handgun and shotgun. A Bureau of Alcohol, Tobacco, and Firearms (BATF) trace analysis determined that both were police-issued weapons.

- (U) The subject proceeded to the Red Lake High School where he shot and killed an unarmed security officer who was managing the school's magnetometer. Subsequently, the subject proceeded down a hallway where he shot and wounded a teacher. The teacher sought refuge in a classroom. The subject followed her into the classroom where he shot and killed the teacher and three students.
- (U) Preliminary investigation indicated that the subject then entered a second classroom and discharged his handgun. However, no one was killed in this second classroom. The subject re-entered the hallway where he engaged local police and there was an exchange of gunfire. Neither the subject nor the officers were wounded. After the firefight, the subject then returned to the first classroom and killed another two students before shooting himself in the face with the shotgun.
- (U) To date, there are 10 deceased individuals as a result of this incident. The subject, the subject's grandfather, the grandfather's girlfriend, a school security officer, a schoolteacher, and five students.

# CART ANALYSIS UPDATE (JEFFREY WEISE'S PERSONAL COMPUTER):

# 3/22/2005

(U) At 3:30 pm, MP CART received Weise's computer and the attendant consent to search form authorizing analysis. FBI pilots transported the computer from Red Lake, MN, to Minneapolis, MN.
(II) Senior CART Coordinator/Field Examiner Special Agent
was assigned this matter. Upon receipt, SA immediately initiated the exam, photographed the evidence,
and noted condition of unit. SA removed the hard drive in
the subject computer and created an image of the hard drive to a
long-term storage device (ultrium tape). In addition, SA
created an additional image to a working hard drive for immediate
review.
(U) SA continued his CART Examination until approximately 12:15 AM on 3/23/2005. During this time, SA was created aforementioned images of the subject hard drive. Once the images were completed, SA initiated indexing of the images which allowed rapid search methods to be employed. Based on the size of the hard drive, SA estimated that the indexing process would take approximately five hours to complete.
3/23/2005
(U) On 03/23/2005, SA returned to work and found the indexing of the hard drive complete. Approximately 180,000 files had been identified on the 40 gigabyte hard drive.  (U) SA retrieved e-mail information for assessment of lead value. Then, SA exported e-mails from Outlook Express to the server. During this portion of the examination, SA identified an additional e-mail account for Weise: neonecrosis@hotmail.com.
(U) SA also certified CART examiner,
proceeded to print the exported e-mails and provided one copy to
the CP in Red Lake and provided another copy to a
MP analyst. While the CP is reviewing the emails for lead

reviewing the emails for lead value outside the crime scene.
(U) Additionally, SA printed a log entitled, "Chat Log" containing hotmail addresses logged during chat sessions.  Chat Log did not contain transcripts of chats, only e-mail addresses of those who may have participated in the alleged chats. SA provided those e-mails addresses to SA to include in SA also provided neonecrosis@hotmail.com to SA to Include in
(U) Further investigation by Special Agent revealed that "text string" searches contained e-mails addresses of Weise's associates, to include:
@hotmail.com @hotmail.com @hotmail.com @hotmail.com ahotmail.com
(II) The report for text string searches of  @hotmail.com alone was in excess of 100 pages.  SA and SA continue to review reports to find e-mail address and information of lead value.
(U) SA located approximately 900 hits for the word "todesengel" (death angel) in approximately 130 files on the Weise's computer. These files were accessed from June 2004 through March 2005. It should be noted that files accessed in 2005 appear to be large common files that also contain "todesengel". It is the preliminary opinion of the CART examiners that most of the activity concerning "todesengel" appears to have taken place in 2004. SA continues to review the report for additional information of lead value related to the search term "todesengel".
(U) SA located approximately 320 hits for the term "nativenazi" on the Weise's computer. These files were accessed from June 2004 through March 2005. It should be noted that files accessed in 2005 appear to be large common files that also contain "nativenazi". Initial review suggests that most of the

Details: For information of Legat Ottawa, on 03/21/2005, at approximately 3:00 P.M. Central Standard Time, Jeffrey James Weise, a tenth grade student who attended the Red Lake High School located on the Red Lake Indian Reservation, Red Lake, Minnesota, shot and killed nine adults and students, before turning the gun on himself.

Jeffrey Weise, a Native American male, 16 years of age, initially went to the residence of his 58-year old grandfather, Daryl Lussier, a sergeant on the Red Lake Police Department (RLPD). The subject shot and killed his grandfather and his grandfather's 32 year old girlfriend. While in the residence, Weise attempted to take an M-4. However, the weapon jammed as Weise attempted to load the ammunition and he left it at the residence. Prior to departing the residence, the subject took

possession of a police issued shotgun and Glock pistol. Weise fled the residence in Lussier's RLPD Sport Utility Vehicle (SUV).

Weise proceeded to the Red Lake High School in the SUV and rammed the vehicle into the school building. After entering the school on foot, Weise shot and killed a 28 year old unarmed security officer who was operating the school's magnetometer. Subsequently, Weise proceeded down a corridor where he shot and wounded a teacher, who sought refuge in a classroom. Weise followed the teacher into the classroom where he shot and killed her and three students.

Investigation indicated that Weise then entered a second classroom and discharged his handgun. However, no one was killed in this second classroom. Weise reentered the hallway where he engaged four RLPD officers and there was an exchange of gunfire. Portions of Weise's activities in the hallway were captured on a security camera videotape. After the firefight, Weise returned to the first classroom and killed another two students before shooting himself in the face with the shotgun.

At this time, there are 10 deceased individuals as a result of these incidents. The subject, the subject's grandfather, the grandfather's girlfriend, a school security officer, a schoolteacher, and five students. An additional seven students were injured and treated at hospitals.

	For information of the Bureau and Legat Ottawa, as a result of searches of subjects Weise's computer a chat log was located in which Weise is discussing a school shooting with another individual in August 2004. rampage at RLHS, shooting and killing a security guard, a teacher and five students before killing himself after being wounded by police gunfire.

Prior to the spree at the RLHS, Weise had apparently gone to the home of his grandfather, a veteran police officer, and shot and killed his grandfather and the grandfather's girlfriend with a .22 caliber semiautomatic pistol. Weise is believed to have then obtained his grandfather's .40 caliber Glock service pistol, 12 gauge Remington shotgun, his duty belt and radio, his ballistic vest as well as his police 4X4 cruiser. Weise is believed to have then driven to the RLHS where he conducted his rampage.

Initial investigation has revealed the indications of a conspiracy involving at least four other juveniles and one juvenile male has been arrested and charged in this matter on 03/27/2005.

An initial search of Weise's room at his home, the residence of resulted in the seizure of many items of evidence. However, on 03/29/2005, a family member contacted a member of the shooting investigative team and turned over a photocopy of the floor plan of the RLHS. On this plan, Weise had made a number of notations which clearly indicated a planned assault on the school, possibly by three shooters or more shooters.

A number of family members have handled this note, which was found crumpled in a ball in another container. A BIA SA and a Tribal Criminal Investigator (CI) have also handled it.

Minneapolis will prepare a comprehensive list of people who have been known to have handled it, and possible conspirators who may have handled the note. Additionally, Minneapolis will obtain major case exemplars from all known exemplar persons and suspects, as well as DNA samples from any possible conspirators and forward to Laboratory as soon as possible.

The Laboratory Division is requested to immediately begin evaluation for examinations on the plan in order to exploit any forensic evidence regarding same, to include indented writing, latent fingerprints, DNA.

Further, Operational Support Section, Investigative and Prosecutive Graphic Unit (OSS/IPGU) is requested to arrange 10 enlarged color copies of this floor plan to be made and shipped directly to the Bemidji RA to assist in ongoing investigation.

b6 b7C To: Criminal Investigative From: Minneapolis

Re: 198A-MP-66145, 04/01/2005

Further, to assist in this investigation, is requested that IPGU immediately prepare a large scale magnetic floor plan with a width dimension of no smaller than 40" if this is practical of the RLHS to be used in investigation. This chart should be color coded to reflect the different sections of the high school and middle school complex; Minneapolis notes that Laboratory personnel were on-scene during crime scene investigation and will have data to assist in preparation of magnetic chart. This chart should be shipped directly to the Bemidji Resident Agency. The case agent in this matter will facsimile a list of magnetic characters directly to IPGU as soon as possible.

Immediate priority is requested in this matter due to current outstanding investigation and possible co-conspirators as yet unidentified and possibly posing future threat, as well as the tolling of the Juvenile Delinquency Act time period which requires resolution in 30 days in lieu of continuance motions.

Minneapolis anticipates further such requests in future.

Q1

Sheet of paper depicting floor plan of Red Lake High School (1B72)

This report contains the results of the questioned document examinations.

Results of Examinations:

No indented writing or watermarks were observed on specimen Q1.

A record image of specimen Q1 is retained in the event handwriting comparisons are requested in the future. If handwriting comparisons are requested, both dictated and undictated known writing should be obtained from any logical suspect writers. Dictated known writing should be extensive, hand printed in the same wording as the questioned writing, and on individual sheets of paper similar in size to the questioned items. Undictated known writing is writing prepared during normal course of business activity. Possible sources of undictated writing are school records/forms and personal correspondence.

residence. Prior to departing the residence, the subject took possession of a police issued shotgun and Glock pistol. Weise fled the residence in Lussier's RLPD Sport Utility Vehicle (SUV).

Weise proceeded to the Red Lake High School in the SUV and rammed the vehicle into the school building. After entering the school on foot, Weise shot and killed a 28 year old unarmed security officer who was operating the school's magnetometer. Subsequently, Weise proceeded down a corridor where he shot and wounded a teacher, who sought refuge in a classroom. Weise followed the teacher into the classroom where he shot and killed her and three students. Weise reentered the hallway where he engaged four RLPD officers and there was an exchange of gunfire. After the firefight, Weise returned to the first classroom and killed another two students before shooting himself in the face with the shotgun.

Minneapolis to date has seized approximately 120 computers belonging to subject Weise and associates who may have been involved with the planning of this horrific act(s).

Minneapolis is taking steps to confirm or deny the	b6 b7C b7E
While it is possible, and there is some reason to believe, that Weise engaged in pre-operational security by limiting the knowledge of different students he approached between 2003 and 2005, all of the other students he approached were members of a close circle of friends and known to each other. Seems to be the exception to this and concern has been raised that he may be an attention seeker. As BAU II is aware, there has been at least one other such person who has claimed pre-knowledge of Weise's actions on 03/21/2005 who has since recanted.	b6 b7C
BAU II is advised that a fourth interview of was conducted on 04/13/2004; that will be forwarded to BAU II following uploading.	
BAU II is requested to review the three interviews of to determine if any information of lead value can be extracted and to determine if sufficient information exists to render an informed opinion regarding assertations.	
CIRG, BAU II, is also requested to forward to the Bemidji RA 25 copies of NCAVC's publication "The School Shooter: A Threat Assessment Perspective." This can be directly mailed to:

Dear

You have requested to receive notifications for

Your name was referred to the FBI's Victim Assistance Program as being a possible victim of a federal crime. We appreciate your assistance and cooperation while we are investigating this case. Our program is part of the FBI's effort to ensure the victims are treated with respect and are provided information about their rights under federal law. These rights include notification of the status of the case.

This case is currently under investigation. This can be a lengthy process and we request your continued patience while we conduct a thorough investigation.

We would like to make you aware of the victim services that may be available to you and to answer any questions you may have regarding the criminal justice process throughout the investigation. The enclosed brochures provide information about the FBI's Victim Assistance Program, resources and instructions for accessing the Victim Notification System (VNS). VNS is designed to provide you with information regarding the status of your case.

As a crime victim, you have the following rights under 18 United States Code § 3771:

(1) The right to be reasonably protected from the accused; (2) the right to reasonable, accurate, and timely notice of any public court proceeding, or any parole proceeding, involving the crime or of any release or escape of the accused; (3) the right not to be excluded from any such public court proceeding, unless the court, after receiving clear and convincing evidence, determines that testimony by the victim would be materially altered if the victim heard other testimony at that proceeding; (4) the right to be reasonably heard at any public proceeding in the district court involving release, plea, sentencing, or any parole proceeding; (5) the reasonable right to confer with the attorney for the Government in the case; (6) the right to full and timely restitution as provided in law; (7) the right to proceedings free from unreasonable delay; (8) the right to be treated with fairness and with respect for the victim's dignity and privacy.

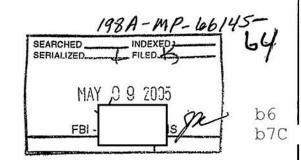

We will make our best efforts to ensure you are accorded the rights described. Most of these rights pertain to events occurring after the arrest or indictment of an individual for the crime, and it will become the responsibility of the prosecuting United States Attorney's Office to ensure you are accorded those rights. You may also seek the advice of a private attorney with respect to these rights.

L	Minneapolis served the bulk of these subpoenas on 06/02/2005 and anticipates obtaining the requested which will be shipped to the Laboratory Division upon receipt.
	For the information of the Laboratory Division, Jeffrey James Weise was last accounted for at approximately 12:30 - 1:30 pm on 03/21/2005, when he indicated to an aunt that he would go for a walk. He was next seen entering the Red Lake High School alone at approximately 2:50 pm and starting his shooting spree there. He is unaccounted for during the intervening time period but is believed to have walked the relatively short distance from his residence, the home, through the woods to the home of his grandfather, Darryl Lussier, where he murdered his grandfather and the grandfather's girlfriend, Michelle Sigana with a .22 caliber Ruger semiautomatic pistol.
I	It appears that the grandfather was shot as he slept while Sigana was surprised while doing laundry, shot initially with the .22 caliber Ruger pistol but later received a coup de grace shot from the grandfather's service pistol. Numerous rounds of live .22 caliber long rifle ammunition and the top to a plastic box of CCI .22 long rifle ammunition were left in the living room of the Lussier/Sigana home, and interview of Darryl
	Lussier and Michelle Sigana, indicated the absence of any .22 long rifle-caliber weapons or ammunition in the household.
	It is believed that after initially shooting Lussier and Sigana, Weise retrieved his grandfather's Red Lake Police Department (RLPD) service weapons, a Glock .40 S&W pistol, a Remington 870 12 gauge shotgun and a DPMS M-4 .223 rifle from either the home or the RLPD cruiser. He or someone else attempted to load the .223 rifle but was apparently stimied by the fact that the weapon was so dirty it jammed and the rifle was

(2) Sigana was initially shot with the .22 pistol, but, even though Weise still had ammunition for the .22 Ruger, she was shot again with the grandfather's .40 caliber Glock service pistol.

b6

b7C

Both questions could point to the involvement of a second or more individuals in the shootings at the Lussier/Sigana home. Of particular interest in this regard is that two known conspirators of Weise's,

both of whom had admittedly agreed to assist Weise in a school shooting spree but allegedly withdrew some time prior to 03/21/2005, remain unaccountable for the time period when the Lussier/Sigana murders took place, estimated between 12:30 pm and 2:50 pm on 03/21/2005.

had graduated the previous year, was unemployed and living at a mutual friend's house and was supposedly walking from one neighboring town to another at the time of the shooting, while shoot, allegedly to study.

Minneapolis and the District of Minnesota are currently exploring the feasibility of charging further individuals in connection with this matter. Of particular concern are (1) any persons of interest who may have handled the "assault plan," as delineated in referenced serial 67 with leads; (2) any person who may have been present during or shortly thereafter the murder of Darryl Lussier and Michelle Sigana, which took place at the Lussier/Sigana residence before the shooting spree at the Red Lake High School; and (3) any person who might have provided the .22 caliber ammunition to Weise which was used to kill Weise's grandfather, Darryl Lussier and Lussier's girlfriend, Michelle Sigana, at their residence.

Laboratory Division is advised that the crime scene examination at the Lussier/Sigana home was conducted by the Mobile Crime Laboratory search team of the Minnesota Bureau of Criminal Apprehension. During that search, numerous boxes of .223 caliber and 12 gauge ammunition, as well as plastic ammunition holder strips were recovered, as well as .223 magazines. Also recovered were three soda cans in the kitchen and living room and a Buck knife from the living room sofa.

Of particular and priority interest is the fact that a the afore-mentioned top to a box of .22 long rifle calibler ammuntion was discovered, apparently carried by Weise to the

#### Results of Laboratory Examination:

Comparative examinations of the cartridge cases listed below against test fired cartridge cases from Item 66 (one Glock Model 22 40S&W caliber pistol bearing serial number ECM635US, FBI Item number 1B51) showed the presence of matching features. This means that the following cartridge cases were fired in Item 66:

Cartridge Cases Fired In Item 66 Glock Pistol		
Item	Description	FBI Item
54C	One Federal brand 40S&W caliber cartridge case (recovered from Chanelle Rosebear)	1B2
62Å	Five Federal brand 40S&W caliber cartridge cases (Area E, Items 7, 16, 17, 18 and 19)	1B42
63	Five Federal brand 40S&W caliber cartridge cases (Area F, Items 5, 6, 7, 8 and 9).	1B44
64A&B	Two Federal brand 40S&W caliber cartridge cases (Area G, Items 1 and 2).	1B45
65	Eleven Federal brand 40S&W caliber cartridge cases (Area J, Items 20, 22, 23, 27, 28, 29, 30, 31, 32, 33 and 34)	1B50
67	One Federal brand 40S&W caliber cartridge case (Area L, Item 2)	1B54
68	Eleven Federal brand 40S&W caliber cartridge cases (Area N, Items 12, 13, 14, 16, 17, 29, 30, 31, 32, 33 and 53)	1B56
85	One Federal brand 40 S&W caliber cartridge case (Lussier residence)	

Examination of the bullets or bullet fragments listed below show them to be consistent with .40 caliber jacketed b7C hollow point bullets or bullet fragments having been fired from a firearm having polygonal rifling with a right hand twist. Firearms that share these characteristics include, but are not limited to, those manufactured under the brand name Glock.

Item	Description	FBI Item
54A	One .40 caliber JHP bullet (recovered from Chanelle Rosebear)	1B2
55	One .40 caliber JHP bullet (recovered from Chase Lussier)	1B3
56	One .40 caliber JHP bullet jacket and separate core (recovered from Neva Rogers)	1B4
58	One .40 caliber JHP bullet jacket (2 pieces - recovered from Alicia White)	1B6
59B	One JHP bullet core (recovered from Michelle Sigana)	1B7
61	One .40 caliber JHP bullet (core and 2 jacket fragments recovered from	1B14
70	One .40 caliber JHP bullet (recovered from	1B84

Comparative examinations of the above bullets or bullet fragments against test fired bullets from Items 50 (one DPMS Panther Arms Model A-15 223 Remington caliber rifle bearing serial number F006810) and 71 (one Ruger 22 Long Rifle caliber pistol bearing serial number 181073) showed the presence of different features. This means that the above items can be eliminated as having been fired from Items 50 and 71.

Comparative examinations of the following bullets against test fired bullets from Item 71 were inconclusive. However, based on similar class characteristics, the following bullets or bullet fragments can not be eliminated as having been fired from Item 71:

	Bullets or Bullet Fragments Sharing Class Characteristics With Item 71			
Item	Description	FBI Item		
59A	One .22 caliber copper plated lead bullet (recovered from Michelle Sigana)	1B7		
59C1	One .22 caliber copper plated bullet fragment (recovered from Michelle Sigana)	1B7		
59C3	One .22 caliber copper plated bullet fragment (recovered from Michelle Sigana)	1B7		
60A	One .22 caliber copper plated lead bullet (recovered from Daryl Lussier)	1B8		
60B	One .22 caliber copper plated lead bullet (recovered from Daryl Lussier)	1B8		
60C	One .22 caliber copper plated lead bullet (recovered from Daryl Lussier)	1B8		

Comparative examinations of the above bullets against test fired bullets from Items 50 and 66 show the presence of different features. This means that the above bullets can be eliminated as having been fired from Items 50 and 66. Item 73 (one magazine, 1B42, Area E, Item 8B) was used to test fire Item 71.

Comparative examinations of Item 53B (one bullet fragment recovered from Jeffrey Weise's buttocks, from 1B1) and one of the fragments of 53 D (three bullet fragments recovered from Jeffrey Weise's left thigh, from 1B1) against test fired bullets from Item 50 were inconclusive. However, based on similar class characteristics, these bullet fragments can not be eliminated as having been fired from Item 50. Comparative examinations of the above bullets or bullet fragments against test fired bullets from Items 66 and 71 showed the presence of different features. This means that the above bullets or bullet fragments can be eliminated as having been fired from Items 66 and 71. The remaining two fragments of Item 53D were not suitable for comparative examinations.

Examination of Item 53A (recovered from Jeffrey Weise's head, from 1B1) showed it to be consistent with shotshell components (buffer and apparent pieces of shot cup or wad). Examination of Item 53C (recovered from Jeffrey Weise's sweatshirt) showed it to be consistent with one flattened 00 buck shot pellet.

Item 54B (one apparent JHP bullet jacket frag	gment recovered from Chanelle Rosebear, 1B2), Item 59C2 (one
apparent lead bullet fragment with copper pla	ating recovered from Michelle Sigana) and Item 69 (one apparent
JHP bullet jacket fragment recovered from	1B70) were not suitable for comparative
examination.	

Examination of Item 57 (projectiles recovered from Derrick Brun, 1B5) showed it to be consistent with two 12 gauge rifled slugs and one 12 gauge wad.

Examination of Item 62B (1B42, Area E, Item 14) and Item 64C (1B45, Area G, Item 3) showed each of them to be a .40 caliber Glock brand magazine marked as having a 15 round capacity and marked for law enforcement/government only.

Per FBI SA no examination of Items 51, 52 and 74 (four Glock pistols bearing serial numbers ECM623US, ECM640US, and ECM626US and ECM644US respectively) are requested at this time.

Synopsis: To pay autopsy costs for exam of nine victims and subject.

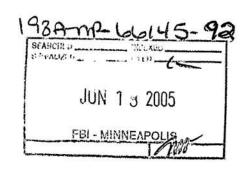

Indian Reservation, 03/21/2005;

IC - Homicide, Conspiracy

Enclosure(s): Enclosed are ten invoices received from Ramsey
County Medical Examiners Office, and FD-794.

Details: Final invoices (exclusive of photographs, which have been ordered) for the autopsy examinations of the nine deceased victims and the subject, Jeffrey James Weise, are received today. For simplification purposes, Ramsey County Medical Examiners Office has included all autopsy services, to include equipment use, reports, lab tests, etc., in one category, and the Medical Examiner's services in another category, thus negating the past practice of having to send multiple checks. Now, only two check will be necessary: One to Ramsey County and one to the Medical Examiner.

Attention: Ms. Claims Department
RE: Neva Rogers (Deceased)
Dear Ms
Special Agent (SA) of the Bemidji Resident Agency of the Federal Bureau of Investigation (FBI) has been contacted by Ms. who has requested police reports concerning the death of Ms. Neva Rogers.
Due to the fact that the death of Ms. Rogers is part of an ongoing investigation and prosecution, we are unable to provide Ms. with any records at this time. Such records will be available at the conclusion of the investigation and prosecution via the Freedom of Information and Privacy Act process. In the meantime, in lieu of the above, the following

On March 21, 2005, at approximately 2:50 pm, a lone individual entered the Red Lake High School on the Red Lake Indian Reservation, Minnesota, were Ms. Rogers was employed as a teacher. This individual immediately shot and killed a security guard, then to a point where he was able to observe Ms. Rogers, who was walking towards the gunman and conversing with a group of students. Ms. Rogers was pushing a computer cart from one classroom to another at the time the gunman encountered her. gunman opened fire on Ms. Rogers and the students.

information, determined from investigation, is provided:

Ms. Rogers and the students fled away from the gunman. Ms. Rogers ran to a nearby classroom, the doors of which were immediately locked. However, the gunman was able to force access to the classroom and entered it. He shot Ms. Rogersachiree times with a .40 caliber handgun, killing Ms. Rogers almost Tratantaly, and also shot nine students in the classroom, five fatally. gunman then exited the classroom and proceeded to wander in the hallways and enter other classroom, ultimately shooting and 3 2005 2-Addressee

wounding two other students. He was then encountered by officers from the Red Lake Department of Public Safety and, after engaging in an exchange of gunfire with the officers, was wounded. The gunman then fled back into the classroom where Ms. Rogers had been killed. Inside the classroom, the gunman committed suicide. The entire incident in the school took place in less than ten minutes. It is noted that the gunman is also believed to have murdered two other persons shortly before arriving at the school.

A examination of the wounds that Ms. Rogers and the other students who were shot in that classroom, and forensic examition of all projectiles recovered from those victims, both deceased and surviving, reveal that all were consistant with having been struck with .40 caliber projectiles. It is noted that the only projectiles fired by Red Lake police officers were .223 caliber rounds fired by one officer. Additionally, this office is in possession of statements of eyewitness to the murder of Ms. Rogers.

You are further advised that there has been no information developed during the course of this on-going investigation that indicates anything other than Ms. Rogers was chosen at random for shooting by the gunman, and that Ms. Rogers, at the time of her death, was engaged in her official duties.

I hope that this information will suffice at this time for the normal processing of insurance claims for Ms. Rogers' family. Should vou have any further questions, please feel free to contact SA or Victim Specialist at the same number.

Sincerely,

Michael Tabman Special Agent in Charge

On March 23, 2005, DOB who resides in Red Lake, MN, was interviewed by SA and writer. After being advised of the identities of the interviewing Agents and the nature of the interview, provided the following information:
is an eleventh (11) grader at Red Lake High School, and was at school during the fatal shooting. Between ten (10) and twenty (20) minutes after the bell rang for seventh (7) hour, he heard bangs that sounded like someone was hitting a locker. A teacher began yelling for everyone to get down, and students were putting desks and chairs on the ground to protect themselves.
smelled gunpowder, and he knew it was gunpowder.  He also heard screams that were cut short by gunfire. Everyone in the class scrambled out of the building together.
JEFF WEISE.
didn't know WEISE at all, but knew of him to be a guy who spiked his hair; wore black clothing, jackets and military boots; and dressed like a Goth person. The Goth group made their appearance noticeable to the rest of the school.
knew of WEISE to be one to choose his words carefully, if he spoke at all. Not many people spoke with JEFF, who confided and kept to himself. However, he was friends with girls, (phonetic) and (phonetic).
didn't hear much about any comments regarding the incident. He did know of comments and rumors from others last year in which people said that JEFF would do something similar to this year's fatal shooting.

On March 21, 2005, when the school shooting call came in, he was in the office doing paperwork. Officer said there was a shooting at the high school and dispatch said shots had been fired at the high school. went out, put his tack vest on and headed out. He called for a vehicle description. ended up at the end of the block at the high school and saw police units there. He got out and walked toward the front. A man opened the front door and said, "Hurry up, they're shooting inside."
went inside and saw two spent shotgun cartridges inside the front doorway entrance. He had his service weapon out.  saw an individual laying on the ground, whom he recognized as Derrick Brun, a former police officer for the Red Lake Tribal Police who was working as a security guard at the high school. checked Brun's pulse and there was no pulse.
A female officer and Conservation Officer were in the hallway. sent the female officer outside because she was untrained yet and was new to the job.
could hear shots throughout the building.  followed the direction of the shots and he could still hear shots being fired. As arrived at the new section of the school, which was built between the middle school and the high school, he could see that officers had fired. Officer had his M-4 out and Sgt. had his duty pistol out. said, "He's in here." walked around the pillars to the wall and heard kids swearing and crying. They yelled into the classroom for the shooter to come out. They tried to open the door, but it was locked. heard one or possibly two shots and then everything was quiet. Kids started yelling, "Come in,

come in, " but said have them come out. Some of the kids exited the classroom and directed them to other officers down the hall. went in the classroom with Sgt. was in first ther secured the suspect with handcuffs and began triaging the victims. An officer ran for the first aid kits. EMTs then arrived and the officers instructed who to remove from the classroom. The
Sgt. had taken a shotgun from the area of the shooter's body and the weapon looked like a law enforcement issued shotgun. This weapon was cleared by Sgt.
then began securing the area around the perimeter and called to put Life Flight on standby.
then called SA of the FBI and told him that they had an actual shooting at the high school and not a drill. Beltrami County Sheriff's Office was called. They then had the teachers try to get a count of the students so they could be accounted for.
observed .40 caliber rounds.
recalled that had been shooting and that he was on the left side behind a pillar. He was the only officer who shot at the suspect, and he was shooting .223 rounds.  After they secured the scene, they started their numbering system and took photographs. was the new female police officer.
saw .40 caliber casings on the floor in the hallway outside of the classroom.
The two initial casings he had observed were shotgun casings and it appeared there was more than one in the classroom.  also observed a .22 caliber pistol in front of the classroom door with the clip open as if the shooter had expended all of his rounds. It appeared that the shooter had two or three weapons. They found the .40 caliber in another classroom.
