* When asked, he did not know any other trench coat student or associate. He thought only 5 or 6 students wore the trench coats at school. He has heard of the name "Trench Coat Mafia" before but never thought much about that name.

* When asked, he did not see any trench coat student or associate in school the day of the shooting. He never saw any objects out of

place the day of the shooting. When asked specifically, he did not see any duffle bags.

* He remembered wearing a white t-shirt, hiking pants, and black sandals to school the day of the shooting.

* On the day of the shooting, he had French class for 4th hour. When the class was over at 11:10 a.m. he walked to the cafeteria and to his lunch table. Looking at the diagram, he thought the table he went to was Q or X. The backpack list showed his backpack being at table X.

* Once he went to the table, he dropped off his backpack and went to the second lunch line from the east. He had walked from his class to the lunch line with Mark Radtke. After getting lunch, he went back to table X.

* He said he was at that table with Joe Tran, Dan Yeager, Zach Thompson, Scott Streeb, and possibly Pat Rybal.

* He said that he was about 5 minutes into lunch when students in the cafeteria started getting down under their tables. He heard students talking about something going off in the parking lot. He got down under his table.

* He then saw Mr. Sanders and a janitor running in the cafeteria. He thought the situation was a senior prank. He heard yelling for everyone to get down. He said that a few students got up but were yelled at again to get down.

* He had not heard anything up to this time. He said that everyone from the cafeteria then began to run out and up the stairs. He ran up the stairs and once he got to the top, everyone began to slow down. He then heard 4 or 5 shots that he thought came from the cafeteria below and to the west.

* He turned left at the stairs and ran out the school via the east doors for that hallway. He did not hear any other shots or noises.

* He ran to Leawood park and to another student's home. He thought the total time from when the students started to get under tables to the time that he ran out of the school was about 2 minutes.

This concluded my interview with Joshua Halder.

****

On 5/17/99 I interviewed 17 year old CHS student Krista Hanley at her home in Littleton, Co. Krista's mother was present during this interview.

Krista was inside the CHS cafeteria on 4/20/99 when the shootings began. She stated she had left Ms Haring's history class around 11:15am and walked with Lydia Perry, arriving at the cafeteria a few minute's later. I showed Krista a drawing of the cafeteria with the tables depicted in this drawing. I pointed out specific areas of the cafeteria such as the west windows and kitchen to give her a better understanding of the drawing's lay-out. Krista looked at the drawing, and recalled that she and Lydia stopped at table QQ. Sitting at table QQ were Nicole Markham, Jessica Brown and Alex Marsh. She believed that Patrick Leiker came by the table, but she could recall if he sat down. Krista stated she sat down facing the west at table QQ for a few minutes, waiting for less people in the serving line.

Krista stated she did not see any large duffle bags anywhere in the cafeteria, nor did she see anyone carrying a large duffle bag anytime.

She stated that she, Lydia and Nicole got up from the table to purchase a lunch. She believes this was about 11:25am. Krista recalled walking to the east window in the serving line. While in line, she recognized Chris Markham's voice yell "get down". She believed Chris Markham came in from the door by table WW in the

northwest corner, but was not sure. Krista, Lydia and Nicole all got on the floor. She looked towards the west and heard a loud "boom", then saw smoke outside. She does not recall hearing any gunfire type noises prior to this. Krista did not see anyone carrying, or shooting a weapon.

Krista stated that she, Lydia and Nicole ran around the corner towards the auditorium doors. They waited a few seconds outside the auditorium doors near the elevators. Alex Marsh said that she saw Dylan Klebold shooting a gun. Krista recalled she did not believe it. Krista stated that around this time, she can not remember where, or how she got out of the building. Her friends, Nicole and Lydia have explained to her the following information. The three girls, along with about 20 other students went into the auditorium, ran through it and exited out into the north hallway upstairs. They continued out passed the counselor's area and exited out of the building behind the gymnasium. Outside they had to jump over a high fence, which Zach Heckler helped her over. She recalled, she did not "freeze up", and was definitely running. She just could not recall details of her exit out of the building. Krista's mother stated that Krista has been attending therapy to help her with this trauma. Her therapist advised them that "memory lapses" such as these under these circumstance are not unusual.

Krista stated she has no memory of seeing any gunman after leaving the cafeteria. She stated that her girlfriends have told her that they did not encounter anyone carrying a gun upstairs, or outside when they exited. When they exited the building, they ran to Clemont park, then onto the Hop's restaurant on Bowles to make phone calls. She recalled that her boyfriend, Eric Jackson was now with them. She called her mother, who is a teacher at Ken Carle middle school. Her mother confirmed she received a call from Krista around 12:00 noon.

Krista stated that Eric Jackson's father picked up the kids from Hops and drove them to Nicole Markham's house on S. Pierce Ct. Nicole's house was locked, so Nicole's neighbor offered a telephone to the kids. Krista had promised her mother she would call a second time

when she got to Nicole's home. She went inside to call, and when she came out, Chris Morris had arrived at Nicole's house with his friend Cory Freeson. They had arrived together in Cory's small blue or grey pick-up truck. She believed the time was about 12:20pm. Chris Morris is Nicole's boyfriend, and was hugging Nicole outside her home. Chris was wearing black army pants, a black "southpark" t-shirt, and "probably" his black beret which he frequently wears. Krista did not speak with Chris Morris, as she left with Eric Jackson and his father.

Krista's mother stated that Detective Rick Griffith from CBI and another Detective had called to speak with them a few days ago. They were asking questions about Krista's involvement with the TCM, as she had been identified as an associate of this group.

I asked Krista about her contact with the TCM. She stated that last school year she began hanging out with Nicole Markham and Chris Morris. They would go midnight bowling and watch movies. A couple of the boys in this group began wearing trenchcoats and the term trechcoat mafia was started. She stated that other students gave them this name. They all thought the name was cool, because it set them apart from other students. Krista stated she did not wear a trenchcoat. Krista took a picture of the group, and gave it to the school yearbook committee to have it printed in the yearbook. All pictures submitted like these, required a narrative about the picture. They decided to write trenchcoat mafia and a few words that were printed. She stated that Dylan Klebold and Eric Harris began hanging out with the group sometime after the picture was taken. Eric and Dylan were close with Nate Dykeman, but never gave any indication they were so angry at the school. Krista said she knew nothing about any plans or the intentions Eric Harris and Dylan Klebold.

Krista asked me why so much attention was given to prom night. She stated that during "after prom" it was very difficult to get in and out of the school because of the amount of teachers and parents there. The staff would not allow any backpacks or bags inside the

school, for fear of alcohol. Krista stated she went to prom with Eric Jackson and they were with Chris Morris and Nicole Markham. She said she was with them the entire night and at no time did Chris or Eric leave the party. Krista indicated that she read in the media that some kids may have brought "bombs" into the school on prom night. She recalled that Dylan Klebold, Robin Anderson, Nate Dykeman, his date and Eric Harris left the after prom party between 2 and 3am. Krista stayed with Eric Jackson, Nicole and Chris Morris until around 5am, when they left to go eat.

I asked Krista if there was anything else she could tell me about the kids in the TCM. She advised me that her friend Nicole and Chris Morris are still dating. She stated that most CHS students are not aware of thier relationship, so Nicole has not had any problems with other students. Krista is aware that [redacted] is under investigation regarding this incident, and stated that [redacted] has always left the CHS campus during his free 4th hour. He has done this most of the school year.

On 4/27/99 I interviewed 15 year old CHS student Jillian Hart at her home in Littleton, Co. Jill's parent were present for this interview. Jill agreed to speak with me about the shootings at Columbine High School on 4/20/99.

Jill stated she is an "A" lunch student, and had arrived at the CHS cafeteria on 4/20/99 around 11:20am. She went to a table and sat with Brandy Wiseman, Tasha Olson, Jamie and Tiffaney (last names unknown). Jill recalled she sat down facing the west windows. I provided Jill a drawing of the cafeteria which depicted the tables and their locations in the cafeteria. I pointed out areas such as food line and west windows to give Jill a better understanding of the drawing's lay out. She looked at the drawing and believed she and her friends were sitting at either table AAA or ZZ. She circled both tables on the drawing.

Jill recalled that she had just arrived at the table, when she heard Mr Sanders yell "get down". She also heard someone say there was a gun. She then heard noises, which she believed were gunfire coming from the West. She got under the table and was looking towards the west, out the windows. She saw a person wearing a long black coat, carrying what looked like a long barrel gun. She described the gun as dark in color with about a 12" barrel. The person was near the northwest corner of the building, on the outside. She never saw this person's face, as she only saw the back of the person, and the gun. Jill could give no description, and was not sure of the height, or if the person was wearing a hat. She believed he was carrying the gun

in his right hand. She recalled this person was looking out towards the parking lot.

Most of the students inside the cafeteria began to run for the inside steps. She also got up and ran, and was towards the end of the pack. As she ran, she heard more gunfire and an explosion behind her. She did not look back, and had no contact with any gunman. Jill turned into the auditorium doors by the cafeteria restrooms, as some students were running that way. She continued out through the auditorium, into the main hallway, then out the building behind the gymnasium. She did not encounter any gunman upstairs, but did continue to hear gunfire behind her. She did not know if those were inside or outside, or how close.

She left the school and ran to Clemont Park with several other students. She was carrying her backpack, as she had no time to take it off when she sat down. Jill stated she did not see any large duffle bags inside the cafeteria on 4/20/99, or any previous days. She had nothing more to add about the shootings.

On June 7, 1999, between the hours of 1117 and 1136, I had an opportunity to speak with Justin Hart in reference to the Columbine incident that occurred on April 20, 1999.

Upon contacting Justin, I asked if he was in the cafeteria area on April 20, 1999 for his scheduled lunch, "A." Justin told me that he had left school after his fourth hour newspaper class taught by Mr. Meir and believes he left the school at about 1105 hours with his friend, Joe Ragole Justin told me that both he and Joe exited from the school from the south Rebel corner, and proceeded out into the junior parking lot, where they got into Joe's vehicle and went to the Burger King located at Pierce and

Ottawa. After picking up their lunch, the two drove back to the high school and arrived at about 1117 hours, where they parked in the same parking space and proceeded back into the high school. Justin told me that as they were walking into the school, he recalls hearing several loud pops and initially thought they were M80's. As he entered into the school, through the Rebel corner entrance, he recalls seeing a janitor running about the cafeteria area and was telling students to get down. Justin told me that he went over near the stone partition wall with the glass windows, which is just to the west of the school store, where he remained for just a short period of time, and then he quickly exited the Rebel corner after he observed students who were over near the west windows of the cafeteria get up and start to run east. Justin told me that both he and Joe ran east from the school and proceeded over to Leawood Park. Once they reached Leawood Park, they continued to hear gunshots and explosions coming from the school. After reaching Leawood Park, Justin explained that he went to his friend, Braden Pesusich's house, where they stayed for a period of time.

Justin was asked if he ever observed any gunmen while at Columbine High School or after he left the school. He told me he did not observe any gunmen, he only heard gunfire and what he thought were explosions. I verified that Justin never made it into the core area of the cafeteria, but he did tell me that if he had made it into the cafeteria he probably would have sat over near the northwest corner of the cafeteria.

Justin was asked if he had any additional information to provide reference this incident. He did tell me that a friend of his by the name of Ali Boukhalfa had told him after the incident that he was seated over the northwest side of the cafeteria and as he was looking out the west windows he observed both unidentified gunmen standing outside and he observed one of the gunmen walk over near the grassy area, point a shotgun at the ground, and fire the shotgun. Justin told me that Ali did not identify either one of the gunmen and that he has no additional information to provide pertaining to the information Ali provided him.

INVESTIGATION:

On May 18, 1999 at 1830 hours I contacted Anthony Hassman at his home for an interview. His parents were present. Anthony told me the following:

* He is a sophomore at Columbine High.

* When asked about Eric Harris, he said that he thought he has seen Eric around school but never knew his name. He thought that Eric wore a green beret and a trench coat at times.

* When asked about Dylan Klebold, he said he knew Dylan from the computer store named Computer Renaissance located at Bowles and Wadsworth. Dylan was working there last August when he would come in the store and look at computer equipment. He only saw him a few times and thought he was introduced to him.

* He did not know [redacted]

* When asked about [redacted], he said that [redacted] was on the debate team with him last year. He said that [redacted] would play card games about World War II. He said that he has seen [redacted] in black lipstick, black eye make-up, and a white face like the character in the movie, "Crow." He described him as 6'6" tall and said he smelled of poor hygiene. He said [redacted] read mythical books and was moody. He does not remember seeing [redacted] in school at all this year.

* He thought there were more trench coat students last year, about 12 or so, than this year. He did not know any other trench coat students or associates. He heard the name "Trench Coat Mafia" from Robert Perry last year. He said Robert referred to his group as the Trench Coat Mafia.

* He did not see any of the trench coat students or associates in school on the day of the shooting. He remembered seeing Dylan at the end of school on the prior Monday, Friday, or Thursday to the shooting, running out the west door of the school by the library.

* He did not see any suspicious objects around school the day of the shooting. When asked specifically, he did not see any duffle bags.

* On the day of the shooting, he wore a polo shirt, tan shorts, white socks and Teva sandals.

* On the day of the shooting he had Miss Nicannon's 4th hour American Literature class in Language Arts classroom #11. Upon getting out at 11:10 a.m. he walked straight to the cafeteria and to his table. He thought he was at table M or N. The backpack chart showed him at table N. He said the other students at the table were P.J. Capra, Pat Hume, Joel Hatfield, Dan Abrams, and possibly Chris Cox.

* He dropped off his backpack and went to the lunch line with Pat Hume. He went to the second line from the east end, the Italian food line.

* The first thing he noticed was two different sounding muffled pops. He said one of the sounds was deep and rich sounding while the other was a shorter, higher pitched sound. He said the popping sounds were coming from outside the cafeteria to the west.

* He said that a janitor and Mr. Sanders came running through the cafeteria from the west door area telling everyone to get down. He then ducked down by the lunch line. He thought that this was all a senior prank. He said Mr. Sanders ran east telling everyone to get down that somebody was outside with a gun.

* He said that everyone in the cafeteria started to run out toward the stairs. He thought he saw a dark figure run along the west window to the cafeteria and to the southeast. He only saw the figure running and could not describe it any further.

* He then ran east from the lunch line and then turned left (north) into the men's bathroom in that area. He and several other boys hid in a toilet stall. He was with a Will Beck and Pat Hume. He heard a voice say outside, "everybody get out." They stayed in the stall until the fire alarm went off. They then decided to run out of the bathroom and they met Mr. Andres Jr. who was sending

students into the door that leads to the back stage area of the auditorium. He heard several more shots while in the auditorium.

* He and others ran up the left aisle of the auditorium and out the door to the main hallway. As he went out to the main hallway, he looked west toward the library and saw what he thought was a light mist and unknown pieces falling down in that area.

* He ran down the main hallway toward the main east doors but was directed by a teacher to turn north down the hallway just prior to the main office area. He ran down that hallway and out the school via the doors on the east side of the gym. He and others ran to the smoker's pit, over the fence and into Clement Park.

This concluded my interview with Anthony Hassman.

Ryan Benjamin HASTEN, date of birth: 03/20/84, was interviewed at his residence, 7842 S. Lamar Street, Littleton, Colorado on April 27, 1999. He was advised of the personal and professional identity of the writer and the purpose of the interview. HASTEN's mother, Terry HASTEN, was present for the interview.

HASTEN advised that he is a freshman at Columbine High School, and did in fact leave his blue Nike backpack in the cafeteria at the high school on April 20, 1999, following the incident there. HASTEN stated that he is on "A" lunch schedule, and had entered the cafeteria at approximately 11:25 AM. HASTEN bought lunch in the cafeteria, and took a seat in the main cafeteria area. HASTEN was shown a map of the cafeteria by the writer, and advised that he believed he had been sitting at table QQ on that map.

HASTEN stated that he was sitting with Kyle MICHELSON, Chris CARLSTEDT and John STOCKING, fellow freshman. HASTEN pointed out what he recalled to be their seating location on that date.

HASTEN stated that he had just sat down to eat when he heard a noise outside, which he described as a bang which sounded similar to a firecracker going off. HASTEN saw teacher Dave SANDERS exit out the west door by the faculty lounge to the area outside the cafeteria. HASTEN stated that as he was going out, he heard SANDERS telling everyone to get under their tables.

Within ten to fifteen seconds Mr. SANDERS came back into the cafeteria through the same door, and was yelling for everyone to run. HASTEN did not think that Mr. SANDERS appeared to be injured at that time.

HASTEN stated that he ran up the stairs on the east side of the cafeteria and into the hallway above. An unknown teacher was telling people to go into the auditorium, and HASTEN went inside. Not feeling comfortable there, HASTEN continued to run through the cafeteria, down the main hallway past the administrative offices and out into the faculty parking lot on the south side of the school. He then began running north toward

HASTEN advised that as he ran out the main entry doors, he saw that several of the doors and windows were broken out. He also stated that he heard several bangs while running through the building, which were not too loud. He did not know if the bangs were coming from within or outside of the building.

HASTEN stated that he did not see the suspects at any time during the incident. He also did not see any duffel bags or other suspicious objects while in the cafeteria.

HASTEN stated that he did not know Eric HARRIS or Dylan KLEBOLD. He saw their pictures in the newspaper, and did not think he had ever met either of them. HASTEN stated that he had seen some individuals in the past wearing dark trench coats on campus, and had heard that they were known as the Trench Coat Mafia. HASTEN did not know anything else about the group, and was not acquainted with anyone who belonged to it.

ORIGINAL

On April 29, 1999 at 1300 hours I met with Joel Hatfield and his father, John Hatfield, at 7[illegible] Drive in Littleton, Colorado for the purpose of an interview

Joel Hatfield provided the following information about the Columbine High School incident, which occurred on April 20, 1999:

- Joel was in English class until 11 10 a.m. when the bell rang. He stated that he got out of class and went to his locker across from the Math Department. He stated that he was with "PJ" for a short time and then "PJ" went to his own locker while Joel went to the cafeteria via the interior stairs. Joel stated that there was nothing unusual at that time.

- Joel stated that he was at the top of the stairs when the second bell (11:15) rang. He stated that he walked along the south side of the cafeteria and then sat at a table along the west windows. He identified where he sat as table "M", "BB" or "CC" as noted in the FBI Evidence Diagram. He stated that he sat down and faced to the east (stairs) with his back to the windows.

- Joel was wearing blue jeans, a dark checkered flannel shirt and a "Amber Crombie" hat (normal direction). Joel did have his eyeglasses on at this time. He stated that he had a purple backpack with the following in it: $50.00 cash, Math book, Earth Science book, clack binder, red folder, Louis Lamar book and a GMC manual. He left his backpack on the floor.

- Joel stated that PJ returned to the table and that John Owens and Brian Hale were also sitting at the table.

- Joel stated that he was sitting at the table for about 15 minutes and then he heard a single "pop". He stated that it sounded like it was a paint ball gun. Joel stated that moments later he got up to throw something in the trash and as he did so, he looked out the west windows. Joel gave the following account while looking out the window

  1 Observed a single gunman described as a white male, about 6 feet tall, with a medium build. An oval face, no glasses, no facial hair and red, ear length hair. He was wearing a black baseball hat backwards.

  2. The gunman was standing north of the chain link fence and east of the sidewalk. The gunman was facing Joel.

  3. The gunman did not have anything over his face and was wearing dark blue jeans with no holes or patches. Joel stated that he has a white shirt (believed to be a T-shirt) and a light colored vest with pockets. Joel stated that the vest was "weighted down, because it was not flapping like the front of his coat"

  4. Joel stated that the gunman had a black trench coat on that went to about the middle of his lower legs He stated that it was open and "flapping in the wind". He stated that there were no logos or identifiers on the trench coat.

  5 Joel stated that the gunman did not have any gloves on and that he could not see his feet.

He stated that one of the "blasts came down the stairs and the other went down the hall. because he heard it rattle along the lockers" Joel stated that he did not hear any shots from behind at that time.

He stated that he doesn't do "anything kooky on the internet". Mr. Hatfield confirmed what Joel had said and asked if wanted to see anything on the computer. He stated that Joel generally uses the e-mail for the Boy Scout projects that he is involved with.

- Joel stated that he did not see or hear the RNN message of the day on April 20th He stated that he did not hear anything about "guns or bombs" prior to the events on the 20th of April.

I gave Joel Hatfield and his father my business card should they need to have a contact regarding this incident. Included with this report is the diagram that Joel drew his location, entrance into and exit out of the cafeteria.

INTERVIEW WITH DAVID HAULMAN, DOB/10-11-82

9551 West Hialeah Place

Littleton, Colorado

INVESTIGATION:

On April 29, 1999, at approximately 1650 hours, I interviewed David Haulman at his residence concerning the incident at Columbine High School. Haulman stated that on April 20, 1999, he went to school at approximately 0710 hours and had classes first through fourth periods. Haulman stated that his lunch period started at approximately 1110 hours and that he went directly to the lunch room, arriving at approximately 1115 hours. When shown a diagram of the cafeteria (attached), Haulman stated that he was seated at table KK.

Haulman said that at approximately 1125 hours, he heard a "bunch" of gunshots. Haulman stated that he immediately got up from table KK and ran through the science and math area hallway and exited out the front doors of the school by the main hallway leading to the east doors.

Haulman stated that once outside on Pierce Street he stopped a vehicle that was driving by and obtained a ride from an unknown citizen.

Haulman stated that he left his blue Jansport backpack in the area of table KK, further describing his backpack as dirty and containing school books. Haulman also stated that his school locker was number 80.

DISPOSITION: Case open, pending further investigation.

DET34/BOATRIGHT

On 04/26/99, Det Boatright (IO) was assigned a lead sheet identified by Control #1216, requesting he conduct an interview with Kyle Hayes. The lead sheet information indicated Kyle Hayes was located in the chemistry lab when the incident started and observed one of the suspects fire into that room through the glass window of the door.

On the same date at approximately 1630 hours, IO responded to 8233 S. Quail Way, Littleton, CO, for the purpose of contacting Kyle E. Hayes, DOB: 07/26/84 (phone: 303-979-0856). IO had previously made arrangements to interview Kyle Hayes through his mother, however, she did not remain for the interview. IO would note, just prior to the conclusion of the interview, Kyle Hayes' father, identified as Don Hayes, arrived home and sat through the remainder of the interview.

Upon speaking with Kyle Hayes, IO confirmed he is a freshman at Columbine High School and was present at school on 04/20/99. IO subsequently had Kyle Hayes review his activities on 04/20/99, beginning when he arrived at school Kyle Hayes explained he does not have a first period and usually arrives at school sometime between 0815 and 0820 hours Kyle Hayes confirmed he did arrive at Columbine High School around the time frame provided above on the date in question. Kyle Hayes further verified he was provided transportation to school via his mother and recalled entering the school through the "commons area." Kyle Hayes confirmed the entrance he used was located on the south side of the school, near the cafeteria. Through additional questioning, Kyle Hayes stated he did not observe any unusual activity when arriving at school.

Kyle Hayes next explained, upon arriving at school, he then went to his second period class which began at approximately 0830 hours and lasted until approximately 0920 hours. Kyle Hayes identified that class as "weights " Kyle Hayes stated his instructor for that class was "Mr. Place " When asked where that class was located in the school, Kyle Hayes stated the weight room was located near the "gym" on the north side of the school building.

Kyle Hayes next stated he went to third period class, which began at approximately 0925 hours, which lasted until approximately 1015 hours. Kyle Hayes identified that class as language arts and is taught by Miss Bohack. Kyle Hayes explained his third period class was located in the "math hall" and believed the room was identified as "MA7."

Kyle Hayes next reported he attended his fourth hour class which began at approximately 1020 hours and lasted until

approximately 1110 hours Kyle Hayes identified that class as "Spanish," which is taught by Ms. Killon. Kyle Hayes stated that aforementioned class was located in the "downstairs" portion of the school, near the "commons." For purposes of clarification, when Kyle Hayes refers to the "commons or commons area," he is referring to the cafeteria area. As that discussion continued, Kyle Hayes clarified his Spanish class is only approximately 40 feet east of the commons area.

Kyle Hayes reported after the fourth hour bell rang, he left his Spanish class and walked to the commons area with a friend, whom he identified as Austin Steckler (phone: 303-933-1502). Upon arriving in the lunch room, Kyle Hayes stated he along with Austin Steckler, got in line and purchased their lunch, after which both he and Austin Steckler sat down at a table with other friends In terms of a time frame (referring to the activity above), Kyle Hayes reiterated he was only approximately 40 feet from the commons area when he left his fourth hour class and recalled the lunch line was very "short." Kyle Hayes stated he did not believe it took either he or Austin Steckler more than five minutes to walk to the lunchroom, purchase a lunch, and then find a table. IO subsequently supplied Kyle Hayes with a diagram of the commons area and asked him to approximate where he sat in the lunchroom. Refer to the aforementioned diagram for details, however, IO would note Kyle Hayes placed himself at a location which appears to be close to the center of the lunchroom area

Once Kyle Hayes had identified his location in the lunchroom, IO confirmed when he arrived at that location, he was in possession of a "east pack" backpack, which he described as blue and black in color. Kyle Hayes went on to state the backpack has a "net" in the front with a "red and yellow drawstring." Kyle Hayes added his backpack has a rubber non-slip shoulder strap. According to Kyle Hayes, contained in his backpack was his student I.D. along with various school books and papers.

When asked to identify other individuals located at the table, Kyle Hayes stated, in addition to himself and Austin Steckler, he recalled the following list of students sitting at the same table. The students were identified as Tim Miller, Jeff Morroni, Devin Castel, Chris Donnelly, Johnny Stroble, Pat Vasser, Alex Slosher, and Jacob Hanelstrand IO would note all of the spellings for the above named individuals were provided by Kyle Hayes In addition, Kyle Hayes identified all the forenamed students as freshmen. When asked if he could identify any other students located at nearby tables, Kyle Hayes responded in the negative.

IO next asked Kyle Hayes if he was familiar with a party identified as Jordan Grimm. IO would note Jordan Grimm was identified as a party possibly located at the same table with Kyle Hayes per this information provided in the lead sheet. According to Kyle Hayes, he was familiar with Jordan Grimm, but was

relatively certain the forenamed was not located at his table. When asked why he may be associated with that individual (pursuant to the recovery of backpacks), Kyle Hayes stated he did recall having a math paper of Jordan Grimm's in his backpack Kyle Hayes was unable to provide any additional explanation concerning that point.

When asked if he could recall any unusual activity occurring in the cafeteria during the time he arrived and found a place to sit, Kyle Hayes responded in the negative. When asked if he had observed any individuals carrying unusual backpacks or duffle bags into the cafeteria during that time frame, Kyle Hayes again responded in the negative. Kyle Hayes related it would not be unusual to see students with either a backpack or duffle bag in the commons area Kyle Hayes pointed out he was relatively certain most students at least carried a backpack when attending school IO again stressed with Kyle Hayes, the possibility of seeing any individuals carrying what could be considered an unusual duffle bag into the cafeteria area Kyle Hayes continued to respond in the negative.

When asked if he observed any unusual activity in the cafeteria that date, Kyle Hayes responded in the affirmative. Kyle Hayes stated approximately "five minutes" after sitting down at his table, he observed a teacher, whom he identified as "Mr. Sanders," enter the commons area and begin "yelling." When asked to describe the teacher, Kyle Hayes stated the forenamed was "older" and was wearing a lighter colored shirt and jeans. Kyle Hayes stated he was also certain the teacher was wearing "glasses." As the interview continued, Kyle Hayes stated he was certain as to his identification of the teacher (referring to Mr. Sanders) as he had seen the forenamed pictured on television during a news report.

Kyle Hayes was next asked to describe the specific activity as it related to Mr. Sanders. Kyle Hayes stated he observed Mr. Sanders enter the cafeteria from the "west door" near the faculty lounge. Kyle Hayes stated Mr. Sanders was "running" at the time and began yelling for students to "get down, he's got a gun." Kyle Hayes stated Mr. Sanders repeated those commands several times as he proceeded in an easterly direction through the cafeteria IO subsequently had Kyle Hayes identify the location where he first observed Mr Sanders. Kyle Hayes subsequently affixed an "X" and wrote Mr Sanders on the diagram where he had previously identified his location in the cafeteria. IO would note the location where he originally observed Mr. Sanders as close to the faculty lounge area, in addition to a western entrance to the commons area.

Kyle Hayes next reported to IO he forgot one point prior to seeing Mr. Sanders When asked to elaborate, Kyle Hayes stated just prior to seeing Mr. Sanders, he saw a group of people moving to the west windows of the commons area. Kyle Hayes stated he thought people were going to that location because there was a

"fight outside " Kyle Hayes stated at the time he had no other explanation for why groups of people were going over to the west windows of the commons area.

IO clarified with Kyle Hayes the first unusual event he observed in the cafeteria was when people began moving towards the west window and it was moments later, he observed Mr. Sanders in the cafeteria. IO subsequently asked Kyle Hayes to explain what occurred after Mr. Sanders began warning students. Kyle Hayes stated he recalled everyone, "drops to the ground." Kyle Hayes reported he next looked out towards the west windows of the cafeteria and observed a "brownish black smoke" coming from a vehicle parked in the south senior parking area When asked to be more specific concerning the location where he saw the smoke, Kyle Hayes stated he believed the smoke was coming from one of the "first couple of cars" parked facing north in the south senior parking lot.

Kyle Hayes stated about the same time he made that observation, he observed one of the suspects enter the cafeteria near the same location where he originally had seen Mr. Sanders Kyle Hayes was speculating both Mr Sanders and the suspect had entered the cafeteria via a west door, near the faculty lounge area When asked to describe this suspect, Kyle Hayes stated he appeared to be a white male, approximately 6'1" in height, with a thin build. Kyle Hayes specifically described the suspect as "skinny," pointing out the aforementioned was "hunched over" as he proceeded to move into the cafeteria. In respect to the suspect's clothing, Kyle Hayes stated the suspect was wearing a dark colored, ski style mask, with holes cut out for the eyes, nose and mouth. In addition, the suspect was wearing a black "trench coat" with a black hat, which was worn backwards Kyle Hayes was unable to provide any additional description regarding the suspect. Pursuant to questioning, Kyle Hayes stated he could not recall seeing any weapons in possession of the suspect during the above observation.

When asked to describe the suspect's actions after entering the commons area, Kyle Hayes stated, "I don't know, I just saw him run in " Kyle Hayes stated, at that point, numerous people began following Mr. Sanders, who was now moving towards the stairs leading to the upper level of the school. Kyle Hayes explained it was his perception there was a mass exodus of the library at that point, and he could not provide any additional description of the suspect's actions, other than his initial observation. Kyle Hayes clarified he began following the group of people which were moving towards the stairs

Kyle Hayes explained as he followed the group (he along with numerous others) ran upstairs to the upper level of the school. When asked why he did not exit the school via the south commons area door, Kyle Hayes stated he was uncertain, adding, "I was just following the crowd."

Kyle Hayes explained after running up the stairs, and arriving in the upper level of the school, he recalled a female teacher (unable to identify) yelling to all of the students to "get in the classrooms." Kyle Hayes stated he entered the first classroom he saw with an open door. Upon arrival at that location, Kyle Hayes stated he believed there were approximately eight students (including himself) along with one teacher located in that room. IO subsequently provided Kyle Hayes with a second diagram which depicted the upper level of the school. Kyle Hayes was asked to identify his path of travel after reaching the upper level area. Kyle Hayes subsequently drew an arrow to a room which he identified as the chemistry lab See the aforementioned diagram for details.

Kyle Hayes was next asked to identify any others present in the room. Kyle Hayes stated he knew only two students by name. Kyle Hayes identified those students as Bartholomew Foster and Justin Albert (both ninth graders: Kyle Hayes went on to state there was another male student he recognized from his Spanish class whom he knew as "Brad" (also a ninth grader) Kyle Hayes reported he believed there were at least four other girls in the class who were possibly "juniors and seniors," but he did not know their names. When asked to identify the teacher, Kyle Hayes stated he thought the teacher's name was "Mr. Graves," but later indicated it was possibly Mr Kraft Kyle Hayes was unable to be more specific concerning that point

When asked what occurred after he entered the chemistry lab room, Kyle Hayes related it was somewhat chaotic Kyle Hayes stated, eventually, the teacher locked the door from the inside and placed a "barricade," later described as a "lab table," in front of the door In respect to a time frame, Kyle Hayes stated he believed it had only been "a couple minutes" after entering the chemistry lab when the door was locked and the barricade was put into place When asked what occurred after the barricade was put into place, Kyle Hayes stated it was approximately one minute later he was looking out the window of the chemistry lab from behind a table and observed the "same guy" (referring to the suspect he had seen in the cafeteria prior to going upstairs). Kyle Hayes pointed out when he saw that suspect for the second time, the aforementioned was not wearing a mask and had long, dark brown hair When asked how he knew it was the same suspect, Kyle Hayes explained the individual was wearing the same clothes and had on the same hat (backwards). Kyle Hayes went on to state he was positive that suspect was "Dylan." Pursuant to questioning, Kyle Hayes confirmed his identification of "Dylan" came from photographs he had seen of that individual on television after this incident.

When asked what the suspect was doing at the time he made the above observation, Kyle Hayes stated the forenamed was moving in an easterly direction down the hall and had stopped in front of the chemistry lab Kyle Hayes stated it was at that point he observed

the individual to be carrying a "shotgun" style weapon, which he believed had a wooden style stock Kyle Hayes stated that suspect then pointed the weapon in his direction and fired one shot Kyle Hayes stated he ducked at the time the weapon was pointed in his direction, but heard the gunshot and recalled being struck by "wood chips" from the table which was used as a barricade. Kyle Hayes reiterated at the time he heard the gunshot, "wood chips and glass were flying everywhere." IO clarified with Kyle Hayes the table used to barricade the door did not completely cover the window area, thus, allowing him a view out into the hallway.

When asked what occurred after the gunshot, Kyle Hayes stated he heard the chemistry lab door handle "jiggle." Kyle Hayes reiterated the door was locked, thus preventing the suspect from gaining entry Kyle Hayes stated he next heard laughter and then what sounded like and individual running eastbound down the hallway When asked how he could be certain about the suspect running, Kyle Hayes stated he could hear "feet pounding" which sounded like running.

Kyle Hayes next related after the above events, he along with all others in that room, took cover in the northeast corner. Kyle Hayes explained he along with the others had "set up desks in the corner that we were hiding behind." Kyle Hayes estimated over the next two hours, he heard numerous gunshots and explosions which he believed were coming from inside the building. Kyle Hayes stated after approximately two hours, he did not recall hearing any additional gunshots or explosions. When asked for additional information concerning that point, Kyle Hayes stated there was approximately a 20 to 30 minute time period where he heard most of the gunshots and explosions. Kyle Hayes was unable to be more specific concerning that point.

Kyle Hayes related after the two hour time period, he recalled the teacher in his class receiving a telephone call. Kyle Hayes explained most of the classrooms at Columbine High School had telephone access. Kyle Hayes stated after receiving that phone call, the teacher indicated he had just spoken with another faculty member in an adjoining classroom. The teacher then stated he thought it would be safer if everyone moved to that other classroom. According to Kyle Hayes, the teacher then instructed everyone to crawl through the storage area which led to the adjoining room. Kyle Hayes stated everyone complied with the teacher's request and, upon arrival in that room, believed there were nineteen total students with four adults. Kyle Hayes stated he did not know any of the additional students or adults located in that classroom. IO subsequently had Kyle Hayes indicate his path of movement into that room via the diagram. It should be further noted Kyle Hayes placed an "X" with an arrow at a location where he had seen the suspect, just prior to the shot being fired. See that diagram for complete details.

Type ASSTOA Status RTF

DET34 05/04/1999 050199/BOATRIGHT/SH

Kyle Hayes related after arriving in the adjoining science room, he along with the others present simply "sat around and waited " Kyle Hayes estimated during the next 30 minutes, it was possible he heard approximately five to six gunshots coming from inside the building. Kyle Hayes stated those last five to six gunshots seemed as though they were close to his location.

Kyle Hayes reported he was in that second science room for approximately one hour prior to being contacted by SWAT officers and escorted out of the building. Kyle Hayes stated to his knowledge, SWAT officers evacuated him (along with others present in that room) out a east entrance/exit of the school.

IO did confirm with Kyle Hayes the written statement which he signed dated 04/20/99 at 1540 hours, was actually prepared by a detective who had conducted a brief on scene interview. Kyle Hayes did indicate the written statement prepared by Det. Frank Rino, #74053, appeared accurate. IO subsequently concluded his contact with Kyle Hayes. IO would note the diagrams referenced in this report were initialed by both Kyle Hayes and IO and those diagrams will be maintained as evidence in this case. IO will maintain care, custody and control of the above diagrams until they are turned over to the Jefferson County Sheriff's Office.

INVESTIGATION:

On 05-25-99, at 1800 hours, I responded to 8059 West Hoover Place to contact and interview Candace Haywood. This interview was in reference to the shooting that occurred at Columbine High School on 04-20-99.

I interviewed Candace Haywood in the presence of her mother, Wanda Haywood. Candace Haywood told me on 04-20-99, at about 1110 hours, she got out of her Math class, which is on the second floor of the school, and this is also when her class ended. She then walked to her school locker (#1536), which is located near the main entrance of the school. Candace Haywood said after she went to her locker, she walked to the cafeteria, arriving at approximately 1115 hours. She said she looked outside of the cafeteria windows on the south side to see if the outside table that she usually sits at during lunch was available, and to see if her friends were located at that table. She said she did not see anything unusual upon looking out the windows, and said she saw that the table was available; however, none of her friends were out there. She said she saw some of her friends inside the cafeteria at a table near the south side windows. Candace Haywood showed me on a diagram of the cafeteria at the school, the table where she sat with her friends. She identified the table as being either "P," "O," "Y," or "Z" on the diagram. She said she was facing in a northwesterly direction from the table, and said the following friends were at the table with her: Elena (unknown

last name), Lacey Hohn, Kitty Carlson, Nicole Boudrow, and Jennifer Barnes. Candace Haywood said a male, standing inside the west door of the cafeteria, began yelling to the students in the cafeteria to get down on the floor and get under the tables. She said she got under the table, as did her friends; however, they were laughing about it, and believed the incident was a Senior prank. She said Nicole Boudrow began to crawl away from the table in an easterly direction, so Candace Haywood said she grabbed her, pulled her back, and said to her, "Are you crazy?" Candace Haywood said she then saw several students jump up and begin running through the cafeteria in an easterly direction along the south side windows of the cafeteria. Candace Haywood said she also got up and ran, and ran past the bottom entrance of the stairway and behind a pillar next to the hallway She said she stopped and saw the other students running up the stairway towards the second level of the school, so she did so also. She said when she got to the top of the stairs, she turned to her left and ran about 5 to 10 feet where three teachers from the high school (one female and two male teachers) were trying to stop the students from running in the halls, as they also believed the incident was a Senior prank. Candace Haywood said at that time, she heard three to four "pops" that she described as sounding like coming from a cap gun She said they sounded like they were coming from the cafeteria downstairs. She said these were the first shots she heard during the incident. Candace Haywood said she ran towards the main entrance, and was helping Jennifer Barnes run, because Barnes had high platform type soles on her shoes making it difficult for her to run. Candace Haywood said as she was running towards the main entrance, she saw a female laying on the floor who had fallen, so she jumped over the female. She said she then stopped and turned around to help the fallen female get up; however, the female had already gotten up off of the floor. Candace Haywood said she ran out of an east door of the school, across South Pierce Street, and onto the soccer field at Leawood Park. She said she looked for friends in the park for about five minutes, and then sat on a brick wall until the students in Leawood Park began scattering and running Candace Haywood said although she did not hear any shots, she ran also, going to a person's house, by the name of Lindsey. She said she later heard from other students that an unknown person wearing a black mask and a trench coat was shooting from Columbine High School towards the soccer fields in Leawood Park. She said she did not see this unknown person or hear any shots at that time.

Candace Haywood said she did not know Dylan Klebold or Eric Harris prior to the shooting. She said she did not know any members of the Trench Coat Mafia, and said the only thing she knew about them were that they always dressed in black clothing, stayed to themselves, and would gather under the stairs on the east side of the cafeteria. Candace Haywood said she never saw anyone harassing the Trench Coat Mafia students, nor did she see the Trench Coat Mafia students harass other people.

I showed Candace Haywood the photographs of the duffle bag and the propane tank which had been later recovered in the Columbine High School cafeteria. She said she did not see either item prior to or during the incident.

Candace Haywood said she left her backpack, described as a purple colored "Grand Lakes," with her student I/D inside of it, on the floor next to the table she was sitting at in the cafeteria. Candace Haywood said on 04-20-99, she was wearing "Candies" tennis shoes, tan in color, olive colored Cargo pants, and a brown plaid tank top with a collar She said she did not hear the thought of the day over the Rebel News Network "RNN" on 04-20-99, but said she later heard the thought of the day was something to the effect of "You do not want to be here today." She said she does not have an Internet screen name because she does not use chat lines. Candace Haywood said she believes she has seen students at Columbine High School with a double pierced eyebrow, but did not know their names. She said she would contact me in the future if she was able to learn the names of these students.

Candace Haywood said she has done fine dealing with this incident since it took place on 04-20-99; however, her mother, Wanda Haywood, has had a difficult time dealing with it. Wanda Haywood advised that she is currently visiting a therapist to help her through with this. I gave both Candace and Wanda Haywood one of my business cards and asked them to call me if they wanted to talk with a JCSO Victim Advocate in the future, and I told them I would make the necessary arrangements for them.

ADDITIONAL INFORMATION:

Candace Haywood said a friend of hers by the name of Jessica Mowry has her school locker directly across from the Columbine High School Library. She said she believes Mowry was at her school locker when the problems began in the Library. Candace Haywood said she did not know if Mowry had been interviewed as of yet by law enforcement.

DISPOSITION: Remains open, pending further investigation.

Laverne Helm, 3663 South Sheridan Boulevard #K4, Denver, Colorado 80235, telephone (303)984-0460, a kitchen worker at Columbine High School, was interviewed at her home by Special Agent(SA) Ricky V. Wright regarding the incident that took place on 04/20/1999 at Columbine High School. After being advised as to the identity of the interviewing agent and the nature of the interview, Helm provided the following information:

Helm has been working as a kitchen worker at Columbine High School for the last two years. Helm's duties include cooking, cleaning, and serving. Helm normally works from 7:30 am to 1:30 pm. On the day of the shooting, Helm arrived at work at approximately 7:30 am and served breakfast until 9:30 am in the breakfast serving line. Helm did not recall seeing anyone bring in any large duffle bags that morning. Helm advised that the janitors have the responsibility of cleaning up in the commons area, but Helm thought it unlikely that any duffle bags or backpacks were in the commons area before the students came in first period. Helm had read in the newspaper that there was a bomb in the kitchen area. Helm did not believe that any large duffle bags could have been in the kitchen area, because of the traffic from the kitchen workers.

During lunch, Helm was serving lunch in the easternmost lunch line. Helm first became aware that something was going on, when she heard squeals and saw students running and climbing under tables. Someone yelled for everyone to get down because there was shooting. Some students ran behind the lunch lines. Helm and other members of the kitchen staff took cover in the laundry room located at the back of the kitchen area. Helm later learned that other students and members of the staff hid in the neighboring office. Helm advised that there were 18 individuals in her room, including teachers, students, and kitchen workers. Among the kitchen workers were Linda Last Name Unknown(LNU), Marlene Netterman(phonetic), and Sue LNU.

The laundry room door is a heavy door and locked automatically. The laundry room is quite small and was very crowded. Helm and the others were in the room for approximately two hours and 20 minutes until a SWAT team came and rescued them. About 30 minutes after the shooting started, Helm heard voices

outside the door. Someone outside the room tried the door knob, but it was locked. Someone then knocked on the door and said to open the door because they knew there were people in the room. No one moved or answered the people outside the room. Helm could not distinguish how many individuals were outside the room. Approximately 30 minutes later, the same people came back and demanded the door be opened again. They did not shoot through the door and did not try to break down the door.

While Helm was in there, she could hear shots and occasional explosions. At one time, Helm heard one explosion which was louder than the rest. Helm still thought she heard shots until about ten minutes before she was rescued by the SWAT team.

On 081799 I telephonically interviewed Lavern Helms, a food services worker at Columbine High School. Lavern told me that she was at school on April 20th 1999. She was working in the Italian line cash register when the shooting began. She heard a "pop, pop". She thought it was a prank. She soon realized there was shooting going on in the school. She went into the laundry room near the kitchen and hid for three hours. She said that she was in the laundry room with eighteen others.
She had served Harris and Klebold in the cafeteria before. She only knew them because she had seen them frequent the cafeteria.
During the shooting incident she heard voices knock on the door she was hiding behind and said, " We know you are in there, come out." She did not know who was saying this. She reported to seeing none of the incident only hearing it.

he proceeded to the cafeteria area and remembers that he arrived around 11:12 a.m. I provided Jacob with a map of the cafeteria area and asked him if he could remember which table he sat at. After looking at the map he stated he was sitting at table FF After identifying where Jacob was seated, I then asked if he recalls seeing two large duffle bags or gym type bags. I described one as being blue in color and the other being an orangish/red bag, which were located in the cafeteria near where he was seated Jacob stated that he did not see the bags, nor did he see anyone bring the bags in.

Jacob stated that once he reached the table he placed his backpack on top of the table, basically saving his seat at the table, at which time he went to the food service line. After picking up his food and returning to the table, Jacob stated that he was facing west and could see out the west windows of the cafeteria. He describes hearing a loud explosion, which came from the parking lot, then describes a large "ploom" of smoke coming from a car, stating that he believed it was some type of car bombing Shortly after hearing this, he remembers seeing the teacher, Dave Sanders, come running in the northwest doors of the cafeteria, telling the students to get down under their tables.

Jacob was asked if he could recall who else was sitting at the table with him during this incident. He stated that Chris Donnally, telephone number (303) 972-8086, Tim Miller, telephone number (303) 979-0720, Jeff Morrani, telephone number unknown, Pat Vassar, telephone number (303) 933-9341, Kyle Hayes, telephone number (303) 979-0856, Austin Steckler, telephone number (303) 933-1502, and John Stroble, telephone number unknown, were also seated at the table. Jacob describes that while he was on the floor, under his table, they started to hear gunfire coming from outside the building, at which time students started to exit from the cafeteria. He stated that as he was leaving he remembers grabbing his backpack and he started to run east towards the stairs out of the cafeteria As he went up the stairs to the main level of the school, he remembers that he started running down the east hall near the math rooms, away from the library. Jacob stated that in the mass confusion he was pushed and he fell to the ground. After he picked himself up off the floor he proceeded down one of the halls near the math rooms where he entered the math room just to the east of Ms McWilliams' room Also in the math room was a student by the name of Mike Kellogg, and another unidentified male.

JC-001-003301

Jacob stated that they did not remain in the math room for very long and he remembers just after the fire alarm sounded that himself and the other occupants inside the room quickly left the math room and continued east down the hall, out of the school,

Officer Signature	Unit	Number	Supervisor Initials and Date	Assigned To	Page 2 of 4

where they ended up in Leawood Park. Jacob stated in the confusion and in his escape out of the school that he left his backpack in the math room. He described the backpack as being black in color, brand name was Northface. He stated he had a calculator Pro Tractor, several of his school books, and several papers with his name on them inside the backpack.

I asked Jacob if he saw any gunman while he was in Columbine High School. He stated he did not. I also reconfirmed that he did not see the two duffle bags or sports bags that I described earlier, which were located in the cafeteria.

Jacob was asked if he knew Eric Harris or Dylan Klebold. He stated he did not know those individuals and he did not know any other members who associated themselves with the "Trench Coat Mafia." I asked if there were any rumors heard at school which would reference anything was going to occur on April 20th. He stated that he did not hear anything and had no additional information to provide. Jacob was also asked if he knew that Eric Harris had a web site. He stated he did not, and again told me he didn't know much about the individuals at all.

Jacob was asked to describe his dress on the incident date. He stated he was wearing a black and brownish gold flannel shirt, khaki carpenter jeans, and he had white tennis shoes on. Jacob was asked if he left any other additional items at the school other than his backpack. He stated he did not.

After completing my interview with Jacob, I had him document where he was seated in the cafeteria and his exit route out of the school. A copy of that map is attached to this supplemental report.

ADDITIONAL INFORMATION:

Prior to leaving Jacob's residence, I asked his mother and his step-father if they had any questions or any additional information for me. Sheryl Coalman proceeded to tell me about some individuals that live directly behind them to the west, identifying them as the Sowder's, in particular Jonathon and Melissa, who both attend Columbine High School. She stated that she was talking with a neighbor, Bionca Thompson, who lives at 5235 West Portland Drive, Littleton, Colorado, telephone number (303) 979-7370, on Sunday, April 25, 1999 Sheryl Coalman stated that Bionca Thompson told her that neither Jonathon or Melissa Sowder

She also proceeded to tell Sheryl that she had heard a rumor about the neighborhood, that Melissa Sowder told some person that she knew two weeks prior to the incident at Columbine High School that something was going to happen on that day. Bionca Thompson went on to tell Sheryl that she had contacted the JCSO and reported this information and had no idea if it had been followed up.

On 06-17-99, at about 10:25 a.m., I telephoned Hencke at his residence.303-979-0075, concerning the incident that occurred at Columbine High School on 04-20-99.

Hencke stated that he was in the cafeteria of the Columbine High School at 11:10 a.m. on 04-20-99. Hencke stated that he was with Jeff Barrett, Steven Poole, and Matt Connelly. Hincke stated that they were seated in the first row of tables by the serving line, but could not remember exactly which table.

Hencke stated that after about ten minutes at approximately 11:20, he heard a teacher, Mr. Sanders, come into the cafeteria and yell to students to get down, at which time they did. Hencke stated that after a few minutes, there was a mad rush for the stairways that lead toward the library to which they all proceeded to follow each other Hencke stated that they ran toward the auditorium, then near the gym and exited the north west side of the school, believed to be in the Art Department area. Hencke stated that they ran toward Clement Park to the area where the students parked that are not allowed to park on school grounds Hencke stated that he heard two to three gunshots while he was in the cafeteria, but did not see any individual shooting, nor did he see anybody in trench coats that day.

Hencke stated that just prior to leaving, he heard the fire alarm goign off in the shcool.

Hencke stated that he had no further information concerning the incident at Columbine High School.

Telephone interview

ACTION TAKEN:

On May 14, 1999 the Reporting Agent Linda R. HOLLOWAY contacted Jason HENSLEY by telephone after speaking with his mother the evening before. Jason was asked to relate the events, as he could recall, of what he did and saw on April 20, 1999. He stated that his mother, Linda, arriving just before 1st period, drove him to school. His first class was gym, followed by English in the Language Arts wing, mathematics for the 3rd period and Spanish for 4th period.

He then went to A Lunch in the cafeteria. He sat near the Rebel store (around Table B) with Ben JOHNSON, David SCHULTE, and MATT FRIEND. There were two tables of his friends in that area. He left his backpack on the ledge when he exited the cafeteria after the incident started. The first thing unusual that he remembers is when Matt FRIEND got up. He at first thought that a fight had broken out when he heard someone say that there was someone with a gun.

Jason HENSLEY got under a table when instructed by a janitor. He was under the table for only a very short time when he and Ben JOHNSON ran out the door by the Rebel store and into the parking lot. He stated that it was not the senior parking lot that they ran through, but the lot adjacent to the senior's lot. He ran to a near house.

He never saw the two large duffel bags or anyone carrying them into the cafeteria.

He does not know any of the members of the TCM nor would he recognize them. He left behind his blue backpack on the west ledge which contained his math, Spanish vocabulary and assignment books, a calculator and various folders.

He was wearing blue jeans and a blue sweater that day. Other items owned by him and left at Columbine High School in his gym locker are white Adidas tennis shoes and gym clothing. He has a school locker that has a science book among other miscellaneous school items.

He does have access to the Internet and his screen name is "Credso2". He didn't know what an ICQ account is.

He didn't recall seeing or hearing any unusual announcements prior to the shooting, nor did he remember the "thought for the day".

He doesn't know anyone with a "double pierced eyebrow."

He didn't see any gunmen nor see anyone shot. There was no other significant information gleamed from the interview.

Littleton, CO., 80127
303/904-3516

CHS student, cafeteria witness.

On May 17, 1999, this investigator met with Brianna Hernandez at her residence. Present during the interview was her mother.

Brianna advised that on the day of the incident, she arrived in the cafeteria at approximately 11:15 a.m. having come from her residence as she had no fourth hour class. She was shown a sketch of the cafeteria and indicated that she had been seated at the table marked "U." She said others at her table were: Gina Rohde and Sarah Roasberry. She had only first names for the following: Sarah, Nichole, Emily, and Veronica.

She stated that she observed no unusual activity in the cafeteria. She went over to the vending machines and that is when she first heard some noise which she was unable to identify. She said at that point, Mr. Sanders, who was by the service counter was telling everyone there to get down. Brianna said that she then heard what she thought was a gunshot coming from outside the cafeteria, possibly by the courtyard. She stated that she saw Dusty

Hoffschneider get up from his table(JJ) and together, they ran up the stairs to the upper level of the school. She believes that she saw an individual wearing a black trench coat outside of the Rebel Corner just as they started up the stairs. She could provide no other details about the person. She said that she ran down the hallway which is between the math and social studies hall, out the door at its east end, and into Leawood Park. After a short while, she left the park and found refuge in a nearby residence.

Brianna advised that she did not know Eric Harris or Dylan Klebold personally, but did know who they were and would recognize them when she would see them at school. She said she did know [redacted] from having classes with them. She stated that she knows [redacted] "pretty well," as he was a presiding officer of the student congress. She advised that she would frequently see him during fourth hour in the library. She stated that [redacted] seemed to be a "nice guy," but did not know him well.

She stated that she knew of no rumors relating to this incident. She said she was aware that the day was designated as "4..20" a code meaning it was national smoking day - a "party day."

Investigation continues.

OBSERVATION/INVESTIGATION:

On 5/13/99, at 0930 hours, I interviewed Matthew Hill at his home. I had previously obtained permission from his mother.

Matthew stated he drove to school and parked in Clement Park on 4/20/99. He arrived between 0745 and 0750 hours and entered the school through the main entrance. He stated he saw nothing unusual going on outside.

Matthew stated he had seen Klebold and Harris around the school before, but he did not know them. He was

aware of the trench coat mafia group. He stated he did not see Klebold or Harris at all that day. He stated the TCM's usually hang out in the cafeteria in one certain area, but he was not sure if they were there that day or not.

Matthew has Spanish for his first hour class, he is a student assistant in the main office for his second hour class, English for his third hour class, and Science for his fourth hour class. He stated he entered the cafeteria at approximately 1112 hours by walking down the stairs. He stated he went immediately to the lunch line and got his food, and then sat down. Matthew indicated on the attached diagram the route that he took to the cafeteria, and that he sat at table F. He stated approximately three minutes later, a friend by the name of Ben Shumann walked over and told them that someone had just got shot outside. He stated Ben was very serious about this. He then heard some "pops" and half of the cafeteria got down on the floor.

Matthew stated the janitor ran along the south end of the cafeteria yelling for everybody to *get down*! He heard more pops and then people started to run from the west end of the cafeteria to the east. He stated some of them were sliding on the floor on their stomachs. He stated kids started to jump over tables and over other people and there was a panicked atmosphere in the cafeteria.

Matthew stated that as he was going upstairs he heard gunfire hit the railings around the stairs. He stated he thought the gunmen were shooting towards the group going upstairs, as bullets hit the mural that is on the wall of the stairway.

Matthew stated that once he got to the upper level, he began to walk down the hallway eastbound. He stated he became calm at this point and didn't feel like anything was going to happen to him. I asked if there was a reason for this and he that he felt that God was with him and would keep him safe. He then told me that he is a religious person.

He stated on his way out, he heard a lot of spontaneous "pops". He left out of the building through the southeast door, upper level, and went to Leawood Park. He stated he was in the park for five to ten minutes. He heard more gunfire and teachers told the group to get further away from the school. He stated he was out there for approximately four hours. As he waited, he heard gunfire that sounded like it was in the distance.

Matthew stated he did not see any duffle bags in the cafeteria. He stated he's left his black Eddie Bauer backpack in the cafeteria, and that it contained two notebooks, a math folder, social studies book, and his Bible. He was wearing a bright orange shirt and khaki cargo pants.

Matthew stated he has seen someone around the school with a double pierced eyebrow, but he couldn't remember who it was. He had no idea if it was a male or female. Matthew also did not know what the *thought the day* was.

FBI CASE 174A DN-57419

WITNESS CONTROL NUMBER 1632

JCSD CASE 99-7625

Reporting investigator, P.J. Doyle, is a commissioned peace officer employed by the District Attorney in the First Judicial District serving Jefferson and Gilpin Counties. I am currently assigned to assist in interviewing witnesses from Columbine High School.

On April 29, 1999 I spoke to 11th grade student Travis James Hill.
DOB: 5-15-81
7674 W. Ontario Place
Littleton, CO 80128
303 973-1663
Dad is Larry Hill Work: 303 982-4710
Mom is Sharon Hill Work: 982-4710

Travis's father was present during the interview.

Travis told me the following:

Travis is legally blind, color blind and light sensitive. He can see ten feet. Much past that, he looses fine detail and definition.

Travis was at school all morning from 6:46 am. He left somewhere between 11:25 and 11:35.

Travis was sitting a bit outside of the cafeteria, in the building. See diagram where "me" is marked. He had a view of tables e,s,w and x. The tables were 50 to 60 feet away.

He had been sitting on the floor. He'd just finished his sandwich and was drinking a can of pop, just watching people right in front of him. He heard somebody yelling. There were no words, kind of like a low scream. He said that it's very loud in the cafeteria during lunch with people talking and dishes clattering. He then heard people running, like a bunch of feet stamping. He heard someone say, "Oh God." People started running over by where he was. People started hiding behind the stone pillar, the Pepsi machine and around by where he was. Travis went to people at the Pepsi machine and asked what was going on. Somebody said that somebody was shooting people. Travis didn't hear gunfire. He could hear people saying to get down. He could now hear screaming from by the windows. He said that pretty much everybody in this section "mass turned" and went down the main hallway by the foreign language section. He said that he leaned down to get his back pack. As he leaned, he could see the lower landing. He saw someone. He couldn't tell if it was male or female, a gunman or a student. He couldn't tell what they were wearing. This person was running up the stairs.

Travis said that at the end of the foreign language hall, there is an indentation before the class. There, he heard someone say, "Don't go outside. Someone is throwing bombs." Travis went into an alcove and then into the last room on the end. He and two other girls (unknown who), went in and got under the table on the east sides of the room. He still had his back pack. He handed his back

pack to someone to get it out of the way. He's not sure, but thinks they were in that room for two to five minutes.

Travis said that while under the table, he heard gun shots. He said the shots fired once, then again in two or three seconds. He said that the shots sounded like they were coming from the library. He's heard gun shots at camp and on the 4th of July. He said that what he heard sounded like gun shots. He thinks that Miss Kelly may have been in the room with him. He saw her later and recognized her shoes. She was trying to dial 911.

Someone said that it was clear and told everyone to run out to the emergency door and straight across the sidewalk. He got up and left his pack pack in that room.

Travis said that going across the parking lot he saw Leigh Camens, a student. She had on big clunky sandals, and she jumped over the wall. There was another girl in a leg brace. He helped her. They went past the fence.

Travis went to the seminary. Other people were there. Chris Stafford, another student, a junior, was at the seminary school. Chris's 5th hour class is at the seminary and he was there during the shooting. Travis said that he was in the seminary about 3 hours, give or take a half hour.

Travis said that the name of TCM was given to the group by other kids because of the trench coats they wore. He said that the TCM just sort of adopted the name.

I spoke briefly with Sharon Hill, Travis's mother. She didn't remember where she heard it, but she heard that one of the wounded boys saw 4 to 5 kids taking bombs out of their back packs and throwing them around. She had no further information.

Team Four guideline questions attached to this report. Also attached is a diagram of the cafeteria and a hand drawn diagram.

No further information at this time.

Erin Powell Hoffman, DOB 04/08/1984, 6565 West Hoover Place, Littleton, Colorado, telephone (303)795-8457, was interviewed at her home in the presence of her parents, Raina Powell and Monty Hoffman by Special Agent(SA) Ricky V. Wright regarding the incident that took place on 04/20/1999 at Columbine High School. After being advised as to the identity of the interviewing agent and the nature of the interview, Hoffman provided the following information:

At approximately 11:10 am, Hoffman got out of English class and proceeded to her locker, locker #1090. From her locker, Hoffman went to the cafeteria. Hoffman's lunch time officially started at 11:15 am. Hoffman set her green Jansport bookbag at the lunchroom table (marked EE on diagram sketch) and then went to the cafeteria restroom. When she returned from the restroom, she sat down at the table to talk to her friends. Hoffman was sitting at the table with her back to the kitchen. Hoffman cannot remember everyone who was sitting at the table, but does remember that Kim Anderson, Jamie Klement, Kristin Cardwell, and Elizabeth Nolan were at her table. Cardwell set her book bag to Hoffman's right, but was in line at the kitchen when the commotion started. Hoffman does not remember if anyone was sitting to her left.

Shortly after she sat down, Hoffman heard William Sanders yell for everyone to get down. Sanders was crouched just outside the teachers lounge. Hoffman did not know what was wrong, but got under the table. Everyone else got down as well and those students who were closest to the windows started crawling away. Hoffman remembers seeing Nathan Vauderau crawl by her table. Everyone stayed down for less than a minute and then got up and started screaming and running in all directions. Some of the students ran down the foreign language hall and others ran into the auditorium. Hoffman ran up the stairs to the main level and then ran down the hall toward the math hall, which is in the opposite direction of the library. While running Hoffman could hear shots being fired from somewhere outside the cafeteria by the teachers lounge.

Once in the math area, Hoffman and three boys from the cafeteria ran into a class room in the southwest corner of the

math hall. They warned the teacher and the students in the classroom that shots had been fired and everyone in the classroom got down under the desks. After a few minutes, the fire alarm went off, but no one left the room. A few minutes later a teacher came and opened the door and told everyone to get out of the building. Everyone in the classroom exited out the door on the southwest corner of the math hall. They then ran across Pierce Street to Leawood Park.

Hoffman never saw any of the gunmen. Hoffman did not remember seeing any large duffle bags sitting in the cafeteria. Hoffman said it was not unusual for students to be carrying large duffle bags containing sporting equipment. Hoffman does not know who was sitting at the table behind her (marked RR on diagram sketch). Hoffman believes that Sarah Brown, Ben Smith, Jami Amo, Joe Dreaden, and Seth Dubois were also in the cafeteria at the time of the incident.

Hoffman did not know Eric Harris, Dylan Klebold, or any of the other members of the Trenchcoat Mafia.

That day, Hoffman was wearing black shoes, a black skirt, a white t-shirt, and a blue cardigan.

INVESTIGATION:

On April 30, 1999 at 0800 hours I contacted Dusty Hoffschneider at his home for an interview. Both his parents were present. Dusty then told me the following:

* He is a sophomore at Columbine High.

* When asked about Eric Harris, he said that he has never seen him before and did not know his name. The same went for Dylan Klebold.

* He has heard of [redacted] and thought he was a student associated with the trench coat students. He also thought he was the one who always wore a green beret. He described the wearer of the green beret as a white male, 6', 160, thin with brownish-blond

hair past the ears, unknown if facial hair. When asked if that male might be a [redacted], he said he was not sure.

* He does not know any other person in that trench coat group.

* He has heard of the name, "Trench Coat Mafia" before and thought they were "no big deal." He would see them hanging out in the cafeteria behind the stairs.

* He said a friend of his named Greg Barns told him that two or three trench coat students missed a class he had with them on the day of the shooting.

* When asked if he saw any of the trench coat students or the students whose names are mentioned above at the school the day of the shooting he said no.

* He saw no items out of place that day at school and in the cafeteria. When asked specifically, he said he did not see any duffle bags.

* After his 4th hour math class, 11:10 a.m., he went to his locker nearby and then down the stairs to the cafeteria. He dropped his backpack off at a table. He looked at the diagram and thought it was table JJ. (This matched the location his pack was found.) He then went to Rebel Corner for a soda. He came back to the table and sat there for lunch with; Joey Millazo, Josh Bushman, Pat Simmington, Brad Pesicka, Ryan Ezzie, Mike Leary and Dominic Desaveio.

* He said around 11:20 a.m. four kids came running in the west door to the cafeteria and said that, "Someone got shot." He said teachers started to run around telling everyone to get down. He said Mr. Sanders ran in front of the lunch line from the west and over to the stairs.

* He got down by his table and saw smoke out in the parking lot to the west.

* He was wearing cargo shorts, sandals, and a blue polo shirt.

* He did not think the situation was serious. He then walked to the kitchen and entered via a door on the east side. He was with Pat, Josh, and Dominic. He saw that there were a lot of people "piling" into the back storage room off the kitchen. They then were standing in the kitchen and heard two big explosions. Smoke was then coming into the kitchen.

* They stayed in the kitchen for a few minutes and then crawled west through the kitchen to the west cafeteria door. He said that 10 minutes had passed by then.

* As they were going out that west door, they had to step over a wounded boy who was on his stomach in the doorway. He saw two more wounded kids in the area of the bottom of the outside stairs to the hill. They went up the stairs and saw another wounded kid up by the top of the stairs.

* They ran up the hill and encountered a cop who told them to run back south through the lot. They eventually ended up in Clement Park.

* He heard several gunshots while in the kitchen. He then smelled gunpowder. He knew this smell as he is an avid hunter.

* He never saw the suspects. He did see that there were several students still huddled in the southwest corner of the cafeteria as they were leaving.

This concluded my interview with Dusty Hoffschneider.

OBSERVATION / INVESTIGATION:

On April 28, 1999 I was assigned to interview Lacey Marie Hohn. Lacey is a student at Columbine and was possibly in the cafeteria at the time of the shootings. Also Lacey may have seen the shooters. I contacted Ms. Candy Fisher, Lacey's mother, and made an appointment to interview her on April 29, 1999 at 1000 hours.

On April 29th at 0950 hours I arrived at 6342 South Spotswood Street and conducted the interview with Lacey Hohn.

Lacey said that she had been in the cafeteria on April 20th. She continued to say that she arrived in the cafeteria at about 11:00AM. She advised that she was sitting at one of the tables identified as "P", "O", "Y", or "Z" she was not exactly sure, but thought she was seated at the table identified as "O" on the diagram marked HOHN 1. Lacey continued to relate that she was sitting with:

(1) Jane
(2) Candice
(3) Nichole
(4) Katie

Lacey could not provide the last names of the subjects. Lacey advised that she did not see any duffel bag on the cafeteria floor when she arrived in the cafeteria. However, she related that there were many back packs on the floor when she got to her table. Lacey confirmed that she did leave her back pack in the cafeteria and described it as a yellow "wolf creek" and it contained some binders. She said that she had just put her books in her locker before going to the cafeteria.

Lacey reported that the first she knew there might be a problem was when all of the kids sitting in the north-west corner of the cafeteria began jumping under the tables. At about this same time she looked out of the window and observed Dylan (klebold) shoot a girl with a shot gun. Lacey stated she actually observed the shooting. She continued to say that the victim must have been on the ground as Dylan was leaning over when he fired the gun. This shooting occurred outside of the west cafeteria exit. Lacey stated that after the shooting she left her table and started toward the victim to see if she could help her, however, before going too far she paused and then retreated. She advised that she met Anthony Curoso and told him some had been shot. Lacey advised that she left the cafeteria by way of the lower level of the auditorium. Lacey said she believed the person who was shot outside the cafeteria was Rachel Scott.

Lacey stated that she went up the stairs in the north-east corner of the auditorium to the upper (main) level of the auditorium. Once in the upper level she and a boy she knew as "Scott" started to leave by way of the north-east auditorium door. As Scott opened the door they were fired upon from the west end of the hall. Lacey continued to say that they broke and ran across the hall, and at this time she saw two shooters at the junction of the north main level hall way and the library hall. She reported that she recognized one of the shooters as Dylan (Klebold) but she did not get a good enough look at the second person to know who he was. She advised that the second was wearing a black coat, not a trench coat but more like a jacket, and black pants. She advised that Dylan was wearing a black trench coat. Lacey said that they ran across the north hall and into the gym hall and while doing so were fired upon by the shooters.

Lacey said that they went into the gym where the girls dance combo was and then hid in the wrestling room for about five minutes. They then exited the school by way of the weight room. She ran into Clement park where she located her sister Penny. They waited for a friend, Carrie, and when Carrie arrived they all got into Evan's car and drove Evin's friends (Will) house. Lacey did not know Evan or Wills last name. She said that Carrie said she (Carrie) had walked out of the west main level door on her way to the "smokers pit" when she walked by two of the shooters who were about ready to enter the school. Lacey advised that she believes that Dylan walked up the outside stairs from the cafeteria enterance to the west, north hall enterance, and from there he and the second shooter entered the school. Lacey continued to say that Carrie said one of the shooters, she walked by, was wearing a white t-shirt and the second one was wearing a black trench coat and had a gun in his belt. Carrie related she thought the gun was a toy. Lacey identified Carrie as CARRIE KLAPPER she also provided a phone number of (303) 973-9241 for Carrie. Lacey identified to of the girls she met in the gym as Jessica Jones and Erin Brickley. Lacey also stated that she believed that the school principal was also standing in the gym hall.

Lacey stated that she could not provide any information as to who might have brought bombs into the school or had provided the guns. She continued to say that she has no contact with the Trench Coat Mafia and had heard no rumors about pending trouble on the twentith. She continued to say that she was not familiar with the suspects computer names as she does not have a computer and does not use the internet.

Lacey looked through a series of photographic line ups and identified photo number three, in the display marked "#1" by this detective. She identified this person as Dylan. Lacey continued to look through the rest of the photographic displays but was not able to identify any of the other people displayed as the second person who had fired on her. She did say that the person depicted in photo number three was the same person who had shot the victim outside of the cafeteria. Lacey reported that she just did not get that clear of a look at the second shooter. She also said that the pictures in the displays were very old.

We obtained a phone number of (303) 471-2752. US West shows the phone number given for Carrie Klapper (973-9241) was issued to Gary L. Klapper at 8946 W. Prentice Ave. Littleton. The number provided for Evan is a non-published number.

Malynda said that she was in the cafeteria at about 11:25 a.m. and she heard, what she believed, to be shots fired in the cafeteria area. I asked Malynda where the shots came from and she said she believed by the windows at the end of the cafeteria. Malynda pointed to windows which are on the rounded wall of the cafeteria in the sketch. Malynda said she then heard someone yell "Duck" and to get under the table, w[illegible] she did. Malynda said she then heard more shots and at this time Mr. Andres, Jr., told everyone to go to the auditorium. Malynda said they left the cafeteria and ran to the auditorium. I asked her if she saw any type of explosives in the school and she said the only thing she remembered seeing was "black stuff" on the floor. When asked where she saw the "black stuff", she said in the lunch room and in the hallway. I asked Malynda if she could explain what the "black stuff" was and she said it looked like something that would come from a pipe bomb. I asked if she had ever seen this type of material before and she said, no, she had not. I asked her if anyone shot at her and she said no, they did not.

I asked Malynda if she saw anyone carry two duffel bags into the cafeteria and she said, no. I then asked if she had seen two duffel bags in the cafeteria and she again said no. I asked Malynda if she knows who Eric Harris and Dylan Klebold were and she said "no". I asked Malynda if she had left anything in the cafeteria and she said just her "word wise" and her "lunch". Michael Huntington
7563 W. Quarto Ave.
Littleton, CO., 80127
303/977-5708

CHS student, was in the cafeteria.

On May 5, 1999, this investigator met with Michael Huntington at his residence. Present during the interview were his parents, Kathy and Kerry Huntington.

Michael stated that he arrived in the cafeteria at approximately 11:05 a.m., having come from his fourth hour class which is off-campus. He said he had walked from that class, held in a house near the school and did not see anything unusual outside. He was shown a diagram of the cafeteria and was asked to indicate which table he had been seated at. He advised that he was not sure of the exact table, so he circled tables "M" and ""BB." He said that others at his table included: Daniel Granger, Spencer Wright, Aaron Wright, Casey Jacklyn, and Seth Dubois.

Michael advised that shortly after sitting down, he heard what he thought could have been gunshots coming from outside the cafeteria, from the northwest. He said that there were a number of shots but could not say with any certainty, the number of shots. He

did believe that the shots were not in quick succession. He said there was some time between each shot. He said he then heard someone yell "get down." He did not know who that person was. He said that he ran through the cafeteria and then up the stairs to a hallway that goes east, in between the social studies area and the math area. He exited the school and ran into Clement Park. He recalled that while he had been running up the cafeteria stairs, he heard five gunshots which were in rapid order. He could not determine where they came from.

Michael was unable to provide any further information.

Investigation continues.

On 5/5/99 I interviewed 14 year old CHS student Casey Jackman at his home in Littleton, Co. Casey's mother was present for this interview.

Casey stated that he was in the CHS cafeteria for "A" lunch which began at 11:20am on 4/20/99. He stated that he had come from science class and walked alone to the cafeteria. He arrived and ordered nachos at rebel corner. He sat down at his usual area with friends Mike Kellogg, Justin Alber and Phil Secress. I showed Casey a drawing of the CHS cafeteria which depicted all the tables. I pointed out certain areas to help Casey understand the lay-out of this drawing. Casey pointed to table "M" near the west windows as the table he and his friends were seated at. Casey recalled he sat down with his back towards the windows, facing the cafeteria. He had just sat down when the commotion began.

He did not notice any unusually large duffle bags in the cafeteria, but stated that "everyone carrys a backpack". I advised Casey I was looking specifically for a larger duffle bag. He stated he did not see this. He also stated he did not see anybody suspicious carrying a large duffle bag earlier in the day, or the previous day.

Casey stated that around 11:30am he heard "pops" behind him and everybody stood up. Casey thought there was a fight. A janitor yelled for everyone to get down, which Casey did. He recalled hearing someone say that someone had been shot. Casey was not sure who said this.

He stated everyone began to run towards the steps. Casey stood up and ran towards the steps with a large group and upstairs into the main hallway. He recalled hearing "semi automatic" gunfire behind him as he ran up the stairs. He described semi automatic gunfire as "rapid type fire". He continued straight ahead with several students, and ran out of the building through the exit doors south of the main entrance. He did not encounter any gunman while exiting the building. He ran out, crossed Pierce street to Weaver street and ran into a home somewhere on Weaver street with other students. He then left this house and ran to Seth Debious's house on Calhone place. Seth is CHS student and a friend of Casey's.

Casey stated he did not see any gunman as he left the building, and he did not see anybody suspicious outside the building as he left. He recalled there were many students running.

Casey left behind a yellow/blue Timberline backpack with books and a calculator in it. He was wearing a navy blue long sleeve shirt with a blue hat.

Casey had no more information on the shootings, and no information on any of the TCM members.

On 4/29/99 I interviewed 15 year old CHS student Nicole Janda at her home in Littleton, Co. Nicole's mother was present for this interview.

Nicole advised me that she was in the cafeteria at CHS when the shooting began around 11:25am. She had come to the cafeteria from the choir room to attend "A" lunch which stated at 11:15am. She and Carmen Deihi walked together to their table, then to the lunch line. She sat with 5 other CHS students: Carmen Deihi, Stephanie Wise, Megan Sholembine, Kelly Carpenter and Robyn Saraphine. I provided Nicole a drawing of the cafeteria, which depicted all the tables and their location in the cafeteria. I pointed out specific areas, such as food line, kitchen and west windows of the cafeteria to give Nicole a better understanding of the lay-out in this drawing. Nicole looked at the drawing and pointed to table Z as the table she and her friends were seated at. She recalled that she was seated facing the kitchen and that Carmen was on her right. Nicole circled table Z on the drawing and initialed where she was seated.

Immediately after sitting down to eat, she saw everyone standing up to look out the west windows. She looked over and saw a tall (6') man wearing a trench coat, black backwards cap, wavy chin length brown/blonde hair pointing a gun at an angle towards the ground. Nicole saw the gun go off, describing this as a "jerking motion with smoke". She described the gun as black, about 12" long.

She got under her table with Stephanie and then ran upstairs with most of the kids running out. She ran into a science room, then into a storage room next to the science rooms. A few minutes later she heard boys laughing outside in the hallway and continued hearing gunfire and explosions. She did not recognize any voices, but believed it was 2 different people. At one point, she heard a girl screaming in the direction of the main hallway outside the science rooms.

She remained in the science storage area, hiding between 2 shelves until she was rescued by SWAT. She did not see the gunman upstairs, but did hear them laughing out in the hall.

Nicole could not say who the gunman was that she saw outside the cafeteria at 11:25am. She said it was to fast.

Nicole was wearing a black short sleeve tshirt with jeans. She left behind a green backpack with netting on the bottom and black straps. Inside were books, notebooks and a calculator.

Nicole knew of Dylan Klebold through school, but did not socialize with him. Nicole stated she did not notice any large or unusual duffle bags in the cafeteria when she arrived at 11:15am. She had no further information regarding the shootings.

INVESTIGATION:

On 04-28-99 at 1615 hours I interviewed Shelly Jenkins in the presence of her mother at her home. Shelly stated that her mother drove her to school on the morning of the 04-20-99 arriving at approximately 0730 hours. Shelly stated she used the main entrance of the school and did not notice anything out of the ordinary. Shelly stated that she had never seen ERIC HARRIS before. She had seen KLEBOLD before but never knew his name. She stated she had heard about the "trench coat mafia" group. She knew one girl who was part of the group named Lydia who she described as being very nice, having had contact with her in a class previously. She did not see any of the members of this group between classes that morning. Shelly also knew another member of the group by the name of Brian Sergeant. She stated she knew him personally but not very well.

Shelly stated she had a keyboarding class with Mr. Sanders during her fourth hour. This class is downstairs and after it was finished, she walked directly into the cafeteria through the downstairs hallway. She stated that it was approximately 1112 hours when she walked into the cafeteria. There were lots of kids in the cafeteria already and she stated nothing was out of place She described it as a pretty normal day Shelly brought her lunch so she sat down at a table immediately. She indicated on the attached diagram the table she thought

she sat at and she added a list of kids that sat with her. She stated approximately five to seven minutes had passed after she sat down when a lot of kids got up and rushed to the west window. She thought it was another fight that they were watching. Then she heard loud bangs. She stated Mr. Sanders came into the cafeteria from the outside north west cafeteria exit door. Mr. Sanders yelled at everyone to get down. Shelly stated she and the others got on the floor under the table. She stated Mr. Sanders went back outside and then immediately came back in the cafeteria. They heard a lot of bangs and booms. Shelly stated that a lot of them thought it was a senior prank.

Shelly then heard some kids yell, "they have guns" She stated she and approximately 50 to 75 other kids ran east through the cafeteria to the kitchen area. She stated the two auditorium doors were closed. Mr Andres was on the other side of the doors and pushed them open for all the kids to come through. She stated she ran into the auditorium and ran to the upper level of the auditorium and out into the hallway (north east portion of the auditorium) She stated that she heard gunfire as she ran toward the front door but stopped when she noticed that the window had been shot out of the front doors. She looked back over her shoulder and noticed that the barrier was closed in the hallway to the west of the auditorium doors. She stated she was with a lot of other kids when they left out the north exit near the gymnasium. She then ran to Clement Park.

Shelly stated she had a backpack with her and carried it outside. She stated she was wearing a black skirt with a gray sleeveless vest and black sleeveless shirt underneath. She had on black boots.

At this point Shelly's mother, Donna Jenkins, added that Shelly's 18 year old brother, Brad, was in the west parking lot during this time. Brad was there to pick up a friend. Mrs. Jenkins explained that Brad is not currently enrolled in Columbine High School. Mrs. Jenkins stated that Brad did see the two suspects with guns in the parking lot and at that time decided to leave the parking lot. Brad's date of birth is 06-24-80 and he can be reached at the Jenkins' home.

INVESTIGATION:

On April 29, 1999 at 1603 hours I contacted Jared Jensen at his home for an interview. Jared's father, Dan, was present. Jared then told me the following:

* He is a freshman at Columbine High.

* When asked about Eric Harris, he said he has seen him around the school but does not know him. He thought Eric dressed normal for school.

* When asked about Dylan Klebold, he said he never has seen him in school and does not know him by face or name.

* He did not know [redacted] or [redacted]

* He has seen two to three students who dress in trench coats but was not aware of the formal name of Trench Coat Mafia.

* He did not see Eric, Dylan, or any other trench coat students at the school the day of the shooting.

* He did not see any objects out of place or suspicious persons in the school or cafeteria that day. When specifically asked, he did not see any duffle bags in the school or cafeteria.

* He got out of his 4th hour earth science class at 11:10 a.m. He went to his locker by the science area and then to Rebel Corner for his meal. He then went into the cafeteria with his meal and sat at a table in the middle by the south exit doors. Upon looking at the diagram, he thought it was table G or H. He was with Chris Masias, Lauren Tocci, Jocelyn (unknown last name) and Jennifer Ribble. (Ribble and Tocci's backpacks listed at table G.)

* He then noticed that a janitor was telling everyone to "get down." The janitor was between the south exit doors and the tables. He got on the floor and then saw smoke coming from out in the west parking lot behind the cars. Everyone then ran out of the cafeteria. He went up the stairs. He heard what he thought were five gunshots. He then ran down the hallway to the east and out the doors in the southeast part of the school (foreign language area).

This concluded my interview with Jared Jensen.

FBI CASE 4-DN-57419

WITNESS CONTROL NUMBER 2716

JCSD CASE 99-7623

Reporting investigator, P.J. Doyle, is a commissioned peace officer employed by the District Attorney in the First Judicial District serving Jefferson and Gilpin Counties. I am currently assigned to assist in interviewing witnesses from Columbine High School.

On May 17, 1999 I spoke to Ben Johnson, a Freshman.
DOB: 11-21-83
7410 S. Webster Street
Littleton, CO 80128
303 972-6645
Dad is Ben Johnson, Sr.

Ben's father was present during the interview.

Ben told me the following:

He was at school all morning on the 20th of April. He has second hour free and went to the cafeteria at 8:30. He saw nothing unusual. He sat at table MM, and then went to his Spanish class.

Ben went back to the cafeteria for lunch at 11:10. He sat at a table close to the student store with Jason Hensley, Mike Foster, BJ Secord, Brook Allison and Braden Pollard.

Ben bought his lunch and then sat down. He'd been eating for about five minutes. The janitor told everyone to get under the table. Ben did. After about one minute, everyone started running out of the cafeteria. At first Ben though there was a fight. He didn't hear any gunshots. He ran out of the door by the student store. He went to "some guy's" house. He just knocked on the door and didn't know who lived at the house. He stayed there until he was told to go to the library.

Ben said that he never heard gun shots. When he got to the house, he heard what sounded like a bomb, and the windows of the house were shaking.

Ben left his blue Eastpack in the cafeteria. In the back pack was his math book and some C.D.s. His school ID was also in the pack.

He never saw the shooter(s). He didn't know Eric Harris or Dylan Klebold until he saw them on television. He didn't know what the TCM was all about until this incident. He had seen one guy, Robert Perry, in the halls last semester wearing a trench coat. Ben looked in his year book to get Perry's name. Ben said that he heard around school that [redacted] had turned himself in.

The day of the shooting, Ben had worn shorts and a red Old Navy shirt. Ben doesn't use the Internet. He knows no one with a double pierced eyebrow. He noticed nothing unusual on the RNN.

A diagram of the cafeteria is attached to this report.

No further information at this time.

NVESTIGATION:

On 06-07-99, between the hours of 1507 and 1528, I had an opportunity to speak with Katherine Jorgensen in reference to the Columbine incident that occurred on 04-20-99. Also present at the interview was her mother, Julie Joregensen.

Katherine explained that she arrived at school on 04-20-99, at about 0805 hours, and her mother had dropped her off at the main entrance of the school. Katherine attended her normal scheduled classes telling me that her fourth period class is choir taught by Mr. Andres, Jr . After being released from her fourth period class, at about 1110 hours, Katherine proceeded to her locker, which is #800, and she described it as being right across from the library. After she went to her locker, Katherine said she went down to the cafeteria and arrived at about 1115 hours, where she placed her backpack on the table I provided Katherine a diagram of the cafeteria at the school and asked if she could tell me which table she was seated at. Katherine, after looking at the diagram, told me she was seated at table "KK." I asked her who was seated at the table with her, and she told me her friends, Keira Odell and Nicole Ziccardi. After she placed her items on the table, she proceeded to Rebel Corner where she was going to get something to eat. After returning to the table, she told me her back was to the west windows of the cafeteria, and that she recalls a janitor over near the food service line, and he was yelling at the students to get down. Katherine also recalled that she heard someone yell, "They've got guns," but she couldn't provide any information who yelled that.

I asked Katherine if she had any idea why she was being told to get down under the table by janitorial staff. She said at first she thought there was a fight, and she recalls shortly after they got down under the tables, that the students who were over near the west windows of the cafeteria got up and started to run east. She told me she was one of the first parties out of the cafeteria, and after she left her table, she ran up the stairs to the main level of the school, and ran east down the math/science hallway Once she reached the east doors, she exited from the school and ran over to Leawood Park. Katherine explained that once she reached Leawood Park she heard explosions, and they didn't stay at the park long, they went over to her friend, Lindsey Blair's, house where they sought refuge in her home.

Katherine was asked while she was in the cafeteria, or after she had exited from the school, if she ever observed any gunmen at the school She said she never observed any gunmen, but she heard a couple of gunshots and heard what she thought were explosions.

Using the map of the cafeteria area, I asked her if she observed two large duffle bags, one being blue and the other being an organish/red color which were located in the central core area of the cafeteria. I asked her if she observed these bags or if she saw anyone bring the bags into the cafeteria. She was unable to provide any information about the bags.

Katherine was asked if she had observed anything out of the ordinary when she was at her locker prior to going down into the cafeteria at 1115 hours. She said there was nothing out of the ordinary which would have led her to believe anything was wrong I also asked her if she had any idea what the phrase of the day was at school. She said she did not know it. I asked if there were any rumors prior to 04-02-99, of anything that was going to occur. She could not provide any information. She was also asked if she specifically knew Eric Harris or Dylan Klebold, or any associates of the Trench Coat Mafia. She said she did not know Harris or Klebold, and she did not know the Trench Coat Mafia existed until after this incident.

Katherine was asked if she could recall what she was wearing on 04-20-99 She said she was wearing a red tank top, a pair of blue jeans, and a pair of brown shoes. I asked her if she had left anything else behind when she left the cafeteria other than her backpack. She said there was no other personal property left behind.

She said that she could not recall who was at the table with her but she could remember that when she ducked under the table, Shannon Myers was under there with her. Lindsey said that she was unaware that something was happening unit she saw several students jump up at a table nearby. She first thought that there was going to be a fight. Then Mr. Sanders and a janitor came running by and were telling everyone to get under the tables. She said that while under the table, she did not hear any explosions but thought that she might have heard what sounded like gunshots. She said that when everyone began running from the cafeteria, she followed suit. She exited the cafeteria through the main door then she ran up the stairs, past the library then down a hallway passing the science rooms and math rooms. She exited the school through the doorway on the opposite end of the cafeteria, ran across S. Pierce St. and did not stop until she got to Leawoood Park. Lindsey said that she was in the park for approximately 15 minutes when a teacher came by and told everyone run from the area.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/27/99

Timothy Earl KASTLE, DOB: 07/04/81, was contacted at his residence, 8973 Brandt Place, Littleton, Colorado on April 24, 1999 at approximately 4:30 PM. He was advised of the personal and professional identities of the writer and Agent Jerry Means of the Colorado Bureau of Investigation. KASTLE's parents, Earl and Kim KASTLE, were present during the interview.

KASTLE advised that he is a senior at Columbine High School. He advised that on April 20, 1999 he was in the cafeteria talking to a friend, Adam SANDS, who was seated by the west window of the cafeteria. KASTLE said that he was not planning to have lunch in the cafeteria, but just stopped by to see friends.

KASTLE stated that he suddenly heard two loud bangs, and then heard a teacher, Mr. SANDERS, shout at everyone to get down. KASTLE stated that he first went into the kitchen, and then into the teacher's lounge. He overheard someone saying that someone had been shot.

KASTLE went into the bathroom, where he was joined by students Nick FOSS and Sean NOSSAMAN, and teachers Sue CARRUTHERS, Joyce JANKOWSKI and a female teacher whom he did not know.

KASTLE stated that when he went into the faculty lounge, he could see two bodies laying outside the window on the west side of the cafeteria. One of these subjects appeared to have had his face shot.

They locked the bathroom door, and heard numerous noises including loud bangs, screaming and the sound of people running. KASTLE stated that the sounds seemed to be coming from right outside the door.

Concerned that someone might come in to get them, they began to discuss climbing up in the ceiling to hide or escape. KASTLE climbed up into the ceiling, then assisted Joyce JANKOWSKI in getting up into the suspended ceiling area. JANKOWSKI moved to the west to an area just beyond the bathroom wall, over the area of the faculty lounge. JANKOWSKI then fell through the

ceiling, and into the lounge. She then scrambled back into the bathroom.

KASTLE stated that he crawled on top of a metal heating duct, and moved toward the kitchen, looking for a place to hide. As he did so, he knocked several ceiling tiles off in the area of a small bathroom which services the kitchen, and which is adjacent to the bathroom they had been hiding in.

KASTLE then began moving west, following the metal ductwork and then moving along a metal pipe held up by some wires. As KASTLE reached the area of the west wall, he looked back to the area over the bathroom in the kitchen area. As he did, he observed a subject in that area, whose head was just above the ceiling area. KASTLE said that the subject was pointing what he believed was a shotgun at him. He advised that he based this on the manner in which the subject pointed the gun at him. KASTLE stated that it was dark, and he could not see the subject well. He described the subject as having shoulder-length dark hair. KASTLE stated that he believed that the subject was Dylan KLEBOLD. He said he based this on the fact that the subject had not shot him, as KASTLE advised he is a friend of KLEBOLD's. KASTLE stated that the hair he described did not fit KLEBOLD, and nothing about what he observed of the subject led him to his conclusion that the subject could be KLEBOLD.

KASTLE kicked the ceiling tiles down where he was, and dropped through the ceiling. He landed in the faculty lounge next to the window through which he and others had earlier seen the bodies. KASTLE stated that at that time the window was intact. He then escaped the building via the door located just within the cafeteria area and ran to a marked police unit on the west side. He glanced toward the cafeteria area as he ran out, and did not see anyone inside. KASTLE stated that approximately one or two minutes later he saw Sean NOSSAMAN, Nick FOSS, and two of the teachers run out. FOSS later told him that he too had gone up into the ceiling area.

KASTLE recalled that at some point while they were in the bathroom area, Nick FOSS said that one of the shooter's was "the kid in the next class that wore glasses - Dylan". KASTLE also recalled a conversation with Nate DYKEMAN in which DYKEMAN commented that Eric HARRIS and Dylan KLEBOLD were not at school.

DYKEMAN told KASTLE that they had to be up to something, as they were never gone together in the past.

KASTLE described himself as being a friend of Dylan KLEBOLD's. He stated that he had talked to him the previous evening and were talking about some trades involving their fantasy baseball teams. He recalled that KLEBOLD talked about working a trade with Adam SANDS for player Roger Clemons. KASTLE characterized the conversation as being very normal, as was KLEBOLD's mood and demeanor.

KASTLE stated that he has known Dylan KLEBOLD for approximately three years, through school and their joint interest in fantasy baseball. KASTLE stated that he has had KLEBOLD in at least one class each semester since his second semester at Columbine High School.

KASTLE advised that there is a group of individuals who participate in the fantasy baseball league, and utilize a website belonging to Chad LAUGHLIN. KASTLE advised that the Internet address for the website is HTTP://members.AOL.com/orgasmo007. KASTLE stated that he only recently got an E-mail account, and has never received any E-mail on it. He advised that his screen name is "saltysquirts99", and his password is "wackit".

KASTLE stated that the "team owners" of the fantasy baseball teams included himself, Dylan KLEBOLD, Adam SANDS, Chad LAUGHLIN, Cliff ANDREWS, Ben HANSON, Dan PALMENTER, Jason SANDS, Jason FRASIER, Justin PALMENTER, Chris HOWELL, and Dan HALSEY.

KASTLE stated that he talked to KLEBOLD on a daily basis and currently had a class with him in fourth hour. They are both involved in video production. KASTLE stated that he has heard media accounts about videos that KLEBOLD allegedly made which depicted events similar to what occurred at CHS on 04/20/99. KASTLE stated that he never saw any such video.

KASTLE stated that he is not a member of the group which has come to be known as the "Trenchcoat Mafia", but has another friend who is named Nate DYKEMAN. KASTLE stated that DYKEMAN worked with Eric HARRIS and KLEBOLD at Blackjack Pizza, and that DYKEMAN was KLEBOLD's best friend until DYKEMAN became involved with Kristi EPPLING.

KASTLE stated that he had Eric HARRIS in his fifth hour class, and also spoke with him almost every morning. KASTLE advised that HARRIS kept to himself, and recalled HARRIS being upset about not having a prom date.

KASTLE was asked about KLEBOLD's hobbies and interests. He stated that KLEBOLD was into hard-punk music like Marilyn MANSON, and the German rock band KMFDM. KLEBOLD was also a Red SOX fan and a Roger Clemons fan. KASTLE stated that KLEBOLD was a good guy, and that what took place was definitely out of character for him.

KASTLE stated that he has never been to KLEBOLD's residence. He has never heard him discuss anything about guns, bombs, or mentioned things like the Anarchist Cookbook.

KASTLE recalled Nate DYKEMAN telling him that HARRIS and KLEBOLD never made it to their bowling class on the morning of the shooting. Chad LAUGHLIN also told him that as he was leaving campus and KLEBOLD was arriving, LAUGHLIN "flipped off" KLEBOLD in the parking lot.

KASTLE stated that he was interviewed on 20/20 at his residence. He said that while the crew was there, he overheard a female crew member saying that [redacted] had brought a duffel bag to the school. He did not know who the female crew member was.

Supplementary Report

Ref: Interview of Columbine Senior student Timothy Kastle DOB 07-04-81

On 05-06-99 at 10:00 A.M. Detective Terry Demmel, assigned with the Columbine Law Enforcement Task Force, contacted Columbine Senior student Timothy Kastle DOB 07-04-81 at his home for the purpose of an interview. Tim's mother Kim was present and stated that Tim had already been interviewed by the FBI but agreed to another interview. Timothy reported that on Tues. the 20th he had 4th period Newspaper class then went outside and talked with his friends Chad Laughlin and Jeffrey Marquardt. Tim reported that he couldn't find his friend Andy so he went inside the cafeteria. Tim was talking with his friend Adam Sands about baseball when Mr. Sanders came in and told everybody to get down.

Tim then ran into the kitchen briefly and then turned around and ran into the teachers lounge. Tim looked out of the windows and saw two students laying on the ground that were bleeding and appeared to him to have been shot. He could not tell if the students were male or female he stated. Tim stayed in the teachers lounge bathroom approximately 1 ½ hours with friends Nick Foss, Shawn Nossaman and teachers Sue Cruthers, Joyce Jankowski and another unknown female teacher. While in the bathroom Nick Foss boosted Tim up into the ceiling. While Tim was crawling up in the ceiling he knocked a ceiling tile loose that fell into what he thinks was the kitchen bathroom. He then crawled across some vent pipe material when a party stuck their head up through the hole and pointed a gun at him. Tim stated that he is not sure who the party was but that he thinks it was Dylan Klebold. Tim stated that he had known Dylan for the last 3 years; that both Eric Harris and Dylan Klebold were in his 5th hour Psychology class with teacher Tom Johnson and that he talked with them daily and considered them good friends; and that Dylan had been to his birthday party last year.

Tim felt that it was Dylan who stuck his head through the ceiling and pointed the gun at him and then eased back down without shooting him. Det. Demmel asked Tim why he

thought it was probably Dylan that pointed the gun at him and did not shoot him with Tim relating that he had called Dylan Sunday evening the 18th at about 8:00 or 9:00 P.M. and that they had discussed a Fantasy League baseball game that they played with 10 other students. Tim explained that his friend Chad Laughlin played the role of the baseball commissioner or owner and that the people who played the game pretended that they traded players. He stated that in his conversation with Dylan on the 18th that Dylan had talked about trading someone for Yankee's pitcher Roger Klemens. Tim reported that Dylans attitude and demeanor seemed normal.

In discussing any drug use that Tim was aware of concerning Eric Harris and Dylan Klebold Tim stated that he was aware that Dylan took some kind of energy pills that he bought at the store.

Tim stated that Nate Dykeman was his best friend and that he had called and talked to Nate in Land of Lakes, Florida last night which was May 5th. Tim stated that Nate had been very close with both Eric Harris and Dylan but had recently gotten a new girlfriend by the name of Christy Epling who, along with his job at the Firestone store located at Pierce and Elmhurst, had kept Nate occupied and busy. In asking what Nate had talked about in their phone conversation last night Tim stated that Nate thought that Eric and Dylan had probably carried their bombs into the school during a 2 hour block of time that they disappeared from the after prom party at the school. Tim himself was at the after prom party along with his mother Kim who acted as a chaperone. Tim said that he didn't realize that both Eric and Dylan had left from 2:00 to about 4:00 A.M. but that he did talk to Dylan about 4:00 A.M. about boxing with 5 pound gloves in a game that had been set up for the students. They decided not to box and then went separate ways. Tim stated that Nate had told him that both Eric and Dylan had disappeared from the party between 2:00 and 4:00 and that was his theory of when they may have carried materials into the school and hid them.

When Det. Demmel asked Timothy if Nate Dykeman had any prior knowledge that Eric Harris and Dylan Klebold were going to do something Tim replied that Nate had said he knew they were going to do something but that he did not know they were going to do what they did.

4-20

Neither Dylan nor Eric were in class today 4th hour, Creative Writing Eric never misses class. Several weeks ago during a short story writing unit, Dylan wrote the most vicious story I have ever read. It concerned a man walking into a room and "blowing away" all the popular kids. I told Dylan the story was violent and unacceptable — vicious indeed. I made a copy for his counselor (Brad Butts). I also talked it over with his parents. Dylan simply remarked, "It's just a story."

Eric frequently makes machine-gun shooting gestures and writes Marine type creative stories.

Today 4-20 is perhaps a marijuana-related anniversary since Dead Heads and others smoke marijuana every day at 4:20

Today I was in the cafeteria following class. The janitor and a teacher told the cafeteria crowd to "get down". We moved the students through the

cafeteria hearing shots we moved about 30 into a classroom to barricade them since we still heard shots, we evacuated the school running to the house next to the school.

Background:
Greg BARNES was in Creative Writing taught by Ms. KELLY. Just before class dismissed at 11:10 AM on 04-20-99. A student (known as a TCM) ran up to front of class and out of the room before the bell rang. BARNES was unable to find out who the student was.

Lead:
Interview Ms. KELLY in Creative Writing class to identify the student that left the class early.

Disposition:

SUBJECT: Judy KELLY
Teacher
Columbine High School

Ms. KELLY was interviewed on 05-25-99 at Chatfield High School, about 12:30 hrs.

KELLY had no information about any student who may have run from the room prior to the bell having rung to end 4th hour. She said that prior to the bell, the students lined up at the door as has been their custom in that class, and she said if one of them left before the bell, it was without her seeing.

While interviewing KELLY, I asked if [redacted] was in class on April 20, 1999 during 4th hour. Her initial reaction was that he was not in class that day, and said that he frequently did not attend class, but she was unsure due to the passage of time.

When I told KELLY that although two of the students who were in class that day told me that [redacted] was not in 4th hour class, the attendance records support that he was in class; whereupon she reversed and said she thought [redacted] was there.

KELLY said that the senior who sat next to [redacted] could probably tell us if he was in class that day. Her name is Crystal BRAGAZZI. (Lead generated).

I followed up by re-contacting the source, Greg BARNES (cell phone number 720-951-2180 / new residence phone 303-984-0343). BARNES told me that the student who left the room early that day was Matt RIECKS. BARNES does not recall BROWN being in class during that period.

Prior investigation (Control number 3354) reveals that RIECKS is a peripheral associate of the TCM, and that he left class that day to go to the tech lab to get onto the internet prior to going to

lunch. He was just leaving the tech lab when the shooting started, and fled the building. RIECKS is [redacted] best friend.

05/04/99

Judith Kelly, 8160 West Baker Avenue, Lakewood, Colorado 80227, telephone number: (303)989-2201, was advised of the identity of the interviewing agent and sergeant and the nature of the interview.

Information was received that Columbine High School counselor, Brad Butts and teacher, Judith Kelly were reportedly concerned about a creative writing paper Dylan Klebold wrote which detailed a planned shooting involving the Trenchcoat Mafia.

Kelly was advised that the above information was received and she voluntarily provided the following information:

Kelly stated that she is an English teacher at Columbine High School and Dylan Klebold was her student for a creative writing class. She advised that Klebold wrote a story for class as part of an assignment given to the students. Kelly reported that it was well written but very disturbing. She stated that she made a copy for the school counselor, Brad Butts and believes she returned it to Klebold after she graded it. She is not sure if she kept a copy which would be at the school. Kelly thought Klebold may have typed it on the school computer located in the Tech Lab. The teacher for the Tech Lab is Rich Long and the Lab Assistant is Peggy Dodd.

Kelly stated that the paper did not mention the Trenchcoat Mafia but remembers that it was about a man arriving in a town with guns who kills the popular type kids. The end of the story portrays this man or implys that this man is a God like figure. Kelly stated it was very well written, "literary and ghastly". She believes it was written in late February or early March of 1999. Kelly discussed the paper with Klebold stating its cruel and disturbing. She advised that Klebold replied that its just a story. She advised him she found it offensive. Kelly also stated she spoke to Klebold's parents at length about him handing in a disturbing story. Kelly stated that they did not seem worried and made a comment about trying to understand kids today. Kelly advised that her classroom is LA-8 (Language and Arts).

SA Elaine X. Lipka, FBI
Sgt. Thomas Conroy, CSP

Following the interview, Kelly paged SA Lipka to add that she was not sure if Klebold actually wrote the paper or if he plagiarized it.

Subsequently, on 05/04/99, SA Lipka and Sgt. Conroy proceeded to Columbine High School crime scene and located LA-8 classroom. In the classroom, SA Lipka located the paper described above in addition to papers written by Eric Harris, [redacted] and [redacted] Upon return to the Command Post, SA Lipka provided these papers, in an evidence bag, to Lead Investigator, Kate Battan, on 05/04/99.

INVESTIGATION:
On 05-05-99, I met with Lora Kenney at her residence, reference the Columbine shooting. I explained to Lora that I was there to talk to her regarding the shooting and where she was during that time. I then showed Lora a diagram of the cafeteria and asked her to circle where she was sitting the day of the shooting. Lora circled table "NN" and placed an "x" where she was seated. I asked Lora if she could tell me what happened that day. Lora said she was coming from the Language Arts hallway and entered the cafeteria to do her homework. Lora said while she was sitting there, the cafeteria became very quiet and she heard someone tell everyone to get under the tables. Lora said she then heard Mr. Sanders yell at everyone to get under the tables and stay there. Lora said they stayed under the tables for a short time and the Mr. Sanders told everyone to run upstairs. Lora said she did run upstairs past the science and math rooms and left the building through a door at the end of the hallway. She then ran to Leewood Park. I asked Lora if she heard any shots or explosions. She said that while in the cafeteria she believes she heard three shots and when leaving the building, she heard six more shots. I asked if she heard any explosions and she said not that she recalls, that she was just running and trying to get out of the school. I asked Lora if she had seen any of the shooters and she said, "no". I asked Lora if she remembers seeing two large duffel bags in the cafeteria and she said "no". I asked her if she remembers seeing anyone carrying or in possession of two large duffel bags and she again said, "no". I asked Lora if she remembers seeing Eric or Dylan on Monday or Tuesday and she said "no," she didn't know who they were. I asked Lora if she had left anything behind in the cafeteria. She said she left her blue Jan Sport backpack. I asked Lora if she had seen or talked to any of the Trench Coat Mafia members on Monday or Tuesday and she said no, she did not. I asked if she had heard anything about any other suspects making bombs or buying guns and she said "no". I asked what she was wearing that day and she said jeans, a blue tank top with a blue shirt tied around her waist. I asked Lora if she had any further information. She said she remembers hearing from someone (she does not know who), that there was another shooter in the school, who was wearing a white shirt, but she doesn't know who said that, and that's all that she's heard. I asked Lora if there was anything else that she can remember and she said no. I gave Lora a business card and asked her to call me with any further information and she said she would. At this time the interview with Lora was concluded.

INVESTIGATION:
On 05/05/99, I met with Jamie Kettlewell at her residence, reference the Columbine shooting. I explained that I was there to talk to her about the shooting and to find out where she was during the shooting. At this time I brought out a sketch of the cafeteria and asked her to show me where she was seated. Jamie pointed to an area by the service line and said she was standing there waiting to pay for her meal. I asked Jamie if she had a backpack on at that time and she said no, she'd left everything over next to the wall by table "K". I asked Jamie what time she was in the cafeteria and she said approximately 11:20. I asked her to tell me what had happened that day. She said while she was standing in the service line, a male known as Chris (LNU), ran into the cafeteria and told everyone to "get down" there was a "kid with a gun". Jamie sa hat she got down under a table and stayed for approximately 5 minutes. Jamie said she then got up from the floor and observed students running up the stairs. Jamie said she ran towards the bathroom area and heard approximately 5 or 10 students yelling to get out to the auditorium. Jamie said she went into the auditorium with numerous other students and while in there she remembered hearing, what she believed to be, the shooters pounding on the doors trying to get into the auditorium. Jamie said the shooters never entered the auditorium, that they finally gave up trying to get in. Jamie says she remembers a janitor coming into the auditorium telling everyone to run for the commons area, into the business hallway, and leave the school. Jamie said that she did run through the commons area and exited the school. I asked Jamie if she remembers hearing any shooting and she said she believes she heard shooting from the student senior lot. Jamie said that she heard from someone (she doesn't remember who), that Eric was standing at the top of the stairway by the cafeteria, shooting into the cafeteria. Jamie says she remembers running through the commons area to leave the school and it was full of smoke like something was on fire. I asked if she heard any explosions and she said that she did remember hearing an explosion while she was running to the auditorium. I asked Jamie what happened when she was outside. She said she went toward the Clement Park area and met up with Tiffany Burke, who picked her and other students up in her car and left the area. Jamie said that she believed this to be "strange" that Tiffany Burke was at school at that time, because she was not there during school in the morning hours. I asked if she knew Tiffany Burke and she said she had met Tiffany before, but Tiffany was being a "spokesman" for the girl who bought guns for Eric and Dylan, and that's the only reason she really knows of her at this time. I asked Jamie if she remembers seeing Eric or Dylan that day and she said, no, she did not. I asked if she had seen who the shooters were that day and she said, no, she had not. I asked her if she remembered seeing two large duffel bags in the ca ria and she said no. I asked if she saw anyone carrying or in possession of two large duffel bags and she again said, no.

On 5/6/99 I interviewed 15 year old CHS student Carder Kingsbury at his home in Littleton, Co. Carder's mother was present for this interview.

Carder stated he was in the CHS cafeteria for "A" lunch around 11:20am on 4/20/99. He had walked to the cafeteria from Mr Allison's wood class, near the administration area of the school. He walked alone and arrived at the cafeteria around 11:20am. He meet up with Travis Jones and Adam Henchy near rebel corner. They sat at a table next to the student entrance south of the cafeteria. I showed Carder a drawing of the cafeteria which depicted all the tables. He said there are 2-3 tables directly across from the rebel corner store near the student entrance, which were not noted on the drawing. He placed an X and circled it, as to where he was seated with his friends. He recalled another table in this area, with a few CHS students sitting at it. Carder did not know their names.

He recalled that around 11:30am everybody in the cafeteria laid down, then stood up and began to run towards the steps that go upstairs. Carder stated he did not hear any gunshots, but knew that something was wrong. He recalled getting on the floor for a couple seconds, then he immediately ran out the student entrance doors and turned directly towards the junior parking lot. He and Adam Henchy continued running and turned right on Pierce street. He looked back one time as he turned on Pierce street, but only saw students running behind him. He also recalled seeing a police car driving down Pierce

towards the school. Carder stated he did not see any gunman, or any suspicious people wearing trenchcoats inside or outside the building. He believed the group he was with, was some of the first people out of the building.

Carder stated he did not see any large duffle bags anywhere in the school as he walked towards the cafeteria. He did not see any large duffle bags in the cafeteria on 4/20/99, or the previous day. He had no more information on the shootings or on the TCM.

Carder left behind a black jansport backpack with books and notebooks in it. He could not recall what he was wearing that day.

WHEN INTERVIEWED:

WHERE INTERVIEWED:
RESIDENCE = 7539 WEST FROST DRIVE, LITTLETON, CO

ACTION TAKEN:

On May 6, 1999 the Reporting Agent Linda R. HOLLOWAY interviewed student Michael Edward KISH at his residence in Littleton. He was asked to relate what he did on April 20, 1999. He stated that he was picked up at his home by Mark RADTKE at 7:05 a.m. an arrived at the school between 7:15 and 7:20 a.m.

He went to the library where he played the game "blackjack" with Mark RADTKE, David SMITH, Kevin HANEY, Greg BARNES and Joel GOULD He then went to his first trough fourth period classes as usual.

He went to the lunchroom at 11:13 a.m. and sat at table WW next to the northwest door. During lunch he sat with Jeremy MULLEN, Mark RADTKE, Tanya WORLOCK, Sean NASHMAN (sp) and possible Matt WILSON (he was not sure if WILSON was there or not). He was talking and reading a magazine when he heard gunshots outside the cafeteria. He looked outside the window and saw a student shot (perhaps Shawn GRAVES). He stepped about 6 inches outside of the door, intending to help the shot student when he heard a loud explosion. He got up against the inside cafeteria wall next to the door. He heard other gunshots and ran into the kitchen area and then into the bathroom adjacent to the kitchen. He observed several other students starting to run up the stairs as he ran into the kitchen.

Once inside the small bathroom, he and the other students turned off the light and put their feet against the locked door. Other students in restroom at that time were: Jeremy MULLEN, Bret KASTAALNIK (sp.), Dustin (unknown last name), Fletcher (unknown last name) and another male and female who he couldn't identify.

They sat in the bathroom for about 2 hours. After they have been in there for about ½ hour, a fire started in the kitchen and the sprinklers started going off. He could tell that there were kids in the adjacent room. When they felt all was clear, they ran out of the bathroom and back through the kitchen and out the

cafeteria door (northwest door) and to where the police were waiting. He was interviewed by CBI Agent Larry Brown once he was outside of the school.

He does not remember seeing anything suspicious like large duffel bags or anyone carrying anything like the large duffel bag inside the cafeteria while he was there. He also stated that he knows by sight the two shooters (KLEBOLD and HARRIS) however, he does not remember seeing them anywhere in the school that day.

When asked what he left behind that day, he stated that he left a purple Xerox brand expandable file under table WW, on the floor. He was wearing a gray corduroy shorts, a white tee shirt with Stanley Cup Champs written on the front and a Bronco orange baseball cap. He did not have a backpack that day.

He had heard from student Joel BOULD that when he was running from the school, he saw three kids hop in a jeep by the front entrance, near the teacher's parking lot.

When asked about his knowledge of the Internet, he stated that he uses the Internet at school and at friend's homes. His screen name is "BLADE" or "CASH". He has not ICQ number. He does not know anyone with a double pierced eyebrow.

When asked if he remembered seeing or hearing the Thought of the Day, he recalled that he may have been "TODAY IS NOT A GOOD DAY TO BE HERE – 4-20."

The only other comment he had was that he felt that the "jocks" pick on other people at the school. He did not remember anything else of significance.

Date of transcription 4/29/99

On 4/27/99, Jamie Klement, DOB 9/25/83, 7590 West Caley Drive, Littleton, Colorado 80123, was advised of the identity of the interviewing Agent, and the nature and purpose of the interview. She was interviewed in the presence of her Mother and Father, James Klement, DOB 6/3/43, an Sandra Klement, DOB 12/19/47. She provided the following information.

On 4/20/99, Jamie Klement went to school at normal time, approximately 7:00 a.m. She went to all of her classes to include her science class which ended approximately 11:10 a.m. She then walked with her friend, Lindsey Greer to Lindsey's math class. Jamie then met her other friend Kim Andersen, and they both walked to the cafeteria for lunch. They were sitting at table ZZ. Other students sitting at the table included:

1. Lori Reynolds
2. Elizabeth Noland
3. Lauren Maestis
4. Kristen Cardwell
5. Kim Andersen

Jamie went to the lunch line to purchase some food, and was on the line with Kristen Cardwell talking and waiting. They noticed that a boy possibly named Mark Opfer ran into the west door of the cafeteria, but didn't say anything. He ran past the janitor, and then was lost in the crowd. Students were standing up and looking out the windows on the west side. Jamie then saw someone fall next to the window outside. A second person then fell, and a pop which may have been a gun shot was heard. An object flew past the window, and two more shots or pops were heard. Bo Berry, and Tyrone LNU ran out the doors towards the parking lot, where smoke was observed. Chris Marcum and a janitor then ran in the cafeteria and began warning everyone to get down, because there was someone with a gun. At about the same time, Mr. Sanders also ran in and warned everyone to get down. More shots were heard, and Kristen and Jamie crawled next to the area of the elevators near the kitchen. Jamie heard metal pinging over top of their heads. Mr. Andres Jr. then came in and told the students to get inside the auditorium. Andres wanted the students to stay in the auditorium. A large group of students disregarded this request and ran down the hallway on the

west side near the gym and exited the building. They then ran out across Pierce, and then back to Clement Park. A few minutes later, some more students ran to the park from the school, and said "run, they are coming". They ran farther into the park, and then Jamie, Kristen, and Kristine Bell went to Bell's house.

Jamie didn't know Klebold, and only knew Harris from seeing him around school. She had said hello to Harris in the hallway, but that was the extent of it. She did not observe Klebold or Harris on either Monday or Tuesday. She really didn't know who was in the Trench Coat Mafia (TCM), but was warned the previous year in middle school to stay away from the TCM in Columbine High School. Jamie had seen TCM types around school, but did not know any of them.

Jamie Klement did remember something that caught her attention during the student morning news broadcast. The thought for the day stated something to the effect of "You'll wish that you weren't here today.

INVESTIGATION:

On 05-24-99, at about 1030 hours, I responded to 9147 West Cross Drive, Building 10, #102, to attempt to contact witness Brandy Klingbeil. Upon arrival at that location, I was advised that witness Brandy Klingbeil and her family no longer resided at that location. I went to the manager's office for this complex and was told the Klingbeil family had recently moved to 3194 South Dudley Street. I responded to 3194 South Dudley Street to contact and interview Brandy Klingbeil, who was a student at Columbine High School. This interview was in reference to the shooting that occurred on 4-20-99 at Columbine High School.

At approximately 1100 hours on 5-24-99, I contacted Brandy Klingbeil, who told me that neither her father, witness Doug

Klingbeil, or mother, witness Valerie Klingbeil, were currently at home. Brandy Klingbeil said she would not be able to contact them, but said they would allow me to interview her about this incident without them being present.

Brandy Klingbeil said on 4-20-99, at about 1150 hours (she believed, but was not certain of the time) she went into the cafeteria at Columbine High School and was carrying her backpack (which she described as a blue Jansport with her name on it). She said she selected a cafeteria table to sit at. On the diagram of the Columbine High School cafeteria, Brandy identified table "S" as the one she selected. Brandy said she sat at this table facing in a north easterly direction towards the stairway that leads to the second level of Columbine High School. Brandy said she was with Amber Rosetta, Matt Bruce, Matt Hill, and Ben Schuman. She also identified where these students were sitting at the table on the diagram.

Brandy Klingbeil said that Ben Schuman went to the Rebel Corner at the cafeteria, and when he returned to the table he said either he saw someone who had been shot or he saw someone get shot. Brandy Klingbeil said at this time a janitor told the students in the cafeteria to get down on the floor and underneath the tables. Brandy said the students at her table got under the tables and remained there for approximately one minute. Brandy said she heard other people screaming so she got up and ran up the stairway to the second level of Columbine High School with other students. When she got to the top of the stairs Brandy said she heard three shots that sounded to her like they were coming from the cafeteria downstairs. She said when she got to the top of the stairs she turned to the right, but did not go past the library, instead made a fast left turn and went down a hallway, then exited the school through the doors by the math classrooms. She said when she had turned right at the top of the stairs and then turned left quickly she did not notice anything unusual or hear anything unusual that she could recall in the area of the library. Brandy said once she exited the school, she ran across South Pierce Street and into Leawood Park. She said she was running with several other students and when one of these students said they were going to run to one of their houses in the Leawood area, Brandy said she asked if she could go along with them, even though she did not know who these students were. She said she was told she could go with them.

Brandy Klingbeil said on 4-20-99 she was wearing blue jean shorts and a Columbine High School warm up jacket for soccer. This jacket is blue with red and white stripes on the sleeves and has a Rebel insignia on the back of it.

I showed Brandy Klingbeil photographs of the duffle bags and the propane tank that were later recovered in the cafeteria. She said she did not recall seeing either of these items prior to or during the incident. She also said she does not know of anybody who may be manufacturing explosive devices and/or possess firearms. She said she will contact me if she hears of anything like this in the future.

Brandy Klingbeil said she does not know Dylan Klebold or Eric Harris. She said she did not know any of the "Trench Coat Mafia" students or their names. Brandy said she knew of the "Trench Coat Mafia" and had seen them walking up the sidewalk at Columbine High School while she was at soccer practice. She believes she saw three of them walking together She said she did not see anyone harassing the "Trench Coat Mafia" students, nor did she see the "Trench Coat Mafia" students harassing any other people.

Brandy Klingbeil said she did not know anybody with a double pierced eyebrow. She said she is aware that the Columbine High School Rebel News Network (RNN) has a thought of the day after the announcements in the mornings, however, she said she does not pay attention to them. She did not know what the thought of the day was on 4-20-99.

Brandy Klingbeil said she has been doing fine dealing with this incident since it occurred on 4-20-99, however, I left business cards for her and her parents and told her to contact me if any of them wanted to talk to a JCSO Victim Advocate in the future. I advised her I would make the necessary arrangements for them.

File 174A-DN-57419 April 30, 1999
Inv Thomas Wilson, DJTTF

Lacy Koch, Dob: 05/02/83, 8210 West Calhoun Drive, Littleton, Colorado, was interviewed regarding her presence in the cafeteria during the shooting.

Koch was in the serving line getting lunch. She sat her tray down on a table. A little kid ran by her, yelling that there was a guy with a gun. She stated no one took him serious. Mr. Sanders and Mr. Kreitler then entered the cafeteria and yelled for everyone to get under tables. Koch then heard 6 or 7 pops from outside. She thought they sounded different than gunshots, but not explosions. She then heard louder shots in the cafeteria. She ran to the stairway which leads upstairs to the library and auditorium. She ran up the stairs, turned to the left, and ran to the East exit of the school. She then joined other students and teachers at Leawood park on the East side of Pierce Street.

During her time in the park she overheard rumors that there had been a bomb threat earlier in the morning. She said a group of teachers were in the park, near an ambulance. At one point she thought Mr. Moore, a black teacher, was being shot at from somewhere. She said Mr. Moore appeared to be moving around to dodge fire.

Koch did not see the suspects and could not provide any information on them. She only saw people falling down outside the cafeteria and stated she tripped on several people who were falling while running from the school.

INVESTIGATION:

On May 4, 1999, between the hours of 1048 and 1142, I had an opportunity to speak with Lacy in reference to the incident that occurred at Columbine High School on April 20, 1999. Also present during the interview was Lacy's aunt, Barbara Rice.

Lacy explained that she arrived at Columbine High School on April 20, 1999, at about 0715 hours, attending her normally

scheduled classes. Lacy stated that fourth hour she has a math class taught by Mr. Bundy. After she was released from her fourth hour class at 1110 hours, she proceeded down into the cafeteria for lunch, arriving around 1113 hours. Lacy stated that she did not observe anything out of the ordinary while she was walking to the cafeteria area. Lacy was provided a map of the cafeteria area and asked if she could tell me which table she was seated at. Lacy stated she was seated at table T with her friends, Kristen Schoenhoff and Jennie Smith. Lacy stated after placing her green backpack on a chair at the table she proceeded to the rest rooms, which are located near the kitchen area or near the lower entry doors into the auditorium. After leaving the rest room, Lacy proceeded to the food service line, where she got her lunch. As Lacy turned and walked towards the condiment table, which is near the food service line, she stated that she recalled that an unidentified student, who she believes was a freshman, came running from the vending machines, which are near the northwest door of the cafeteria, and the student was yelling, "Oh my God, get down, there's somebody outside with a gun." Again, Lacy stated that she did not know who this individual was. She recalls that shortly after this person entered into the school she remembers seeing Mr. Sanders and Mr. Kritzer come out of the faculty lounge and they were also telling students to get under their table.

Lacy explained that she crouched down and that she remembers seeing her best friend, Sara Anderson, Tina Chavez, and Samantha Roman also crouched under the table, at which time she heard anywhere from six to seven gunshots, or as she described they sounded like firecrackers popping outside, and she could see people outside running in all different directions. As this occurred the students who were near the west side of the cafeteria started moving east and continued up the stairs to the main level in the school. Lacy advised that she followed the other students, heading out of the cafeteria, and remembers that once she reached the top of the stairs she remembers hearing gunshots and they were coming from the cafeteria area. Lacy explained there was a large group of students that had fallen in the hall, just to the east of the staircase, and that she had to maneuver around them. She continued east down the math/science hallway to the southeast exit of the school, where she ran from the school and went to Leawood Park. From Leawood Park, Lacy stated that she went to Josh Brinkley's house, but they were unable to get into his residence because he had forgotten his keys in the school, at which time they contacted one of Josh's neighbors and were allowed to stay for a brief period of time.

Lacy was asked while she was in the cafeteria area if she observed two large duffle bags or sports bags, one being blue in color, and the other being reddish/orange color. I explained to her that they were in the central core area of the cafeteria. Lacy could

not provide any information about the bags, telling me that she did not see them. Lacy was asked if she observed any gunmen while in Columbine High School or if she observed any gunmen after she had exited. She stated she did not.

Lacy was asked if there had been any rumors of something that was going to occur on April 20th. She stated that she knew April 20th was National weed or marijuana day, and she also explained that on the morning of April 20th she remembers hearing about a bomb threat.

Lacy was asked if she members of the Trench Coat Mafia, specifically Eric Harris or Dylan Klebold or any of their associates. She stated she didn't personally know any of them, and that she didn't know any of the associates, but she did mention tha[redacted] [redacted] was apparently on a hit list that Eric Harris and Dylan Klebold had. Lacy was asked to describe her dress on the day of the incident in question. She stated that she was wearing a long sleeve, green Gap shirt. Underneath that shirt was a white tank top, black pants, and black sandals. Lacy described her backpack as being green in color and the brand name was "Nike."

A the completion of my interview I had Lacy diagram where she was seated within the cafeteria area and her movement through the cafeteria. A copy of that map is provided with this supplemental report.

Supplementary Report

Ref: Interview with Columbine Teacher Eric Kritzer by phone at [303] 948-2450

On 04-29-99 at 2:20 P M. Denver Police Detective Terry Demmel, assigned with the Columbine Law Enforcement Task Force, interviewed Columbine High School teacher Eric Kritzer by phone. Det. Demmel asked Eric if he had Eric Harris in his 3rd hour Philosophy Class to which Mr. Kritzer answered " yes; he did ". When asked if Harris was in class that day, Tuesday the 20th, Mr. Kritzer stated that he didn't believe so but that he could possibly have been. Det. Demmel told Mr. Kritzer that student Vannessa Grimes had been interviewed and reported that both Eric Harris and [redacted] had been in class with her that day and had discussed Chinese Philosopy. Mr. Kritzer did not think that [redacted] was in class that day either. He stated that the class did not have any discussions that day but instead had a written test on Chinese Philosophy. Mr. Kritzer added that the one sure way to tell if the boys had been in class that day was to check the folder of test papers that was in the room.

In asking Mr. Kritzer if Eric Harris had made any statements or given any indication of behavior out of the norm he answered that Harris was a good student and that he would have to check his grade book to see where Harris stood as far as his grade was concerned.

Mr. Harris advised to get in touch with his 3rd hour class student assistant, Rebecca Hines; that she may be able to give some additional information on Eric Harris.

On 04-30-99 Det. Demmel spoke with Jefferson County Sheriffs Office Columbine High School Scene Commander Chris Andres advising him of the information. A short time later Jefferson Co. Sheriffs Commander Andres called Det. Demmel back with the information that they had gone to Mr. Kritzers 3rd hour Philosophy room and found the folder of test papers. He stated that both Vannessa Grimes and [redacted] had taken the written test but that there was no test paper for Eric Harris.

ACTION TAKEN:

On May 6, 1999 at 1800 (6 p.m.) the Reporting Agent Linda R. HOLLOWAY went to the Larson residence in Littleton to interview Eric LARSON. He gave the following accounts of the events of April 20, 1999:

Eric was picked up at his residence by Nichele DUNN at 7:05 a.m. They drove to school and parked in the Clement parking lot off Pierce Street at 7:25 a.m. He went to his locker and then straight to his first hour computer class in the business area of the school. He then went to the cafeteria at 7:30 a.m. because he found out that there was a substitute teacher. He remained in the cafeteria with Daniel YAEGER until first hour was over at 8:25 a.m. He sat near tables PP and QQ however he did not notice anything unusual, like duffel bags, while he was there.

LARSON then left the cafeteria and attended his second period science class, his third period algebra class and fourth period language class. He went outside and down the west stairs into the cafeteria. He sat at table UU which is close to the door he had just entered. He was with Mike LAVAN, Brendon TRUJILLO and Dan REICKS who are also all sophomores. He sat and talked, not eating lunch because he had forgotten to bring any money for food

Eric LARSON looked out the windows and first noticed another student bleeding. He next recalled that a female teacher came in and told them to get down. He got down for a short period of time and then crawled toward the stairwell that leads to the second floor.

He got up and ran the rest of the way up the stairs. He heard what he thought were six gunshots and an explosion when he got to the landing and he ran down the hall to the front door (that open toward Pierce street). He marked on the provided maps his route out of the building. Once across the street he went to a friend's residence and called his mother.

The only other significant information that he could recall was that he noticed a "kid", probably male, running from the school just before he notice the student that was bleeding. He was wearing a light gray or white shirt. He was running past the baseball fields when he saw him. He did not know if he was running because he may have heard gunshots or if it was before the shooting started.

He did not see any of the shooters or have any other significant information to share.

-CHS student, cafeteria witness, in cafeteria for 4th hour and first lunch hour, table HH for 4th hour, table CCC for lunch.

INVESTIGATION:

On April 27, 1999 at 1100 hours I contacted Stephanie Larson at her home for an interview. Her father, Ken, had just left for a few minutes. He returned home after we were 10 minutes into the interview. Stephanie then told me the following:

* She is a sophomore at Columbine High.

* She explained that she has 4th hour off. That class period is from 10:20 a.m. to 11:10 a.m. She usually goes to the cafeteria during that period, as she did on the shooting day. She said that there could be 100 to 150 students in the cafeteria area for 4th hour. Many of those students do not have the first lunch hour when the shooting began.

JC-001-003509

* After her 3rd hour science class, she went to her locker by the library. She got to the cafeteria around 10:30 a.m. She was with fellow students David Eagle, Jessica Stevens, Jackie Carrol, Scott Parker, and a Brook (last name unknown.) She also noted that several student were in the cafeteria around where she was; Nikki Lawson, Katie Vorcheck, Lindsie Swanson, and Andrea Launer.

* She pointed to the cafeteria diagram and said she spent the 4th hour at table HH. She said there were about 15 to 20 students by the windows, another 20 to 30 by Rebel Corner, and the rest of the students she saw were in the cafeteria.

* When asked, she never heard of Eric Harris and did not even recognize him in news photos as a student at Columbine. She might have seen Dylan once or twice in the hallways during the school year. She did not know Dylan by name. She did not have any information on how Eric or Dylan dressed.

* She knows of the trench coat students more from last year than this year. She does not know names of these students. She said that she has seen some of the trench coat students getting into a red and gray Suburban for a ride earlier in the school year.

* After 4th hour, she moved to a table nearby. She pointed to table CCC and this was confirmed with the location her backpack was located.

* She thought an Angie Urkart was the only one at that table as she went to get in the food line at the kitchen. She was with Jadara Taliaferro, Cassie Sedeski, Jill Chiakowski, Margaret Burns and Dene Peterson in the food line.

* She was wearing a white long sleeve shirt, khaki shorts and black sandals.

* She then heard two to three boys yell, "Everybody get down, get down." She also heard the mention of a gun.

* She went back to her table an hid under it using her backpack for protection. She said a female Spanish teacher started to yell, "Get down." This teacher was also in a food line.

* After a few seconds, she said that all the students in the cafeteria started to run to the stairs area.

* She went toward the food line and turned right to the elevator and bathroom area. She said there was a black door that a teacher, the younger Mr. Andres, opened. This door led to a small set of stairs up to the stage in the auditorium. She was on the stage with some other students for a few seconds and then they all ran up the left aisle (north) to the exit door that is at the main hallway.

* She said a huge group was going out the main doors. She saw that the windows to the main doors were shot out. She went with a group of students north down a hallway and out a set of north doors. She then went to Clement Park.

* The only reports she heard were sounds like "banging against metal" when she was under the table in the cafeteria. She thought it sounded like paint balls striking something metal from the kitchen.

* She did not see any trench coat students in the school or cafeteria that day. She saw nothing but backpacks in the cafeteria. When asked specifically about a duffle bag, she said she did not see any.

This concluded my interview with Stephanie Larson.

WHEN INTERVIEWED:
MAY 6, 1999 at 2000 hours by telephone
ACTION TAKEN:

On May 6, 1999 the Reporting Agent Linda R. HOLLOWAY went to the residence of Columbine Student Andrea LAUNER, arriving at 7 p.m. Present during the interview were her parents, Deb and Russ LAUNER and her sister, Amanda (13 yoa). She related what she did on April 20, 1999:

Andrea's father took her to school and dropped her of in the teacher' parking lot before school started. She went to her locker and met with friends on the east side of the High School (inside) prior to first period. During 4th hour, she has no classes so she went to the commons (cafeteria), arriving at between 10:20 a.m. and 10:25 a.m. She sat at table DDD with friends Katie VLCEK, Nikki LAWSON, Lindsay SWANSON and Lindsey PORTINCASO. Lindsay SWANSON and Lindsey PORTINCASO were there only through 4th period, not the A Lunch period.

Andrea escorted Lindsay SWANSON outside the northwest door of the cafeteria was she took a roll of film for a class project. This would have been just prior to the A Lunch period beginning (10 to 20 minutes). She was photographing her friends and other unknown objects. Lindsay SWANSON'S home phone number was given as (303) 978-1045. She was contacted a shortly after the interview with LAUNER was finished by me and it was learned that the roll of film was taken out of her SOR Pentax camera and put

inside a small black or clear film case and placed in the front pocket of her backpack. Her backpack is a green Eddie Bauer pack that was left in Mr. JOHNSON'S science room in the science wing of the building. This information was passed on in the form of an Information Control entry and given to Chris ANDRIST of the Jefferson County Sheriff's Department who was in charge of the crime scene at that time. He later reported that the roll of film had been located and was in the process of being developed.

Andrea then named the people who were at her table NN during A Lunch. They are: Nikki LAWSON, Lara KENNEY, Lauren BONIN, Katie SULLIVAN, Becca GOODWIN, Kristin SHEFFIELD and Sarah DOODRILL.

Andrea related that she had gone through the food line about 5 minutes before the lunch period began and got her meal. She recalled having breadsticks and cookies. She was sitting at the table, facing the stairs when she saw Mr SANDERS coming into the cafeteria and telling everyone to "get down". She thought he may have come from the teacher's lounge area. She got under her table and waited a short while.

She and other then ran to the elevator and got in and began ascending to the floor where the library is located when she heard three gunshots. She estimated that there were 15 children in the elevator at that time.

Upon hearing the gunshots the elevator was sent back down to the lower level and she and the other children ran into the auditorium. Someone locked the auditorium door and she laid on the cement floor. She was with Katie SULLIVAN, Dan RIECKS, Jeff BARRETT and Andy ANDERSON while she was in the auditorium. She recalls hearing "bangs and explosions"

The next thing she remembers is Mr. ANDRES SR. or JR. coming into the auditorium and told the children to run through the door by the cafeteria downstairs and through the Foreign Language halls and eventually to the outside. She ran to Kara KENNEY'S residence and called her mother. It as about 11:30 when her mother received the call from Andrea.

Andrea left her backpack, a blue Jansport, in the cafeteria. Also in the school in her locker are other books and school material. Her lacrosse items are in Mr. Eric FRIESEN's room. She was wearing a gray lacrosse polo jersey with the big number "22" in it. She also had on blue jean shorts and white tennis shoes.

When asked about knowing any of the members of the TCM she stated that she knows who Brooks BROWN is. When asked if she know anyone who has a double pierced eyebrow, she stated that Brie PESQUALLI may have one.

She uses the Internet and her name of the computer is "DAHLILA 7 @aol.com.

When asked if she recalled the phrase of the day given after the announcements on April 20, she remembered it was something like "THIS IS GOING TO BE A BAD DAY."

She did not remember anything else of significance in this case. The interview ended at 2000 hours.

INVESTIGATION:

On 05-05-99, at about 8:55 a.m., I interviewed CHS student Michael Lavan as follow up on DN2488. The interview was conducted at Michael's home, in the presence of his mother, Cheryl Lavan.

Michael told me that on 04-20-99, at about 11 10 a.m., he had just finished his fourth period science class, which is located on the upper level of the school. After leaving class, Michael said that he went to his locker and retrieved his sack lunch. Michael said that he then walked downstairs to the cafeteria, and sat down at table UU. Michael estimated that he arrived at said table at about 11 17 a.m. Michael said that while walking to table UU, he did not notice any duffle bag(s) or anything else that he might consider unusual or out of the ordinary. Michael said that he walked past several tables, at which there were students and/or backpacks, as normal. Michael described table UU as being "about three tables from the door," referring to the door located in the northwest corner of the cafeteria. Michael said that he sat with students Daniel Riecks (10th), Brenden Trujillo (10th), Eric Larson (10th), and Brian Soderberg (10th). Michael said that he remembered facing southwest while sitting at the table.

Michael said that he finished his lunch at about 11:25 a.m., whereupon he saw a group of students gathering along the west windows and near the door in the northwest corner of the cafeteria. At that time, Michael said that he saw a "kid" lying outside

the northwest door. Michael said that he thought this individual had been hit by the door or had had a seizure Michael said that he then heard his friend. Brenden Trujillo. say that he saw blood on this individual. Michael said that he was still sitting at table UU at this time, and could not see up the stairway outside the northwest door. Michael said that he then got up and walked to the west windows to see what was going on. At that time. Michael said that he saw another individual lying outside. near the base of the stairway. Michael said that this individual was attempting to move around and was screaming. At that time. Michael said that he remembers teacher Dave Sanders. who he thinks came from the area of the faculty lounge, run outside to check on the kid lying by the door. Michael said that Dave Sanders then told everyone in the area to "get down."

Upon hearing this, Michael said that he then moved behind a large post located on the west side of the cafeteria, between tables UU and VV, and ducked down. Michael said that at that point, he was no longer looking outside through the windows. and remembers seeing student Leiha Murphy (10th) under table VV, and student Matthew Katzenmeier ((10th) near the southwest corner of the serving line. Michael said that up to that point, he had not heard any gunshot(s) and still did not know what was going on Michael said that he then noticed several students elsewhere in the cafeteria began to run toward the interior (east) stairway and run up the stairs. Michael said that upon seeing this. he also began to move eastward, toward the interior stairway Michael said that for the first time, he heard what he thought were gunshots while approaching the stairway Michael said that because of the large group of students crowding the stairway, he decided to take the elevator located near the bathrooms in the southeast corner of the cafeteria. Michael said that he got onto the elevator "with about twenty other kids." Michael said that the elevator then took them to the upper level, whereupon he saw a lot of smoke when the doors opened. Michael said that he thought there was a fire on the upper level and that it might not be safe to get off. Michael said that he remained on the elevator, which took he and others back down to the cafeteria level.

Upon exiting the elevator back on the lower level, Michael said that teacher Leland Andres led he and others into the auditorium and locked the auditorium doors Michael said that he remained inside the auditorium for approximately ten minutes. during which time he heard both sporadic gunshots and explosions, but was unsure of where they were coming from. Michael said that a janitor then entered the auditorium through the bottom doors, at about the same time that Leland Andres was approaching

the upper portion of the auditorium. Michael said that the janitor was yelling to the students not to approach the upper portion of the auditorium Michael said that he and other students then returned to where this janitor was, near the lower portion of the auditorium. Michael said that the janitor then ushered he and others out the bottom doors of the auditorium and told them to exit the building through the south doors near the foreign language area on the lower level. Michael said that he and others then ran east down a hallway, and then south down the hallway near the foreign language classrooms, and finally out of the school through the southeast doors. From there, Michael said that he ran down a steep grass hill and then southward across the junior parking lot. Michael said that he did not see any police officers on the south side of the building when he ran out, but remembers seeing some ambulances. Michael said that upon exiting the school grounds, he ran across Pierce Street to Leawood Park.

Michael said that at no time did he see any shooter(s) or anyone wearing a trench coat. Michael said that while sitting at table UU, he remembers seeing the following students sitting (he thinks) at table TT: Daniel Palmeter (10th), Brian Rathbun (10th), Aaron Brown (10th, Brooks Brown's brother), Adam Sands (10th), Matthew Depew (10th), and Jacob Bauer (10th).

Michael said that he did not personally know Eric Harris of Dylan Klebold, nor any of the names presented by the media as known associates of them. The interview was concluded at about 9:32 a.m.

The names of those students / teachers provided by Michael were run through Rapid Start and Denver Detective Mark Woodward, no lead sheets were prepared because all names provided were either previously interviewed, or scheduled to be interviewed

Reporting investigator, P.J. Doyle, is a commissioned peace officer employed by the District Attorney in the First Judicial District serving Jefferson and Gilpin Counties. I am currently assigned to assist in interviewing witnesses from Columbine High School.

On May 6, 1999 I spoke with Nicole Christine Lawson, a tenth grader.

Nicole told me the following:

She was in school and attended all of her classes on April 20th. She went to the cafeteria during 4th hour. 5th hour is her lunch. She was in photography prior to that. She and her friend were sitting at table NN. (See diagram) With her was Andrea Launer, 8861 W. Progress Place, Littleton 80123 303 979-3705. Parents are Deb and Russ Launer. The bell rang for 4th hour to end. She and Andrea were just talking and waiting for their friends to get down to the cafeteria for lunch. Andrea noticed nothing unusual in the cafeteria at that time.

Their friends came down and sat at the table. The friends were:

Kristen Sheffield, 7556 Park View Mountain, Littleton. Parents are John and Alana Sheffield 303 979-4308, Becca Goodwin 7754 W. Plymouth Place, Littleton, Mom is Margo Goodwin 973-2746. Lamar Drive, Littleton, CO 80123 Parents are Fran and Glen Kenney 303 795-1547 and Katie Sullivan (no info. available).

Nicole heard Mr. Sanders come in and yell get down and everybody got under tables. She thought it was a senior prank. The girls at her table were laughing because they thought it was a senior prank. While they were under the table, she heard shoes squeaking. After about 30 seconds everybody started to run. She didn't hear any bombs until they were all running. She saw Mr. Sanders running in the middle of the cafeteria.

Nicole said that there was pop spilled on the floor and people were slipping. There were chairs sprawled on the floor from people knocking them over. People had to run around the chairs.

Nicole ran past the maintenance elevator and Mr. Andres, Jr., the music teacher. She ran through the auditorium. She was hearing bombs going off and could feel shaking, like a vibration on the floor. She ran out the main hallway by the counseling office and ran outside. Outside she heard muffled bombs. She looked back at the school and she didn't see any smoke. She hopped a fence by Clement Park. There were teachers leading kids.

Nicole said that TCM were abundant last year. She said that she had heard from an unknown source that if girls wanted to join the TCM, that the had to sleep with an unknown guy who wore a beanie hat with a propeller.

Nicole said that a girl named Kelly Schwab in her history class always wore a black trench coat to class. (7593 W. Elmhurst Drive,

Littleton 80123 979-5811 or 8676 W. Progress Place, Littleton 80123 same phone number. Tommie is a parent.)

Another girl who wore a trench coat is Stephanie Kenney, 7029 W. Chestnut Drive, Littleton 303 973-7886 Marie and Steve Kenney are parents. Stephanie wore a red head band with devil horns and a trench coat.

Stephanie and Kelly would draw "fnords" on the black board. Fnords are little symbols that were servants of the devil. They would draw a whole bunch of them. They did it when no one was looking. They hadn't been around this year.

Nicole said that she heard that Ashley McKenna was in a science room with Mrs. Williams, by the main hall. Ashley heard somebody say, "Come on Joey." (7767 S. Depew St., Littleton, CO 80128 303 904-2755 Brian and Ilsa are parents.)

Nicole never saw the shooter(s).

WITNESS: TERRY MICHAEL LAWSON, DOB September 9, 1981, POB Alamosa, CO, 73" in height, 175 lbs , brown hair, hazel eyes, Home address: 4892 South Hoyt, Littleton, CO 80123, home telephone 303-904-2578, Occupation: Student at Columbine High School, witness to shooting.

INTERVIEWERS: Agent RICHARD K GRIFFITH and Agent RICKEY S MUNDINE, Colorado Bureau of Investigation, 690 Kipling Street, Suite 4000, Denver, CO 80215, phone: 303-239-4211

OTHERS PRESENT: STEVE LAWSON (father)

DATE/TIME OF INTERVIEW April 22, 1999, 6 00 p m.

PLACE OF INTERVIEW: 4892 South Hoyt, Littleton, CO 80123

With the permission of LAWSON's father, STEVE LAWSON, a witness interview was conducted concerning LAWSON's knowledge of the shooting and bombing incident at Columbine High School on April 20, 1999 at approximately 11:15 a.m. LAWSON stated that at approximately 11:20 a.m. on April 20, 1999, he dropped off his backpack in the Tech lab and then proceeded to the school cafeteria. LAWSON went through the lunch line and proceeded to find a table in the northwest corner of the cafeteria near the exit door (approximately 10-15 feet from the door) LAWSON was sitting at the table with a friend whom he identified as IAN HALES At approximately 11 30 a.m., LAWSON hears seven or eight shots from a semi-automatic weapon and all the people inside the cafeteria stand up to find out what is going on. LAWSON states he heard someone yell, "he's got a gun." At this point all the students and teacher in the cafeteria fall to the floor and take cover, except LAWSON He remains standing and looks out the window and observes DYLAN KLEBOLD standing near the door to the cafeteria. LAWSON stated he has known KLEBOLD for approximately one half of a semester and is positive it was he He is approximately four feet from the window and stated he saw what appeared to be two male students, one wearing a black shirt (no further description available) and one wearing blue jeans (no further description available) running up the hill in a northerly direction toward the tennis courts KLEBOLD then turns his attention from LAWSON to the two individuals running up the hill and shoots at both of them. LAWSON believes KLEBOLD shot one of the individuals twice in the legs and the second individual appeared to be shot in the back Both continue to run up the hill, away from KLEBOLD

KLEBOLD after shooting at the two individuals running up the hill, reaches into his backpack and produces a pipe bomb approximately 12"-18" in length, both ends were larger than the diameter of the pipe, appeared to be painted silver. KLEBOLD lights what appears to be a red piece of cloth, which appears to be a wick attached to the pipe bomb and throws it with his right hand into the student parking lot. KLEBOLD's left hand still contains the semi-automatic pistol. While he is throwing the pipe bomb he is laughing out loud. After throwing the pipe bomb LAWSON and HALES run out of the cafeteria and outside LAWSON does not see KLEBOLD again or any other shooter While running to exit the building, LAWSON heard approximately five more shots and one loud explosion from inside the school and from where he last saw KLEBOLD.

LAWSON described KLEBOLD as 6'5"-6'7" in height, skinny, blond hair collar length, wearing a black ankle length trench coat, buttoned up, wearing a black baseball style cap with a red emblem in the front (worn correctly), a black backpack worn on KLEBOLD's back and nothing covering his face

LAWSON stated although he has only known HARRIS and KLEBOLD for one half of a semester he has talked with them both. He describes HARRIS as a thinker, very smart and something always on his mind. He believes HARRIS planned the entire operation and KLEBOLD only followed instructions from HARRIS

LAWSON stated HARRIS frequently told racist jokes and stated he admired Adolph Hitler for his intelligence but didn't like him because he took the easy way out. HARRIS also told LAWSON that he was not a racist. LAWSON stated this action by HARRIS and KLEBOLD did not really surprise him based on some of their beliefs and actions. LAWSON stated he believed HARRIS and KLEBOLD made a movie depicting people running down hallways and catwalks shooting at each other. This movie is on a computer in the computer tech lab on a computer next to the scanner. The movie is contained in My Documents file.

LAWSON stated that only two individuals shown in the photograph contained in the 1998 Columbine High School Yearbook of the Trench Coat Mafia are actually members. LAWSON identified them as JOE STAIRS and CRIS MORRIS. LAWSON stated the group was formed because the members were considered outcasts and were called names by others in the school. LAWSON advised that the following personnel could provide additional information on the members and associates of the Trench Coat Mafia: JOE STAIRS, BROOKS BROWN, CRIS MORRIS, ERIC FICKE and ALEJANDRA MARSH.

LAWSON advised Sgt TIM SLYVESTER, Jefferson County Sheriff's Office, interviewed him on April 20, 1999 as he evacuated the school. LAWSON could provide no additional information relevant to this investigation.

Reporting investigator, P.J. Doyle, is a commissioned peace officer employed by the District Attorney in the First Judicial District serving Jefferson and Gilpin Counties. I am currently assigned to assist in interviewing witnesses from Columbine High School.

On May 6, 1999 I spoke with Martin Christopher Layton, a sophomore.
DOB: 10-23-82
7233 S. Chase Way
Littleton, CO 80128
303 979-6908
Mother: Margene Layton
Father: Kenneth Layton Work: 303 855-5329

No parent was present during the interview. Martin and his mother said that Martin wanted to speak with me without her present.

Martin told me the following:

He had been to all his classes on the morning of the incident. He went to the cafeteria a little early because his choir class got out a few minutes early. He was sitting in the cafeteria at table XX (see diagram) with Aaron Brown, Brian Rathbone, David Smith, Jake Maes and some other people, but he forgot who they were. He noticed nothing unusual in the cafeteria.

Martin said that he heard some commotion outside of the cafeteria, like people wrestling around. (He then said, like something going on.) He said that he got up from the table and looked out the window by his table. He thought maybe there was a fight. He didn't look into the parking lot. He saw someone running. This person was wearing shorts and a white tee shirt. It was a white male who didn't have a hat on. That is all Martin could say about this person. Martin said that someone had fallen down. He couldn't see. People were saying that the person was bleeding.

Martin said that right about then, Mr. Sanders ran into the cafeteria and told everybody to get down under the tables. A couple of seconds after that, everyone started crawling through the tables and chairs and in the middle of the cafeteria. Martin got up and ran up the stairs.

Martin said that he heard a whole bunch of guns going off. It sounded like the shots were coming from outside. When he got by the stairs, it sounded like the guns were going off inside the cafeteria. When he got to the top of the stairs, the guns sounded like they were rapid firing. He said that some people fell down, but got up again. He ran down the hall that goes past science and math, and then out the door by the math hall.

Martin ran down the stairs and hopped the fence to a brick ledge and then went across the street and hopped a fence to the park. He said that he could hear gun shots going off the whole time.

Martin never saw the shooter(s). He said that he heard from "a bunch of people" that the shooters were TCM. He said that a student named Dan Riecks told him that they saw more people in trench coats at the top floor elevator.

INVESTIGATION:

On May 7, 1999, at about 0900 hours, I responded to 8132 West Portland Avenue, where I met with witness Michael Leary and his step-father, witness Keith Pearce. I interviewed Leary about the shooting incident at Columbine High School that occurred on 04-20-99.

Michael Leary said on 4-20-99, at about 1020 hours, he went into the cafeteria at Columbine High School to eat his lunch. He said he had fourth hour off from any classes so he was in there earlier than some of the other students. Leary said he was at a cafeteria table at the east side of the cafeteria, in about the middle and near the stairs that lead upstairs to the second floor of Columbine High School. Leary said he was with the following students at this table (table either number JJ or number L on the cafeteria map): Jonathon Caruso, Pat Simongton, Danny Gonzales, Dusty Hoffschneider, Craig Scott (victim Rachel Scott's, according to Michael Leary), Jason Jones and Eric Trujillo. Leary showed me on a map of the cafeteria of Columbine High School where he had been sitting, and where Jonathon Caruso, Pat Simongton, Danny Gonzales, and Dusty Hoffschneider had been sitting at this table, and the direction that they had been facing. Leary did not recall where the other students present with him had been sitting. Leary said he was facing an easterly direction. Leary said he "heard a couple pops," but did not think much about it because he believed it was a senior prank taking place. Leary said suddenly a student, Justin Norman, ran from outside of the cafeteria, through one of the doors on the south side of the cafeteria, to the inside of the cafeteria where he said that someone had got shot. Leary said he still did not take any of this seriously until a janitor ran into the cafeteria and told everyone there to get down on the floor and under the tables. Leary said he got up onto his knees to try to look out of the cafeteria windows to see what was taking place, and said he saw smoke outside of these windows. Leary said the students inside the cafeteria suddenly got up and began to run towards the stairs that lead up to the second level of the high school. Leary said he and about 15 other students got onto the elevator, and went up in it to the second level. Leary said when it got to the second level and the elevator door opened he heard a loud explosion and said it was caused by a bomb going off just outside of the library. He said the students went back down on the elevator to level 1. When the elevator door opened on level 1 a teacher, Mr. Andres, Jr., was there and told the students to go into the auditorium. Once inside the auditorium the doors were locked and Leary said they stayed in there for about 15 minutes. Leary said at one point they heard other kids trying to get into the auditorium, but they did not open the door for them. I asked Leary how he knew it was students and not the suspects, and he said he did not know. He

said nothing was said that he could hear, and after knocking a couple times the people outside this door left

Michael Leary said the students lined up, and then all ran out of an auditorium door, down the hall in an easterly direction, past the foreign language department and exited the school.

Michael Leary said he was wearing a white polo shirt, khaki colored cargo pants, and a white "Uconn" baseball hat on 4-20-99 Michael Leary said he did not know who Eric Harris was, and said he knew suspect Klebold about 6-8 years ago when they played on the same baseball team. Larry said he had not spoke with or associated with suspect Klebold since and in fact did not remember anything about Klebold, either from the present or from the time they played baseball together Leary said he had seen suspect Klebold in the hallway of Columbine High School, however, he did not see him on 4-20-99. He said the last time he saw suspect Klebold he wore a baseball hat with the letter "B" on the front of it and had a Colorado Avalanche patch on the back of this hat. He said Klebold wore the hat backwards. Leary also said suspect Klebold wore an ankle length black trench coat that he believed was made out of cloth. Leary could not provide a description on the shirt, pants, or footwear that Klebold wears

Michael Leary said he did not see any duffle bags, or the propane tank in the cafeteria of Columbine High School, nor has he seen anyone carrying any of these items. He said he has no knowledge of anyone that may be manufacturing any explosive devices and/or possessing firearms. Leary could not provide any information about "Trench Coat Mafia."

ADDITIONAL INFORMATION:

Michael Leary said on 4-20-99, both prior to and during the incident, he did not see suspect Klebold, suspect Harris or any other people with firearms, bombs, etc. Since the incident and upon returning to school at Chatfield High School, Michael Leary advised me that he heard the following information. Leary said a female friend of his, Tara Zobject, was told by Jennie Paviline (unknown spelling) that she asked [redacted] was involved in the Columbine shooting incident. Leary said that Jennie was told by [redacted] "Yes, and he had every right to be." No further information was given to Leary about this conversation. He advised that if he hears any more information he will contact me in the future

I gave Michael Leary a business card and advised him that if he wished to speak with a JCSO Victim Advocate to call me and I would make those arrangements for him. INVESTIGATION

On 4-28-99, between the hours of 1021 and 1119, I had an opportunity to interview Stephanie in reference to the incident that occurred at Columbine H.S. on 4-20-99. Also present for the interview were her parents, Juliana and Bruce.

Stephanie stated on 4-20-99, at around 1110 hours, she was released from her geometry class MA-11, class was being taught by Ms. Leslie Layman. After she was released from geometry she went to her locker which is located in south/east area of the school, her locker number is 307. After she was finished at her locker she went to the cafeteria area where she arrived at 1115 hour, and after she was shown a diagram she stated she sat at table "OO." Also at the table were her friends, Jamie Thurmon, Jenny Naifeh, and Laura Dickmore. She also provided me with Laura's telephone number 303-978-0066.

Stephanie stated once she arrived at her table she placed her backpack on top of the table at which time her and Laura went over to the south/east corner of the cafeteria which is called "Rebel Corner" where they have a school store and she purchased a pop After she got her pop and Laura got her lunch they proceeded back to their table, but never made it to the table. She described when they reached the commons area, near the stairs, a janitor came running in the south doors of the cafeteria telling the students to get under their tables. She described the janitor as small with a buzzed head, he was wearing a white t-shirt which had Columbine Rebel's Baseball on it. Stephanie said that her and Laura were out in the middle of the commons area and they crouched down at which time she observed students over near the west side of the cafeteria start to move east towards them Stephanie stated as the students started to move from the west side of the cafeteria that is when she heard one gunshot, it sounded like it was in the senior parking lot, west of the cafeteria. Stephanie stated she did not see any gunmen outside or in the cafeteria area when she was in the building. Stephanie stated again the students were told by the janitor to get down at which time several of the students started to move out of the cafeteria area. Stephanie stated she followed a group of seniors who moved east from he cafeteria down to the business and foreign language hall, about halfway down the hall she stopped with the group she was with at which time one of the unidentified males in the group said he saw an individual outside the school who was shooting and the party stated that he thought the gunman was coming towards them and they needed to continue to move, at which time the group proceeded down the foreign language hall where they sought refuge in a classroom located in the south/east area of the school, in the lower level.

Stephanie stated while they were in the classroom she heard three additional explosions and believed they were coming from the upper level near the library, and they could feel the shock waves from the explosions. Stephanie explained that they stayed in the classroom from about 10-15- minutes at which time one of the seniors she was with, a Leigh Kamens, told the group they couldn't stay in the classroom that they probably weren't safe. Stephanie stated there were five teachers also in the classroom. She stated that the teachers were Cheryl Lucas, Jason Webb, Rudy Martin, Judy Kelly, and an unidentified substitute teacher who was teaching one of the business classes. Shortly after the fire alarms went off she stated that the group, lead by Leigh Kames, exited from an emergency exit just outside the room they were concealed in, at which time they ran through the junior parking lot located on the south side of the school, and that all the individuals ran to the Mormon Safe House, located at 6805 West Poke Avenue, where they sought help. Stephanie stated about 1150 a.m. they were joined by an individual by the name of John

Savage, and that John had told them that Eric and Dylan, his two friends were the gunmen, and that Eric had located John, hiding under a desk inside the school, wherein Eric pointed a gun at his face and upon recognizing John Savage told John, "You can go," at which time John fled from the school and ran to the Mormon House Stephanie stated that John was chalk white in color and he was very scared and she believed his story.

Stephanie was asked if she knew Eric Harris and Dylan Klebold. She stated she did not know any of the individuals nor did she know any other members who are involved in the Trench Coat Mafia. Stephanie was asked if she had heard about any rumors about an incident such as this occurring. She stated there were no rumors around school. I had Stephanie describe her dress during the incident date She stated she was wearing a black skirt, a maroon short sleeve shirt, a pair of black shoes, and a black leather coat. Again, I verified that Stephanie did not see any gunmen at Columbine H.S. nor did she see the two large duffel bags I described earlier in the cafeteria.

Stephanie was provided a map of the cafeteria at which time she diagramed where she was seated in the cafeteria, and her movements out of the cafeteria. A copy of that map is attached to that report.

BSERVATION/INVESTIGATION:

On 5/19/99 at 1000 hours, I interviewed Patrick Leiker in the presence of his father at his home. Patrick stated he recognized Harris and Klebold's faces from passing in the hall, but he did not know their names. Patrick stated that, in his freshman year, he had talked to some of the trench coat mafia members, Tad Boles and Chris (he could not remember Chris' last name). He stated they didn't talk very much because one conversation they had concerned Religion and Tad and Chris were very closed-minded about that.

Patrick stated he drove to school the morning of 4/20/99. He arrived between 0700 hours and 0710 hours and parked in Clement Park. He stated he was with another student, Adam Kyler. He stated it was a typical day and he didn't notice anything unusual. Patrick has Chemistry first hour, Journalism second hour, German third hour, Algebra II fourth hour. He stated he did not see Harris or Klebold that day at all. After his fourth hour class he went to his locker then walked to an art class on the upper level, then he went to the cafeteria. He stated he left the school out the doors north of the library and walked down the stairs outside. He did not see Harris or Klebold outside. He entered the cafeteria through the west door. He stated he walked in at

approximately 1115 hours and the cafeteria was packed.

Patrick indicated, on the attached diagram, his path through the cafeteria, and that he went to either table EE or Z and stood there. He then went to the lunch line and then back to this table. He indicated also on the attached diagram, the students that were sitting at this table.

Patrick stated he heard muffled popping noises outside. He then saw Mr. Sanders by the pop machines and he was yelling for everyone to *get down*. The shots started to sound like they were getting closer. He stated some people went to the window to look out but then got down on the ground quickly. He stated after that point, everything got hazy. He stated everyone started to scream and run, and the shots got louder. He stated there was a huge, mad dash to the stairs. He got to the stairs and hopped over the first railings because there were so many people there. He ran up the stairs and heard gunfire as he went. He went to the science and math hallway, and said that it sounded like there were shots being fired behind him. He left out of the school through the southeast doors and went across Pierce to Leawood Park. From there, he went to Clement Park and got his car and left. He stated the police were not yet there. As he was outside the school, he saw the SRO officer on the south side of the school, east of the parking lot.

Patrick stated he left a green REI backpack on the floor of the cafeteria. Inside he had a TI-83 calculator, prescription reading glasses, World History book, binders and notebooks. He stated he was wearing a white CSU ball cap and blue jeans. He did not see what the *thought for the day* was.

Patrick stated that he is good friends with Lydia Perry. He stated that when he got home, he called Lydia's home to check on her. He stated Lydia's brother, Robert Perry, answered the phone. When Patrick asked for Lydia, Robert replied that she had been shot and when she dies, we're going to sacrifice her body to the Gods. Patrick stated this upset him greatly, and he was relieved when Lydia immediately got on the phone and

reassured him that she was okay. He stated that, to his knowledge, Lydia is not a member or an associate of the TCM . He stated Lydia never talked about Robert, only the stupid things that he did.

Patrick stated he did not see any of the shooters that day.

INVESTIGATION:

On 5/25/99, I was assigned information control number DN3845 for follow up investigation. Information control narrative stated that Sue Liane was a cafeteria worker who may have been present in the cafeteria during this shooting.

On 5/28/99 I responded to 4853 South Hoyt and met with Sue Liane. She confirmed that she had in fact been in the cafeteria working when the incident occurred.

Liane said that she arrived at the school at approximately 06:25am, and that she had parked in the faculty parking lot and that she entered the school through the main doors. She said that she walked down the main hallway to near the Library and took the elevator down to the cafeteria and began preparing for that day's service. She said that she was in the kitchen of the cafeteria between 07:15 and 09:30am., and that at approximately 09:30 or 09:45, she went to lunch, returning at 10:30. She said that lunch starts at 11:10, however she recalls that they probably opened the service lines early that day, at approximately 10:50. She said that usually for breakfast there is one window open and that there is a cashier that works the window.

Liane said that on 4/20/99 she was working a cashier for the lunch line. She said that she remembers a student running in from near the faculty lounge area, running across the north side of the cafeteria yelling to *get down!*. She said that she began to observe people getting down on the floor. She said that Mr. Sanders then came from the same general area; she didn't see where he'd come from but first noticed him coming near the faculty lounge yelling *get down, they have guns!*. She said that he headed across the cafeteria towards the stairwell but didn't

see where he went. She said that at about the same time, numerous students started for the stairs. She said that a student named Matt, who she believes his father is a police officer, came running across the cafeteria to her and asked her if there was a phone. Liane said that she had just kind of frozen in her position, and then helped Matt into the kitchen, and pointed him to a back room where there was a phone. She said that there was a wave of people that came through the kitchen, and that she ended up going into the storage room. She estimated that there were 17 or 18 students and teachers in the storage room. She said that they came in in two different surges and she doesn't know who went in with who. She identified some of the people that were in the room with her as Linda Tiblias, Marlene Nederman, Laverne Helm, Erik (a teacher, last name unknown), Tony Arnacio (the head building Engineer), Judy Grieko (a teacher), Chris (a female teacher, last name unknown), and students Greg (last name unknown), Kristen (last name unknown), Austin (last name unknown), Paul (last name unknown), Michelle (last name unknown), Kent (last name unknown), and a teacher, Tony, last name unknown.

Liane said that when Mr. Sanders came in, she heard what she thought were gunshots. She couldn't identify the type of gunshots but said they sounded like firecrackers. Her first reaction was that she thought it was a Senior prank. She said that once they got inside the storage or mop room, she heard several loud 'booms' and more "firecrackers" or gunfire. She thought these were coming from inside the cafeteria. She said that there was one extremely loud single sound and then some rapid fire or firecracker sounds. These two came from the cafeteria area. She then said that Tony, one of the teachers, had a walkie-talkie with him and was talking with school security. She estimated that at approximately two o'clock a SWAT team came and evacuated her and the other people out of the mop room.

Liane did not notice any unusual duffle bags or backpacks in the cafeteria on 4/20/99. She had never heard of the trench coat mafia, however she did see kids who wore black trench coats, but to the best of her recollection, she thought that Klebold and Harris dressed in the more Military style, with camo pants and boots. She had

never witnessed any particular picking on the trench coat mafia students, aside from the normal fights that occur in the cafeteria. She said that she noticed that the students who dressed as *Goths* were picked on most, and they seemed to travel in small groups to avoid any confrontations with other students. Liane could provide no information on suspects or bombs that had been left in the cafeteria.

INVESTIGATION:

On 07-08-99, at approximately 1137 hours, I contacted witness Lucas by telephone at her residence. I asked her to provide any pertinent information she knew of relevant to this incident. She indicated that on 04-20-99, at approximately 1120 hours she was in the cafeteria standing on the west side by the windows, talking to some students when she saw another teacher identified as Dave Sanders come into the building and yell, "Get down, he's got a gun." She advised that she looked outside and saw a male subject, description unknown, throw something into the parking lot of the south side of the building. She advised this same individual pulled what she described as an automatic pistol from under his coat. Witness Lucas advised that she could not identify this student, but by all accounts she had heard and read about this individual was later identified Dylan Klebold, according to witness Lucas. She indicated that Dave Sanders yelled once again for students to get down and out of the area, at which time she advised that something very serious was happening. She also began yelling at students to get out of the cafeteria She advised that most students exited the cafeteria by way of the stairs on the east side of the cafeteria. This time frame was approximately five minutes for all this to occur. She said that she and other teachers and students attempted to go up the stairs, as they were rounding up what she believed to be the last group of students, when she heard an explosion coming from the top of the stair area and smoke bellowing down into the stairwell. She advised that her and two other teachers, Mrs. Park and Mrs. Kelly, took these students and went down the Foreign Language hall. It was at this time she heard the fire alarm sound. Witness Lucas indicated the only thing she could think of was the incident in Jonesboro, Arkansas, where the fire alarm had been activated by one of the suspects, and as students exited the building, were shot. With this in mind, she told kids not to go outside when she heard the fire alarm go off, as a potential ambush may be occurring. She indicated that she went into the last Foreign

Language classroom at the end of the hall with these students and teachers. She said that the door to this room opens outwards toward the hall and they did not have a key to lock the door and basically had no way to secure themselves within the building. She said there was a certain of period of time when no explosions were occurring and at that time she peeked out into the hallway and did not see anything suspicious. She indicated that other people had peeked out the south door to this classroom and was told that two other teachers at the south east corner of the student parking lot near Pierce and Polk were waving to these people to exit the building. She indicated at that time they went out this particular south door, crossed the parking lot, and went to the L.D.S. (Latter Day Saints) House near Pierce and Polk. They stayed there, attempting to calm the emotional state of students and were not allowed to leave. They stayed at this particular residence until approximately 1600 hours when the police made arrangements to take these students via school bus to Leawood Elementary to meet with their parents. She indicated that she lived in the area and had made arrangements with her husband to pick her up at the end of the block. Witness Lucas did not provide any additional information to this incident.

April 20, 1999 Tuesday

Today we got out of school really early only because some people wanted to blowup the school. I was in the cafeteria, or commons as we call it, when this whole thing started. At first every one thought it was a senior prank only because the seniors were talking about a really big prank that they were going to pull. We all heard an explosion and then saw smoke. We all thought they put a smoke bomb in one of the seniors or juniors cars, only as a joke. Then there was another explosion, only louder this time and even more smoke so we all started to wonder what was really happening. Then Mr. Cram came running in yelling at every one to get down. We all got down and then some one said to my friend, Sarah Gillings, and me that there was a guy in the parking lot throwing pipe bombs around. One of the janitors came running in and told us to go with him so we followed because we knew then that this was not a joke. We hid in the entrance of the kitchen. Then that is when the loudest of all the explosions for me was, only because it was the closest and it was inside of the building. Then Mr. Andres Jr. opened some doors that led to the stage of the auditorium. Everyone that went through that door went really fast. Sarah and I were holding hands to make sure we knew where each other were. We lost each other when we were running through those doors. We found each other on the stage and linked up again. We started running again. We ran up the stairs that was in the auditorium in order to get to the second floor. We ran down the hall, past the main office, down the counselor's hall and out the door to the smoker's pit. The smoker's pit has 3 fences. On the left is a baseball field, on the right there is a tennis court. In the center is a fence about 4 to 4 ½ feet tall. Sarah was starting to get hysterical saying "they're cornering us in, they're cornering us in." We jumped the fence and ran towards Clemet Park. I told Sarah "if we got separated to go to the car." We found Shelly and the 3 of us held hands running. When we got to the car we found a lot of people and we just piled into the car. Then some people were looking for an inhaler and Shelly had one. We then were told to not go home because they wanted a head count. We then went and sat down on the grass by the street Pierce. We saw a lot of police cars. Shelly was really worried about her brother only because he was in his truck in the student parking lot. He was in the direct line of fire. So Shelly was also pretty hysterical and worried about her brother. We then started walking home and my 7th period teacher, Mrs. Waseko, told us that we should go home if we could. I asked Sarah and Shelly if they wanted to go to my house and they said, "it would be a lot better than staying here." I told Sarah that I was going to go get the car. She gave me a big hug and said, "you better come back and in one piece." I went back to get my car and people were yelling at me because they thought I was going back inside of the school. I got into my car and they stopped yelling at me. I then drove up on to the grass looking for Sarah and Shelly. I didn't find them but I did find Mrs.

Waseko. She said, " how did you get your car?" I told her that I went back to get it. She said "Stupid, Chris, that was really stupid." I didn't find Sarah and Shelly in that part so I went to the other sidewalk. I found the two of them and honked the horn. They really jumped and I really did not mean to scare them. They got in the car and we went to my house. When we got to the stop light Sarah turned on the radio to see if there was anything about this event on the radio. When we got to my house Shelly and Sarah called family members. I took Shelly to the Governors Ranch Elementary school to wait for her brother. When I got home from waiting with Shelly, I found out that my mom had taken Sarah to her cousin's house. After my mom got home from taking Sara, we watched the news. About 1:30 Ashleigh and her mom arrived at our door. We all watched the news. Later Larry showed up after Linda left. Later Linda showed up and we ordered 2 pizzas. We ate and then Larry, Linda, and Ashleigh left. That night I was unable to go to sleep only because I was paranoid about some one standing there in the dark waiting for me to go to sleep, and then kill my dog Charlie and I. I had to turn on the lights; I can't sleep with the lights on, in order to make sure that I was safe. I have never been more scared in my life. I was never afraid of the dark until now. I was also afraid to be alone, so I made sure I had someone alive, my dog Charlie. I did not sleep much.

INVESTIGATION:

On May 4, 1999, between the hours of 0857 and 0940, I had an opportunity to speak with Naomi in reference to the Columbine incident that occurred on April 20, 1999. Also present during the interview was her father, Randy.

Naomi told me that she arrived at Columbine High School on the incident date at about 0725 hours and proceeded directly to her locker, which is located in the gym hallway. Naomi told me that she went to her scheduled classes that day and arrived in

the cafeteria at about 1110 hours. Naomi was shown a map of the cafeteria area at Columbine High School and asked if she could tell me which table she was seated at. Naomi proceeded to tell me that she was seated at table V and also seated at the table were her friends, Lauren Beyer, telephone number (303) 979-8636, Lindsy Blair, telephone number unknown, Brandy Malonson, telephone number (303) 933-3269, Sarah Filipiak, telephone number (720) 981-0823, and Alex (last name unknown). Naomi stated after she placed her backpack at her lunch table she proceeded to the food service line and shortly returned, where she began to eat her lunch.

Naomi describes seeing Mr. Sanders come into the cafeteria area, at which time he was telling the students to get down, somebody had a gun. She describes Mr. Sanders as being near the south doors of the cafeteria. Naomi advised that she then started to hear popping noises coming from outside and that she could see people running back and forth outside directly south of the cafeteria. Naomi grabbed her friend, Lauren Beyer, and the two of them ran to the stairs and proceeded up the stairs to the main level of the school and ran east down the science/math hallway, exiting from the school where they went to Leawood Park. After they reached Leawood Park they went to their friend, Lindsy Blair's house, where they remained.

Naomi was asked while she was in the cafeteria if she saw two large duffle bags or sports bags, one being described as being blue in color and the other one is an orangish/red, which were located in the central core area of the cafeteria. She stated she did not see the bags and could not provide any additional information about them. Naomi was asked if she saw any gunmen while she was in the cafeteria area or if she saw any gunmen after she exited from the school. She stated she did not.

Naomi could not provide any additional information reference the "Trench Coat Mafia," specifically Eric Harris or Dylan Klebold, nor could she tell us any possible associates of this group.

I asked Naomi to describe what she was wearing on the incident date. She told me that she was wearing a light blue short sleeve shirt with a long plaid dress on. I had Naomi describe the backpack that she left in the cafeteria. She told me it was a navy blue Eddie Bauer backpack and that she didn't leave any additional items in the cafeteria. Naomi was asked if there were any rumors about school in reference to April 20th. She told me that she didn't have any additional information to provide.

INVESTIGATION:
On 4/26/99, Investigator Reker and I met with Brianna Lumley at her residence reference the shooting at Columbine High School. I explained to Brianna why we were there and asked if she would look at a sketch of the cafeteria and tell me where she was sitting. Brianna circled the table marked "II" and put an "X" on the chair where she was sitting. I asked Brianna if she was sitting by herself and she she said no, she was with other students. Brianna gave me names of eight other students with which she was sitting. I asked Brianna if she could tell me what happened in the cafeteria. Brianna said that while sitting at the table she heard teachers tell students to get down and get underneath the tables. Brianna said she heard approximately three shots outside and looked out through the windows and saw what she believed to be s :e. I asked what windows she was looking out of and she said the windows by the doors, which would be on the south side. Brianna said that Coach Sanders told the children to get up and run upstairs and get out of the cafeteria. Brianna said while she was running upstairs she did hear gun shots. Brianna said that there was a student behind her that fell running up the stairs and she does not know if he was shot or tripped. Brianna said that she ran into the math room, which is at the top of the stairs. Once in the math room she ran out another door and went down the stairs, exited the building and ran toward Leewood Park. I asked Brianna if she ever heard any explosions and she said she did hear an explosion while she was running through the school. I asked Brianna if she saw who was doing the shooting or who made the explosion and she said no, she did not. I asked Brianna if she saw any backpacks in the cafeteria that appeared to be suspicious or out of place and she said no, there's always backpacks in there and it would be hard to determine if they were suspicious or not. I asked Brianna if there was any other information she had reference the shootings. She said, no, that's all she had. At this time I gave Brianna a business card and asked that she call if she thinks of anything else.

MAES, Alicia Rahmi (DOB:081783)
7752 S. Ames Way
Littleton, CO 80123
(303) 933-1936

05-19-99 / 11.30am

MAES began by saying she had been previously interview by an investigator from the Columbine Task Force about three weeks ago.

MAES reiterated having been by the Rebel Corner sitting with fellow classmates Crystal ARCHULETA, Janell and Aliea RUSSELL, and Veronica NUNCIO on a window ledge at about 11:20am on April 20, 1999. She describe hearing a "commotion" coming from outside so she went outside exiting through the doors by Rebel Corner with NUNCIO and ARCHULETA.

When they got outside an unidentified student told them to get down, which they did. She recalled seeing a tan colored, possibly 1980's "beat-up" compact pick-up truck driving around in the parking lot briefly, then drove from the lot turning possible right leaving the area.

She said at this point she looked to the area at the top of the exterior stairs on the west side of the cafeteria and saw a suspect whom she thought was student [redacted] She clarified that this could have been Dylan Klebold, as she did not know either one of them prior to the shooting. She described this person was wearing a black trenchcoat, a black baseball style cap on backwards, black pants and black boots with possibly a white shirt. She said she saw this person walking down the grassy hill, but could not recall on which side of the stairs he was walking.

MAES said she thinks she recalls this suspect carrying a "long gun," as she thought he fired at some point toward the soccer fields. She went on to say at some point this person retrieved a pipe bomb from his coat and threw it into the student parking lot. They then turned and ran back into the cafeteria through the long row of doors when she heard an explosion from the area of the parking lot. She said they ran back to the area where they had been sitting by the window sill and laid down briefly. She described everyone in the cafeteria began running in all directions so they ran down the hallway by the foreign language classrooms and waited for about a minute. After this they exited the school where she ran toward Pierce Street where she stopped a white pick-up truck driven by an female student not known to her. This person drove her from the area.

May 5, 1999, 2030 hours (8:30 p.m.)

PLACE INTERVIEWED:
Residence: 7545 S. Yukon Court, Littleton, Colorado 80128

ACTION TAKEN:

On May 4, 1999 the Reporting Agent, Linda R. HOLLOWAY, called Brian MAJCEN by telephone to schedule an interview with his brother, Matthew MAJCEN. Matthew's name was on the list of student's who had possibly been in the cafeteria at the time the shootings began. Matthew informed me that his brother, Brian, is a special needs student and that a family member would need to be present to help with the interview of Brian. Matthew furthered report that he was also a student at Columbine High School and was in the school on April 20. An appointment was scheduled for the evening of May 5, 1999 for an interview with both boys at their residence in Littleton.

On May 5, 1999 at 8:30 p.m. I meet with the MAJCEN family at their home. Both parents, Tom and Gloria MAJCENE were present during the interview. Brian had another previously scheduled appointment so he was interviewed first.

Brian was taken to Columbine High School by his father on the morning of April 20, 1999 at about 6:50 a.m. He arrives early to lift weighs as he is on the football team. He attended classes as usual in the morning. He is scheduled to take B Lunch and was in Math class when the fire alarm went off. His teacher instructed the student to get out of the building. He was unaware as he began moving that there were

gunmen in the building. He took the long way out of that wing, but left out of an exit in the math wing and went to the park across the street.

He had heard later that there was a gunman on the roof, however, he never saw any gunmen or witnessed any shooting. Mr. MOORE, a history teacher, told him that someone was shooting at him (Mr. MOORE). He eventually was taken home.

An interview was then conducted with Matthew. He is a sophomore in the special needs class. He appears to be relatively low functioning and was unable to give spontaneous responses to my questions without the assistance of his family members.

He was picked up by a friend, Brad BOLLERUD and taken to school that morning. He attended first hour American Government class and then was in Special Ed class second, third and fourth hours. He then went to A Lunch where he (per the cafeteria roster) sat at table C. He was with Jeff BARRETT during lunch. He had walked toward the windows to talk with a friend, David HOLMES or David HOLMAN when he heard shots. Mr. SANDERS told students to get down,, so he got down under a table.

The next thing he remembered was getting up and running. He ran with Nicole ZACCARDI (from table KK). He ran through the Foreign Language Hall and he and other student hit under a desk for approximately 30 minutes. He than ran out of the parking lot and over the hill to the Morman House. He did not see any gunman or see anyone shoot.

He left behind his green Jansport backpack in the cafeteria. He does not have a regular student locker, however he does have a gym locker and it contains his gym shorts and shoes. He does not recall what he was wearing that day and neither do his parents.

The only other information that could be recalled was that a person by the name of Leigh KAMENS "took control" of the room where he hid under the desk in the Foreign Language hall. She may be a student.

INVESTIGATION:

On 05-11-99 at 1100 hours I interviewed Brandi Malonson in the presence of her parents at her home Brandi stated her sister drove her to school on 04-20-99. They parked at Leawood Park. They entered through the front entrance of the school. Brandi's sister, Monica, was there for the first hour only and then left school.

Brandi stated she has choir for her first hour class, government for her second hour class, English for her third hour class, and science for her fourth hour class, all these classes are located on the top floor of the school

After her fourth hour class, Brandi stated she saw Isaiah Shoels near her locker. She stated she invited him to come and sit at her table for lunch. He told her he had to go to the library to check out a book but would meet her in the cafeteria. Brandi stated she entered the cafeteria by coming down the stairs and was there between 1110 and 1115 hours. She stated a lot of kids were in the cafeteria already

Brandi stated she had seen HARRIS around the school but did not know his name. She had never seen KLEBOLD before. She had heard of the "trench coat mafia" but stated that it wasn't that prevalent in the school. She knew that there was a group of TCM, however she had only seen people wearing long trench coats a couple of times. Brandi stated she did not see these people in or around the school that morning

Brandi traced her path into the cafeteria on the attached diagram. She indicated she sat at table "V". After she put her bag on the table she bought some food from the Rebel Corner Store. After she sat down at her table, she stated she saw some kids get down on the floor who were near the west windows. At first she thought it was

a senior prank. Then three janitors ran through the cafeteria telling everyone to get down. She stated then saw Mark Opfer run into the school through the student entrance and he had a very upset look on his face. She stated she knew something was serious then. She stated the kids on the west side of the cafeteria started to move east, some were crawling on the floor.

Brandi stated she saw a guy wearing a long black trench coat and a black ski mask inside the cafeteria He was with another guy who was wearing a long black trench coat. The first guy had a gun inside his coat She then saw him take something out of the coat and she then heard gunfire. She indicated where the gunmen were in the cafeteria and then where one of them moved toward table "RR".

Brandi ran up the stairs to the top floor to the area by the choir room. She stated she then ran into the auditorium from the south side. She ran through the auditorium to the top floor and ran out the north east door into the hallway. Brandi stated she saw blood on the lockers outside of this doorway. She heard gunfire and ssibly some explosions. She ran east out through the front door and as she was approaching the front doors, she heard gunfire coming from behind her and the glass in the doors were shot out at that point. Once outside she ran to Clement Park and to the Jefferson Apartment complex on the north side of Bowles, and from there she called her mother who came to pick her up.

Brandi had a maroon Jansport backpack that contained her math book, Spanish book, notebooks, an agenda book, and her jeans wallet that had a Winnie-the -Pooh on it. Also in the bag was a make up bag that look similar to the wallet. Brandi was wearing a black dress with a flower design and she had on black sandals

Brandi stated she does get on the Internet a lot. She stated a couple days after the shooting she brought up ERIC HARRIS' profile and printed on it. (See attached) She stated this was his AOL profile and she had never brought up any of his information or KLEBOLD's information before. She stated she brought HARRIS' profile up because she was curious.

Brandi remembered the thought for the day as being something to the effect of "I bet you wish you weren't here", which was in real small text.

On the morning of 04-20-99, Brandi stated that she heard a freshman by the name of Courtney remark to another unknown girl that she was going to "go get high because something big is going to happen at lunch" Brandi stated Courtney emphasized "Big" a lot. Brandi stated Courtney is a Gothic-looking girl with long black hair,

black baggy pants, over-sized shirts, white make-up and heavy black eyeliner.

INVESTIGATION:

On May 6, 1999 at 1829 hours I contacted Valaria Mar at her home for an interview. Her mother was present. While at the home, I also interviewed Valaria's twin brother, Arty, who was in a science room during the incident until rescued by SWAT. Valaria then told me the following:

* She is a freshman at Columbine High School.

* When asked about Eric Harris, she said that she does not know him by face or name. She may have seen him in a trench coat once or twice in school, but she was not sure.

JC-001-003641

* When asked about Dylan Klebold, she said that she does not know him by face or name.

* When asked, she did not know [redacted]

* She did not know any other trench coat students or associates. She has only seen the one student once or twice in school this year.

* She has never heard of the name "Trench Coat Mafia."

* She did not see any suspicious objects in school that day. When asked specifically, she did not see any duffle bags.

* On the day of the shooting, she had a 4th hour ceramics class in the art area of the school. She stayed a few minutes late in that class to help clean up. At about 11:15 a.m. she walked down to the library with Margot Brown. Margot was going to spend the lunch time in the library.

* She then walked down to a table in the cafeteria and dropped her backpack off on a chair to reserve her spot. She did not know who else may have been at that table as she and her friends usually sit at three tables that are grouped together. She looked at the diagram and said she dropped her pack off at table KK. This was the location her pack was recovered from. She and her friends sit at KK, LL, and FFF.

* After she dropped her pack off, she went to Rebel Corner to get a meal. She was joined by Margot Brown who decided not to spend the lunch hour in the library.

* While in the line to get her food, she saw several students going out the south doors. A few minutes later she saw the students come back in. She then saw everyone in the cafeteria getting down under the tables. She then moved over to one of the tables by Rebel Corner and got under it. She then followed a group out of the

cafeteria that went down to the foreign language area. She wound up in a Spanish class that is in the far southeast corner of that area. She went under a desk for about 5 minutes. She heard 3 or 4 gunshots or explosions. Two unknown teachers then had them run out the south exit door by that classroom and through the lot to a Mormon house on Polk Street. She said that she stayed in the garage to that home. She did not hear anything else.

* She did not see any suspects.

* She was wearing jeans, a cream colored vest, and black sandals on the day of the shooting.

* She added that a girl who sits in front of her in her 1st hour geometry class told her on the morning of the shooting that a lot of people were going to get "high" that day. She said the girl said it was "4-20 day." There was also a mention about police. (This is consistent with information about "4-20" being the code and a date for marijuana smokers.) She thought the name of this girl was Michelle.

This concluded my interview with Valaria Mar.

OBSERVATION/INVESTIGATION:

On 051499 Sgt. Webb and myself contacted Joey Marcotte at Chatfield High School, where I told her I needed to speak to her about some information regarding the shooting incident. Joey stated that she had no problem talking to us. I told Joey that I needed to ask her questions about her description of one of the shooters. Joey stated that she had seen the suspect come into the cafeteria wearing a black baseball hat, but she couldn't see his face very clear because it was covered up, but he was wearing an orange or white T-shirt with some kind of writing on it, then he had a trench coat on, with some kind of automatic weapon. I asked Joey if she saw his hair, and she stated that she remembers that he had long curly black hair. I asked Joey if she could describe his pants and she stated that they were "real baggy" black jeans. I asked if the pants were some other type of material or jean material, Joey was certain they were jean material I then asked Joey where she was when she saw this individual,, and she stated that she was down on one knee (which she demonstrated), under table "E", Joey stated that she was under the table about an hour and a half, and that she heard a lot of angry yelling and cussing form someone with a "deep dark mean and scary voice". I asked Joey if she could tell me what they said, and she stated that the voice stated "Today is the day the world comes to an end, today is the day we die" I asked Joey what else she remembered and she stated that she heard lots of explosions, and gunfire, and that the smoke started getting thick in the cafeteria, that's when she started crawling to the door to get out. I asked Joey which door she went out, and she stated that she went out by the "Rebel Store" doors, then she ran out into the parking lot and hid by some cars on the south side by a "big" fence at the last row to the west in the Senior lot. Joey stated that she was hiding next to a tan colored car. Members of a SWAT Team rescued her.

I asked Joey if she had seen anyone else, and she stated that she had I asked her to describe that suspect for me. Joey stated that he was wearing a blue baseball cap, and that he and blonde hair. The suspect was wearing a white T-shirt with some kind of ammunition vest that was black, and he had regular blue jeans on. I asked her if there was anything else she could remember about him and she stated that his T-shirt was splattered with blood. I asked Joey who she thought that was, and she stated that she thought it was Dylan.

I asked Joey what time she first saw these guys, and she stated that she believed it was 11:20 AM. That was when she first saw "Eric" run by the window of the cafeteria, headed toward the stairs. He put down a black duffel bag with 2 handles, she remembers him having on a trench coat and seeing pipe bombs and shotgun shells hanging on his chest, and he had a small handgun in his hand. Joey went on to say that all this had occurred before the sprinklers went off, and during that time both of them were shooting when they

ORS

came down the stairs into the cafeteria. Joey believed that she was about 2 or 3 feet from them while they were shooting. I asked Joey what they were shooting with and she stated that they both had shotguns, but thought they were shooting with something else, Joey stated that she could smell gas and saw the propane tank, that was what they were shooting at.

I asked Joey if ther was anything else she could tell me about the incident and she stated that she remembers that during prom week someone had put super glue in all the door locks of the school and none of the doors would lock, everything was open. I asked Joey if she knew who had done that or if any one had taken responsibility and she stated no.

Joey was unable to provide any further information.

No further action taken by this Investigator.

Christopher Shan Markham, DOB 02/06/1984, 7156 South Pierce Court, Littleton, Colorado, telephone (303)904-3538, a freshman at Columbine High School, was interviewed at his home in the presence of his mother, Sherry Markham, by Special Agent (SA) Ricky V. Wright regarding the incident that took place on 04/20/1999 at Columbine High School. After being advised as to the identity of the interviewing agent and the nature of the interview, Markham provided the following information:

At approximately 11:10 am, Markham got out of French class and left the foreign language department and went directly to the cafeteria. Markham set his bookbag down at a lunchroom table(marked SS on diagram sketch), got his lunch, and sat back down. Markham remembers that Tim Mulcahey, Bear Foster, Nate Vauderau, Jon Fries, Patrick Caruso, Erik Sunde, and Jesse Maddox were also sitting at his table. Markham was sitting facing northeast. Markham thinks that Vauderau was sitting to his right. Markham does not recall who was sitting to his left.

Markham was eating his lunch, when he heard what sounded like shots and an explosion outside the cafeteria to the northwest. Markham stood up and ran to the cafeteria door by the teachers' lounge and opened the door and looked outside. Markham saw Lance Kirklin, Dan Rohrbough, and Sean Graves all lying just outside the cafeteria door. Sean graves was the closest and said that he had been shot. Matt Katzenmeier was also at the door looking out. Mr. Sanders, another teacher, and a janitor helped pull Graves inside the cafeteria. Markham turned and ran down the west side of the cafeteria and began yelling that someone was shooting. Markham huddled down in the northeast corner of the cafeteria for a moment and then started to crawl toward the stairs. By this time, most of the students in the cafeteria were also huddled down. Markham had been carrying a sandwich in his hand and paused to throw it in the trash can at the foot of the stairs. Markham then jumped the rail to the stairs and ran up the stairs to the choir room next to the stairs and pounded on the door. The choir teacher, Mr. Andres, came out and Markham told him what was going on. Markham then tried to knock on a door on the south side of the main hall, but no one came. Markham then ran east down the main hall and then north down the language and history hall toward the school offices. Stephanie

Lohrenz and Katie Beer were also in the hall and ran toward the school offices as well. While they were running, they heard five or six shots coming from the direction of the school offices. Markham did not see anyone, but they turned around and ran back to the south main hall and then east out the exit at the end of the hall. Once outside Markham jumped over a fence and ran across Pierce Street to Leawood Park.

Markham was in the cafeteria for about 20 minutes at the end of first hour. Markham was sitting in the vicinity of the table marked YY on the diagram sketch with Tim Mulcahey, Brenda Kelly, and Kacey Fisher. Markham did not see the gunmen during the shooting. Markham did not remember seeing any large duffle bags sitting in the cafeteria during lunch or first period. Markham knew Eric Harris and Dylan Klebold, because they would come over to Markham's residence with Chris Morris, who was the boyfriend of Markham's sister, Nicole Markham. Markham has known Harris and Klebold since December 1998. Markham estimates that they came over approximately 20 times. Sometimes they would play Nintendo or play Monopoly. Markham would sometimes go to midnight bowling at a bowling alley located at Belleview and Federal with Harris, Klebold, Nicole Markham, Chris Morris, Krista Hanley, Robyn Anderson, and Tiffany Last Name Unknown(LNU). Markham never knew Harris or Klebold to talk about guns or bombs. Markham does not have an Internet screen name.

On the day of the shooting, Markham was wearing a green t-shirt, blue jeans, and brown shoes.

INVESTIGATION:

On 05-08-99 at 0900 hours I interviewed Chandra Marshall in the presence of her parents at her home Chandra stated she drove to school and parked in Clement Park's parking lot, arriving at approximately 0715 hours on 04-20-99. She entered the school through the main entrance. She stated she did not see anything unusual outside the school or inside in between classes She stated she has fourth hour as her off hour and she spends it in the cafeteria. She entered the cafeteria between 1025 and 1030 hours She stated there were a lot of kids there already At that time she entered the cafeteria by coming down the stairs She stated she sat down at table number "R", then bought something from the Rebel Corner Store, then sat down again. She indicated her route to this table on the attached diagram. She also indicated who she sat with during her fourth hour Chandra left the cafeteria at 1047 hours to go upstairs for an interview with the R.N.N

Chandra stated she had seen KLEBOLD and HARRIS around the school but did not know their names She was aware of the "trench coat mafia" who were identified by the long, black coats. She stated they were just like any other clique at the school, they liked to hang around together. She stated she had classes with some of the girls in the group but she did not know their names. She stated she did not see any of the group that day She stated she saw the group more last year than she has this year.

After her interview on the second floor, she went to the financial office briefly with her friend, Noel Snyder Chandra and Noel then returned to the cafeteria by going down the stairs entering at approximately 1105 hours.

She stated at 1110 hours, the bell ran and Noel left Chandra stated she sat at the same table with different people this time These people are indicated on the attached diagram

Mr Sanders and a janitor ran around the cafeteria telling everyone to get under the tables. She stated it was very noisy in the cafeteria and she thought that it was a prank, so the people at her table began to joke around about it. She stated people started to get up when Mr Sanders yelled at them to get down again. She stated Mark, who she was sitting with, suddenly got up and took his backpack and started for the stairs. She stated then people started to stand up and leave the west side of the cafeteria and it appeared to be like a wave of people leaving. She stated she went up the stairs with everyone

INVESTIGATION:

On 5/4/99 I was assigned Information Control Number DN2730 for follow up investigation. The Information Control narrative stated that Jean Martin is on the original cafeteria backpack list.

On 5/5/99 I responded to 7925 West Geddes Place and met with Jean Martin and her mother and father. Martin indicated that she had been in the cafeteria at the time the incident began.

JC-001-003671

Martin stated that on 4/20/99 her mother drove her to school and that she arrived at the school at approximately 0725 hours. She said that her mother had driven her and her two sisters, Jennifer and Stephanie, to school and dropped them off at the main entrance. She said that she then went to her locker to pick up several notebooks and went to her first hour class in the Science wing upstairs. After her first hour class she went to her locker and then her second hour class which is American Studies, which is upstairs in the language department. After her second hour class she went to her History class, her third hour, which is also located in the same room. She said that between second and third hour she went to her locker. She said from third hour she went to her fourth hour Spanish class which is located in the lower level. She then went to the "A" lunch. She said she's actually scheduled for the "A" and "B" lunch together. She said that she had her pack with her and that she went to table number "Z", as she looked at the cafeteria map. She said there were already students at the table, and identified those students as Stephanie Wise, Carmie Deihl, Nicole Janda, and three other unknown named females. She d that she went to the food service line and purchased a taco salad, went back to the table and began to make the salad, and began to eat which she believed to be about 11:25. Mr. Sanders came running into the cafeteria from near the faculty room, yelling *"Get down! Get down!"* She said that at first she didn't get under the table and remained seated; then she noticed that people were under the table and that something appeared to be wrong. She said she then heard something that sounded like firecrackers and she began to crawl away from the windows. As she was crawling, she noticed everyone got up and that people were starting to run towards the stairwell to exit the cafeteria. She said that she got up and started walking toward the stairs. She said that she waited for a large wave of students to pass and then she started to go up the stairs when she heard what she thought was a gunshot and saw smoke at the top of the stairwell. She described the smoke as being grey in color and appeared to be a small isolated cloud. She thought it might have been from a gunshot burst. She then turned back down the stairs, and said that there were several teachers telling the students to go down the foreign language hallway. She said that she ran down the hallway, turned right, and ended up in classroom F-3. She said there were numerous other students in the classroom and that they huddled against the wall and closed the blinds. She said that the teachers in the room could hear more gunshots, and that there were people trying to

use a cell phone to call 911. She said that when the faculty heard more gunshots from near the cafeteria, they evacuated the students out of the classroom and out through the door to the south. She said that she ran to a house on the corner that people refer to as the "Mormon house" They were allowed inside and there again students there attempting to use the phone. She estimated that she was at the house for about thirty minutes then she started to walk home. She then got a ride, and believed that she arrived home a little after noon. She said that she got separated from her classmates in the cafeteria.

Martin said that she did not see the shooters, just heard the gunshots and what she thought might be explosions.

Martin said that she left her backpack behind and that it is a black One Stop pack. She said that it has a leather bottom and is more of a briefcase than a backpack. She said her pack contains her Spanish notebook, her nish workbook, a book on Spain, her Cassio FX calculator, and her purse is in her locker She stated that she was wearing overall jeans, white tank top and a grey pullover.

Martin said that she was familiar with the trench coat mafia, that she'd been familiar with them about the first couple weeks in her freshman year. She said that they hang out and play a card game called *Magic*. She said that it's a roll-playing card game and she knew that they all wore black trench coats. She said that on one occasion she actually observed the trench coat mafia playing with the jocks, the card game Magic. She said that whenever she observed them they were usually on the west end of the cafeteria hanging out together. She said that she had had no problems with anyone in the trench coat mafia.

Martin said that she did not notice anything unusual that day. She did not observe any large duffle bags or unattended backpacks in the cafeteria. She has heard no students talking about stockpiling weapons or making and playing with bombs. She does have Internet access although does not have her own Website, and says that she has never accessed any of the trench coat mafia sites.

While interviewing Jean Martin, the parents advised that Jennifer Martin, dob: 1/3/81, is a Senior at school; was in the gym class and was immediately evacuated out of the building to Clement Park, and then to the Library. Their conversations with her indicate that she has no information on the suspects, didn't see anything, only heard the shots. They also have a daughter who is a freshman, Stephanie Martin, dob: 4/6/84. She had been in her science class, teacher Mr. Moses. She said that they stayed in the science class during the entire incident and she can describe what she heard, the gunshots and the explosions, but did not see anything and was eventually evacuated from the school by a SWAT team. Stephanie Martin did not wish to speak with me about the incident and, at her parents request, was not interviewed. Jennifer Martin was unavailable. They appeared to have no further information as far as additional leads in this case.

ADDITIONAL WITNESSES:

at Columbine High School. This interview was in reference to the shooting that occurred on 4-20-99 at Columbine High School

I interviewed Robert Massie in the presence of his grandmother, Pat Massie. Robert Massie told me on 4-20-99, at approximately 1110 hours, he got out of his math class, which is in the math hall on the second level at Columbine High School. Robert said he proceeded to go downstairs by himself and entered the cafeteria at approximately 1115. Robert said that he saw several friends of his that were in the cafeteria at a table so he joined the friends at this table. Robert said these friends were Lance Kirklin, Anthony Sammanro, Sean Graves, Steven Curnow, and Daniel Rohrbouge. I showed Robert Massie a diagram of the Columbine High School cafeteria and he told me that the table he was sitting at on 4-20-99 was table "YY" This table is located on the far west side of the cafeteria and just south of the faculty lounge. This table is also due east of the door from the exterior of the Columbine High School cafeteria to the interior by the faculty lounge.

Robert Massie said that after talking for a few minutes at the table Lance Kirklin, Sean Graves, Robert Rohrbouge, and Steve Curnow got up from the table and exited the cafeteria through the far west door near the faculty lounge. Robert said these friends went outside the door and then began to go up the stairs. Robert said that he heard several noises that he believed were fireworks going off, however, he did not know how many of these noises he heard. Robert said that when he looked outside of the cafeteria towards the parking lot he saw smoke near a vehicle that was parked in the lot. Robert said then he heard approximately 10 to 15 more noises that were apparently gunshots. Robert said a student came running into the cafeteria through the far west door by the faculty lounge, and said that there had been shots fired outside. Robert said at this point several teachers entered the cafeteria and told all the students to get up and run out of the cafeteria and upstairs to the second level of Columbine High School. Robert said when he began running, he said it took approximately five minutes to get from his table to the second level of the high school due to the fact all the students were trying to run at the same time and were running into each other and knocking each other down in the cafeteria. He said when he got to the top of the stairs, he went towards the science hall where he saw a teacher waving students into a classroom at that location. Robert said he ran into a science class and it was the science class where Mr. Sanders was. Robert said once inside of this classroom, someone locked the door between the classroom and the hallway and he said all the lights were turned off. The students sat up against the wall so that if one of the suspects looked through the window in the door, they would be unable to see anyone inside. Robert said the students did take the tables that were in this classroom and lay them on their sides to hide them further while in the classroom. Robert said that there were two classrooms

which had students hiding in this manner, and said there is a door between the classrooms. He also said while he was sitting in the dark against the wall he heard "real loud booms" and believed they were bombs going off. He said it sounded as if these explosions were coming from directly below the science classroom on the first level and said when one of the bombs went off everything in the science room shook. Robert said he believed he heard four to five of these bombs detonated in the school Robert said that while waiting in the classroom, one of the teachers was watching a television set so they could follow the events taking place at Columbine High School through the media. Robert said at approximately 1530 to 1545 hours, all the students he was hiding with in the science classroom were rescued by SWAT, and then taken from the school to Leawood Elementary School. Robert said at Leawood Elementary School he met with his mother, his father, and his step-father at that location

I asked Robert Massie if he knew either one of the suspects prior to this incident. Robert said that he had Eric Harris in his gym class during the first semester of 1999 Robert said that Eric Harris would stay to himself and when he came to and left the gym class he always wore black clothing. Robert said Eric Harris wore a black trench coat in the school and said that he did not believe this trench coat was made out of leather, saying it was probably made from cloth. Robert Massie said he never talked to Eric Harris or associated with him. Robert Massie said Eric Harris worked at Columbine High School in the Rebel News Network (RNN). I asked Robert Massie if he knew what the "thought of the day" was at Columbine High School on 4-20-99. He said that at the time that the "thought of the day" is broadcasted in the morning, he was in his gym class and therefore did not know what the "thought of the day" was on 4-20-99. Robert Massie said that he did not know who Dylan Klebold was prior to this incident, and does not recall seeing him before, other than photographs in the media since the shooting.

I showed Robert Massie a photograph of the duffle bag and the propane tank that was later recovered in the cafeteria of Columbine High School. Robert said that he does not remember seeing either item, either prior to or during incident on 4-20-99

I asked Robert Massie how he has been coping with the incident since the shooting on 4-20-99, and he said he had some problems, however, he feels he is doing fairly well dealing with the incident. I asked his grandmother, Pat Massie, and she said she agreed that he was doing fairly well, however, in the beginning, after the shooting, for about the first one to two weeks, Robert was having some problems dealing with the incident. I gave both Pat Massie and Robert Massie my business card and asked them to contact me if they wanted to talk with a JCSO Victim Advocate in the future. I advised I would make the necessary

arrangements for them at that time.

ADDITIONAL INFORMATION:

On the date that the shooting occurred on 4-20-99, Robert Massie was residing with his mother, Deborah Reidel at 7359 West Caley Drive. Since the shooting, Robert has since changed residences and is now living with his father, Bob Massie, and grandparents at 5065 Umatilla Street. Robert and Pat Massie said this was due to family problems and not due to the shooting that occurred at Columbine High School on 4-20-99 Pat Massie said that as far as she knows Robert has not decided yet whether he will return to Columbine High School in the fall of 1999 or go to Ranum High School in Adams County. Apparently the decision is going to be based on the family situation at the time.

DISPOSITION: Case remains open, pending further investigation.

JCSD CASE 99-7625

Reporting investigator, P.J. Doyle, is a commissioned peace officer employed by the District Attorney in the First Judicial District Attorney's Office serving Jefferson and Gilpin Counties. I am currently assigned to assist in interviewing witnesses from Columbine High School.

On May 10, 1999 I spoke with John Timothy Matteson, a sophomore.
DOB: 12-5-82
8075 W. Geddes Avenue
Littleton, CO 80128
303 932-6525
Mom is Patrice works at home
Dad is John work: 303 762-0505

He goes by the name of Tim. His mother was present for part of the interview. He told me the following:

Tim attended all his regular classes. During his second hour, he has Student Senate. The Senate met in the cafeteria and he sat

at one of those tables by the student store which are not on the diagram. He was in the cafeteria from around 8:45 to about 8:50. He didn't see anything at that time that didn't seem to belong in the cafeteria. He saw no one wandering around that didn't seem to belong there.

Tim said that 4th hour is his off hour. He went to lunch and had passed through the cafeteria on his way to the mall. His 4th hour is at 10:20. He got back at about 11:10. He walked back in to the cafeteria by the student store. He usually waits for some friends, didn't see them. Those friends are Joseph Marino and Brian Blaskovich. He walked back outside the door by the student store. He saw a car that Joseph or Brian had been driving. That car was parked along Pierce Street in the Junior parking lot on the east side of the school. Tim didn't remember who's car it was or what it looked like. No one was in the car. Tim went back in through the same doors by the student store. He went in and sat at table X. Also sitting there were Tom Clagett, Dan Yager, Zack Thompson, Scott Streeb and Joe Tran.

Tim was sitting there talking to the others. Coach Sanders and a custodian ran in the door by the teacher's lounge. He said they were yelling for everyone to get down. Tim dropped down by his table. He heard one or two gun shots. They sounded like bang. Bang. He said that it didn't sound like an automatic, just the two shots. He said that the shots sounded like they were coming from outside, up on the hill. He said that he heard an explosion. He looked up and saw a big cloud in the parking lot, from out of the windows.

Tim said that all of a sudden, all the kids around stood up and started screaming and running toward the east side of the cafeteria. Tim said that he thinks when he got up, he tried to grab his back pack, and it may have ended up at another table.

Tim ran up the stairs to the top of the steps. One of the teachers came down and at the science hall, told the kids to calm

down. He then heard five gun shots right in a row, five quick shots. The shots sounded like they were coming from down stairs, like echoing from somewhere. He sprinted down the hall, going east. He went through the double doors and outside down the cement stairs. He said that he got out before the fire alarm went off. He went to Tom Clagett's house.

Tim never saw any shooter(s).

Tim said that he saw no duffel bags and no one carrying anything suspicious. He said that Eric Harris was in his gym class last semester, but Tim didn't know him. He knew Dylan Klebold by sight, but didn't see Dylan or Eric at school on Monday or Tuesday.

Tim left his Black Sport Plus back pack in the cafeteria. There was papers in it and a calculator.

Tim said that he saw [redacted] in the back of a police car the day of the shooting, but had not seen him around the school. Tim said that he had gone to school with [redacted] since Kindergarten. He knew [redacted] by sight.

Tim said that on the day of the shooting, he had been wearing brown sandals, khaki cargo shorts and a long sleeved blue shirt.

Tim said that he doesn't use the internet, knows no one with double pierced eyebrows and noticed nothing different on the Rebel News Network.

A diagram of the cafeteria is attached.

No further information at this time.

INVESTIGATION:

JC-001-003697

On May 7, 1999 at 1817 hours I contacted Alexis Mazula at her home for an interview. Her mother was present (lives in Brighton). Alexis then told me the following:

* She is a freshman at Columbine High.

* When asked, she iid not know Eric Harris or Dylan Klebold by name or face.

* [redacted]

* She did not know [redacted] or [redacted] by face or name.

* She has seen trench coat students hanging out at school. She usually saw them in the morning by the library or in front by the trophy case. She does not know any of their names. The only associates of the trench coat students she knows about are Brooks Brown who she said did hang out with some of the trench coat students, and a senior girl in her 6th hour guitar class who she thought knew Dylan and Eric. She did not know this girl's name but said she has brown hair and has a brother who is a freshman.

* She never heard the name "Trench Coat Mafia" prior to the day of the shooting.

* When asked, she said she did not see any of the trench coat students or their associates in school the day of the shooting. She did say that when people were getting down in the cafeteria she saw a male dressed all in black outside the cafeteria in the west lot. About 5 minutes later she saw a male all in black walking up toward the stairs outside the cafeteria. She did not know if it was the same person or not. She could not describe the person any further saying she just remembered black. She did not remember seeing if the person was holding anything.

* When asked, she said she did not see any suspicious objects in school that day. When asked specifically, she said she did not see any duffle bags.

* On the day of the shooting, her 4th hour class was choir. After getting out at 11:10 a.m. she went down to the cafeteria and put her backpack on a chair at a table there and went into the lunch line that was the farthest east line. Looking at the diagram, she thought the table was LL as she and her friends usually take the three tables in that area. The backpack list also showed her backpack recovered at table LL. She was in the lunch line with a Jennifer Naifeh.

* After getting lunch, she returned to table LL and remembered the following students there also; Lindsy Dowling, Candace Cushman, Drew (last name unknown) and Ryan (last name unknown).

* She then noticed that Mr. Sanders was running around the cafeteria in front of the west windows and then down along the food lines and was saying, "get down on the ground." She then heard an explosion and saw smoke out in the lot west of the cafeteria. She then heard reports like firecrackers.

* She got down but looked up at times. She saw a male dressed all in black in the lot just west of the west windows walking toward the cafeteria. About 5 minutes later she saw a male dressed all in black going up by the stairs outside the cafeteria. She did not know if it was the same male and had no further description.

* She thought from the sounds and student reactions that the male in black she saw may have had a gun, but she did not see any.

* She then got her group to take off running. She ran upstairs, turned left down the hallway, and ran straight out the east door to that hallway. As she was running, she did hear what she thought were gunshots. She ran to Leawood Park and then around the neighborhood until she found a phone at a house.

* She was wearing a black Calvin Klein shirt, jeans, and large platform shoes.

* She said that the night of the shooting, she got on the Internet on AOL and pulled information off of Eric Harris' web site. She remembered seeing talk of bombs on that site. She gave that information to her father and step-mother. She does not know if they still have it. (Father and step-mother not home for this interview.)

* She also heard sometime after the shooting students talking about Dylan Klebold telling a janitor on the day before the shooting to watch the news the next day, that a "big thing" was going to happen.

This concluded my interview with Alexis Mazula.

OBSERVATION / INVESTIGATION:

On May 3, 1999 I was assigned an interview with Columbine High School student, Erica McClaugherty. Erica McClaugherty was possibly in the cafeteria at the time of the shootings. I contacted Renee McClaugherty, Erica's mother, and made an appointment for an interview for May 10th at 10:00AM.

On May 10th at 0950 I arrived at 7224 West Portland Avenue, and contacted Erica McClaugherty.

Erica confirmed that she is a student at Columbine High School, in the 9th grade, and that she was in the cafeteria at the time of the shootings. Erica related that she arrived in the cafeteria at about 11:00AM, and was sitting at the table identified as "KK". She said that she was sitting with: Nick Antonio
Candice Cushman
Lindsey Doweling
Julie McGinley

Erica advised that she was one of the first people in the cafeteria, and when she got there she did not see anything like a large duffel type bag on the floor. She continued to say that while she was in the cafeteria she did not see anyone carry such a bag into the cafeteria.

Erica continued to say that her first indication that there was trouble was when Mr. Sanders came running by telling everyone to get under the table, and the people along the windows began to dive under the tables. Erica said that she got under the table and stayed there until the

people near the windows got up and began running up the stairs. She said that at this time she got up and ran into the choir room. She advised that she went through the upper level of the auditorium and into the north main level hall. From there she went through a hall along the east side of the gym and exited the school building on the north side. She continued to say she ran across the open area on the north side of the school to the tennis courts where she and other students put tables against the fence and climbed over. From there she ran to South Pierce Street and Bowels Avenue, and from there she went to Candice Cushman's house.

Erica reported that while she was in the north hall she heard shots coming from behind her (west). Erica advised that she did not see who was shooting. She further advised that she did not see anyone with guns while she was leaving the school or before the shooting started. Erica advised that she noticed while she was in the north hall way that the glass in the windows in the office area was broken.

Erica reported that she does not personally know anyone associated with the Trench Coat Mafia, and she has had no dealings with any of its members. She continued to say that none of her friends are associated with the group. She advised that she does not know either Eric Harris or Dylan Klebold. Erica advised that she did not know the names that Harris of Klebold were using on the internet.

Erica reported that she had heard nothing about shootings before they occurred.

Erica advised that she had left her back pack in the cafeteria, and described it as a Black "County Seat". She said the pack contained a camera and binders. Erica did not know the make of the camera.

Erica could provide no further information and the interview concluded at 1020.

Reporting investigator, P.J. Doyle, is a commissioned peace officer employed by the District Attorney in the First Judicial District serving Jefferson and Gilpin Counties. I am currently assigned to assist in interviewing witnesses from Columbine High School.

Both of Drew's parents were present.

Drew said that he was in school all day. His 2nd hour is off, and he went to the cafeteria. He saw nothing unusual at that time. His second hour is from 8:25 to 9:20. He said that he was with friends at table JJ:

Ben Johnson, 7410 S. Webster St., Littleton 80123 734-1109 Parents are Ben Johnson Sr. and his mom or step mom is Lucy Doherty
Matt Friend, 5764 S. Everett Way, Littleton 80123 933-1802 Parents are Robert and Barbara Friend

Max Anderson, 8080 W. Fremont Ave., Littleton 80123 904-2679 Mother is Laura.
Jeff Morroni

Drew went back to the cafeteria for lunch at about 11:15. He didn't get his food. He sat at table LL, he thinks. He sat with:

Nick Antonio, 978-0639, 7619 W. Friend Ave., Littleton 80123 Dad is Greg (Tony) Mom is Janet
Candice Cushman, 5855 W. Leawood Drive, Littleton 80123, 794-9376 Parents are Bill and Barb.
Ryan Chilelli, 8121 S. Lamar Street, Littleton 80123 979-7727. This may be his dad's office phone. Dad is Robert. Mom is Jacueline and Erica McClaugherty 972-7485. There may have been a couple of other people there, but he didn't remember who they were.

Drew said that some people had eaten, and they were just sitting there talking. He didn't hear anything. He said that all of a sudden, there was a big hush over the cafeteria and everyone dove under tables. Then, he saw a janitor and Mr. Sanders telling everyone to get down. He got down. He didn't know what was going on. The janitor ran from the east end of the serving line, running south.

Drew said that it seemed like around table AA, people started running toward the stairs and the student store area. Once they got up, everyone got up and ran.

Drew ran to the railing by the stair and dove under one of the railings. On the second tier, he heard gun shots coming from somewhere inside the cafeteria. He heard a boom. He heard several quick bangs. He has done target shooting with a .22 and a shotgun. He said that the shots sounded like they had more power than a .22 rifle. He heard two shots. He heard one of the shots while on the tier and the next one while he was on the third tier. He said that both of the shots sounded like they were coming from the same area. He didn't hear anything else from the cafeteria.

Drew said he saw no smoke in the cafeteria He did not see anyone shooting. He said that once up the stairs, he ran down the opposite way of the library and out the front door past the choir room.

Drew said that while he was running, he saw shoes and pagers on the ground. He saw a couple of people tripping and falling. Everybody was screaming. He didn't know for sure, but he thought he heard a gunshot or an explosion while he was running. He didn't remember any odors and saw no smoke. When he was running, he didn't see anyone with a gun or shooting, and he saw no explosives.

Drew saw someone in a red car asking what was going on. Someone else said that there had been a shooting inside the school. He thinks that one guy in the car might have been Tyler Jackman. This car was red, a Mustang, older, maybe 1980's. He remembers seeing Tyler later at the park and saw the car. He didn't remember what Tyler was wearing. He didn't remember if he saw Tyler at school that day.

Drew said that he knew Eric Harris from classes. He said that he'd seen Dylan at school, but saw neither Dylan or Eric the day of the shooting. He said that Dylan always wore a black Boston Red socks hat, backward.

Drew said that there was another guy that wore a trench coat. He didn't know this guy's name, but described him at wearing a dark colored beret, dark glasses, having a pale face, thinks he has blonde hair and a smooth face with no acne. This guy would sometimes wear a German shirt. (a black tee shirt with German writing on it.) Drew didn't remember seeing this guy at school the day of the shooting.

Drew had left his red and black Jansport backpack in the cafeteria. He'd been wearing jeans, and a navy blue Old Navy shirt. Inside his back pack were flimsy binders with labels that say what it is and some math books.

Drew never saw duffel bags or anything unusual in the cafeteria and did not see the shooter(s).

A diagram is attached to this report.

On May 10th at 10:45AM I arrived at 9663 West Prentice Avenue to interview Julie McGinley. Julie advised that he is a student at Columbine High School, in the 9th grade, and that she was in the cafeteria on April 20th She said that she arrived in the cafeteria at about 11:10AM, and was seated at the table identifed as "LL". She stated that she was sitting with the following people:

Lindsey Dowelling
Erica McClaughtery
Katherine Sloan
Nick Antonio

Julie reported that she had been in the cafeteria about ten minutes when the people in the north-west corner of the room, along the windows, got under the tables. At about this same time the janitors and Coach Sanders came through the area telling everyone to take cover under the tables. Julie said that she ran to the stairs at the east end of the cafeteria and up the stairs into the south hall. From there she ran east in the south hall and out of the building by way of the east doors near the math rooms. Julie said that she went to Lindsey Blair's hours after leaving the school. Julie advised that she heard four to five shots while she was in the south hall. Julie reported that she did not she who was doing the shooting. She also said that she had not observed anyone with

guns either before or after the shooting. Julie also stated that she did not see anything like a large duffel bag in the cafeteria when she arrived, nor did she see anyone bring such a bag into the cafeteria while she was there.

Julie advised that she does not know either Dylan Klebold or Eric Harris She said that she does not know any members of the Trench Coat Mafia and none of her friends are associated with the group or its members Julie is not, personally, aware of the names that Harris and Klebold were using on the internet. Julie said that she had heard that one of them had used the name "wormhole". Julie did advise that last year someone in an english had written a paper on groups in school, and the Trench Coat Mafia were included.

Julie reported that there had been no rumors about impending trouble at the school prior to the twentieth. The only thing that she could think of that seemed unusual was about a week before the shootings someone had damaged the locks on the doors to the school.

Julie described her pack as a blue and black Jan Sport with a cross sewn on the strap. The pack contained a math book, government book, note book, picture of one of a friend, and a small AM-FM radio.

Julie could provide no additional information and my interview concluded at 1120.

OBSERVATION / INVESTIGATION:

On May 4, 1999 I was assigned to do an interview with Columbine High School student Jonathan McMaster who was possibly in the cafeteria at the time of the shooting. I contacted Jonathan's father, Tim McMaster, and made an appointment for an interview on May 12th at 1830.

On May 12th at 1830 I arrived at 7273 South Chase Way and began the interview with Jonathan McMaster. Jonathan stated that he is a freshman at Columbine High School. He continued to say that he was in school on April 20, 1999 and was in the cafeteria when the shooting started.

Jonathan advised that he arrived in the cafeteria at about 11:15AM. Jonathan said that he was seated at either table identified as "UU" or "VV" but he thought he was more likely at table "UU". Jonathan said that he was sitting with Tyler Anderson. Jonathan related that he normally does not sit at this table but because the other people who he usually eats lunch with him did not show up. Jonathan advised that he had been there about ten minutes when he looked out the window and observed Dan Rohrbough and Lance Kirklin laying on the ground. Jonathan said that he thought they were messing around and went back to eating his lunch. At this time a couple of other kids looked out the window and commented on the blood. It was believed that a fight had occurred and someone commented that it appeared one of the victims had a "compound fracture". At this time Mr. Sanders came in the west door of the cafeteria and told everyone to take cover. Jonathan stated that he did not hear any shots at first but after the people in the cafeteria got under the tables and it quieted down, he heard possibly three or four shots that appeared to come from outside the

window. Jonathan stated that he did not see who was doing the shooting.

Jonathan said that he and Tyler remained under the table, laying on the floor between 30 to 40 minutes. Jonathan said that they remained in the cafeteria because after there was a large exodus of students up the east stairs there was alot of shooting that sounded like it was coming from the top of the stairs, and Jonathan believed that the students were being shot as they reached the top of the stairs, so they thought it would be safer to remain in the cafeteria. Jonathan related that while he was laying on the floor behind and under the table he noticed legs moving around the cafeteria. Jonathan said that he could not see who was attached to the legs, shooters or students, as the table he was hidding behind blocked his view and he did not want to move around.

Jonathan related while he was behind the table he felt a big puff and a heat wave moved over him. He continued to say that there was a large amount of flames east of him in the cafeteria. According to Jonathan immediately before, 30 seconds, he felt the puff and heat he heard what he discribed as the sound of running water or a hissing sound. Jonathan said that he did not notice any shooting just before he heard the hissing sound, but he related that there was alot of shooting going on at the time. Jonathan said that he did not see anyone on the stairs just before the hissing sound as he could not see around or over the table. Jonathan also reported that while he was hidding under the table he heard several explosions that seemed to be coming from the floor above him.

Jonathan advised that after about forty minutes they crawled into the hall way leading to the west exit from the cafeteria. They waited near the wall at the west door for a period of time and them observed a police officer in the field to the west of the school. They got his attention, and he directed them to run to the parking lot to the west of the cafeteria. When they got into the parking lot they took cover behind a car and waited there for about another forty to forty-five minutes. He then gained the attention of another officer in a car, and this officer transported them to a cul-de-sac to the west of the school. From there he went to a friends house and called his father.

Jonathan advised that while he was in the cafeteria he did not notice any large duffel type bags that he could recall. He continued to say he does not recall anyone carrying such a bag into the cafeteria while he was there.

Jonathan advised that he was in a math class located on the main level in the south-east corner of the building. Jonathan advised that after class he walked down the hall to the south that leads to the south main hall. He then stopped at his locker (437), and then walked down the south main hall to the stairs leading to the cafeteria. Jonathan advised that from his math class to the cafeteria he encountered no one with a gun and did not see anything that appeared out of the ordinary.

Jonathan advised that he does not know either Eric Harris or Dylan Klebold, nor has he had any contact with either subject. He continued to say that he does not know anyone who belongs to the Trench Coat Mafia, and none of his friends belong to the group. Jonathan does not know what names if any Harris or Klebold were using on the internet.

Jonathan stated that he had heard no rumors about impending trouble at the school, and had not heard anyone talking about building bombs or buying guns. Jonathan related that he had heard that April 20th was suppose to be important to drug users, something like national drug day. He also reported that he had been told that one of the morning annoucements was something like "you don't want to be here today" but did not personally see the announcement.

Jonathan advised that a friend, Chris Wisher, had told him that a [redacted] had also been doing the shooting. Jonathan continued to say that he had also heard that [redacted] was one of the shooters from a girl whose first name is Kristin and a male student with the first name of Alex. Jonathan did not know their last names. I possibly identified Chris Wisher as CHRISTOPHER WISHER, DOB: 03/19/83. Wisher's address is 6572 West Calhoun Place in Littleton. Jonathan did say that Kristin and Alex were in the tenth grade. Jonathan did not know [redacted]

Jonathan described his back pack as a green colored Abercrombie & Fitch. The pack has metal buckles instead of plastic and there is a mesh pocket on the front of the pack and red shoe lace type strings on the zippers. Jonathan said the pack contained a spanish 101 and American Government books, a large binder with his class folders inside, and a note pad.

Jonathan could provide no additional information and the interview ended at 1915.

Jonathan McMASTER was interviewed regarding the lead information in order to attempt to further identify KRISTIN. He is currently residing with his father at the above address and phone. He was interviewed at the residence.

McMASTER looked through the 1998 yearbook in an effort to identify KRISTIN, without success. He could not recall her last name, although he said he thought he would recognize it if he saw it. He told me that KRISTIN was in his Spanish 101 Accelerated class and that she was a sophomore this year.

McMASTER told me that he overheard KRISTIN talking with a boy named ALEX (LNU) and another boy named Chris WISHER about the incident, a few days after they returned to classes. He believes KRISTIN said that [redacted] was involved, and that WISHER saw [redacted] with the shooters. McMASTER said ALEX (LNU) had reportedly told police about this, but the "cops blew him off".

Follow up investigation regarding WISHER reveals that he has been interviewed; control number 1102.

SCHOENHOFF said she does not recall WISHER or VIVAS saying that [redacted] was involved. She said WISHER had a lot of information about the incident, but she does not remember any of it now.

She told me that her friend Jennifer TINDALL has an older brother, who was in TINDALL's residence during the time following the shooting. The rear of TINDALL's house faces the field near Columbine High School, and he observed three individuals walk past the house, talking on cell phones. These were the three subjects who were subsequently detained by police. TINDALL's brother believed that one of those three individuals was [redacted] SCHOENHOFF related this information to WISHER and VIVAS, and believes this is what McMASTER overheard.

James Alden Medaugh, date of birth 1/27/84, was interviewed at his residence 6674 W. Roxbury Place, Littleton, Colorado 80128, telephone number (303)973-9182, regarding the shooting at Columbine High School (CHS). After being advised of the identity of the interviewing Agent and the nature of the interview, Medaugh provided the following information:

Medaugh is a freshman at CHS. Medaugh has government class during 4th hour and has "A" lunch. During "B" lunch, Medaugh is in German language class. At approximately 11:10 a.m. on the day of the shooting, Medaugh got out of his 4th period class and went to lunch. Medaugh went to the lunch room after first stopping at his friend's, Nick Buhrer (phonetic), locker. Medaugh arrived at the lunch room at approximately 11:14 a.m.-11:15 a.m. and sat at a table near some vending machines (Medaugh identified table YY as the table he thinks he was sitting at from a sketch of the school and lunch room). Medaugh and Buhrer walked to the vending machines to make a purchase at approximately 11:21 a.m.-11:22 a.m. At approximately that same time or one minute later, while standing at the vending machines, Medaugh heard what he thought was three shots or firecrackers outside the lunch room coming from an upstairs area near some transformers.

Approximately 5 to 7 seconds later, Medaugh heard three more shots. At this time, Medaugh looked out a window of the lunchroom, near the vending machines, and saw his friends Sean Graves, Lance Kirkland and Dan Rohrbough. Medaugh saw Graves go down outside the window. He also saw Kirkland crawling on the ground. Medaugh started walking back to his table and arrived there about 15 seconds later. Medaugh told others at the table that he thought Sean had just been shot. At the table were Fletcher Woolsey and Anthony Caruso. (Cory Hager and Billy Arapkiles may have also been at the table that day but Medaugh could not be sure). Buhrer and Medaugh parted at the vending machines and Buhrer went outside.

Medaugh stayed at his table for about half a minute before a teacher and a janitor came into the cafeteria and told everyone to get down. Medaugh got down on the floor for about one minute before he and many other students in the cafeteria got

up and started moving towards the stairs. As soon as Medaugh got to the base of the stairs, he heard one gunshot coming from upstairs.

Medaugh then decided to run down the hall to a Spanish language room. Medaugh ran to a Spanish room which was located next to school exit doors which led out to the junior parking lot. Medaugh stayed in this Spanish room with 20 to 30 other students, one teacher (whom he did not know) and one substitute teacher (whom he did not know) for about five minutes. During this time, Medaugh heard approximately three gunshots and one explosion. Medaugh and the others in the Spanish room left the room after about five minutes and fled across the Junior parking lot. Medaugh then ran to a Mormon seminary house on Polk Street where he stayed for the next two hours.

Medaugh has not been interviewed prior to today. Medaugh did not see any shooters in the school at any time. Medaugh did not hear explosions or footsteps on the roof of the school on the day of the shooting. Medaugh kept his backpack with him when he fled the cafeteria and took it out of the school with him when he fled to the Mormon seminary house.

Medaugh has heard of the Trenchcoat Mafia (TCM). He described them as weirdos who always hung out outside, near the stairs by the cafeteria and the senior parking lot. Medaugh only knows one member of the TCM. Robert Perry was in the same debate class with Medaugh for approximately one week. Perry kept to himself during the time he was in the class.

Medaugh stated that the thought for the day on the Rebel News Network (RNN) was words to the effect of, "You shouldn't be here today". Medaugh saw the thought for the day on a T.V. monitor in his second hour class.

On 4/29/99 I interviewed 16 year old CHS student Christina Medina at her home in Littleton, Co. Christina's mother was present for this interview.

Christina advised me she was in the cafeteria at CHS when the shooting began around 11:30am. She stated she had been in the cafeteria since around 10:20am because she has 4th hour free. She stated that her and a few friends usually meet in the cafeteria around 10:20am to do home work and talk. They have 4th hour free, then they eat lunch together at the 11:20am "A" lunch.

She stated on 4/20/99 she came to the cafeteria around 10:20am and meet up with CHS students Jennifer Tindle, Elisha Encinias, Lindsy Dyle and Michelle Cowles. They sat in their usual area, which she described as below the stairs near "rebel corner". I provided Christina a drawing of the cafeteria, which depicted all the tables and their location in the cafeteria. I pointed out specific areas, such as food line, kitchen and west windows of the cafeteria to give Christina a better understanding of the lay-out in this drawing. Christina looked at the drawing and pointed to table "U" as the table her and her friends were seated at. She recalled she sat facing the stairs, towards the southeast. Chirstina cirlce table U on the drawing, and initialed where she was seated.

I asked Christina if there were any other students in the cafeteria from 10:20am until "A" lunch arrived at 11:15am. She recalled there

was one other group of boys at table JJ behind her group. She said it is a regular group that meets in the cafeteria for their open 4th hour. She recalled the boys at table JJ were Chad Roybal, Evan Todd, Eric Trujillo and Mike Lyry.

I asked Christina if she recalled seeing any large duffle bags in the cafeteria that were left there before the crowd arrived, or recalled seeing anyone bringing down a large duffle bag and leaving. She stated she did not, but was not looking for anything like this. She recalled that her back was towards the cafeteria, and was facing towards the stairs. She did not recall seeing anyone carrying a duffle bag or anyone wearing a trench coat coming into the cafeteria from the inside stairs from 10:20am until the A lunch began. Christina added that see was not really paying attention to who was coming and going from the area.

She stated around 11:05am the kitchen opened up and she and Jennifer Tindle walked over to get a lunch. They took a direct route to the kitchen. She and Jennifer came back to table U and ate their lunch. The others girls were also eating. When she finished her meal Christina walked her trash over to a trash can near the south doors. She stated that when she returned to the table, Cara Sanders asked Jennifer to accompany her to her car in the south parking lot. Jennifer and Cara left the cafeteria through the south doors. A few minutes later 2 unknown girls came in to the cafeteria from the south doors and appeared upset. They appeared to be looking for a teacher. Someone yelled that someone had been shot. Everybody in the cafeteria stood up and looked out the west windows. Christina did not see anything, then she heard pooping noises and a loud boom. Mr Sanders then came down and told everyone to get on the floor. Everyone did.

The crowd waited for a few moments, then began to run towards her as they were heading for the steps. Christina got split up from her table, but ran with another friend, Alexis Wolf. They ran up the stairs into the hallway and down into the auditorium doors. They cut through the auditorium and into the main hallway west of the

administration area. They were running towards the administration exit doors with about 5 other students when the glass in the exit doors was shot out ahead of them. She believed the shots came from behind them. She and Alexis stopped and turned to the right into a short hallway while the other students continued out the exit doors. They stayed in this short hallway for less than a minute before making a run for the exit doors that had been shot out.

They got outside and were advised by a teacher to stay in Clemont Park. Christina did not see the gunman at any time, but was sure she heard shots upstairs near the auditorium when they reached the main hallway.

Christina was wearing Jeans, red tanktop with white short sleeve cover shirt. She left a Gap backpack, black purse and jewelry on the table in the cafeteria.

Christina had no information about TCM or Dylan Lebold and Eric Harris.

She stated that while in Clemont park when everyone was "freaking out", she overheard a short (5'2") chubby girl tell another girl that her friend got a call from someone telling her not to go to school today. Christina could give no more description on this person, and did not know who this person was talking about. She was unsure if she would recognize this girl again.

I looked out the window to see a person sprinting away, another on the ground face down, and a kid who looked like he was trying to run but it looked like he was shot in the leg because he was all bloody. Then, a person with a gun dressed in black threw a bomb into the parking lot. As we ran up stairs I felt another blast and noticed someone lying on the floor so I ran into the closest room. While in the room we heard gunshots and felt blasts, we then set up a table in front of the door and about a minute later someone shot through the window of the door and the table spraying us with glass and wood fragments. While in the room our teacher at the time, set up a couple of tables and we hid behind them for about 8 hours, until we moved to

****

On 4/21/99 at 3:50pm I interviewed 15 year old Brad Miller at his home in Littleton, Co. Brad's parents were present for this interview. Brad agreed to speak with me about the incident at Columbine High School on 4/20/99.

He stated he was in the cafeteria around 11:30am when a teacher came running in and yelled "get down". Brad was seated at a table near the west windows of the cafeteria. He immediately got down on the ground and looked out the window towards the back of the school in the west parking lot. He saw one person laying face down on the ground and 1-2 other kids running outside. These kids appeared to be injured, recalling seeing one kid with blood on his leg. Then he saw a tall (over 6') white male with long dark hair wearing a long trench coat and dark pants carrying a gun. The gun was described as black, about 18" long. Brad was sure it was not a shotgun, more like a "semi automatic". This person also had a "pipe bomb" which Brad described as similar looking to a stick of dynamite. The man lit this "pipe bomb" with a lighter and threw it into the parking lot towards some cars. The man then disappeared around the outside corner staircase of the building. Brad recalled when he saw this man outside, he noticed 2-3 more "dynamite looking" bombs inside his trenchcoat. Brad believed this gunman to be alone as he saw no other people with weapons.

Brad ran out of the cafeteria after about 2 minutes under the table and followed most of the kids in the opposite direction from the gunfire. He described this as through the center of the cafeteria to

the concrete stairs which lead upstairs to the science area. He believed he was running upright. While going up the stairs he heard and felt another loud blast, possibly behind him and noticed someone laying on the floor near the steps. He ran into the nearest room, which was one of the front science rooms. Brad believed there is 4 or 5 science rooms which lead away from the main hallway. He was in this room with about 9 students and one teacher. They put tables in front of the door to protect themselves. A few minutes later someone walked by the door where they had put tables in front of and stood there. The person then fired a single round through the glass window and into a table. Brad recalled wood and glass sprayed the room, but none was injured from this. He did not see the person who fired this round. The person did not enter the room.

A short time later, the group moved into a neighboring science classroom, further back from the main hallway where about 20 kids were hiding. The teacher, Douglas Kraft stayed with them. He continued to hear gunshots and blasts outside the room. He said everyone was very scared, but they remained as quiet as possible. He believed about 3 hours later, SWAT members rescued the group and escorted them out of the school.

Brad stated that later he recognized Dylan Klebold on TV as the gunman he saw outside the cafeteria around 11:30am. He stated he does not know Dylan Klebold, but has seen him around school as a student. Brad described Dylan Klebold as a loner and would hang out with guys that wore trenchcoats, but did not know any of there names. Brad stated he did not see anything unusual at the school before 11:30am on 4/20/99, nor did he have any information regarding other students who may have been involved.

On 4/27/99 I went back to Brad Miller's home to clarify his specific location in the CHS cafeteria at 11:30am on 4/20/99. Brads parents were also present for this interview. I provided Brad a drawing of the cafeteria, which depicted all the tables and their location in the cafeteria. I pointed out specific areas, such as the food line,

kitchen, and west windows of the cafeteria to give Brad a better understanding of the lay-out in this drawing.

He looked at the drawing and stated he was seated at either table CC or TT near the windows. Brad circled both of these tables on the drawing, but could not be specific as to which table. He stated he was seated facing the kitchen, and Nathan Anema and Tyler Stark, both CHS students were seated with him across the table. He believed Nathan was on his right facing the west windows.

Brad recalled that he came down the concrete stairs alone about 11:20am, stopped at "rebel corner" to buy a salad for lunch. Rebel corner is at the bottom of the concrete stairs towards the south student entrance. He noticed no unusual duffle bags in the cafeteria, and stated "there are hundreds of backpacks in there". I asked specifically about a large duffle bag, he reiterated that he saw nothing unusual. He purchased his salad and walked alone through the middle of the cafeteria, at an angle towards his table. He believed that Nathan and Tyler were arriving at the table at the same time he was. He had just sat down when a teacher yelled "get down".

Brad stated he was wearing a dark blue t-shirt, tan pants and white hat on 4/20/99. He left a black Jansport backpack on the floor near his table. The backpack had books and school notebooks in it.

INVESTIGATION:

On 05-07-99, between the hours of 1003 and 1030 hours, I had an opportunity to speak with Elaine Miller in reference to the incident that occurred at Columbine High School on 04-20-99

Elaine Miller explained that she arrived at Columbine High School on 04-20-99, at about 0725 hours, and that she was car pooling with her friend, Jenny Doyle. Upon arriving at the school, they parked in the Junior parking lot, and entered the school from the east side near the Math/Science hall. Miller explained when she first arrived at the school, she went to Ms Mosier's classroom, where she dropped off her cheerleading bag, and then proceeded to her first hour Journalism class. After first hour, she has a Geometry class taught by Mr Smith, but on this date, they had a substitute teacher. After being released from Geometry, she proceeded to her third hour Spanish class, which is down in the Foreign Language hallway, east of the cafeteria.

I provided Miller a map of the cafeteria area and asked if she observed two large duffle bags or sports bags, one being blue in color and the other being orangish/red in color, which were located in the central core area of the cafeteria, and asked if she saw those two bags when she was going to her Spanish class. Miller stated she could not see the bags and could not provide any additional information about the bags. After being released from her Spanish class, she went to her English class, which is up in the Math hall, and was taught by Ms. Bohack. Miller stated they were released from English class at about 1110 hours, and after being released from her class, she went directly to the cafeteria, and believes she arrived at about 1111 hours.

Again, using the map of the cafeteria area, I asked Miller to tell me where she was seated. Miller explained there were three tables just to the west of the student store in REBEL corner, and that she sat at the middle table. These tables were not depicted on the map, and I had Miller draw them on the map Seated at the table with her were her friends, Amy Staley (303-973-9865), Shannon Zele (unknown phone), Brooke Allison (303-978-9319), B.J. Secord (unknown phone); Isiah Salazar (unknown phone), and Dave Schulte (303-798-4274).

Miller told me after placing her backpack on a chair at the table, she proceeded to the student store where she got her lunch. After she returned back to the table, she placed her backpack, which she described as being blue in color JanSport and placed it on the window ledge near her table.

Miller told me shortly after she sat at her table and began to eat lunch, that she recalls seeing several students running outside, telling me that it was near the southwest corner of the school. Later, she explained to me that somebody yelled from within the .afeteria that somebody has a gun, at which time she recalls seeing the janitors who started to tell the students to get down underneath their tables. Miller described the students, who were sitting over near the west side of the cafeteria, started to run east towards the stairways. Again, she remembers hearing janitors yelling and telling everyone to leave the cafeteria area. Miller told me she ran east down the Foreign Language hall into the last French room in the hallway. Miller described there were anywhere from 40 students and three teachers inside the classroom. After they reached the classroom, she recalled hearing several gunshots and explained that she heard four loud explosions, describing the explosions as being powerful enough to rattle the building and cause ceiling tiles to shake and start to crumble Miller believes they were in the French room anywhere from 10 to 15 minutes after the incident occurred. Realizing they probably were not safe, she stated the teachers within the classroom told them they needed to evacuate the building, at which time they went out an emergency exit just outside the classroom, and exited into the Junior parking lot. The students continued to run south to the Morman house located at Pierce and Polk.

Miller stated after she got to the house, that she was given a ride by Jeremy Zele, who is Shannon Zele's brother, at which time she went to Shannon Zele's house. Accompanying her to Shannon Zele's house were Mike Foster, Carder Kingsbury, and Colleen Schwartzott. Miller was asked if she knew about what time they left the French classroom She stated she recalls seeing the clock, and it was about 1135 hours. I asked her if she had called her parents immediately after the incident. She told me she

called her mother and told her what had occurred, and this was between 1145 and 1150 hours.

Miller was asked if she had observed any gunmen while she was in the Columbine High School or after she exited. She told me she did not. I also reconfirmed with her that she did not see the two large duffle bags or sports bags that I had described earlier, and again she told me she had no further information as to who owned those bags or who might have brought them into the school. Miller was asked if she knew about the group "Trench Coat Mafia," specifically Eric Harris or Dylan Klebold, or any other members associated with them. She could not provide any information about the group or its members. I asked her if she knew Eric Harris had a Website, and she told me she was unaware of that.

I asked Miller to describe what she was wearing on the incident date. She told me she was wearing a pair of GAP blue jeans, a forest green Abercrombie Poler shirt, and she had some platform shoes on. Miller was asked if there was any rumors about school of anything that was going to happen on the incident date. She explained that the only thing she thought was strange was the phrase of the day said something to the effect of "Don't you wish you weren't here?" Miller could provide no additional information reference this incident.

At the completion of my interview, I had Miller depict where she was sitting on a map I provided her of the cafeteria area, and asked her to show me her direction of travel out of the school. A copy of that map is attached with this supplemental report.

-CHS student, cafeteria witness, at table FF

INVESTIGATION:

On April 27, 1999 at 1005 hours I contacted Tim Miller at his home for an interview. His parents were present. Tim then told me the following:

* He is a freshman at Columbine High.

* When asked, he said he does not know Eric Harris by name or face. He has seen him around school based on the photos he has seen on the news. He said that the same goes for Dylan Klebold.

* When asked about other students who wear trench coats, he said that he has see a couple other students like that but does not know their names.

JC-001-003774

* When asked if he saw anyone associated with Eric, Dylan or the trench coat students the day of the shooting or in the cafeteria, he said he did not.

* He did not see any unusual objects in the cafeteria. He did not see any object other than backpacks in the cafeteria. When asked specifically, he said he did not see any duffle bag.

* He said that he got out of his 4th hour science class at 11:10 a.m. He went down the stairs by the science area to the cafeteria. He walked into the cafeteria to the pop machines by the west exit door. He got a pop and then went to his lunch table.

* Referring to the cafeteria diagram, he pointed to table FF as being the one he was at. He said it was by the pillar. This was then confirmed with the location his backpack was recovered.

* He was at that table with Devon Castille, Jeff Marony, John Stroble, Pat Vasser, Kyle Hayes, and Austin Stecker.

* He was wearing jeans, brown shoes, and a blue Rebel football t-shirt that has a small emblem on the front and a large football with a patriot on the back.

* The first thing he noticed was the students closest to the west windows left those tables and went to look out the window. He heard someone say something about a fight.

* He then saw Mr. Sanders run in from the west cafeteria door. He thought Mr. Sanders ran in from the outside but never saw him outside. (Teacher lounge door is in the same location.)

* He said Mr. Sanders told everyone to "get down" several times. He said a janitor with a Yankees hat was behind Mr. Sanders at that time. Mr. Sanders made the warning from the pop machine area by that west door.

Defendant:	HARRIS/KLEBOLD	**Docket Number:**	
Date:	MAY 11, 1999	**Case Number:**	99A062
Deputy D.A.:		**Investigator:**	DOYLE, PJ

****

Reporting investigator, P.J. Doyle, is a commissioned peace officer employed by the District Attorney in the First Judicial District serving Jefferson and Gilpin Counties. I am currently assigned to assist in interviewing witnesses from Columbine High School.

On May 9, 1999 I spoke with Brianna Marie Milne, a sophomore.
7281 S. Harlan Court
Littleton, CO
303 973-3663
Mom: Theresa work: 303 784-0229
Dad: Donald work: 303 741-5445

Both of Brianna's parents were present during the interview.

Brianna told me the following:

She went to all of her regular morning classes. At about 11:10, she went to the cafeteria. She went downstairs and then went to the bathroom and then got food at the school store. After she got her food, she was walking back to go sit down, and someone came by screaming from the other side of the cafeteria that there was someone with a gun and to get down.

Brianna was wearing her back pack. She ran into the bathroom. She saw two freshman girls in the bathroom. She didn't know them. Also in there were Tessa Nelson and a girl named Tiffany. Tiffany

is in Winterguard. Another girl, a sophomore named Trisha Mutschler (303 948-0806) was also in there. The girls stayed in the bath room. The bathroom door was closed. She could hear shots being fired in the cafeteria. She said that she knew what she heard were gun shots because she's heard her dad shoot in the hills.

Brianna said that the stall doors in the bathroom were locked. The girls were standing on the toilets so no one could see their feet. She saw two feet enter the bathroom. She didn't remember anything about the feet. Brianna said that she turned and looked at the other girls. It sounded like the shooter was in the bathroom. She said that she heard the person shoot the wall or something. She heard 3 to 4 shots in the bathroom. She heard what she thought was a bomb go off in the boy's bathroom. She said that when the bomb went off in the boy's bathroom, the feet she saw in the girl's bathroom were not there. She thinks that the bomb went off before the feet came into the girl's bathroom.

The girls stayed in the bathroom. Then Brianna heard shooting from upstairs, from the area of the science hall. She said that they were in the bathroom for maybe 10 to 15 minutes. She peeked out and ran down the first business hall and out the door.

Brianna never saw anyone carrying in the duffle bags. She didn't know Eric Harris or Dylan Klebold. She left her back pack in the bathroom. It was a green Coldwater Canyon back pack. It was hung on a hook in the bathroom.

Brianna said that she knew some of the girls from the TCM. They were Pauline Colby, Kristen Theibolt, and Nicole Marcum. She said that she just knew them to say "hi" to. She said that she saw Kristen on April 20th during third hour. They just passed in the hall and said, "hi". She didn't remember what Kristen was wearing. Brianna said that Pauline usually works in the student store every day. She didn't see Pauline at all on Tuesday. She thought she saw her on Monday or Friday at the school store. They just, said "hi".

Brianna said that she hadn't seen Nicole since the Wednesday before the shooting.

Brianna said that the two freshman girls were saying that, "It was [redacted] Brianna said that while they were at the seminary later, the two girls told Trisha and Brianna that [redacted] had been throwing bombs. Brianna has seen [redacted] around the school, but doesn't know him. She said that she didn't see [redacted] at the school that day.

No diagram is attached as Brianna did not sit in the cafeteria, but merely walked through.

No further information at this time.

OBSERVATION / INVESTIGATION:

On April 28, 1999 I was assigned to interview Jeffrey Morroni who is a student at Columbine High School and was possibly in the cafeteria at the time of the shooting.

On April 29, 1999 at 1530 I went to 7945 S. Webster St. and conducted an interview with Jeffrey Morroni. Jeffrey Morroni stated that he was in the ninth grade and had been in the cafeteria on April 20th. Jeffrey advised that he was seated at the table identified as FF on the diagram marked "Morroni" with Tim Miller, Devon Castill, Jacob Henelstiend, and Johnny Strobel. Jeffrey said that Tim Miller had already been interviewed. Jeffrey related that he arrived in the cafeteria about 11:10AM. He continued to say that he did not see anything like a duffel bag in the cateteria when he got there. Jeffrey said that he had been in the cafeteria about fifteen minutes when students sitting at tables to the west of his all stood up looking out the windows. Jeffrey said he thought a fight had started outside and he stood up and looked out the window. At this same time a teacher came running into the cafeteria from the direction of the west exit door and directed all the students to get down under the tables. Jeffrey reported that immediately after the teacher told everyone to get down he heard a loud explosion and gun shots coming from outside the cafeteria. Jeffrey reported that he hid behind a trash can near his table for about thirty seconds and then he and other students crawled to the stairs leading to the south main level hall. Once at the stairs the group ran up the stairs and east through the south hall. Jeffrey said that he paused a minute to see where Tim Miller was but a teacher told him to keep running. Jeffrey said he turned and started to run again when he heard five shots that sounded like they were coming from behind him in the area of the library. Jeffrey exited the school by way of the main door and ran across Pierce Street to a park on the east side of Pierce Street. Jeffrey

said that he was in the park for ten to fifteen minutes when the group started to run again. He reported that he went with a group to the home of a female student, who he did not know, where the hid in the basement for some time. Jeffrey reported that he did not see anyone with a gun nor did he know who was shooting. Jeffrey said that he had heard no rumors about pending trouble at school on April 20th.

Jeffrey stated that he knows no one associated with the Trench Coat Mafia, nor has he had any contact with anyone associated with the Trench Coat Mafia. Jeffrey said that he does know Dylan Klebold because they shared some classes but he had no contact with Klebold. Further, Jeffrey stated that he is not familiar with any names Dylan Klebold or Eric Harris might have used on the internet.

Jeffrey advised that his back pack was a black Eddie Bauer and it contained a calculator, spanish book, and Language arts and spanish note book.

Jeffrey related an incident he had observed about a month before the shooting. He reported that he was seated in the cafeteria with friends when a Josh Nielsen walked by the table dressed in gothic clothes. As Nielsen approached Arty Mar to Jeffrey to look at him, which Jeffrey did. As Nielsen walked by the table he looked at everyone and said "I want to slit their throats." Jeffrey advised that he did not think Nielsen was associated with the Trench Coat Mafia but he wasn't sure.

Jeffrey could provide no additional information, and the interview concluded at 1605 hours.

'SERVATION/INVESTIGATION:

On 05/05/99 I was assigned Information Control Number DN2844 for follow up investigation. The Information Control Narrative stated that Kylee Morton is on the original Cafeteria Backpack List. On 05/07/99 I responded to 6290 South Fenton Ct., and met with Kylee Morton and her mother, Tracy Morton. Kylee Morton confirmed that she had been in the cafeteria when the incident began.

Morton said that on 04/20/99 she woke up late and her mom dropped her off at school at about 0830 hours. She went in through the main entrance of the school and went to her locker which is located by the fire doors near the auditorium. She then went to the main attendance office to drop off a note her mother had given her and then she went to her American Government class which is on the main level. She then went to her 3rd hour math class. The teacher in her American Government class is Ms. Green and her 3rd hour math class is Ms. DeManna. From 3rd hour she went to her 4th hour Spanish class which is located on the lower level. The teacher is Ms. Killon. She said that after her 4th hour she went to her locker to change her pack and then went to the A lunch. She looked a the maps provided and said that she placed her pack down at table FFF, then went to service line with her friend Sara Switzeberger and then went and sat at table DD. She said that

at table FFF there were already people there when she arrived. She listed those people as Elsa, Lacey Deal, Jenny Neighy, Alexis Mazula, Tory Ownes, Candice Cushman, Jasmine Thurmon, Sara Switzeberger and Stephany Lebsack. She said that she visited with the people at table DD and then made her way back to table FFF.

Morton said that when she got back to her table she heard someone yell out that someone had been shot and heard someone yell that everybody should get down. She said at first she didn't want to believe what was happening was true and she stood up for a second. She said that people had started making their way across the cafeteria toward the stairs and as she was standing looking across the cafeteria she saw a person standing with a gun. She said this person was a male and was wearing dark clothes, black pants. He was wearing a light colored shirt and she could see a long gun silhouetted in his hands. She could not describe what type of long gun it was, but said it 'initely not a hand gun. She said that she also believes that this person shot the gun several times. She said that she first observed this person near table SS then he moved between the tables ending up between table EE and the pillar. She said as this person was moving through the cafeteria she turned and started to exit and could not identify this person. She said she saw people run into the kitchen and as people were running she heard what she thought were five shotgun blasts, although she did not see anyone shooting. She added that she thought the suspect she saw in the cafeteria might have had a backpack on and did have dark hair.

Morton then ran into the ladies bathroom. She said that she and approximately five other students got into the handicapped stall in the ladies room. She said they were in there for less than five minutes when they heard someone screaming to unlock the stall door. They peeked out of the bathroom and saw Mr. Anders Jr. escorting students into the auditorium area and on to the stage. Morton said she went with the group into the auditorium and on to the stage and down the stairs. She said they started to go up through the auditorium when got to the back they sat in some seats. Mr. Anders Jr. then told them to get on the floor. They again heard some type of shooting or ›losions coming from what Morton believed was the cafeteria area. A janitor then came in and told

them to go out through some back doors which exited into the far language hallway and out through the far language wing into the parking lot. Morton said that while she was in the auditorium and while she was exiting the fire alarm was activated.

Morton said that while she was exiting the building and running to Leawood Park she heard several more big explosions. At the park she was able to make contact with her brother who took her home and she was able to contact her mother by telephone. Tracy Morton indicated she received the call at 11:42 a.m.

Morton describes her backpack as maroon in color, Jansport, with her name on the back of the front pocket. He backpack contains her language books, notebooks, a reading book, numerous folders and homework papers, a day planner and her glasses. Morton said she was wearing a black skirt, a white shirt with a black sweater and full black shoes.

Morton said that last semester she had a physical education class with Eric Harris She said that prior to the class he always wore army or a black trench coat. She said he seemed to be very withdrawn and didn't really connect with anyone in the class. She had no particular problem with Harris in the class. She said she observed no one picking on him, although the seniors made fun of the underclassmen routinely and that everyone sort of expected that, but he was not singled out.

Morton could provide no further information on the trench coat mafia or Eric Harris or Dylan Klebold. She does not have a ICQ account and has not used the internet to access any of the trench coat mafia sites. She had not heard of any students talking about bomb making or gun acquisitions and does not know anyone with a double pierced eyebrow. She was also not present for the Rebel News Network, Thought of the Day.

On April 29, 1999, between the hours of 0922 and 1014, I had an opportunity to speak with Lauren reference the incident that occurred at Columbine High School on April 20, 1999. Also present for the interview were her parents, Jeff and Kathleen.

Lauren stated that on Tuesday, April 20, 1999, she arrived in the cafeteria of the school around 1030 hours, stating that she does not have a fourth period class and she usually spends most of her time down in the cafeteria area. Lauren identified, from a map

I provided that she sat at table NN and that at the table with her were her friends, Naomi Lucero, telephone number (303) 973-1368, Jenny Polak, telephone number (303) 933-4625, Tina Thorsen, telephone number unknown, Natalie Baker, telephone number unknown, Cassie (last name unknown), telephone number unknown, Nicole Ray, telephone number unknown, and Amy Stone, telephone number unknown

Lauren was asked when she initially arrived at the cafeteria if she observed two large duffle bags or sports type bags, describing one as being blue in color, and another being an orangish red, possibly near the table where she was seated in the cafeteria I also asked her if she remembers seeing anybody that might have brought those packs in and then walked away from them. Lauren told me that she did not see the two duffle bags. I asked Lauren when she first noticed something was wrong in the cafeteria and to describe the events. She stated that between 1125 and 1130 hours she remembers that an unidentified janitor came from the west side of the cafeteria area and that he was telling everyone in the cafeteria to get down under the tables. Shortly after this she remembers hearing somebody near the west windows of the cafeteria yell, "He's got a gun." At this point she crouched down under the table, where she remained for just a few seconds. She stated during the incident the students who were near the west end of the cafeteria started moving east, at which time she got up and moved east toward the staircase in the cafeteria. Once she reached the staircase she proceeded up to the main level and headed east, passing the science and math rooms, where she exited from the high school

Lauren was asked if she ever saw a gunman in the cafeteria or outside west of the cafeteria. She stated that while she was in the school she never saw a gunman. She didn't stay in the cafeteria for a long period of time. After she exited from Columbine High School she remembers that she went to the park just east of the school, where she remained for a short period of time. While at the park she remembers hearing gunshots and from the park she ran to her friend, Lindsay Blair's residence.

Lauren was asked if she knew Eric Harris of Dylan Klebold. She stated that last semester she had a third period gym class with Eric Harris. She stated that she did not know the individual by name and that she never met Dylan Klebold. Lindsay was asked if she knew of any other members of the "Trench Coat Mafia." Again she stated that she didn't know any of the members. I asked if she knew about Eric Harris' web site She stated up until she heard the news reports about it, she had no idea about the web site.

Again, I verified that Lindsay did not see the two large duffle bags or sports bags described earlier in the cafeteria, nor did she see any gunman at Columbine High School. Lindsay was asked if she could recall any other classmates who were seated in the cafeteria around her. She told me that she remembers Brittany Barry being in the cafeteria, Lauren (last name unknown), Brittany Jollette, and Brock (last name unknown). Lindsay was asked who else exited from the school with her and remained in the park just east of the school. She stated that Julie Nasland, telephone number unknown, Monty McClennan, telephone number (303) 932-0878, Chanel Plank, telephone number (303) 904-1614, and Renee Shirek, telephone number unknown, also exited the school and stayed at the park with her

Lindsay was asked if there were any rumors around the school prior to the incident of something "brewing." She stated that the only thing she knew about April 20th was National Marijuana Day. Other than that she could not provide any additional information.

At the completion of my interview, Lauren was provided a map of the cafeteria and asked to depict where she was seated and her movement out of the cafeteria. A copy of that diagram is attached to report.

DATE/TIME of INTERVIEW April 20, 1999, between 12:30 p.m. and 2 p.m
Follow up interview, April 29, 1999, 10:15 a.m.

PLACE of INTERVIEW: Near Columbine High School on Caley CT , Littleton, Co
Follow up interview, telephonic to his residence

DISPOSITION: INTERVIEW OF THE FOLLOWING.
Jeremy MULLEN, DOB 08-18-82, 6068 S. Marshal Dr , Littleton, CO, phone (303) 730-6712

MULLEN said he, along with Michael KISH and Sean NOSSAMAN, was seated in the cafeteria at a table near the teacher's lounge at approximately 11 20 – 11 30 a.m. eating lunch. MULLEN heard three loud popping sounds and then saw three people lying on the floor One of the people lying on the floor was a freshman complaining that he could not move. MULLEN said they heard a very loud blast and could feel the concussion. He believed the blast originated from 75 – 100 feet away A custodian, known only to MULLEN as TOM, told everyone to get on the floor MULLEN said he and KISH ran into the kitchen and hid inside of a bathroom with four other students. According to MULLEN, he stayed inside the bathroom for approximately 45 minutes to an hour MULLEN stated Dustin GORTON and Brett KOSTALNICK, two of the people hiding in the bathroom, ventured out to see if the cafeteria was clear while MULLEN stayed and comforted a frightened female student. MULLEN stated that after GORTON and KOSTALNICK indicated it was clear to leave, MULLEN went to the dishwashing room, banged on the door in and attempted to coax those hiding inside to leave with them. The people inside had barricaded themselves in and refused to come out. MULLEN stated they heard noises above the ceiling tile so the group moved faster to get out of the cafeteria. MULLEN said he heard a loud bang of something heavy falling through the ceiling. The group then ran through the cafeteria and hid behind cars in the parking lot near the stairs. Other students in the parking lot said a teacher had fallen through the ceiling. MULLEN and KISH met up again with NOSSAMAN in the parking lot and the three of them later ran to the soccer field where they took cover inside of a police car The police transported them to Caley Court where a triage and holding area was established. MULLEN stated the cafeteria had appeared normal prior to the attack. MULLEN said he did not notice any strange backpacks or bags in the cafeteria. He also said he did not see the shooters but could hear them coming down the stairs as he ran inside the kitchen.

INVESTIGATION

On 4-27-99, between the hours of 1517 and 1604, I had an opportunity to interview Jamie in reference to what she observed in the cafeteria at Columbine H.S. on 4-20-99. Also present during the interview was her mother, Marilyn.

Jamie stated on 4-20-99, that she had just left her 4th period class which is language. Jamie said the passing bell rings at 1110 hours, and she arrived at the cafeteria around 1118 to 1120 hours. She stated the reason she was late in getting to the cafeteria was that she had to go to the office to pay for her school parking pass. After she left the school office, she stated she walked down the main hallway, until she reached the middle hallway on the left, at which time she proceeded south through the school and down to the science and math hallway, at which time she proceeded west to the stairs and down into the cafeteria. As she

reached the cafeteria area she identified table "AAA" as the table she sat at. Also at the table were her friends, Brittany Davies, Lindsey Wyant, Brandy (unk last name), Tiffany (unk last name), Tiffany's boyfriend, possibly first name of John. I asked Jamie if upon arrival into the cafeteria area if she observed two large duffel bags or sports type bag. I described one as being blue in color, and the other as being orange-ish/red in color. I asked if she observed those packs or if she had observed anyone bring those packs in the cafeteria and place them in the general area of her table. She stated due to the amount of backpacks inside the cafeteria she did not see anybody carrying anything like that and leave it in the cafeteria. Jamie said after she placed her backpack at her table she went to the food service line where she got her lunch and later returned back to her table. Shortly after she sat down she remembers hearing two or three "pops" described as gunshots outside, just west of the cafeteria area. Jamie stated shortly after the pops she observed a school teacher by the name of Mr. Sanders, standing near the north/west doors of the cafeteria where he was telling students to get down under their tables. Also by Mr. Sanders was a janitor who she described as short, skinny, and this individual was also telling them to get down. Shortly after this Jamie explained hearing an explosion, telling me she believed it was just overhead and possibly in the vicinity of the library upstairs, at which time herself and other individuals went into the kitchen hallway where there were about "60" students gathered and two teachers, Ms. Abbott and Ms. Killian. From the kitchen area they went into the auditorium which allowed them to gain access into the main upper level of the school at which time they went past the tech lab, past the counselors room where they exited a north/west door, at which time the students ran north to where they jumped a fence and proceeded into Clement Park.

Jamie was asked if she ever observed a gunman while she was in the cafeteria area or after she exited Columbine H.S. She stated she never saw a gunman. Jamie was asked to describe her dress on 4-20-99. She said she was dressed in a black tank top, a kaiki colored skirt. She was wearing black slip on shoes. She was also asked if she left any other additional items inside Columbine H.S. when she left on Tuesday. She stated the only items she left was her backpack which was located in the cafeteria area, and of course she had school books in her locker.

Jamie was asked if she knew the members of the Trench Coat Mafia, to include Eric Harris and Dylan Klebold. She stated she never knew the individuals and didn't know much about the group. I asked if she had overheard any rumors in school reference to this incident possibly occurring. She said the only thing she overheard was that there was a bomb threat made at the school on Monday, 4-19-99. Jamie was asked if she recognized any other people sitting at other tables around her. She stated at table

"QQ" she remembers seeing Dustin Gorton, Kristine Garramone, and Greg, who is Kristine's boyfriend, along with Richie Green.

Again I verified that Jamie did not see the two large duffel bags or sports bag that were in the cafeteria, and also verified she did not see any gunman at Columbine H.S.

At the completion of my interview I provided Jamie with a map of the cafeteria area at the high school at which time she documented her movement from the cafeteria and her seating location. A copy of that map is attached to this supplemental report.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/18/1999

Jennifer Ann Munson, DOB 09/07/1984, 6553 South Brentwood Way, Littleton, Colorado, telephone (303)742-0839, a student at Columbine High School, was interviewed at her home in the presence of her father, Larry Munson, by Special Agent(SA) Ricky V. Wright regarding the incident that took place on 04/20/1999 at Columbine High School. After being advised as to the identity of the interviewing agent and the nature of the interview, Munson provided the following information:

At approximately 11:08 am, Munson got out of dance class, which was in the wrestling room, and left the gymnasium area. Munson went west down the north main hall and then south by the library and down the stairs to the cafeteria. Munson sat down at a lunchroom table(marked V on diagram sketch) and noticed that she had lost her purse. Munson decided to go and look in the classrooms she was in earlier that day. Munson left the cafeteria and went to the math hall and the language arts hall and looked in classrooms there. Munson then went to the choir room, which is just east of the stairs to the cafeteria and found her purse. Someone had turned in the purse to the choir teacher, Mr. Andres. Munson does not recall seeing anything unusual while she was looking for her purse. Munson then returned to the cafeteria and sat down. Munson remembers that Valerie Jugert, Sara Filipiak, Alex Goldberg, Lindsy Blair, Naomi Lucero, and Brandi Malnson, were also sitting at the table. Munson was sitting facing east. Munson recalls that Valerie Jugert was sitting to her left.

Munson got up and got a soda from a soda machine in the northeast corner of the cafeteria and sat back down. She was drinking her soda when she saw about 20 students running down the north side of the cafeteria toward the stairs. Mr. Sanders was running down the south side of the cafeteria telling everyone to get down. Munson got under the table and could hear popping sounds coming from outside. Munson recalls that there were a lot of people screaming while they were under the tables. Everyone then got up and started to run. Munson got up and ran up the stairs and then east down the south main hall and out the exit at the end of the hall. Once outside, Munson ran across Pierce Street to Leawood Park.

INVESTIGATION:

On 04-30-99, at about 11:15 a.m., I interviewed CHS student Leiha Murphy at her residence as follow up to DN2059 Leiha's mother, Colleen Murphy, was present during the interview.

Leiha told me that on 04-20-99, at about 11:10 a.m., she had just finished her fourth period class. Consistent with her normal routine, Leiha said that she met two other students, who she identified as Ann Marie Kelly and Tasha Nygard, and that the three of them then walked downstairs and entered the cafeteria to eat lunch.

Upon entering the cafeteria, Leiha said that she placed her backpack on top of lunch table BBB or AAA. When asked if she could remember specifically which table it was, Leiha said, "I'm thinking more AAA." Leiha said her table "was right by the serving line." After placing her backpack on said table, Leiha said that she entered the serving line in order to purchase a school lunch. Leiha told me that while standing in the serving line, she remembered hearing a bell ring. I asked Leiha which bell she was referring to. She said it was the "five minute bell," which indicated to her that it was 11:15 a.m. Leiha said that she obtained a lunch from the serving line and brought it back to her table. Leiha said that she set her lunch on the table and then remembered that she wanted to get a soda pop. At that time, Leiha said that she remembered seeing students Ann Marie Kelly, Tasha Nygard, Tiffany Spevak, Jean Richer, and Brandi Wiseman sitting at said table. Leiha said she turned around and started walking toward the soda pop / vending machines located in the northwest corner of the cafeteria. Leiha said that as she walked

toward the soda machines, she stopped approximately midway between table WW and the corner of the serving line, when she noticed "approximately ten to fifteen students" congregated near the exit door, also located in the northwest corner of the cafeteria.

Leiha told me that she assumed that there was a fight taking place outside, and that upon looking through the windows on the west side of the cafeteria, directly west of tables WW and VV, she saw an individual whom she identified as [redacted] Leiha told me that [redacted] was standing on or near the sidewalk, approximately ten to fifteen feet west of the windows next to tables WW and VV. Leiha said "I saw [redacted] I think I saw him because he was away from the crowd outside." I asked Leiha what this individual was wearing. Leiha said, "He was wearing his trenchcoat and he had his hair down." Leiha told me that the trenchcoat was black. I asked Leiha if she happened to notice anything unusual or any distinguishing marks or features on the trenchcoat. Leiha said that she did not. I asked Leiha if she was certain that this individual was [redacted] Leiha said, "Oh yeah, I'm certain." She then said, "I saw his face full on. I remember seeing his face completely." Leiha then said, "I remember him graduating last year." I asked Leiha if she personally knew [redacted] Leiha told me that she did not personally know him, but remembered him from last year. Leiha said that on certain occasions, she remembered him wearing "makeup on his face and hands" and that because of that, he stood out from other students.

I asked Leiha what this individual was doing when she saw him. Leiha said, "I remember him standing. I thought he had just been involved in the fight." Leiha said that she did not remember him holding anything in his hands. Leiha said, "I remember him running, starting to run." I asked Leiha if she remembered in what direction this individual ran. Leiha told me that she did not remember the direction. I asked Leiha if she specifically remembered this individual actually running. Leiha said, "He was either walking really fast or he was running. It was not just a stroll or just a regular walk."

Leiha told me that after she recognized [redacted] he stood in place for approximately fifteen seconds, whereupon she heard someone from the crowd yell to 'get down.' Leiha said she does not remember specifically who yelled this, but thinks it may have been a custodian whom she remembered standing by the door among the crowd of students. Leiha described the custodian as a white male, "upper thirties to mid forties."

Leiha told me that simultaneously with the command to get down, several students within the crowd near the northwest door began to scream and dive under tables. Leiha told me that she quickly ran to and crawled under table WW or VV Leiha said that she could not remember which table it was, but confirmed it was one of said tables as indicated on the cafeteria map Leiha said that the table she crawled under "was right against the wall," indicating the west wall on the north end of the cafeteria Leiha told me that she remembered students Mike Lavan, Shannon Ryan, and Tasha Olson being with her underneath table VV or WW While underneath said table, Leiha told me that she heard a loud pop, which she thought was a single gunshot. Leiha told me that she remained under the table, facing west, for approximately two minutes. During that time, Leiha said that she did not see anything that was taking place outside because she was facing the wall below the bank of windows. Leiha said that during this time, there were numerous screams and a great deal of commotion among the students nearby and from other students within the cafeteria. Leiha said that after about two minutes, and while still underneath the table, she turned around (facing east) to see where her friends were. Leiha said that she "saw people running up the (interior) stairs," and decided to leave the cafeteria as quickly as possible.

Leiha said she then crawled out from underneath the table and ran eastward, in front of the serving line, back to table AAA or BBB where she retrieved her backpack, and then continued eastward to the northeast corner of the cafeteria, near some bathrooms. Leiha told me that near the bathrooms, she remembered seeing a teacher, who she identified as Mrs. Regnier, who was ushering students away from the windows and into the bathrooms on that side of the cafeteria. Leiha told me that she thinks teacher Dave Sanders may also have been in that area, ushering students up the stairs, but is not sure. Leiha said that she did not enter a bathroom. Leiha said that while she was near the bathrooms, she "heard two explosions in that upper hallway," referring to the hallway up the interior stairway. Leiha said that she was eventually ushered out of the cafeteria, along with students Ann Marie Kelly and Tasha Nygard. Leiha told me that she exited the lower level by way of the auditorium, which lead upstairs to the upper level of the school Leiha said that she and others then exited the auditorium and eventually the school through the doors located on the east side of the gymnasium.

Leiha told me that at no time while inside the cafeteria or later while exiting the school did she ever see anyone with a gun or anyone doing any shooting. Leiha told me that she did not see Eric Harris or Dylan Klebold at any time. Leiha told me that

upon entering the cafeteria, and up to the point that she left the cafeteria, she did not recall seeing any duffle bag(s) or anything else she might consider suspicious or out of the ordinary. Leiha told me that, to her knowledge, up to the time when she observed [redacted] standing outside, and the commotion that ensued thereafter, there had been no unusual commotion taking place inside the cafeteria.

Prior to concluding the interview, I presented Leiha with a photo lineup to see if she could identify the individual who she had seen outside the cafeteria. Leiha read and signed the photographic line up admonition at 12.37 p.m. Leiha then viewed the photo lineup showing [redacted] in position number 3. Leiha immediately pointed to photo number 3 and said, "that's him." Leiha then signed and dated the photo lineup form at 12:40 p m., marking "positive" identification and photo number "3." Said photo lineup was witnessed and signed by Leiha's mother, Colleen Murphy, and myself. Leiha then dated and initialed photograph number 3 at 12:40 p.m. The photo lineup and associated forms were then collected by me. In addition, I collected the cafeteria map on which Leiha indicated the direction she took in order to exit the cafeteria and school The interview was concluded at about 12:50 p m.

Lead sheets for the following individuals were prepared and submitted for students Mike Levan, Shannon Ryan, Tasha Olson, Ann Marie Kelly, Tasha Nygard, Tiffany Spevak, Jean Richer, Brandy Wiseman, and teacher Nolene Regnier.

WITNESS:
Leiha M. Murphy, DOB/7-3-83

INVESTIGATION:
On 10-22-99 Columbine High School Student Leiha Murphy was re-interviewed at 5352 South Holland Street. Her mother, Colleen Murphy, was present for the interview.

The purpose for the re-interview was to clarify Murphy's observations during the April 20th shootings at Columbine High School, specifically the statements made by Murphy during an interview on 4-30-99 with Task Force investigators. In that interview, Murphy stated that she was certain that she saw [redacted] wearing a trench coat and standing near the sidewalk approximately 10 to 15 feet west of the cafeteria windows when the shooting started.

Murphy told me that she was in the cafeteria when the shooting started. Murphy said she noticed several students standing near the door at the northwest corner of the cafeteria near the teacher's lounge. Murphy looked out the cafeteria windows and saw a male wearing a trench coat standing at the bottom of the cement stairs. A short time later Murphy heard someone yell that someone had been shot, at which time Murphy saw the male in the trench coat run. Murphy then hid underneath a table in the cafeteria for three to five minutes. She then got up and ran towards the elevators, when she heard an explosion from upstairs. Murphy stated that she ran through the auditorium and then exited the school through a door by the weight room and art room. While running out of the school, Murphy noticed that the glass was broken out of the main school doors.

Later in the afternoon of 4-20-99 Murphy heard on the news that members of the Trench Coat Mafia were involved in the shooting. At that time, Murphy recalled [redacted]s being a member of the Trench Coat Mafia. She looked up his photograph in the high school yearbook and recognized [redacted]s the same person she saw in the trench coat standing at the bottom of the cement stairs. Murphy stated that she saw [redacted] at school several times during her freshman year "enough times to recognize him." Murphy stated that she does not recall ever seeing Dylan Klebold at school.

I explained to Murphy that [redacted] has been interview by Task Force investigators and that he was submitted to, and passed, a polygraph test. I further advised Murphy that [redacted] has an alibi which places him in his home at the time of the shootings.

I then showed Murphy a series of four photographs (#44-A, 51-A, 52-A, 53-A) taken from the video camera in the cafeteria. Photographs 51-A, 52-A and 53-A all picture Dylan Klebold. After looking at those photos, Murphy agreed that the person she saw in a trench coat standing at the bottom of the cement stairs certainly could have been Dylan Klebold, and not [redacted]

Without going into specific detail, I explained to Murphy and her mother that the investigation into the shootings has been extremely thorough and at this point Task Force investigators can confidently conclude, based on the evidence, that Eric Harris and Dylan Klebold acted alone.

The interview was concluded with Murphy and her mother understanding and feeling comfortable with my explanation. Additionally, Murphy understood that the person she initially thought was [redacted] was, in fact, Dylan Klebold.

CHS student, cafeteria witness.

On June 4, 1999, this investigator met with Trisia Mutschler and her mother, Jeanie. Trisia advised that she arrived in the cafeteria at approximately 11:15 a.m., and went directly to the school store. She said there was some unknown commotion which she assumed was a fight until she heard someone yelling to the students, "get down." She said she then heard someone yelling for them to run. She stated that she ran into the nearby girl's bathroom where three other girls were already hiding. She stated that just before going in there, she looked outside to the south and observed a male subject wearing a white shirt, dark pants, and a black hat worn backwards. She said he was looking towards the cafeteria and had raised one of his arms into the air. Trisia said this was his left arm and further that his left hand looked like part of it was missing and was bloody.

Trisia said that she knew one of the girls with her in the bathroom and identified her as Brianna Milme. She stated that from

their location, she could hear gun shots. She said she heard footsteps coming into the bathroom and then a bomb exploded inside. She described hearing more shooting, more footsteps, and another bomb exploding inside the bathroom. She said she thought some of the gunshots were being fired from outside the bathroom through the bathroom walls. She said they stayed there for about ten minutes and then ran down the foreign language hall and out a south door, through the parking lot to a residence on Polk Street - the seminary house.

Trisia stated that she does not know Eric Harris or Dylan Klebold and does not associate with the trench coat mafia.

Trisia's mother advised that her daughter has until recently, been very reluctant to talk about her experience at the school. She has had one session with a counselor and her mother feels that Trisia is having a difficult time dealing with this situation.

Nothing further at this time.

INVESTIGATION:

On 05-13-99, I was assigned control #1746 in order to speak with a Samantha Myers. Myers had provided information stating that she is an aid at the school and heard "kids" talking about two separate groups of shooters, one speaking German and one speaking English.

On 05-13-99, at about 0905 hours, I attempted to contact Myers at her home phone number (303)948-5856. I left a message on her answering machine requesting her to call me. I also left my pager number.

On 05-14-99, at 0915 hours, I received a page from Myers. At that time, I called her back.

Myers stated that Thursday, following the shooting, 04-22-99, her daughter had been at a fellowship where a cheerleader by the _me of Amy Terry was present. Terry stated she had been locked in a closet during the incident at Columbine High School, and that she heard people speaking German and people speaking English during the incident. Myers requested her name not be mentioned during the conversation with Terry. Myers reiterated this two or three times.

I entered a lead into the Rapid Start program to follow-up with Amy Terry.

DISPOSITION: Open, pending further investigation.

One was holding his leg. About 30 yds away there was a girl lying on a grass hill with blood on her leg. there was a guy right next to her holding her. About 15 yds away from me outside I saw a tall skinny guy wearing a black trench coat & a backwards black hat. Then every one said he was shooting at people and to get down. INVESTIGATION:

On May 6, 1999 at 1100 hours I contacted Julie Naslund at her home for an interview. Her mother was present. Julie then told me the following:

* She is a freshman at Columbine High.

JC-001-003885

* When asked about Eric Harris, she said she had a P.E. class with him last semester. She said that if there was no P.E. class during a particular day, the class would go into the cafeteria for the class time. She said that during those times she would be at a table with Eric Harris. She said that Eric did not talk to anyone and just read unknown books. She said that Eric was good at P.E. and did participate. She was told then by several upper classman that she should not talk to Eric because he was "weird." She saw Eric Harris and Dylan Klebold often this semester in the hallway right after her 5th hour American Government class in the social studies area. She never saw Eric in a trench coat.

* When asked about Dylan Klebold, she said that she did not know his name but would see him with Eric in the hallway after her 5th hour class. She thought Dylan always had a trench coat on.

* When asked, she did not know [redacted] She thought a girl who associated with the trench coat students was a freshman named Jamie Schoffner. She did not know any others from the group she thought numbered 15. She has heard the name "Trench Coat Mafia" and associated them as a group, not a gang.

* When asked, she did not see any of the trench coat students or associates in the school the day of the shooting.

* When asked if she saw any unusual objects in the school, she said that she did see some kind of a black pack up against a pillar in the cafeteria. Other than saying the pack was about the same size as a backpack, she could not describe this pack any further. She did not know if it was a backpack or not. She just saw the pack by the pillar and no one else around it. Referring to the cafeteria diagram, she said the pack was against the east side of the pillar between tables W and HH.

* She saw no other suspicious objects. When asked specifically, she did not see any duffle bags.

* On the day of the shooting, she had choir for 4th hour. After getting out at 11:10 a.m., she went down the stairs to the cafeteria and dropped her backpack off at the lunch table. Looking at the diagram, she thought the table was either II or NN. Her backpack was located at II and she agreed that was the table.

* She then went into the Rebel Corner for lunch and waited in line with Megan Piro and Dan Romero. After getting lunch, she walked back to her table with Megan. They were at the table with; Nicole Ray, Valarie Jugert, and a Marnie (last name unknown).

* She said it only took about 5 minutes to get the lunch. She said she was into her third bite of her chicken sandwich when an unknown teacher (she did not know if it was Mr. Sanders) in a blue and white plaid shirt was running around telling everyone to "get down" and to "get under your table." She got down and looked up. The teacher said to "get back down." She said that everyone started to run out of the cafeteria. She said talk of a gun being involved had made its way to her table.

* She ran up the stairs and then went left down the hallway. She ran straight down the hallway to the east door and then out to Pierce St. and to Leawood Park. She said that she kept falling because of the crowd of students and Nicole kept picking her up and helping her.

* As she was running out, she heard talk of black coats and guns. She said there was a lot of screaming. As she was turning left down the hallway, she heard a loud explosion or gunshot that she thought came from the cafeteria. She said the report was "really loud."

* She was wearing plaid pants, a black Nike shirt and white tennis shoes.

* She saw no suspects

JEFFERSON COUNTY DISTRICT ATTORNEY'S OFFICE

SUPPLEMENTAL REPORT

COLUMBINE HIGH SCHOOL
Date: 5/10/99
CONTROL NUMBER: 2954

Docket Number:
FBI # 174A-DN-57419
Investigator: Vondenkamp

****

On 5/7/99 I interviewed CHS cafeteria worker Marlene Nederman at her home in Littleton, Co. Ms Nederman has worked in the Columbine High School cafeteria for 2 years and was working in the kitchen of the cafeteria on 4/20/99 from 6:30am until 11:30am.

She stated that she arrived to work at 6:30am, a normal start time for her. She began in the kitchen, doing prep work for breakfast and lunch at the school. She recalled that the east serving line window in the kitchen opens up from 7:00am to 9:30am for breakfast. The remaining 3 or 4 windows remain closed until they are opened up around 11:00am, preparing for "A" lunch.

Ms Nederman stated that she remained in the kitchen doing prep work most of the morning. At 9:45am she took a short break in the teacher's lounge near the kitchen, but returned after her break. She stated that around 11:05am she pushed her cash cart out of the kitchen and parked it near the front support post on the west end of the cafeteria. This is where she usually parks the cart, and takes the kid's lunch money before they eat lunch. I provided Ms Nederman a drawing of the cafeteria and the tables marked at CHS. I pointed out certain areas to give her a better understanding of the drawing's lay-out. Ms Nederman pointed to where she pushed out the cash cart and prepared for the "A" lunch crowd. Ms Nederman's cash cart was parked directly north of table ZZ, on the west side of the support pole.

Ms Nederman did not see any large duffle bags laying inside the cafeteria. She did not see anybody carrying a large duffle bag into the cafeteria and leaving it. Ms Nederman stated that over 150 kids that have 4th hour free hang out in the cafeteria and many were there on 4/20/99. She reiterated that she did not see anything unusual that morning, specifically a large duffle bag laying alone in the cafeteria.

Ms Nederman stated that shortly after the kitchen began serving the kids who came for "A" lunch she heard an explosion out the west windows. She was seated outside the kitchen collecting lunch money. Many kids stood up to look out the windows. She saw smoke from outside the windows and got down on the floor like everyone else was. Many students began yelling and running towards the steps which go upstairs inside the cafeteria. Ms Nederamn remained on the floor for a few seconds. She began crawling back towards the kitchen with some students. She heard what she believed to be "rapid gunfire" near the student entrance by rebel corner. She saw kids on the steps go down, then get back up and run. Ms Nederman did not see anybody with a gun during this time.

She got into the kitchen and hid in a corner. Tony, the maintenance man then came in and told them to hide better. He opened up a mop closet inside the kitchen and Ms Nederman went inside with 10 students and 8 adults and locked the door. They remained inside the mop room with Tony, who was able to communicate with the outside on a portable radio. They heard what appeared to be gunfire above them on the second floor. A few minutes later, they heard gunfire inside the cafeteria and kitchen area. She did not hear anybody talking outside the mop room, but believed there were people in the kitchen area looking around.

Ms Nederman stated that around 1:00pm they heard 3-4 gunshots upstairs. Around 1:15, the SWAT team arrived in the kitchen and rescued the group. They exited out the teacher's lounge window with SWAT escort.

Ms Nederman had no further information on the shooting or the TCM students. She stated that her fellow cafeteria workers included Linda (unknown last name), Karen Nielson and Sue Laine.

INVESTIGATION:

On 05-25-99, I spoke with Angela Nelson originally by telephone. This lead was to determine her whereabouts during fifth period as records reflect she had this period free When I first contacted Angela Nelson by phone, she told me she was in the cafeteria when the incident occurred. Based on this information, along with the fact she did see the shooting occur, I decided to conduct the remainder of the interview in person An appointment was set for 1130 hours, this date.

On 05-25-99, at 1130 hours, I contacted Angela Nelson again at her address. Present during the interview was Angela Nelson's mother

Angela Nelson was asked if she could tell me what had occurred on 04-20-99 She told me immediately after History class, which was her fourth hour class, she and a friend of hers, Kelly Fleming, left the class and walked westbound past the administrative offices, to the hallway where the Library is at. Kelly Fleming was going to the Library to continue to work on a project, which Angela Nelson thought was a biography Angela Nelson told me that Kelly Fleming asked her if she wanted to come inside, and she told her that she was going to the commons area. She then went to the cafeteria area and sat down at table either "T" or "V" A map of the cafeteria was provided for Angela Nelson to look at. She was not sure which table she was at, but she indicated one of the two. While she was sitting there, some of the kids in the cafeteria started to get excited, and then she started hearing screaming. She then looked outside in the direction everyone was looking, and saw Dylan Klebold holding a rifle. She described Klebold as wearing a trench coat, black pants, black boots, and ball cap. She thought the ball cap was placed on with the bill pointing forward. Klebold then began shooting towards the cafeteria. She remembers windows being shot out. She did not see Eric Harris or an individual she could identify as Eric Harris, but did think she saw his boots and his pants. She was unable to tell me how she thought this individual was Eric Harris, or why she thought this was Eric Harris. She then saw Klebold moving along to the west and north, along the side of the building, and then lost sight of him. She then ran eastbound down a hallway,

and then southbound down a hallway into the Junior parking lot. As she ran into the parking lot, she saw a patrol car coming into the parking lot headed westbound. She then followed numerous kids off of the school grounds onto Pierce Street, and then into the neighborhood just to the south of Columbine High School. She then went into the third house on the right, and stayed there for approximately a half hour to an hour She then left, and went to the drug store at Coalmine and Pierce where she contacted her mother I asked Angela Nelson if she had her backpack with her at all times, and she said she did. She said when she left the cafeteria, she took it with her

I asked Angela Nelson while she was in the cafeteria if she had seen anything unusual, and she said she did not. I specifically asked her if she saw a duffle bag, and she said she had not. I asked her when she was in the parking lot and fleeing from the school if she had seen any other individuals with dark clothing on, and she said she did not. I asked her how she knew it was Dylan Klebold she saw standing outside with the gun, and she said she had been introduced to him by one of her friends some time ago. She said she also knew who Eric Harris was, because every now and then the jocks would harass both of them. I asked her if she knew about the Trench Coat Mafia, and she said yes, she did, but it was through the picture in the yearbook. I asked her if there was any additional information she had that would be relevant to this investigation. She said there is a rumor amongst the students that there have been numerous warnings sent to the principal that something was going to happen. I asked her if she could identify what that rumor was, and she said it was something to the effect like you are all going to die. I asked her if she could tell me who she had heard this from, and she could not identify a specific person. I asked her if she could tell me more about the weapon that Klebold had. She described it as a long gun, and that he was shooting it like they do in the movies. She held her arms up about half way from her shoulder to her waist, as if she was holding a long gun or a shotgun. I asked her which hand he had it in, and she thought it was in his right hand, or to his right shoulder. I asked her if there was any additional information she could tell me which would help this investigation, and she said there was nothing else she knew.

first class was a gym/weight lifting class that is located on the upper level of Columbine High School, and he said this class lasted from 0700 to 0815 hours. Timothy said he then went to his second hour class, which was a biology class, and is located in the science department on the upper level of Columbine High School He said this class lasted from 0825 to 0915 hours. Timothy said next he went to his math class on the upper level of Columbine High School and said this class lasted from 0925 to 1015 hours. Timothy said he then went to his English class, also on the upper level of Columbine High School, and said this class lasted from approximately 1020 to 1050 hours. Timothy said while going from one class to the next during the morning of 4-20-99, he did not observe any suspicious people or items. He was only on the upper level of Columbine High School until about 1050 on 4-20-99, when he went downstairs.

Timothy Nep told me when he got out of his fourth hour English class, he walked down the stairway from the upper level of Columbine High School to the lower level. This stairway leads down and into the cafeteria/commons area of the school. Timothy said he went to the "Rebel Corner" in the cafeteria/commons area to get something to eat. Timothy said while he was at the "Rebel Corner" he suddenly heard people screaming and said they were running from the cafeteria and commons area southbound in the hallway, past the "Rebel Corner," and were exiting the high school through the doors south of the "Rebel Corner." Timothy said he thought there was a fight taking place and believed that was why people were running and screaming. Timothy said he then heard somebody yell something to the effect of "he has a gun." Timothy said at that point when he heard somebody mention a gun being involved, he began running with the other people southbound through the hallway by the "Rebel Corner," and said he exited the south door of this hallway and then turned eastbound and ran away from Columbine High School. Timothy said he ran across south Pierce Street and into Leawood Park.

Timothy Nep said he remained in Leawood Park for approximately one hour or less with other people from Columbine High School Timothy said while he was in Leawood Park, he heard approximately four to five explosions that sounded like they were coming from the area of the west side of Columbine High School and possibly in the vicinity of the cafeteria. Timothy said he did not remember hearing any gunshots during the incident on 4-20-99 Timothy said during the time he was in Leawood Park or prior to arriving in Leawood Park, he did not see anyone with a firearm or explosive device, either outside or inside of Columbine High School. Timothy said he did not hear any gunshots while in Leawood park that may have been directed towards the people who had gathered at that location. Timothy said he heard an unknown person say there was a shooter on the roof of

Columbine High school shooting towards Leawood Park. Timothy said he did not see anybody on the roof of Columbine High School, nor did he hear any incoming gunshots of any type. Timothy said he left Leawood Park, however, and went into somebody's house who had invited students inside. Timothy did not know who this person was. Timothy said he later left this residence and went to Leawood Elementary School.

Timothy Nep told me that he knows who the "Trench Coat Mafia" is, however, said he did not know much about them. Timothy said prior to the shooting on 4-20-99, he did not know any of the "Trench Coat Mafia" students by name, including Dylan Klebold and Eric Harris. Timothy said that sometime prior to 4-20-99 he had seen Dylan Klebold in the hallway of Columbine High School, however, he did not know Dylan Klebold's name at that time. Timothy said he now knows it was Dylan Klebold because he saw Dylan Klebold's picture through the media since the shooting, and recognized him as the "Trench Coat Mafia" student he had seen in the hallway Timothy described the "Trench Coat Mafia" student, he now knows to be Dylan Klebold, as a white male, tall, and said he was approximately 6'2" to 6'3", and weighed approximately 200 pounds. Timothy said Dylan Klebold would wear a trench coat at times, however, would not wear it at other times. Timothy said Dylan Klebold wore a black baseball cap with the Colorado Avalanche insignia on the front of it. Timothy said Dylan Klebold would wear this hat backwards, and when worn backwards the hat had a Boston Red Sox "B" on the back of it (facing forward when the hat is worn backwards). Timothy said he could also remember Dylan Klebold wearing a T-shirt that said something to the effect of AOL Hackers are Cool.

Timothy Nep said he never saw the "jocks" harass "Trench Coat Mafia" students. He also did not see the "Trench Coat Mafia" students harass other people. Due to the fact that Timothy said he played baseball and football at Columbine High School, I asked him if the "Trench Coat Mafia" students had ever harassed him, and Timothy replied, "No."

Timothy Nep said that Isaiah Shoels was a friend of his. I asked him if he ever saw anybody harass Isaiah Shoels or racially intimidate Isaiah Shoels, and Timothy said he had never seen any racial intimidation at Columbine High School, and in particular towards Isaiah Shoels. He said everybody liked Isaiah Shoels.

Timothy Nep said he does not know of anybody, nor has he heard any rumors of anybody else, who may be manufacturing

explosive devices and/or possessing or selling firearms. Timothy said he does not know of anybody who has a double pierced eyebrow, and said he did not see the "thought of the day" on the Rebel News Network (RNN) for the date of 4-20-99

I asked Timothy Nep how he has been doing since the incident occurred on 4-20-99, and he said he has been doing well. I also asked Timothy how the other people in his family have been doing, and he said well. I gave him one of my business cards and asked him to contact me in the future if he wishes, or a member of his family wishes to talk with a JSCO Victim Advocate. 6876 South Wadsworth Court, Littleton, CO 80128, 303-972-3951

INVESTIGATION:

On 04-28-99 was assigned Information Control Number 1186 for follow up investigation. When I reviewed the lead sheet it was unclear as to whether I was to interview Mandy Erin Nichols or Mary Sue Baribeau. I called Mandy Nichols and found that she had not been interviewed and on 04-29-99 at 1030 hours responded to her sidence and interviewed her with her mother. Mandy Nichols said that she had been driven to school by her friend, Jill Becerra. She said that they arrived at Columbine High School at approximately 0720 hours and parked in the senior parking lot. They entered the school through the faculty and student entrance in the cafeteria and then went upstairs to their lockers. Mandy said that she then went to her first hour class, which is business in the downstairs business class offices. She said normally that she is a student assistant in the main office but had some homework to do in her business class and she went there instead of the main office. She said that her second hour class is Spanish, which is downstairs and she left her business class to go directly to Spanish. Third hour is her chemistry class, which is upstairs and she went directly from her Spanish class to her chemistry class. Her fourth hour business class is upstairs.

Mandy Nichols said that after her business class she left and went to her locker to get her lunch and then went to the "A" lunch. She estimated she arrived in the cafeteria at about 1115 hours with her friend, Mary Elise. She said that Mary had purchased her lunch and they sat down at a table near the south side exit doors. She identified this table as possibly being table "P". She said that at approximately 1120 hours, plus or minus a few minutes, a friend came running in yelling that some girl needed help. Mandy initially thought that this girl was choking and that a boy then came running in covered with blood saying that the girl had been shot. Mandy said that at approximately the same time, she heard shots coming from the parking lot area. The girl who came in

saying that someone needed help was Kim Blair. Mandy thought that the girl who had been shot and was in need of help, was Ann Marie Hochhalter and that the boy who came in, his name was Jason (last name unknown).

Mandy Nichols said that as this all transpired there were teachers yelling to get down and get under the tables. Mandy Nichols said that there was a mass panic and a rush to get to the stairs. She said she too joined the crowd trying to get up the stairs and that as she neared the top of the stairs she noticed that there was smoke in the hallway and could hear more gunshots. She said at the top of the stairs she turned into the first door on her left, which she says is choir class. She then went into the rear choir class office. She estimated that there were approximately 60 students in the office with her.

Some of the students moved file cabinets against the doors and as they were doing this there were fire alarms going off in other parts of the building. They also moved a desk up against the door. Several students were using the phone to call their parents. She indicated that she was continuing to hear gunshots and explosions. She said that while they were waiting in the room they thought they could hear pounding sounds on the roof. She said they could also hear sounds of things being smashed and banging in the cafeteria area and that she could also hear male voices yelling, but she could not discern what they were saying. She said that after approximately three hours, she thought it was a little after 1500 hours, the SWAT team came in escorted them out of the building

Mandy Nichols said that she didn't know ERIC HARRIS but she does know DYLAN KLEBOLD She attended junior high school with him. She said she was never really friends with him but knew who he was. She said that in her CCB class first semester, a class that is communications for the college-bound, all the students had to do research papers and that DYLAN KLEBOLD was in her class. The teacher was Mr. Webb and it was in sixth hour. She thought that just before Christmas 1998, that they had to write research papers. She said she recalled DYLAN KLEBOLD writing his paper on Charles Manson and the crimes that Manson had committed. She said that the class had to read their papers and that KLEBOLD's paper was a very "weird" paper. Mandy said that she was aware of what the "trench coat mafia" was and that it was her understanding that it was kids who wear trench coats and hang out with each other. She had never heard of them being picked on by other students and had never observed them being picked on by others students, or them picking on other students.

Mandy Nichols said that her backpack is a turquoise Jansport which contains a red binder, a black binder, a chemistry lab book, a Spanish book, a red purse, a Casio calculator and her Columbine ID. She said on the day of the incident she was wearing blue jeans, a green shirt with a white T-shirt.

Mandy Nichols said that she did not observed anything unusual in or about the school prior to the incident occurring. She did not see any large duffle bags that were left unattended. She has not heard of anyone else in the school talking about the suspects, bomb making or gun buying prior to or since the incident.

Columbine High School / Food Assistant

INVESTIGATION:

On 05-25-99, at about 9:45 a.m., I interviewed CHS Food Assistant (kitchen worker) Karen Nielsen as follow up on DN3863. The interview was conducted at Karens' home.

Karen told me that on 04-20-99, she was working in the kitchen at Columbine High School. Karen said that this was a part-time job, and that she has two other (unrelated) part-time jobs. Karen said that at 11:00 a.m., she opened the gate on the "American food" serving line, which she said was the second of four serving lines, going from west to east, as indicated on the cafeteria map. Karen said that on that day, three serving lines were opened at 11:00 a.m. The first serving was for "Mexican food" and was staffed by kitchen worker Patti Zawadzki. Karen said that she and kitchen worker Linda Tibljas were staffing the second serving line. The third serving line was for "Italian food." Karen said that she doesn't remember who was staffing it. Karen said that the fourth serving line is usually reserved for breakfast and was closed at that time. Karen said that the first lunch period formally begins at 11:10 a.m. each day, and that she and other servers usually begin serving students and staff who are in the cafeteria prior to 11:10 a.m., before the lunch rush.

Karen said that she had been serving pizza for about ten minutes when she heard someone yell, "Get down! They've got a gun!" Karen said that simultaneously with hearing this, she heard gunshots and saw custodian Jon (Curtis) running east, with radio

in hand, from the northwest corner of the cafeteria, across and parallel with the serving lines, toward the northeast corner of the cafeteria. Karen said that she thought the voice yelling to 'get down' and the gunshots both came from the vicinity of the northwest corner of the cafeteria, possibly from outside the building. Karen thinks that the person yelling was either Jon or teacher Dave Sanders. Karen described the gunshots as "single shots, very loud." Karen said that as Jon ran in front of the serving lines, numerous students who were seated at the various tables within the commons area began to dive under tables and/or run toward the east side of the cafeteria, toward the stairway. Karen said that immediately after hearing the gunshots, she heard a "very loud explosion." Karen said that she remembered saying out loud, "What was that?" Karen said that she has heard shotguns before, but that this explosion was "much bigger, with much more of an impact." Karen said that all of this took place "simultaneously, in a matter of seconds."

Karen said that when this occurred, she remembered seeing Patti Zawadzki "get down," but couldn't remember exactly where Linda was or what she did. Karen remembered seeing Linda restocking the drinks to her right on the second serving line, but that is all. Karen said that while most people began running and making their way to the east side of the cafeteria, for "some unknown reason" she ran to the west, out of the kitchen area and into the faculty lounge. Karen said that she entered the faculty lounge through the easternmost door of its south wall, which then closed behind her. Karen said that her inclination at that time was to use the telephone inside the faculty lounge, but that as soon as she entered, she heard someone yell, "He's not breathing!" coming from outside the westernmost door of the lounge. Karen said that she then ran out of the lounge's west door, which was propped open, and toward the cafeteria's northwest door. At that time, Karen said that she could see student "Sean" (Graves) lying on the cement directly outside said door. Karen said that Sean was lying on his right side, facing the door. Karen said that Sean's head was facing northeast, and that his legs were extended to the southwest. Karen said that she doesn't remember seeing another adult near Sean at that time, but that it was possible. Karen said that she remembers talking with Sean, and that he told her, "I can't feel my legs." Karen said that she turned around and ran back inside the faculty lounge where she saw a female teacher (unknown) standing near the telephone. Karen said that she asked this female, "Have you called 911?" Karen said that the female said, "No, but I called the office." Karen said that she then picked up the telephone, called 911, and "got through."

Karen said that she remembers running back and forth from the telephone to Sean, updating the dispatcher as to Sean's injuries Karen said that she did most of the talking, and that the female teacher stood next to the telephone Karen said that she remembers Sean repeatedly saying, "I can't move my legs," and also remembers people attempting to move him Karen said that she remembers leaning over Sean to look at his wound after someone had attempted to move him. Karen described the wound as "right in the middle of the back. .it was a very clean shot, there was not a lot of blood." Karen said that she had to lean over Sean in order to see his wound because his back was facing away from the door. Karen said that she remembers the 911 dispatcher telling her not to move Sean, and later, her (Karen) arguing with a female teacher (Chris Redmerski) about whether or not Sean should be moved inside because of possible spinal injuries. Karen said that at some point, she also saw two other students who had been shot. Karen described these students as "Lance" and "Danny," and that both were lying on the ground near the bottom of the exterior stairs, on opposite sides of the fence. Karen said that both students were visible through the window (facing west) to west side of the cafeteria's northwest door Karen said that she remembers telling the dispatcher that Lance had been "shot in the face." Karen said that while going back and forth from the telephone to Sean, she continued to hear sporadic gunshots. She did not remember which windows were shot out, but remembers seeing shattered glass.

Karen said that at some point, she decided to hang up the telephone because she thought the shooter(s) had entered the cafeteria through the northwest door. Karen said that she heard gunshots and explosions coming from directly outside the faculty lounge, and that she "knew they were in the building, in the kitchen, in the cafeteria." Afraid to exit the faculty lounge. Karen said that she figured the only place to hide was inside the faculty lounge bathroom. Karen said that she was the last person to enter said bathroom, and remembers thinking it would be "like fish in a barrel" should the shooter(s) decide to enter the faculty lounge

Karen said that she entered the bathroom at about 11:30 a.m., and that in addition to herself, there were three teachers and three students (all unknown) inside, for a total of seven. Karen said that when she entered the bathroom, the light was turned off and the dead bolt was turned to lock the door. Karen said that there was very little talking amongst those inside the bathroom, and remembers hearing a lot of "Shhhh!" to keep each other quiet. During the time she remained in the bathroom, Karen said that she continued to hear gunshots and explosions from what she thought was the kitchen area. Karen said that it would be "quiet

for a minute, you'd hear them scuffling around in the kitchen, talking, and then it would be like ba-boom! ba-boom! and then a couple more shots, then it would be quiet again." Karen said that the explosions "shook the bathroom walls," and that she expected them to actually blow a hole through the walls. Karen said that in addition to hearing what she thought was the shooter(s), she could hear faint noises coming from the opposite sides of the east and west bathroom walls. Karen assumed that these noises were from other people hiding in the kitchen area. Karen said that the gunshots and explosions eventually tapered off over a period of about thirty minutes.

Karen said that there was enough light inside the bathroom for her to see her wristwatch, and remembers looking at it at about 12:10 p.m. At that time, Karen said that she decided to exit the bathroom. Upon cautiously doing so, Karen said that she looked out the faculty lounge window and saw two police cars, one parked in the senior parking lot and one parked toward the top of the hill to the north. Karen said that she saw the three kids outside, still on the ground, and that she "knew Danny was dead." Karen said that the others had followed her out of the bathroom, and that they decided to return to the bathroom after concluding that it probably wasn't safe yet because the police had yet to retrieve the three students. Karen said that after returning to the bathroom, one of the male students and one female teacher climbed up through the ceiling panels above the bathroom. Karen said that this made a considerable amount of noise, and that the two were told it wasn't safe to do so. Despite the warning, Karen said that both continued up into the ceiling, and that about a minute later, the teacher fell through the ceiling panels above the faculty lounge. Karen said that the teacher then got up, returned to the bathroom, and was let back inside. Karen said the student disappeared.

Karen said that they remained inside the bathroom until about 12:30 p.m., when a male student, not part of their group, peered into the bathroom from the ceiling and told them that this was a good time to leave. Karen said that they all decided to exit the bathroom again, which they then did. Karen said that she then looked out the faculty window again and saw that the two of the three students (Sean and Lance) had been moved. Karen said that Danny was still lying where she last saw him. Karen said that they all then began running outside the cafeteria's northwest door, in different directions. Karen said that she ran up the hill next to the stairway, to a police car.

Karen said that during the time she was serving lunch, from about 11:00 to 11 20 a.m., she did not notice any duffle bag(s), crowds, or anything else in or around the commons area that she might consider suspicious or unusual. Karen said that she never saw any shooter(s), nor anyone wearing a trench coat. Karen said that she left her purse in a storage room inside the kitchen, where she and other staff members usually keep their personal items. Karen confirmed the names of all seven kitchen workers who were working in the kitchen on 04-20-99 The interview concluded at about 10:30 a.m.

Names of all seven kitchen workers were previously obtained by me (from R-1 administrator Mary Gumm) and forwarded to Detective Mark Woodward. All other names provided by Karen were run through Rapid Start; no additional lead sheets were necessary

INVESTIGATION:
On 4/26/99, Investigator Reker and I met with Elizabeth Nolan at her residence reference the shooting at Columbine High School.

I explained to Elizabeth why we were there and gave her a sketch of the cafeteria. I asked Elizabeth if she could circle the table in the cafeteria where she was sitting the day of the shooting. Elizabeth circled table marked "EE" and put an "x" on a chair showing where she was sitting. I asked Elizabeth if she was sitting by herself and she said no. Elizabeth gave me thirteen names of students with which she was sitting. I asked Elizabeth if she could tell me what happened on the day of the shooting. Elizabeth told me she was in the cafeteria at approximately 11:20 a.m., when she heard a teacher tell everyone to get down underneath the tables. Elizabeth said she then heard, what she described as, popping noises and the teacher yelling for them to crawl out of the cafeteria. Elizabeth said when she got to the stairway which leads upstairs she heard approximately six to eight more shots and believed that approximately 20 to 30 feet behind her a student was shot while going up the stairs. Elizabeth said there was a teacher, which she did not know if it was Mr. Sanders or not, say that he would go back and get the student and for them to continue running up the stairs. Elizabeth said that she then went to the auditorium, but the door was locked and they had to get a teacher to unlock the door Elizabeth said that she then hid by a lighting area in the auditorium. Elizabeth said while she was hiding there, she observed the suspect come into the auditorium and look around but he did not fire any shots in the auditorium. Elizabeth said that she then ran to the stairs and hid behind some lockers in the auditorium with some other students. Elizabeth said while hiding behind the lockers, someone pulled the fire alarm. Elizabeth said once the alarm was pulled, she and other students ran through the band hall and while running through the band hall, she observed a tall skinny guy running behind them, approximately 100 feet. Elizabeth said while running with this person behind them she heard a "boom" Elizabeth said she then ran to a door and exited the school by the baseball field and ran through Clement Park. I asked Elizabeth if while running outside she heard any further shots and she said yes, she believed that she heard shots and possibly more explosions.

I asked Elizabeth if she knew who the tall skinny male was and she said she believed him to be Dylan Klebold She said that Dylan had a mask on, but had hair sticking out of the mask and that she does know Dylan and that appeared to be him. I asked how this person was dressed and she said "Dylan had on a black trench coat, army boots, black pants and a black ski mask". I asked Elizabeth if this person was carrying anything and she said that he did have a duffle bag on his left arm and had a gun in his right hand.

I asked Elizabeth if this person was with anyone and she said no, he was by himself I asked if she saw him shoot anyone. She said just the person on the stairway. I asked if she heard this person say anything while he was shooting and she said she remembers turning around on the stairway approximately the same time that the student was shot, and heard "Dylan cackling". I asked Elizabeth if she actually saw the student get shot and she said yes, she did, as she turned around to see who was behind her and did see the student get shot in the back and fall down. I asked Elizabeth who the teacher was who went back to help the student and she said she believed it was Mr. Sanders. I asked Elizabeth if she saw anyone else get shot and she said no, just this one. I asked Elizabeth if she was injured during this and she said no, she was not. I asked Elizabeth if she saw anyone else besides this tall skinny shooter and she said, no, he's the only one she saw Elizabeth said she has heard from other students that there were two and possibly three shooters, but she only saw the one.

Elizabeth said a few days before this incident, some locks on the school had to be replaced because someone had tampered with them. I asked her what locks and she said the front door locks and also the door locks to the math hall all had to be replaced. The math hall is on the side of the building by the Columbine High School sign. I asked Elizabeth if she knew why the locks had to be replaced and she said all she knew was that somebody had tampered with them.

I asked Elizabeth if she had seen anyone else at the school that she felt might be involved and she said she did see a white male in a white shirt with black pants running in the hall by the band room. Elizabeth said she believed that to be suspicious because he was running the opposite direction of everyone else. I asked if she could describe this male and she said he had brown hair, short in length and he had a white T-shirt on. I asked if the shirt was a T-shirt or a dress shirt and she said it was a T-shirt. I asked Elizabeth if there was anyone else that she had seen and she said no. I asked Elizabeth if there was anything else that she could remember at this time and she said that's all she knows. I gave Elizabeth a business card and asked her to call with any further information

INVESTIGATION:

On 05-18-99, between the hours of 0957 and 1036, I had an opportunity to speak with Jeff Noll in reference to the incident that occurred at Columbine High School on 04-20-99. Also present during the interview was his mother, Kathy Noll.

Jeff stated he arrived at school on 04-20-99, at about 0733 hours, and that his friend, Brad Miller (303-973-7122), had also ridden to school with him that morning. Jeff stated his father dropped them off, and once they reached the high school, they went in the school via the main entrance, and he proceeded to his Science class taught by Mr. Will. After being released from Science class, he went to his English class taught by Mr. Leyba, and then to his third period class, which was Math, taught by Ms. McWilliams. After he was released from his third period class, Jeff went to his fourth hour Government class taught by Mr. Savina. Jeff said after he was released from fourth period class, that he proceeded to his locker, #1822, which is located near the gymnasium at the school, and that his friend, Braden Pollard (303-978-1331), accompanied him to his locker. After they finished at the locker, they proceeded to the cafeteria [redacted], and he believes they arrived at about 1117 hours. The two of them went directly to the food service line where they got their lunch, and then they went to the tables located in Rebel Corner just across from the student store. Jeff was asked who was at the table with him, and he stated his friend, Mike Foster, Adam Hinchey, Laura Farber, Braden Pollard, Colleen Schwartzott, Kate Rebrovic, BJ Secord, Ben Johnson, and Matt Friend were all

at the table. Jeff said once he arrived at the table, he was unable to locate a chair, so he went to the common area of the cafeteria where they stack chairs. As he was walking over there, he saw a group of students standing in the common area, and believed there was a fight going on He told me he was unable to see if there was in fact a fight, and he turned and recalled seeing Mr Sanders and an unknown janitor who were telling students to get down under their tables Jeff said he walked back to his table and got underneath the table, but at this point was not sure why they were instructed to seek refuge under the tables Jeff said as he got down on the floor and he recalls a student, Justin Norman, came running into the school and stated, "He's got a gun " At this point, the students who were located on the west side of the cafeteria began to run east towards the staircase Jeff stated he ran south out the doors at Rebel Corner, ran through the Junior parking lot, and ran to a house located on the corner of Pierce and Polk. I asked who else went with him when he exited from the school, and he told me everybody at his table ran the same direction to the house on the corner

Jeff was asked if he recalled what time he reached the house at Polk and Pierce. He told me he called his mother at home on the incident date, and told her what had happened. Kathy Noll told me she believed it was 11 35 a.m , when she received the call from Jeff Jeff told me he stayed at the house at Pierce and Polk for about 15 to 20 minutes, and then he got a ride to Tyler Pierce's home, where he later went to the Columbine Public Library and met with his mother at about 1 50 p m

Jeff was shown a diagram of the cafeteria area and asked if he observed two large duffle bags or sports type bags, one being a blue color and the other being a burnt orangish/red color. I told him the items were located in the central core area of the cafeteria and asked if he saw these items when he went to the food service line. Jeff stated he walked through that general area, but did not recall seeing those items, telling me that it wasn't uncommon for large packs or backpacks to be present in the cafeteria during lunch period. Jeff was asked if he observed any gunmen while in the cafeteria at the high school, or if he saw any gunmen after he exited from the school. He stated he did not see any gunmen, but he heard a gunshot and told me he believed it was in the cafeteria area over near the west doors.

Jeff was asked if he knew any members of the Trench Coat Mafia, specifically Eric Harris or Dylan Klebold, or their associates. He could not provide any information about this group When asked if he knew about Harris' Website, he again told me that he did not know anything about the group. Jeff was asked if there were any rumors around school of anything that was going

to occur on 04-20-99 He told me he had not heard of anything Jeff proceeded to tell me that there was no other information that he could provide, and told me he left the school and did not observe any activity at the school

Jeff was asked to describe his dress on the incident date He said he was wearing khaki colored shorts with a grey long sleeved shirt, a baseball cap, and tennis shoes Jeff was asked if he had left any items in the cafeteria when he exited the school, and he told me he never took his backpack off, so when he ran out of the school he still had it on. He said there were no items he had left behind

At the completion of my interview, I asked Jeff and his mother Kathy Noll, if they had any additional information or had any questions for me to let me know Kathy Noll told me there is a family by the last name of Wright, who live at 5391 South Garland Way in Littleton, Colorado, home phone number 303-904-1108, who have two sons who attend Columbine High School, and the older son observed either Harris or Klebold in the parking lot at the school just prior to the incident on 04-20-99 She said she heard the individuals (Harris and Klebold) were carrying large duffle bags, and these may possibly be the duffle bags that I had described earlier in the interview Kathy Noll was unable to provide any additional information reference this incident, and suggested the Wright's be given a phone call

Jeff was asked to depict where he was sitting in the cafeteria on 04-20-99, and his movement out of the school A copy of that map is attached to this supplemental report.

Narrative:

On 4-30-99 , Inv. Reker did conduct an interview with Justin Norman at his residence, with his mother
present.

Norman states that he had left weight lifting class and had met Matt Katzenmeier in the hallway and that they walked to the cafeteria at approx. 11:20 and that while he was at the vending machines next to the west doors of the cafeteria,he heard shots out the west door and that he looked out and saw two people go down and that Dylan Kliebold then came into the cafeteria via these doors and started shooting,and that Kliebold was shooting all over the cafeteria. Norman also related that as the bullets were going by whizzing by his head that he was busy getting people out of the cafeteria.

It should be noted that this is the first time this Investigator has heard that Kliebold entered the cafeteria by this door and that he also fired numerous shots from this location. When Norman described this alledged shooting from inside the west door of the cafeteria,he held his hands by his hips as if holding a gun and did a spraying or sweeping motion from this position as he described Klieboids actions.

Norman states that nobody was with Dylan,and that Dylan was wearing a black trench coat , black boots, a "goofy" face, long blond hair,and a big nose. Norman states that he did not see a duffel bag and cannot describe a weapon.

Norman states that he then ran to the Rebel Corner and out the door and that he had his backpack with him.

Norman states that the one victim outside had been shot in the ankle and that one had been shot in the chest and that Kliebold had come from the outside steps by the west entrance to the cafeteria.

Norman related that he knows Eric Harris from gym class but did not know Kliebold.

Norman states that he (Norman) was wearing blue shorts , and a green vest with a white shirt.

Norman related that he was in front in front of Coach Brookfield in the lunchroom.(it should be noted that Inv. Reker did interview Brookfield and he states that he(Brookfield) was in the commons area of the cafeteria)

NVESTIGATION:

On 05-07-99, between the hours of 1108 and 1155 hours, I had an opportunity to speak with Sean Nossaman in reference to the incident that occurred at Columbine High School on 04-20-99 Also present during the interview was his father, David Nossaman

Sean Nossaman proceeded to tell me he arrived at school on 04-20-99, at about 0710 hours, and that he drove with his friend, Ian Patrick (303-979-4977). Nossaman advised that they had parked at Clement Park and walked into the main entrance at school. Once he arrived at Columbine High School, he proceeded to his locker, which is locker #1564, and is located near the gymnasium. Nossaman stated that his first hour class is German, and it is taught downstairs in the Foreign Language hall, and the teacher is Amy Burnett. Nossaman was asked if he saw anything unusual in the cafeteria area when he was walking to his German class. I asked him if he observed anyone bringing in two large duffle bags or sports bags, one being blue and one being orangish/red in color, and placing those bags in the central core are of the cafeteria. Nossaman told me he did not see those bags, and he did not see anyone bring those bags in. After his first hour German class, he proceeded to his Math class, which was taught by Mr Bundy After Math he has Team Sports, which is taught by Coach Splace, and fourth hour he has Language Arts which is taught by Ms. Nykanen. Nossaman was asked where his fourth hour class was located in the school. He told me it is located in the Social Studies and Language Arts hall. At about 1110 hours, he was released from his fourth hour class and

proceeded to the cafeteria, and believes he arrived at about 1115 hours. Nossaman was shown a map of the cafeteria area of the high school, and I asked if he could tell me where he was seated. Nossaman identified table #WW as the table he was seated at, and proceeded to tell me that his friend, Jeremy Mullen (303-730-6712), his girlfriend, Tanya Worlock (303-971-0805), Mike Kish (unknown phone), and Mark Radtke (303-979-7191), were also seated at the table. Nossaman explained shortly after he finished his lunch, he got up and went over to the trash cans which were located near the pop machines by the northwest doors of the cafeteria. As he was throwing away trash, he remembers hearing pops, and later identified them as gunshots coming from outside. He looked out the northwest door where he stated he saw an unidentified white male, who he believed was a Freshman lying outside the doors, and the individual was clutching his shoulder, and appeared to be shot in the shoulder area. Nossaman explained that he stepped outside, and was looking at the student when he heard three gunshots, and then a possible shotgun blast coming from outside. I asked Nossaman if he observed any gunmen while he was standing outside, and he stated he did not. After the shotgun blast, he stated he stepped back inside the cafeteria, and an unknown teacher yelled at the students to get down. Nossaman proceeded to run to the teacher's lounge, and with him was a Ms. Jankowski, Amy Burnett, Ms. Caruthers, an unknown lunch lady, Tim Kastle, and Nick Foss. Once they got into the teacher's lounge, he stated they all went into the bathroom inside the lounge and locked the door.

Nossaman stated while they were in the teacher's lounge bathroom, that Ms. Jankowski and Nick Foss attempted to escape by climbing through the ceiling, but the weight of the two individuals collapsed the ceiling and they fell to the floor. Nossaman remembers that while they were in the teacher's lounge, they would periodically peer through the west window of the lounge. He stated he observed two students at Columbine who were lying at the west door of the cafeteria. He stated that Lance Kirklin was one of the individuals, and he was lying near the fence, and "it appeared his face was gone." He also stated that Dan Rohrbough was also lying outside on the sidewalk, and both individuals appeared to be dead. I again asked Nossaman if he observed any gunmen shoot the two individuals, or did he see any gunmen standing near them. He stated he did not see the gunmen.

Nossaman told me that they remained in the teacher's lounge for a short period of time when Brett Kastonig had come into the teacher's lounge and directed everybody that it appeared to be safe to leave, at which time they exited from the school through the northwest cafeteria door and ran to a blue Honda Accord which was parked in the Senior parking lot. Nossaman advised there

were two Denver SWAT officers there, and they sought refuge behind the car After a short period of time, the officers instructed them to run to safety, at which time they ran to the soccer fields, and then were directed to go to a central staging point at Caley and Yukon Street.

Nossaman stated after he exited from Columbine High School and was crouched behind the blue Honda Accord, that there were never any shots fired at him or any of the other individuals that were crouched behind the vehicle

Nossaman was asked while the incident was occurring if anybody had identified who the gunmen were He stated while he was in the teacher's lounge, he recalled somebody told him that the gunmen were Eric and Dylan I asked Nossaman if he knew Eric Harris or Dylan Klebold, or if he knew other associates of the Trench Coat Mafia. He told me that he knew Eric Harris worked at Blackjack Pizza, telling me that his girlfriend, Tanya Worlock, works at Great Clips, which is located near Blackjack Pizza He said on occasion, when he would go over to visit his girlfriend, Eric Harris would give them free pizza. He told me he didn't associate with Harris, and really didn't know much about him. Nossaman proceeded to tell me that their family is personal friends with the Klebolds, and their family shared Rockies baseball tickets. At this point, Sean Nossaman's father, David Nossaman, told me that he and Dylan Klebold went to the All Star Game which was played at Coors Field in 1998 Sean Nossaman was asked if he knew about Harris' Website. He told me he had no idea that the Website existed. I asked Nossaman if he heard any rumors in reference to anything that was going to occur on 04-20-99 He stated there were a lot of kids running around with "420" scribed on their hats and backpacks, and he knew that this was National Marijuana Day

I asked Nossaman if he could recall about what time this incident occurred at the school He stated he believed it was about 1120 to 1130 hours Nossaman was asked if he observed either Lance Kirklin or Dan Rohrbough being shot outside the high school He stated that he did see Rohrbough fall after being shot, but again stated he did not see a gunman. He believes that Rohrbough was shot three times in the back area, and he thought Rohrbough was walking down the stairs when he was shot He told me he did not see Kirklin get shot, he only observed him lying on the ground after the incident.

Nossaman was asked to describe his dress on the incident date. He stated he was wearing black knee length shorts, a red t-shirt, which had written across it Rage Against The Machine. I asked him to describe his backpack that he left in the cafeteria area.

He advised it was a dark green JanSport, and it contained a Science book calculator

Nossaman was asked where he went after he was released from the staging point at Caley and Yukon Street He told me just before he was released, he remembers speaking with Larry Brown with the Colorado Bureau of Investigation, and gave him his initial statement. After giving his statement, his mother picked him up and they went to Leawood Park in an attempt to find his girlfriend, Tanya Worlock. After they didn't locate her at Leawood Park, they went to the Columbine Public Library where they located her.

Nossaman was asked if there is anything reference this incident that really sticks out in his mind. He stated one thing that he recalls is that the phrase of the day, which was displayed at school, said something to the effect of "Why should anyone be in school today?" I asked him if he knew who authored the phrase of the day, and he told me that it was the R&N Staff, the video production group Nossaman was asked if there was any additional information that he thought was important to pass on. He stated that he didn't have any further information. I reiterated with Nossaman that he did not see any gunmen while at Columbine High School, nor did he see the two large duffle bags or sports bags described earlier in the cafeteria area

At the completion of my interview, Nossaman was asked to depict where he was sitting in the cafeteria, and then his movement out of the building A copy of that map is attached with this supplemental report.

On 5/15/99, I was assigned information control number DN3554 for follow up investigation. The information control narrative stated that Shawn Nossaman indicated that a lunch employee, Ms. Caruthers, was in the cafeteria when this occurred. The information control sheet was prepared by Sergeant Calvin Hemphill, Denver Police Department.

On 5/18/99, I contacted Jefferson County Schools Area Administrator, Barb Monseu, and requested any information she might have on cafeteria employee by the name of Ms. Caruthers. RE: CONTROL # 2291

LEAD: Interview Veronica Nuncio as she was said to have been at the student store and saw shooting victim Anne Marie Hockholter

TELEPHONE INTERVIEW:

NUNCIO, Veronica A. (DOB:101581)
7085 W Belmont Drive
Littleton, CO 80123
(303) 973-5151

05-19-99 / 9:28am

NUNCIO said she had been standing at the student store, near the entrance on the south side of the cafeteria at the time of the shooting

At about 11:25am she looked out the windows to the west and saw Anne Marie HOCKHOLTER, whom she recognized from their elementary school days, fall to the ground by the southwest corner of the cafeteria. She said she ran out the exit by the store to see what was wrong with HOCKHOLTER. At some point near this time a Special Education Teacher, Miss Chris REDMERSKI, told them to get down became someone was shooting. As she got to the area of the corner she saw a suspect, whom she thought she could identify as Dylan KLEBOLD, walking west from the entrance at the top of the stairs by the grassy hillside. As this suspect got to the top of the stairs he turned back toward the entrance from which he had just come and fired a handgun about ten times in quick succession towards the school / entrance. She recalled this suspect was holding the handgun in his right hand.

NUNCIO described after firing the shots the suspect then turned and went back to the area at the top of the stairs, stood by the edge of the grass. She watched as he reached into his trenchcoat and pulled out what she thought was a pipe bomb with his right hand and threw it towards the senior parking lot. She could not recall what the suspect had done with the handgun he was shooting with his right hand just prior to this. At this time NUNCIO said she turned and ran back into the cafeteria thorough the row of multiple doors. She then went back to the REB Corner, student store, with a few of her friends where several girls were screaming. She then ran down the hallway to the right and ran out the exit near the Foreign Language classrooms to Leawood Park.

NUNCIO clarified that she did not recall seeing KLEBOLD prior to the day of the shooting, but made this identification subsequently due to seeing their photographs on the media coverage. She felt it had been KLEBOLD due to the shooter she had seen having blond hair. She added that this suspect was wearing a black ballcap on backwards, and a black trenchcoat, but otherwise could not provide further description of him or his weapons. NUNCIO did not see anyone else with this suspect, or anything that might have been beside him at the time.

Investigator _____ Date 051999

RE: CONTROL # 2291

NUNCIO initially could not recall who was with her during these observations, but upon my suggestion confirmed that Janell and Aleia RUSSELL and Alicia MAES were with her.

A subsequent search of Rapid Start discovered existing leads for all of the witnesses listed in this report. Teacher REDMERSKI: DN#3331, and students Janell RUSSELL. DN#2302, Aleia RUSSELL: DN#2289, and several previous interviews of shooting victim HOCKHOLTER.

** NO new leads were generated.

INVESTIGATION:

On 5/5/99 I was assigned information control number DN2806 for follow up investigation. The information control narrative stated that Keira O'Dell is on the original cafeteria backpack list.

On 5/6/99 I responded to 9695 West Power Circle and interviewed Keira O'Dell and her mother, Michelle. Keira confirmed that she had been in the cafeteria at the time that the incident occurred. She rode the bus to

school, bus number S2, that drops her off at the south main entrance. She said she entered the school at approximately 7:05 and went to her locker which is in the main hallway and then went to her athletic locker by the gymnasium to drop off her track equipment. She then was out in the main hall by the main entrance, visiting with friends Julie McGinley, Allison Reardon, and Jenny Naifeth. She said that she then went to her first hour, which is English on the main level near the offices. She then went to second hour, which is Spanish, on the lower level. Mrs. Hickman is the teacher. From there she went to her third hour which is Science. She went back upstairs through the main stairwell. She then went to her fourth hour class which is Choir. In between third and fourth hour she did go with a friend to a friend's locker, however she did not go to her locker. From Choir she went to the "A" lunch.

O'Dell stated that she went into the cafeteria and dropped off her backpack at the table, which she identified as .. She then went to the service line and picked up a chick filet sandwich. She went back to the table and believes she may have even finished her sandwich, and was eating and talking with friends when she heard some boys from the far end of the cafeteria yell to get down. She then looked across the lunchroom and saw that kids were getting down under the tables and that some of the students were crawling on their stomachs across the floor towards their location. She said that janitors were walking by with walkie-talkies, then she heard conversations about someone having a gun. She thought that students on the ground were talking about that. She said that all of a sudden people started to run towards the stairwell. She did not hear any gunshots at that time. She said that she and her friend Katie Jorgensen ran up the stairs together. She believes that they were one of the first ones up the stairs. She said that they ran straight down the hall when they got to the top of the stairs, and as they got to the top of the stairs they heard what they thought were loud bombs. She said that they ran straight out the doors yelling for other students to evacuate the school as they left. She said that when she ran out of the school, she ran across the street into Leawood Park. She said that she met up with 150 or so people in the park. She said that while they were there they heard more bombs or gunshots and then heard someone yell that they should get out of the park. She said that she then went to her friend Lindsay Blair's

house, and she was able to call her mother and her mother believes she received the call approximately 11 45 to 11.50. Her mother came to the house and picked up 12 of the girls that lived in the Governor's Ranch area and took them home. At Katie Jorgensen's house they were able to use the cell phone and other phones to call parents. O'Dell said that as she ran down the main corridor to exit the building, she remembers dodging in between pillars and behind walls as to avoid being shot. She said that she doesn't know why she did that now, because there was no shooting in the hallway that she was aware of, but she could hear it behind her

O'Dell said that her backpack is blue with black trim. Inside the backpack is her Government, Math, Spanish and Vocabulary book, several notebooks, her Government and Spanish folder, her calculator, her purse with makeup and her school ID, and pens and pencils. She said she was wearing khaki shorts and a pink shirt with a pink top, and white tennis shoes.

O'Dell is a Freshman. She said that she had heard of the trench coat mafia, and had seen kids wearing trench coats around school and just assumed that they were part of the trench coat mafia. She's had no problems with any students in the group and she's unaware of any students that did have problems. She said that her friend Julie McKinney received a letter during one of her classes in which the Sophomores write the Freshman letters. She doesn't know who the letter was from, but the letter was all about warning Julie about her dealings with members of the trench coat mafia.

O'Dell said that she doesn't know anybody with two pierced eyebrows. She does have Internet access at home, however she only uses it for E-mail and her on-line service. She said that she did see the Royal News Network and she thinks that she saw the thought of the day being *you don't want to be here today.*

O'Dell said that during her travels through the school she didn't notice any unusual backpacks or duffle bags. She had no further information to add to the investigation.

c/o mother; Chris Oliver (p) 303-540-6934

-CHS student; backpack at table D with Amy Evans, Leigh Kamens, Steve Trujillo, Heather Dinkel, Nick Shuman and Tina Bernacci; was walking to food line in middle of cafeteria when incident began, saw no suspects or duffle bags; had Eric Harris, Dylan Klebold, Nate Dykeman, and Chris Morris in his zero-hour bowling class; thought Eric and Dylan were missing from bowling class day of shooting; was not sure if Nate or Chris were in class that morning

INVESTIGATION:

On May 6, 1999 at 0934 hours I contacted Matt Oliver at his home for an interview. His father was present. Matt then told me the following:

* He is a senior at Columbine High. JC-001-003960

* When asked about Eric Harris, he said that he had Eric, Dylan Klebold, Nate Dykeman, and Chris Morris in his zero-hour bowling class. He described Eric as being a quiet guy who never said

anything. He said that Eric did wear a trench coat at times He also knew Eric ever since they both went to Ken Caryl Middle School.

* When asked about Dylan Klebold, he did not know Dylan prior to the bowling class. He described Dylan as a bit more talkative that Eric was

* When asked about [redacted] he said that [redacted] was in his government and economics class for 3rd hour. He also saw him around school. He described [redacted] as very talkative. He remembered a time in that class when the students were talking about their parents and about God. He remembered [redacted] saying that he was not close to his parents and that he did not love them. [redacted] also said that his mother was going out with some other man. He said that [redacted] would wear a trench coat on occasion. He did not know if [redacted] was in his 3rd hour class on the day of the shooting.

* When asked about [redacted] he said that he knew who [redacted] was. He said that he had [redacted] in his social studies class last year. He said that [redacted] was a nice guy who talked about cars. He never saw [redacted] in a trench coat. He has not seen much of [redacted] this year [redacted]

* When asked about [redacted] he said that [redacted] was also in his last year's social studies class. He described [redacted] as a kid who kept to himself, would talk in class, and was very smart. He thought that [redacted] was on the debate team. He said that [redacted] would also wear a trench coat on occasion.

* He could not think of any other trench coat students or associates. He has heard the name "Trench Coat Mafia" but thought they were just kids who wore black and kept to themselves. He did not think of them as a gang.

* He did not see any of the above named students or other trench coat students or associates in school the day of the shooting. He

did not think that Eric or Dylan were at the zero-hour bowling class the day of the shooting and could not remember if Chris Morris or Nate Dykeman were in bowling that day.

* When asked, he said that he did not see any unusual objects around school the day of the shooting. When asked specifically, he said he did not see any duffle bags.

* On the day of the shooting, he had math class for 4th hour. He got out at 11:10 a.m. and went straight down the stairs to the cafeteria. He said he always goes to the last table that is in the hallway outside Rebel Corner. The table is the one in that area that is closest to the cafeteria tables. This was verified by the location his backpack was found, table D.

* He was at that table with his girlfriend, Amy Evans and; Leigh Kamens, Steve Trujillo, Heather Dinkel, Nick Shuman, and Tina Bernacci. He sat down at the table and waited for the lunch lines to go down. After waiting about 5 or 10 minutes, he got up and started toward the food line.

* Referring to the diagram, as he was walking around table H to go to the food line, he saw students scrambling toward the west windows. He saw Mr. Sanders and a janitor squatting down by the west door to the cafeteria. He thought that a senior prank of setting mice loose was occurring.

* As he got close between tables X and Y, everyone began to squat down. He heard someone say something about a "shooting." He got down and does not remember if he heard any shots. He did hear crying and panic. After being down for 45 seconds, he started to crawl back to his table. About half the way there, everyone started to run out of the cafeteria. He went up the stairs and left down the hallway and out that hallway's east doors toward Pierce St.

* As he was turning down the hallway after going up the stairs, he heard two loud shots or explosions. He said it sounded like it was coming from the upstairs area.

* Once outside, he hopped into a car being driven by Chris Doven. He said that from the time there was first a problem to the time he was out of the school was about 3 to 4 minutes.

* He was wearing a blue Columbine football t-shirt, jeans and brown boots.

* He never saw any suspects.

This concluded my interview with Matthew Oliver.

INVESTIGATION:

On 05/03/99 I was assigned Information Control Number DN2513 for follow up investigation. The narrative stated that Jeremy Orban had been in the cafeteria at approximately 7:00 a.m. The source was Brandi Wiseman, a student at Columbine High School.

On 05/04/99 at 1130 hours I met with Jeremy Orban and his mother Joann Sander-Cederl at their residence. Also present at the residence were two other Columbine students, Braden Pesusich and Ali Boukhalfa. Both Pesusich and Boukhalfa were present in the cafeteria with Jeremy Orban and they were also interviewed.

Orban stated that he walked to school on 04/20/99 and that he arrived at approximately 0710 hours and that he entered the school through the main entrance then went to his locker and down to commons or cafeteria area. He said he met a girl named Cari, last name unknown and Brandi

Wiseman. He said they were in the commons for approximately 10 to 15 minutes before first hour. Orban said that he didn't notice anything unusual in the cafeteria at that time. He didn't notice any unattended duffel bags or backpacks, although he said he wasn't really looking for any.

Orban left the commons area and went to Spanish on the lower level for first hour He left Spanish and second hour went to chemistry on the main level, for third hour he went to history on the main level and after third hour he went to his locker and then to fourth hour across from the gymnasium, his math class. He then left his math class and went to the A lunch. He said that when he arrived he got in line to purchase food and after he purchased his pizza he went to sit at his table He identified the table that he was sitting at as table AA. He said that the other people at his table were Braden Pesusich, Ali Boukhalfa, Seth Biggi, Ian Hales, Nick Romynyshin, Rani Rao, Ryan Baris and Terry, last name unknown.

Orban said that he sat down at the table, took two bites of this pizza when he heard a janitor come in through an outside door yelling for everyone to get down. He said that he looked out the windows and saw a person who he believes was Dylan Klebold ~~shot~~ shot a male student in the leg and throw a pipe bomb into the parking lot. He said that he and other students then got under the tables. He said that then he and other students began running towards the stairs and as they ran Orban could hear what he described as booms thinking in retrospect that these were pipe bombs. Orban said that as he approached the stairs he could see that the stairwell was quite crowded and there was a teacher in the hallway by the food cart directing them down the hall. He said that he ran down the hall until he had to make a right and followed that hallway down to the last classroom. He said there were numerous students going into that classroom and there were several teachers in the class with them. He said that after several minutes the teachers heard the shooting from what he believes was upstairs and he, at the direction of the faculty, ran out the south exit doors from this classroom, across the student parking lot and to a house at Polk Street and Pierce. He said they went in the house for a short time and a student there had a cell phone and he was able to call his mother. He 'lieved he was able to contact her at approximately 11:45 a.m. Orban had been separated from his

friends at the table when he left the table. Orban did not leave anything behind in the cafeteria. He said he had been wearing brown corduroy's and a green T shirt. He said he took his backpack with him when he left. Orban said that he noticed nothing unusual in the cafeteria prior to the incident beginning, that he didn't notice any large duffel bags or backpacks that appeared to be unattended. However, he stated that he probably wouldn't notice such an item because it is common practice for the students to drop their packs and go get food, using their packs to save a spot. Orban said that he was familiar with the trench coat mafia only by name and knew that they were kids that wore trench coats, but had no run in's with them and could provide no further information on the trench coat mafia. He also did not know Eric Harris or Dylan Klebold. Orban did not know of any students who were building pipe bombs or stockpiling weapons. He does not have his own web site and does not have Internet access at home.

I next interviewed Braden Pesusich. He indicated he had not been in the cafeteria any other time during the day and had gone to the cafeteria for the A lunch. He said that he had come from the upstairs into the cafeteria, had gone to the lunch line and then made his way to the table when the incident began. He said that he observed people standing up by the west windows and felt perhaps there was a fight. He said that he had a fairly clear view of the kid running up the hill, trying to run up and get away, when he heard more shots. He said that he then observed what he thought were pipe bombs being thrown into the parking lot. He said that he saw one of the gunmen by the window shooting down towards the ground. He could not see what the gunman was shooting at. The only description he could remember was that this gunman had long curly hair and in retrospect thinks it was Dylan Klebold. He said about this time people were starting to run for the stairs to the cafeteria He said that he ran along the south wall and that he saw a girl screaming. He thought her name might be Kim or Patty Blair. He couldn't be sure because the Blair's are twins. He said that the girl was screaming "Ann Marie, Ann Marie". He said that shortly past this girl that was screaming, was a male student who was covered with blood. He said he didn't appear to be injured, but he had blood over him. He said he next focused on the stairs and saw there was a large crowd there and ran

down the corridor into the language section of the building. He said that he didn't go entirely down the hall, but made a right turn by the Special Ed hall. He said as he ran past the stairwell he could hear a rapid series of shots from where he believed was either behind him or upstairs. He said that he then ran down the corridor past the Special Ed classroom and out of the building. Pesusich said that he took his pack with him and he was wearing khaki colored pants and a dark blue T shirt and left nothing behind in the cafeteria. Pesusich said that he was familiar with the trench coat mafia only by name but had no run in's with them and could provide no further information on the trench coat mafia. He also did not know Eric Harris or Dylan Klebold. Pesusich did not know of any students who were building pipe bombs or stockpiling weapons. He does have Internet access at home, however he does not have a web page or user name. Pesusich could add nothing further

I also interviewed Ali Boukhalfa, who also stated he had only been in the cafeteria during the A ch and that he had come from upstairs. He said he had been in line and was making his way back to the table when the incident began. He heard a commotion and a loud thud outside the west windows. He got up and saw a suspect with what he believed was a shotgun. He observed him shoot the gun but did not know where he shot it into. He then saw what he thought was a pipe bomb go flying through the air and then the suspect ran to the north side and up the stairs. He then heard several loud bombs as he was getting down. He said that when the students began to run out of the cafeteria he ran for the stairs. He went up the stairs and then directly east out the southeast main entrance and across the street into the park. He said that as he was running out the corridor he could still hear gunshots which he believed were coming from behind him. Boukhalfa could not identify the person he saw with the shotgun and could provide no further information as to what the person might have been wearing.

Boukhalfa left nothing behind, he was wearing jeans and a dark grey T shirt with a marbled top. Boukhalfa said he was familiar with the trench coat mafia and had seen them around. He also did not know Eric Harris or Dylan Klebold but that in retrospect he had seen Klebold around the ıool. He had no direct involvement with the trench coat mafia, but had a friend named Brett

Sullivan who had transferred to Englewood several months ago for other reasons. Sullivan had bumped into Klebold and they got into a pushing contest. Boukhalfa received this information second hand and did not have personal knowledge of the incident. He could only add that the trench coat mafia members seemed rather odd and he stayed away from them. He did not know of any students who were building pipe bombs or stockpiling weapons and noticed nothing unusual in the school the day this incident occurred. He does not have a web page and could add nothing further.

Both Pesusich and Boukhalfa verified the students that were at their table. They also indicated on the maps provided their routes into and out of the building. Orban indicated his entrance in a solid orange and his exit in a doted orange, Boukhalfa did his entry in a solid green and exit in a doted green and Pesusich did his entry in a solid red and his exit in a doted red.

Father: Michael Owen, 6338 Geddes Drive, Littleton, CO 80128, 303-932-0215, work: 303-757-9335

INVESTIGATION:

On 05-04-99 I was assigned Information Control Number DN2801 for follow up investigation. The Information Control narrative stated that Alisa Owen is on the original cafeteria backpack list.

On 05-06-99 I responded to 6338 Geddes Drive where I met with Alisa Owen and her mother. Alisa Owen confirmed that she was in the cafeteria when this incident occurred.

Owen stated that on 04-20-99 she drove her car to Columbine High School and parked in her assigned parking space #214 in the senior lot. She entered the school through the student entrance into the Commons and went up to her locker, which is on the main hall by the auditorium. She estimated she arrived at approximately 0700 hours. She then went to her physics class on the main level and spoke with her teacher For first hour she has physics with Mr. Manuello. Second hour she has Spanish with Ms. Burch-Sterling. Third hour she has language arts, which is back on the main level and fourth hour she has math in the math wing. For that class she had a substitute teacher and does not recall the name. She said that after fourth hour she went to her locker and then went to the "A" lunch. She reviewed the diagram of the cafeteria and indicated she was seated at table "DD" The other students sitting at her table were: Alex (last name unknown, a female), Jess Brown, Jenny Colby, Lydie Perry, and Pat (last name unknown). Owen estimated she arrived in the cafeteria at approximately 1115 hours She said that she had traveled to the cafeteria with her friend, Jenny Colby. She said that she purchased a pop, sat down and started to eat her lunch. She thinks that perhaps she ate her sandwich and had just started eating some chips when she heard a male voice yell "get down". She said at that time the entire population of the cafeteria started to get down their chairs and under their tables. She did the same and was starting to question

her friends and asking what was going on. She noticed that then people that were near the windows were crawling on the floor and pushing their way toward the stairs.

Owen said that she peaked up from over the table and able to look out the window. She said that on the hill area she saw someone trip and fall down. She thought that it was DYLAN. She said that he was wearing a black trench coat and his black baseball cap which he wears backwards. She said that she also thought it was DYLAN because of his curly hair. She could not see his hands and she couldn't tell what he was wearing on his feet. She said that she also saw someone by the cars that were parked near the building. She said that usually ERIC, DYLAN and Zak have their cars parked in the first spots. She interjected that she knew that ERIC and DYLAN and Zak had arrived at school at 0430 hours to get those get those assigned parking spaces. They wanted to have the spots closest to the school.

Owen said that Zak drives a blue car, DYLAN has a black Volvo or BMW, and ERIC also drives a black . She said that there was one person standing between two cars in the lot. She couldn't ID the person as they had their back to her, but she thought that they were wearing a black trench coat and looked heavier-set and was wearing camel army pants. She said that she does recall that there was a car parked in Zak's spot, which is the first spot and DYLAN's spot which is the second spot and thinks that the third space was empty. She then said that she started to crawl across the cafeteria floor toward the stairwell. She said that she saw people going up the stairs and she got up and ran.

Owen ran to the stairs and as she was going up the stairs noticed that a friend of hers had fallen. She doesn't recall the friend's name. She helped her up and thought that she had sprained her ankle. She said that they then heard gunshots in the cafeteria behind them and she also heard bombs. People were beginning to panic and yell "get out, get out". She said that she was frustrated as she went up the stairs because the crowd wasn't moving fast enough and that when she finally got up the stairs, she ran directly down the hallway and out of the building. She didn't recall hearing fire alarms but did say that she did hear gunshots and bombs as she was running out. These sounds were coming from behind her.

When she exited the school she went across the street into the Leawood Park and attempted to find her friends. She was at a gazebo when she heard someone yelled to run again and run into the neighborhood. She ran into the neighborhood and got into a house. She didn't know whose house that it was, but she got on a cell

phone and was able to call her mom. Her mother indicated that she received at 1222 hours. She then got a ride to Leawood Elementary and was reunited with her parents after a trip to the hospital to check on some friends. Owen estimated that it took her approximately ten minutes from the time the incident began until she was in Leawood Park.

Owen said her backpack is a blue and black Eastport, that it contains a red folder, miscellaneous papers, a dayplanner, several other books, a TI 83 graphing calculator, and a wallet. Owen said that she was wearing jean overalls, a gray short-sleeved shirt, and tennis shoes.

Owen said that she knew ERIC HARRIS and that she believes in eighth or ninth grade she had asked him to a class dance. She said that he is since been in several of her classes including her CCB class taught by Mr Webb. She was not in his particular group in the class and did not know what his paper was about. She that when ever she would hang around ERIC and his friends, they were constantly joking around saying things like "I'm going ɔot you too". Owen said that this was just their sense of humor and she did not feel threatened by the talk.

Owen said that she had seen DYLAN KLEBOLD in the hallways and several weeks prior to the incident, had talked to him about school. She said she was extremely surprised when it turned it was DYLAN KLEBOLD was involved in the incident because she describes him as "a nice guy" She wasn't surprised to find out that it was ERIC HARRIS because he had a very dark side and he always kept to himself. I asked Owen to characterize her relationship with ERIC and DYLAN. She said that they more of acquaintances than friends.

Owen said that she also knew Zak Heckler and that he had been in one of her classes, a Power Point class for physics. However, she didn't even considered herself an acquaintance of Zak only that she knew him

Owens said that she usually ate lunch with a group of girls who liked to associated themselves with the "trench coat mafia". Their names were Nicole Marks, Krista (last name unknown), Alex (last name unknown, possibly Marsh), and Vanessa (last name unknown). She said that usually the talk at their table was about prom or social activities and the only time she ever heard them talking about weapons was Alex and Vanessa joking about sword-fighting. She further stated that Nicole possibly Marks, was dating Chris Morris. Krista (last name unknown) was dating Eric (last name unknown) who always wears a beret. She said she was unaware of who Alex and Vanessa might be dating. She said that Krista always wore black and she always wore black overalls. She said that Alex always wore dark clothes but usually black, usually dark grays and greens. Vanessa also wore

JC-001-003983

dark clothes but not usually black. She said that another girl, Jenny, that usually hangs out with them, always wore a color-guard jacket and Jessica, who hangs out with them, always wore very revealing clothing.

Owen said that she had no problems with "trench coat mafia" members and had not hear of any other students having problems with them. When asked about unusual backpacks or duffle bags in the cafeteria, Owen said that she does recall a pack near their table that was between her and the pop machines. She said that it was very large and on the floor and people were stepping over it. She said she remembers someone asking who it belonged to it and no one answered up for it. She said that several students tried push it out of the way but it was so heavy it wouldn't move or they didn't move it. Owen did not know anybody with double-pierced eyebrow and does not have Internet access.

Owen's mother indicated at the end of the interview that they also were acquainted with Robyn Anderson and Tiffany Burke. She stated that on the day that the incident occurred, Alisa had been calling numerous friends find out if they were okay that evening. One of the calls she made was to Tiffany Burke. She said that Tiffany was no longer a friend but her name just appeared in the phone books that Alisa was using and she called her. She said that later when Alisa wasn't in the residence, Tiffany called and Cathy Owen asked her if she was okay. She said Tiffany's response was "I wasn't there, and I don't want talk about it". In retrospect, Cathy Owen thinks this is an unusual statement. Alisa Owen could add no further information.

INVESTIGATION:

On 05-05-99 I was assigned Information Control Number DN2799 for follow up investigation The Information Control narrative stated that Nathaniel Owen is on the original cafeteria backpack list.

On 05-06-99 I responded to 9704 West Power Circle where I met with Nathaniel Owen and his parents. Nathaniel confirmed that he was in the cafeteria when this incident occurred.

Owen stated that he took the bus to school. He believed the bus number is S1 He arrived at school by the main entrance, the entrance just south of the main entrance. He said that he entered the school and went to the cafeteria area and arrived there at approximately 0715 hours. He indicated on the map that he sat at a table near the east pillar, possibly table "HH" or "W". He said that he visited with other students who were in the cafeteria and then left the cafeteria to go to his first hour class which is journalism and the teacher is Jenkowski He said that the journalism class is on the main level. He left first hour to go to second hour, which is his language arts class, Mr. Laba, and he met with Charles Whitsel. They traveled to the math class together for third hour with Mrs. Layman. He said that after third hour he has fourth hour off and went to the Commons. He said that he got to the Commons and went to his usual table which he identified as table "TT". He said that several of his other friends that have fourth hour off met him there, those being Jeff Hoffer, Giff Seawright, Robbie Wisher, Chris Wisher, Jordan Grimm, and other student that they refer to as Nevel. Also Brian Bay was with them at this time. He said that sometimes they eat or do homework or just talk during this hour. He said that during the fourth hour he didn't

notice anyone come in to the cafeteria and drop off a backpack or duffle bag. However, he indicated his back was to the doors by the faculty lounge and he wouldn't have been able to see anybody come. He said that due to his conversations he probably would not have noticed. He said that for the "A" lunch, Brian Bay remained at the table They were joined by Mike Naifeh, Mark Opher, Kent Foncannon, Tyrone (last name unknown) and Kenny Rupp. He said that they were sitting at their table and that he had gotten his food at approximately at 1110 hours. He purchased a Subway sandwich. He said that Mark Opher left out the door to upstairs by the library and left out the faculty door. Shortly after he left the incident began. Owen said that initially he did not hear any shots but heard what he thought were chairs falling down or muffled bangs. He said that he turned behind him and looked out the window. He said that he looked out the window and saw three people. He said he saw two people lying on the ground and as he looked out the window he saw another student go down He said the male student that went down appeared as though he had been shot in the leg from the parking lot area. He said that the student s wearing baggy shorts, blue jean style, a T-shirt which is dark in color, and he had short, blond hair. He said that he immediately turned around to his friends and asked if they heard any gunshots. He said at about the same time he hear a male teacher yelling "get down, get down" He immediately dropped down and got behind some chairs. He said his initial response was just hide by the chairs and he waited a minute or two and then he started to move toward the stairwell. He said that there were people crawling and running toward the stairs. He said that he got to the stairwell, he saw that the stairs were extremely crowded and he grabbed his friend Tyrone who was standing there, and they ran down the foreign language hallway corridor, then directly to the doors He said that when they got to the doors, he had lost Tyrone along the way. There was a girl standing by the door. They paused for a moment at the door and then the girl ran from the school. He immediately followed her and he heard a teacher yelling at them to stay in the school. The teacher then yelled to them to "get out" and other students started to come out of the school. He said that he followed the girl and then lost her at some point as he across the street into Leawood Park. He said that he eventually ended up at a friend's house that had stayed home for lunch by the name of Eric Long, and that more students arrived at the house. He said that as they were at the park, they had been told to run into the neighborhoods. He said that while they were at Eric's house, they were able to hear more gunshots and they ran from that house thinking it was too close. He ended up knocking on some neighbors homes and an older couple let him into the house along with other students.

Owen said that he was fairly sure that student he observed was shot in the leg and that he was bleeding. He said he couldn't be sure about the other two that were laying on the ground. He could provide no description of the two. He said that he did not see anyone shooting a gun and did not see any of the suspects outside the window.

Owen said that he did not see anything unusual in the cafeteria while he was in there for fourth hours and a lunch. He did not notice any large, unattended duffle bags.

Owen said that his backpack is a green Jansport. He said that it is a very big bag and that he carries all of his books, a math book, a Spanish book, vocabulary book, journalism book, three large binders, several other notebooks and his Texas Instruments calculator. Owen said that he was wearing a white shirt, khaki pants, and Dock Martin boots or shoes.

Owen said that he has heard of the "trench coat mafia" prior to the incident. However, he has had no contact with them and no incidents that he has been involved in. He had heard that several weeks prior to the incident that there was going to be a fight between the "trench coat mafia" and the jocks. He never heard of anything coming of it and wasn't aware of any fight. He said that usually there are "trench coat mafia" students sitting at a table near the door. He identified that table as "UU", He said normally there is a dark, blond-haired students that wears black cargo pants and a trench coat, has sunglasses, is fairly skinny and has a pale complexion. Owen believes he is a junior at the school and is unaware of his name. He said that one time while they were in the cafeteria he had heard other students from across the way teasing this "trench coat mafia" member.

Owen does not know of any students with double-pierced eyebrows. He does have Internet access but does not have a user name or ICQ account. He says that he has not seen anything about the "trench coat mafia" on the Internet and hasn't tried to access their sites Owen could provide no further information to the investigation.

On 5/5/99, Johnathan Owens, DOB 6/10/82, 5409 West Hinsdale Avenue, Littleton, Colorado, was advised of the identity of the interviewing Agent, and the nature and purpose of the interview. He was interviewed in the presence of his Mother, Mary Ann Owens, DOB 7/3/57. He provided the following information.

On 4/20/99, John arrived at Columbine High School at approximately 7:00 a.m. He went directly to the cafeteria, and sat by himself at table JJ or MM. He didn't notice any duffel bags or backpacks that stood out to him or looked unusual. At 7:30 a.m., he went to a computer class to assist a teacher with this class. Afterwords, he went to his normal classes.

His last class prior to first period lunch was his history class, that let out at approximately 11:10 a.m. From here, John went directly to the cafeteria. He bought his lunch at the school store, and walked to table BB, which is near the windows on the west side of the cafeteria. He was seated with the following individuals.

1. Danny Abrams ✓
2. Peter(P.J.) Capra ✓

As he was eating lunch, he noted that several students were standing up and looking out the west windows of the cafeteria. He also looked out the windows, and observed a student whom he couldn't identify with a blood covered leg running towards the baseball diamond. Next he saw a gunman at the bottom of the stairs on the west side of the cafeteria dressed in black clothing, however not in a black trench coat. The gunman had on black pants, a black shirt, and long blond hair (neck length). The gunman pointed a sawed off shotgun towards the ground and fired once. He then got down on the floor, and as he did, he heard an explosion in the school parking lot. Teachers and janitors were yelling for students to get down. John crawled halfway to the stairs near the trophy case, and then ran to the stairs, and heard gunfire at the top of the stairs. Instead of going up the stairs, he ran down the foreign language hallway with many other students. He and a group of students went into the last classroom on the left next to the exit. two teachers in this classroom. A student named Julie Brunoff attempted to call 911, however the line was busy. They were in this classroom approximately two-three minutes, and then the teachers dircted them out of the school, across the parking lot, and south to the first house to the south of the school on Pierce. There were many students in this house, and after five or ten minutes he left and a student driving a small car (possibly white in color) gave John and a few other unidentified students a ride into the neighborhood, and went to the house of yet another unidentified student. John stated that he thinks that the student that gave him a ride looked like a student in the 1998 yearbook in the Trench Coat Mafia photo. The student he pointed to was Brian Sargent.

John did not see Harris or Klebold around school on either Monday or Tuesday. He actually didn't know Klebold or Harris per se, however he thinks that in the past he has seen them and other TCM students around the school. He didn't know very much about the TCM, but has heard that they can get drugs and guns.

John does use the Internet, and has a screen name of surfer 2K1. He does not have an ICQ, and doesn't utilize chat rooms.
