### Incident Report

22050676 - SUP5 - Supplement

Next of kin was notified.

Scene Investigation / Interviews / Witness Canvass and Interviews / Surveillance Canvass:

Scene Investigation:

Initiating the investigation at the scene, the detectives observed that the incident occurred in the 3100 block of South Kingshighway.

The scene was located inside of a high school, which was identified as the Collegiate School of Medicine and Bioscience and the Central Visual and Performing Arts High School.

The detectives turned their attention to the exterior design of the Central Visual and Performing Arts and the Collegiate School of Medicine and Bioscience buildings. It should be noted that both schools are located on the same campus.

The 3100 block of South Kingshighway is a four-way thoroughfare (which travels north and south), comprised of two lanes and is of asphalt construction. It is bordered to the north by Arsenal and bordered to the south by Kemper Street.

The area is comprised of small businesses, fast-food restaurants, and some multi-family residences. Located on the east side of the street was a vacant business lot, with the address of 3108 South Kingshighway.

There were four lanes of traffic, two of which traveled south and two of which traveled north. The lanes are divided evenly by a solid yellow painted line on S. Kingshighway, and in both directions each having a turning lane to travel east or west onto Arsenal.

Parking is not allowed on the east or west side of the street of the northbound and southbound curbs. Commercial grade streetlamps are situated along the east and west sides of the street.

The incident as well as the scene investigation took place during the daylight hours.

The "Annex" portion of the high school, which houses the gymnasium and the dance hall, has buildings located on Arsenal and South Kingshighway.

The Collegiate High School has buildings located on South Kingshighway and Kemper Street.

Central Visual and Performing Arts High School occupies a portion of the Collegiate building located on Kemper, and the rest of its buildings are located inside the confines of the Collegiate School, along with the Annex building, all of which are on one campus.

Detectives directed their attention to the layout and building locations of both high schools.

Both high schools were observed to be secured by various methods.

The various security measures observed at the high schools consisted of locked doors, chain link fences with locks, wrought iron fences with built-in locking mechanisms, and school security officers.

The campus which encompasses Central Visual and Performing Arts High School, and the Collegiate School of Medicine and Bioscience consists of ten buildings, one of which is shared by Collegiate School of Medicine and Bioscience students.

Collegiate High School consists of four buildings. For all intents and purposes relative to identifying the buildings, the first Collegiate High School's building is shared by both high schools (CVPA and Collegiate). The first building is identified as the Annex.

The "Annex" building has two ways to gain entry and exit to the building. The first method of entry could be made through the front doors of the building off Kingshighway, or through the side door, located on the northwest side of the building off Arsenal.

### Incident Report

Supplement Date/Time - 05/10/2023 20:32

22050676 - SUP5 - Supplement

The Annex (gymnasium and dance studio) is located on the northwest corner of Arsenal Street at South Kingshighway Boulevard. The second and third Collegiate buildings are facing east, and located on the west side of the street, at approximately 3131 South Kingshighway. Lastly, the fourth building (attached to the third Collegiate building), is near the northwest corner of South Kingshighway Boulevard at approximately 4915 Kemper Avenue.

Detectives discovered that inside the second and third buildings of Collegiate High School, a long hallway connects the two buildings, along with two sets of entrance/exit doors, that assist with movement between the second and third buildings.

In referencing Collegiate High School's fourth building, the first set of doors, which are part of the entrance and exit doors of the school, are located on Kemper Avenue (approximately 4915 Kemper Avenue). A second set of doors are located further west on Kemper Avenue (at approximately 4927 Kemper Avenue). Also, the second set of doors lead to the inner campus of the school.

Detectives continued their outside canvass/observation of the high school and returned to Arsenal Street, where they began to walk west in the 4900 block of Arsenal. At approximately 4920 Arsenal, concrete steps lead to a fenced in breezeway.

The detectives observed on the ground at the foot of the steps what appeared to be two shotgun hulls. It was later discovered during the investigation that St. Louis City Police Officer Phillip Green fired two shots from his department issued shotgun at a large lock. The lock which was fired upon was used to secure a fence, which also secured the inside portion of the school campus.

The detectives entered onto the campus breezeway and walked south on the campus. They located on the ground, approximately twenty feet from the fence, a shotgun projectile.

Detectives continued south through the school campus and past the rear doors of the Annex building. From the detectives' location, in a southwesterly direction, they observed a flight of concrete steps which lead to the front doors of the Central Visual and Performing Arts High School. There are five individual concrete columns, and flush with each column are two front doors, all of which lead into the building.

The detectives turned their attention back towards the breezeway and continued south towards a corridor with four entrance/exit doors, which connects the two schools.

The corridor is in the 4900 block of Kemper. Inside the corridor was a table and a metal detector. To the east of the table was a door, which separated the area from the Collegiate School.

On the opposite side of the corridor was another door, which leads to the hallway of Central Visual and Performing Arts High School.

Lastly, the detectives observed that just south of the metal detector there were four more entrance/exit doors which lead out to the school's parking lot.

The detectives continued their observation of Central Visual and Performing Arts High School. They walked west of the school until they reached the rear of the school, which is in the 3100 block of Boardman Street.

The detectives stopped at the rear doors of the school, which is located on Boardman Street, but near 4954 Arsenal. It should also be noted that there were several other exterior doors located at the rear of the school.

Finally, the detectives observed that the foyer area at the rear doors of the school contained a stairwell which accesses all floors of the school.

This concludes the observation conducted by detectives as it relates to the exterior layout of Collegiate Medicine and Bioscience High School and the Central Visual and Performing Arts High School.

### Incident Report

Supplement Date/Time - 05/10/2023 20:32

22050676 - SUP5 - Supplement

Detectives entered Central Visual and Performing Arts High School through the doors located at the rear of the school.

Upon entering the building, the detectives took the stairwell down to what was thought to be the basement, but it was later identified as the first floor.

They walked east and then south through the hallway until they reached the cafeteria, which is adjacent to another stairwell. The detectives walked up the stairwell to the second floor.

They walked east through the second-floor hallway, past the principal's office and towards the Security Monitoring Station. The monitoring station is located at the front of the school, near the front doors.

Note that the following items (evidence) were near the principal's office located near the front doors on the second floor.

The items are as follows:

Wall art debris on the floor and evidence markers which marked ballistic evidence near the principal's office located on the second floor.

The Security Monitoring Station consists of several surveillance monitors and computer drives, which were later seized as evidence by Cybercrime Detectives.

The detectives exited Central Visual and Performing Arts High School and walked in a northeast direction towards a breezeway, which connects the Annex building.

The Annex building houses the dance studio and the gymnasium.

The detectives walked north towards two sets of rear doors located at the Annex building. The detectives entered the Annex building which is a corridor type of area, with a door and hallway just north of a stairwell. The corridor encompassed a stairwell which leads to the bottom floor of the annex building.

The detectives walked down the stairwell to the bottom. Located at the bottom of the stairwell was a magazine and ballistic evidence.

The detectives exited the stairwell. As they stood facing east in the hallway, they observed three doors on the north wall, and on the south wall there are plexiglass windows and doors which extend the length of the hallway.

As the detectives stood in the hallway, they observed a cartridge (marker 4) in the middle of the hallway's floor.

The first door led to a vestibule which housed several small rooms, which includes the dance studio. Just before the detectives crossed the first door's threshold, another cartridge was located on the floor.

The detectives entered the vestibule and turned to the right and observed directly in front, on a raised ramp like floor, additional ballistic evidence. It was flush with another entrance door that leads into the dance hall, to include the second door, which was locked.

Still at the entrance door of the dance hall/room, directly to the left of the entrance door, other items were observed on the floor.

The described items on the floor were an unknown, silver in color, floor-standing digital equipment, two cellular phones and a phone charger. Also on the floor were signs of human tissue.

In a northeast direction, the detectives stood in the dance room where they observed another cellular phone, located on the floor, surrounded by human matter and droplets of apparent blood.

A continued observation of the room revealed that the northeast wall (wall mirror), sustained ballistic damage. Continued observations of the room revealed two black doors located in the far northeast corner of the dance room. The detectives stood in the doorway and discovered they located the gymnasium.

### Incident Report

Supplement Date/Time - 05/10/2023 20:32

22050676 - SUP5 - Supplement

As the detectives stood in the doors' threshold, located between the dance room and the gymnasium, three sets of black doors were observed in the gymnasium.

The first set of doors located north from the detectives in the gymnasium led them to the outside of the school, on the Arsenal Street side of the Central Visual and Performing Arts High School. The second set of doors located east from the detectives in the gymnasium led them into the main hallway, which encompasses the plexiglass doors located at the front of the school, which faces South Kingshighway. The third set of doors located south of the detectives led them to the hallway.

The detectives concluded their observations relative to the dance hall and the gymnasium.

Annex Building:

Detectives focused their attention to the hallway and the plexiglass doors in the hallway, located at the front of the Annex building.

As the detectives stood in the hallway facing east (towards the plexiglass front doors), just north of their location was a stairwell which accessed all floors of the Annex building. The stairwell also shared a vestibule which encompassed a side door located off the 4900 block of Arsenal.

Detectives exited the side door and as they walked outside, they observed a four door, blue in color, Dodge Avenger, with dark tinted windows, parked on the sidewalk just north of the side door, from which they exited.

The Dodge Avenger was bearing Missouri 2021 license plate number [REDACTED], and vehicle identification number [REDACTED]. A computer inquiry of the vehicle's information revealed that it was issued to a Noneeka Harris who resided at [REDACTED].

A further observation relative to the side door revealed that the plexiglass was shattered due to being fired upon. Ballistic damage (evidence), which supports how the plexiglass side door was shattered, was located on the wall (hole in the wall) at eye level, just east of the side door.

The detectives returned to the inside of the Annex building through the same side door. As they stood facing south in the hallway and in front of the gymnasium door, they turned their focus to droplets of apparent blood that was observed on the floor. The blood droplets led from inside the gymnasium and out to the hallway. The detectives followed the blood trail which traveled south down the hallway and toward a set of closed doors, located at the other end of the hallway. It should be noted that the hallway traveled in a north and south direction.

The detectives walked south through the hallway until they reached some closed doors which lead into the Collegiate Medicine and Bioscience High School.

Collegiate Medicine and Bioscience High School:

The detectives opened the doors and observed another corridor which leads to the second area of the school. The second area was identified as the Collegiate Medicine and Bioscience High School.

The detectives stood inside the Collegiate School corridor where the blood trail ended. Located in front of them was the entrance and exit doors for the Collegiate School (4939 Kemper Street), which is on the Kemper Street side of the campus.

As the detectives stood in the Collegiate School corridor, the detectives noted a hallway which traveled in an east and westerly direction. The mentioned hallway also encompassed school personnel offices and classrooms.

Just north of the stairwell/vestibule, at the southwest corner of the hallway and on the floor was the deceased shooting victim, later identified as Juvenile student Alexandria B.

Alexandria B. sustained gunshot wounds to the left side of her chest/torso and to her left forearm and left wrist after being shot by suspect Orlando H. A further observation of the surrounding area revealed one pair of black Nike flip flops, two cellular phones, and one ink pen.

### Incident Report

Supplement Date/Time - 05/10/2023 20:32

22050676 - SUP5 - Supplement

This concludes the scene observations of portions of the CVPA school, Annex Building, and Collegiate Medicine and Bioscience High School.

A continued observation of the school was conducted relative to identifying the entrance into Central Visual and Performing Arts High School and then the observations of same once inside.

The detectives exited the Collegiate Medicine and Bioscience High School through the first set of doors located on the south side of the building (Kemper Street). They walked west through the school's parking lot where they reached a set of stairs, which lead up to a second set of side doors that allowed access into Central Visual and Performing Arts School.

Upon entering the building, the detectives entered a vestibule and observed that it encompassed a desk and a metal detector. When the detectives walked past the metal detector, they observed that there were four additional sets of doors and a hallway, which traveled in an east and westerly direction.

The first two sets of doors which were relative to the hallway (east and west) were closed. The third set of doors was located on the south side of the vestibule's wall. Those doors lead to a stairwell which accesses all four floors of the school. The fourth set of doors are located on the north side of the vestibule, which lead to the courtyard for both schools.

The detectives left the vestibule by exiting through the north doors of the school, which lead to the courtyard. They canvassed the courtyard and then began a search for any doors on the school left unlocked.

Central Visual and Performing Arts High School:

The detectives walked past the steps which lead up to the front door of the main entrance for the Central Visual and Performing Arts School. They continued to walk north through the courtyard and past the green wrought iron fence. Once they reached a breezeway which was separated by the wrought iron fence, they observed a green door located to their west on the school, and then another set of green doors located at the top of two flights of stairs, also located on the west side of the building.

The doors located at the top of the stairs were locked, however the bottom set of green doors were unlocked.

The detectives entered through the unlocked green doors and found themselves in a small corridor which opened up to a hallway. The hallway traveled in a north and south direction. They entered the hallway and observed in large black letters the word "Cafeteria" located on the west wall, which was catty-corner from their location. The detectives walked north through the hallway and arrived at an opening to their immediate right. The opening led to a stairwell which gave access to all three levels of the school.

The detectives walked up the first flight of stairs and observed a cartridge that was marked by evidence placard marker #10 on the floor. The detectives walked up the next flight of stairs and located on the north wall, a white placard indicated that the detectives were in "Stair 4"; "Floor 1 through 3", and they were on the second floor.

As the detectives exited the stairwell and entered onto the second floor, they observed a cartridge on the floor that was marked by evidence placard marker #5.

The detectives began to walk south in the hallway toward the principal's office. On the floor underneath a black bench, which was up against the west wall, was a white wall placard that read, "Stage 219", the detectives observed a casing marked by evidence placard marker #4.

The detectives continued south in the hallway and observed debris from art décor (shattered decorations) on the floor that once decorated the east wall.

They continued south in the hallway to where they reached four doors located on the east side of the hallway. On the wall near the doors, red letters were observed stenciled on the wall which read "exit" and "enter". Those doors were the main entrance and exit doors for the Central Visual and Performing Arts School. It should also be noted that on the floor near the first set of exit/enter doors was a pair of black sunglasses believed to belong to the suspect (Orlando H.). It was marked as evidence with placard "A".

As the detectives stood in the hallway, flush with the main exit and entrance doors of the school, a corridor which splintered in an east and west direction was connected to another hallway. The second hallway, located on the far west side of the building, also traveled in a north and south direction.

Off the corridor there were two sets of stairwells which accessed all four floors inside the school. The stairwells were just south of where the detectives stood.

The detectives continued their observation of the second floor and continued to walk south through the hallway, past the surveillance desk, which was set up as the school's security monitoring station.

Detectives continued to walk south through the hallway when they observed on the east side of the hallway on the floor, a casing, which was marked by evidence marker #6, and then on the west side of the hallway, on the floor, they observed a cartridge which was marked by evidence marker #7.

Detectives reached the end of the hallway. They continued their observation and walked west, and then north down another hallway, which was separated by the two stairwells which was mentioned earlier, when they stood near the main exit and entrance doors of the school in the south hallway.

As the detectives proceeded to walk north in the hallway, they observed on the west side of the hallway floor, a cartridge which was marked by evidence marker #8, and then on the east side of the hallway they observed a cartridge which was marked by evidence marker #9.

The detectives continued to walk north through the hallway and observed a bathroom marked for girls on the west side of the hallway. At the entrance to the bathroom, they observed droplets of blood on the floor, which traveled from the first white porcelain handicap sink to the entrance of the bathroom. They also observed droplets of blood in the sink. A pair of blue bloody surgical gloves was observed in a trashcan, which was used to prop open the bathroom door. The gloves in the trashcan were marked as evidence by evidence tape label C.

It would later be determined that the bloody gloves belonged to Intelligence Detective Kevin Corcoran, DSN 8925, who refused medical treatment after he cut his hand on a glass door. It was discovered that Detective Corcoran injured his hand as result of attempting to gain entry into a secured classroom identified as room #206, as he cleared the school.

It should be noted that Detective Corcoran prepared a memorandum (seized as evidence) documenting his actions and the injury he sustained.

The detectives continued their canvass and walked north through the hallway until they reached classroom #206, located on the west side of the hallway.

The detectives continued the canvass and walked north through the hallway. The detectives reached classroom #215, located on the west side of the hallway. They entered the classroom and discovered ballistic damage to a window. The window was located on the west side of the classroom, directly across from the door.

The detectives continued the investigation and walked west toward the end of the hallway. They reached the end of the hallway and stopped at a set of doors. On the floor in front of the doors they observed droplets of blood, which were also on the door. A white placard was observed on the west wall of the hallway, with writing on same, which read "Stair 3".

The detectives exited the hallway and entered the stairwell located on the west side of the hallway. Immediately detectives observed large amounts of blood, a blood trail, and white bloody medical bandages on the stairs and on the landings, which led detectives up to the third floor and down to the lower level (1st floor) of the school.

The detectives walked up to the third floor of the stairwell, walked past a set of double doors, and entered onto the third

Detectives were advised that the suspect would later be critically wounded in classroom #307. They were also advised that there were additional crime scenes on the third floor that still needed to be processed prior to responding to classroom #307.

Detectives continued their investigational notation relative to the third floor and would return to classroom #307 after processing the additional crime scenes.

Classroom #307 was now at the rear of the detectives, and they would now continue their investigation as they moved south through the hallway.

Prior to leaving the area of classroom #307, the detectives observed on the floor, both on the east and west sides of the hallway, shotgun hulls which were marked as evidence by markers #35, #36, and #37.

The detectives continued to walk east through the hallway until they reached an opening on the west side of the hallway, which led them to a center hallway and a staircase. Homicide Division, Detective Daniel Sweeney, DSN 5161:

On October 24, 2022, Detective Daniel Sweeney and Homicide Detective Katherine Rund, DSN 6908, responded to Central Visual and Performing Arts High School at 3125 S. Kingshighway.

Upon their arrival they were met by Homicide Division Commander, John Blaskiewicz III, DSN 5227.

Lieutenant Blaskiewicz requested that Detective Sweeney respond with St. Louis Public School Safety Officer Germaine Yancy, who was possibly shot at during the incident, and who would lead him to the surveillance footage that would need to be seized as evidence.

Detective Sweeney advised that Safety School Officer Yancy escorted him through an exterior door, which was the main entrance, located off Kemper Avenue. They proceeded to a security desk which was manned by St. Louis Public School Officer Robert Findley, and which also housed a surveillance system.

The only surveillance camera accessible from that location was "queued" to the time of 9:07 A.M. Security Officer Findley advised that the surveillance footage covered the gym hallway and was captured by the camera designated as CH 12.

The surveillance footage was played by Security Officer Findley. At approximately 9:08 A.M., the footage showed Security Officer Yancy in the hallway of the gymnasium where he abruptly flinches and then walked toward the exterior door located on Arsenal Avenue.

Prior to Security Officer Yancy reaching the door, the suspect was seen entering through it, presumably by reaching in and disengaging the push-bar's locking mechanism from a shattered pane of glass.

Yancy was observed backing away from the location and running down the hallway, and stopping at what was later determined to be the gym.

The suspect later identified as Orlando H. was seen turning right and proceeded towards what Security Officer Findley described as the Dance Studio.

At 9:09 A.M., a black female later identified as juvenile victim Alexandria B. was observed entering the "gymnasium hallway". She ran west in the hallway until out of sight. Per the surveillance footage, an observation of Alexandria B. revealed that she sustained a severe wound to her left arm, which bled profusely.

Seconds later, several students were observed fleeing south toward the intersecting hallway, which is toward the exterior doors on Kemper Avenue.

Officer Yancy stated after yelling out instructions to "Heather", he observed a student later identified as victim Alexandria B. run towards him with her left-hand dangling, stating she had been shot.

Officer Yancy stated he continued to advise staff that there was an "active shooter" in the building.

Officer Yancy advised that he came upon Principal Seals and informed her that a student had been shot and was going into shock.

Officer Yancy continued his rounds of notifications. He stated that he exited the building (Collegiate School) and entered Central Visual and Performing Arts. He stated that upon entering the building, he immediately instructed everyone to lock their doors.

Officer Yancy advised that while in the CVPA building, that's when he observed Assistant Principal Anselman and Mr. McGhee. He instructed them to lock all their doors and then continued on with Mr. McGhee and Principal Anselman to alert the rest of the school.

Officer Yancy advised that as they (he, Anselman and McGhee) were alerting the school, they encountered the suspect in the hallway. Officer Yancy stated that the suspect fired three shots at them, and they fled the building to safety.

Officer Yancy stated that the suspect was dressed in all black clothing. He was approximately 17 to 25 years of age. He further believed that the suspect was armed with an AK-47, however later he was advised that the suspect was armed with an AR-15.

At the conclusion of the interview, Detective Sweeney was met by Force Investigation Detective Enoch Chambers, DSN 4012. Detective Chambers was advised of the above information and requested the Cyber Crime Unit to respond to the scene to download the referenced surveillance footage.

Dr. Patel stated when she met Orlando H., she described him as being casually dressed, well-groomed, quick to answer questions with one-word answers. He had fair to poor eye contact, logical speech, had feelings of worthlessness, and did not respond to stimuli. She advised that he did not deal with disappointment well. She also stated that she could not speak to his anger, as he did not exhibit any anger in their sessions.

He warmed up slightly as their sessions progressed, however he knew what to say while in the in-patient program, which is to pretend to be better and ensure he would be released.

610.021 (5)

Dr. Patel prescribed medication to Orlando H. for his 610.021 (5) and thought she was successful in convincing him to take it after their sessions, however she discovered that his prescriptions had not been filled. Dr. Patel also advised that she tried to get Orlando H. to go to psychotherapy, but he refused, stating that he had tried it in the past and it did not help. He stated he still tried to kill himself.

Dr. Patel advised that Orlando H. had skewed expectations of himself and thought he was a failure at everything.

Even though he graduated from high school and got all "C's", he still considered himself a failure. He also considered himself a failure due to his unsuccessful suicide attempts.

Dr. Patel stated that during one particular session, she was able to initiate future planning with him. She stated Orlando H. showed interests in film and wanted to attend a film school in California, but tuition was an issue. She tried to link Orlando H. up with social workers who could help him achieve those goals. Orlando H. also liked working with senior citizens and viewed it as positive, because no one would bother him. Dr. Patel felt that work was a coping skill for Orlando H., but his coping skills and resiliency were short lived, because he had a lot of negative thinking and cognitive distortions.

Dr. Patel stated that Orlando H. did not talk about any friends or teachers he was close to. He also did not talk much about his family. She stated that he lost interest in things that he enjoyed such as gaming in or about the year 2021.

Dr. Patel advised that during a session with Orlando H. on August 22, 2022, he spoke about shooting people at his old high school two weeks prior to that session. She stated that Orlando H. told her that the thought lasted for one evening and then went away. No planning. Didn't want to do it and hadn't thought about doing it since that evening.

Dr. Patel advised Orlando H. of a safety plan which included what his triggers were, what his warning signs would look like, and what to do when he recognized them.

She stated that she could not remember what Orlando H.'s responses were, and her notes only state that they completed a safety plan.

### Incident Report

Supplement Date/Time - 05/10/2023 20:32

22050676 - SUP5 - Supplement

Ward advised that Orlando H.'s high school experience for the first two years was normal, but then things changed after COVID. It was as if his heart wasn't in it anymore after he went back to school after being out of school for an entire year.

Ward advised that Orlando H. graduated on time in 2021, but before he graduated, he had an altercation with a teacher. When asked who the teacher was and what the altercation was about, Ward was unable to provide a lot of information. She thought that Orlando H. just did not like the teacher. She did advise that the teacher was a male and that he was an academic teacher, possibly teaching science, math, or history. Ward further stated that Orlando H. loved band in school.

Ward advised the Special Agents that Orlando H. attempted suicide three times. The first time was in August of 2021 approximately two weeks before he was scheduled to leave out of state for college. She stated that he slit his wrists and left a note at his job. His co-workers found it and called the police.

Orlando H. was transported to Barnes Jewish Hospital and placed in a psychiatric facility on Delmar Boulevard, and he stayed there for a period of time. Ward advised that eventually Orlando H. would be released from the facility, and due to his psychiatric enrollment case, he now had a therapist who saw him regularly.

Ward advised that the second time he contemplated suicide was during the holidays in 2021, possibly around Thanksgiving. She stated that during one of their sessions, Orlando H. told his therapist that he had thoughts of harming himself. The therapist told her to have him admitted and she did so. She stated that the hospital did not keep him long, because he was out before Christmas.

Ward advised that the third time Orlando H. attempted suicide was approximately between the months of April and June of 2022. She stated that Orlando H. drank anti-freeze and went to the hospital immediately. After he was released from the hospital, Orlando H. advised Ward that he was not going back to the hospital and stopped contact with the therapist.

Ward advised that on or about October 15, 2022, her youngest son, **JUVENILE** called her and told her that two packages arrived at the house from various gun and ammunition places and that the packages were addressed to Orlando H.

Ward stated that when she arrived at the house, she took the packages and hid them. She would later discover that Orlando H. received emails from the companies he had purchased the items from, and they asked about the packages' arrival at the house.

She stated she tried to lie and tell Orlando H. that the packages did not arrive. Then her daughter Noneeka Harris was able to open the packages and discovered that Orlando H. purchased a body armor vest, magazine holsters and magazines. She (Noneeka Harris) went to Orlando H.'s bedroom and searched it. She found an AR rifle in an old TV Box.

After learning what was in the packages, Ward stated she checked Orlando H.'s bank account and found more purchases for tactical gear and firearms. She also discovered that Orlando H. went to a gun show.

Ward advised that with all the above information gathered, she decided to call the St. Louis Metropolitan Police Department. Crisis Intervention Officers responded to her residence.

They collected information and informed Ward that they could not take the gun away from Orlando H. After being advised this, she thought of family members who could assist her with her dilemma and take the gun away. Immediately Orlando H. began to argue with her that he worked hard to earn the money to purchase the gun and that he wanted to keep it.

Orlando H. decided that he would appease his mother and the entire family. It was decided that Orlando H. would purchase a storage facility and store his gun and all the other tactical gear, to include ammunition which would arrive at the home later in the week at the storage facility.

It should be noted that Ward had access to Orlando H.'s bank account and during the interview she showed Special Agent McKenzie and Special Agent Field bank transactions which referenced the purchases she had spoken of (anything referencing weapons and police gear).

Ward then advised the Special Agents about his sleeping hours and his modes of transportation.

Ward advised that Orlando H. would usually sleep until about 12:00 P.M. She stated that on the morning of October 24,

2022, she did not get to the house until 7:00 A.M.

She stated that the only person who was still at the house was her daughter Taina Harris. Ward stated that she works the night shift at the post office. She stated that she did not see Orlando H. when she got home. She stated that she did a little housework and then she went to bed.

Ward advised that it would be her daughter, Noneeka Harris, who returned home from work, woke her up and told her about the school shooting at CVPA. Noneeka Harris would later advise her mother that her other daughter who resided in Washington D.C. had sent a text message about the school shooting.

Ward advised that BJH left a voicemail message that morning asking her if she still needed assistance with Orlando H.

This concludes the interview conducted with Tanya Ward and the memorandum prepared by FBI Special Agents Cassandra McKensie and Eric Robert Field.

On October 24, 2022, FBI Special Agents Eric Field and Megan Shira obtained a "Consent to Search" of Noneeka Harris' vehicle. Her vehicle is identified as a blue in color, 2013 Dodge Avenger, four door, bearing the Missouri license plate number of **PERS ID**

The "Consent to Search" which was signed by Noneeka Harris relative to her blue Dodge Avenger was seized as evidence.

On October 24, 2022, FBI Special Agents Andrew Ryder and Megan Shira responded to **PERS ID INFO** **PER** to meet and conduct an interview with Orlando H.'s sister, Noneeka Harris.

Noneeka Harris:

She also stated that when she woke up the next day, she did not see Orlando H. and thought that he had left for work. Orlando H. had been employed at his job since high school and that he graduated from high school last year.

Noneeka Harris stated that Orlando H. purchased a gun two weeks prior at a gun show. She stated that she knew about the gun because she saw it. She advised the Special Agents about an incident which occurred on October 15, 2022.

Noneeka Harris explained that the incident was relative to Orlando H. purchasing a bullet proof vest, ammunition, and the family locating his purchased firearm inside his bedroom at their residence.

The family contacted the police department to obtain assistance because they were concerned about Orlando H.'s mental illness and felt he should not be in possession of any firearms.

The family wanted the police department to take Orlando H.'s weapon. The officers advised that they could not confiscate the firearm or any of his items.

Noneeka Harris advised that the police officers were able to assist them with a solution to their dilemma. They suggested that the firearm and all the other items be placed in a storage facility, so that the family could feel safe. She stated that she drove Orlando H. to the storage facility (Extra Space Storage) located at 7737 Watson Road, St. Louis MO. The items were stored at the storage facility.

Noneeka Harris advised that Orlando H. had attempted suicide three times in the past year. The first time was with a knife. The most recent time was by drinking antifreeze. She advised that she did not know if Orlando H. had ever been held in the hospital because of his suicide attempts.

Noneeka Harris stated that she knew something was going to happen. She asked Orlando H. what he was going to do with the gun. He simply told her that he was going to the shooting range.

Taina Harris:

On the night of October 23, 2022, she went to a concert and returned home late. The next day (October 24, 2022) she decided that she would miss her first class of the day and get to the university campus (Harris-Stowe State University) in time for her second class.

Taina Harris stated Orlando H. was up this morning and she saw him. He was up earlier than normal, because usually he didn't get up until 12:00 P.M.

When Orlando H. went to work, he wore a black pair of pants, a white shirt, and a black apron. On this particular morning Orlando H. had on black pants and a black hoodie. She stated that Orlando H. left the house around 8:30 A.M., and further stated that she didn't see a gun in his possession.

Taina Harris stated that she did not know anything about Orlando H. purchasing ammunition until her younger brother **JUVENIL** advised her of the purchase. She also stated that Orlando H. has not done any violent acts before.

Orlando H. had been a lot quieter than usual, and he never spoke about a bad experience in school which would make him want to harm anyone.

Taina Harris stated she was on the bus this morning, on her way to school, when she heard about the school shooting. She thought Orlando H. was involved. She further advised that she hoped it was not Orlando H.

This concludes the interview conducted by Special Agents Andrew Ryder and Megan Schira.

On October 25, 2022, Detective Nicole Weite, along with Detective Sergeant Joseph Bell, DSN 6826, prepared a memorandum relative to a radio assignment (Event # P2210150742), at the residential address of 7010 Pennsylvania, St. Louis, MO., which was the home of suspect Orlando H. The memorandum was addressed to Lieutenant John Applegate.

Detective Weite and Detective Sergeant Bell responded to this location to assist with the assignment.

Originally, this assignment (Domestic Disturbance) was dispatched to call letters 2121, which was manned by First District Police Officers Randy Trim, DSN 12091 and Andrew Potts, DSN 12301.

Detective Weite advised that on October 15, 2022, she and Detective Sergeant Joseph Bell responded to 7010 Pennsylvania to interview Tanya Ward regarding the above-mentioned assignment.

The mother of Orlando H., who was identified as Tanya Ward, advised that on October 15, 2022, she went to the store with her son Orlando. While they were gone, Orlando H. received two packages at home, which was intercepted by his younger brother **JUVENILE**

**JUVENILE** researched the senders' names listed on the packages and discovered that they were firearm related (Optic Planet and LA Police Gear). After his discovery he contacted his sister Noneeka Harris (who was at work) and told her about the packages. She instructed him to put the packages in her bedroom located in the basement.

Noneeka Harris contacted her mother and told her about the packages. While Tanya Ward was out with her son Orlando H., she reviewed his bank account and located three transactions for possible firearm related purchases (Outdoor Limited; \$342.81; 10/12/22; LA Police Gear; \$33.42; 10/22/22; Cheaper Than Dirt; \$176.35; 10/15/22).

Tanya Ward advised that when they returned home from their outing, Orlando H. immediately began to look for his packages and became angry when he could not find them. He would eventually calm down and got ready for work.

As Orlando H. was getting ready for work and after he left for work, Tanya Ward contacted this police department and BJC Mental Health Services relative to seeking assistance for Orlando H., because she knew that he should not have firearms due to his mental issues.

Both entities gave Tanya Ward information relative to what their department could and could not do for her relative to her adult son. Tanya Ward was not pleased with the information received and discontinued the conversations.

When Noneeka Harris arrived home, she immediately opened the packages and discovered their contents (bullet proof vest; twenty rifle magazines). She then responded to Orlando H.'s bedroom and located an AR-15 style rifle, which was hidden in an old television box.

Noneeka H. contacted this police department for police service relative to the items purchased and found in her brother's bedroom. She advised that this department never responded.

Tanya Ward contacted BJC again and advised them of what her son purchased and what was found hidden in his bedroom. She also advised them that they called the police, but this department never responded to her residence.

At this time BJC conducted a screening over the phone and deemed the situation as an immediate threat. BJC contacted the non-emergency police dispatch, who in turn advised them that if Orlando H. was not at home this department would not respond.

BJC Mental Health Resources advised her to take the items to the police department and advise them of her son's mental illness. She was advised to explain to this department that her son purchased the items and that the items were located inside her home.

Tanya Ward and Noneeka Harris packed the AR-15, the vest and the rifle magazines up in Noneeka Harris' vehicle and they responded to the South Patrol Division.

Tanya Ward and Noneeka Harris arrived at the South Patrol Division and spoke with South Patrol personnel. They advised them that a CRU (Crisis Response Unit) Officer and a First District Officer was enroute to the patrol station to speak with them.

When the two officers arrived at the South Patrol Station and met with Tanya Ward and Noneeka Harris, they advised them that they were aware of Orlando H., because he was in their system from prior documentation.

The officers explained to Tanya Ward that this department was unable to seize the items, but advised her that an officer would respond to their residence, so they should return home. It was at that time that the CRU Responder followed Tanya Ward and Noneeka Harris back to their residence.

Upon their return to their residence, along with the CRU Responder arriving at Tanya Ward's residence, Officers Randy Trim, 12091, and Andrew Potts, 12301, were already at her residence and were observed speaking with Orlando H.

Again, the officer advised Tanya Ward about this department's inability to take the firearm due to Orlando H. being of legal age to possess the firearm and he was not prohibited, so legally he could have a firearm.

The officers gave her the options of taking the gun to a pawn shop or giving it to a responsible friend for safe keeping. The option of taking the firearm to the pawn shop was not an option, and no friends were available at the immediate time.

Orlando H. advised his mother that he purchased his firearm legally at a gun show. The officers inquired about the legitimacy of how he came to be in possession of the firearm.

Orlando H. stated that he took an Uber to the gun show and purchased the firearm for \$500.00 cash.

The officers continued to advise Tanya Ward of what needed to be done in order to have Orlando H. deemed mentally unstable and put under her care and control.

The officers then provided another option, which was to get a storage locker to get the firearm away from the house, since Tanya Ward was adamant that Orlando H. could not have the firearm in the house due to his mental state.

The firearm and the other items were secured in the trunk of Noneeka Harris' vehicle when the officers left the residence.

Tanya Ward advised that on October 16, 2022, another package from Fed-Ex was intercepted after Orlando H. went to work. She discovered that Orlando H. purchased a green ammo box full of ammunition. Tanya Ward stated that she placed the ammunition in the trunk of Noneeka Harris' vehicle.

Dean of Arts at CVPA, Dr. Manfred McGhee:

Dr. Manfred McGhee stated on the day of the incident he was located inside the Central Visual and Performing Arts High School principal's office (Dr. Kacy Seals-Shahid; Principal) having a meeting with school staff.

Dr. McGhee stated the meeting was about the students not going directly to class after the bell rang and enacting a "Hall-sweep" to ensure the students were going to class.

Dr. McGhee stated just before Dr. Shahid rang the bell for class change, an email and phone call was made to the dance teacher by Principal Shahid, after she was told that the dance students would be twelve minutes late getting to their next class.

Soon after that the bell rang for class change. He and Assistant Principal Anselman stepped out of the office and into the hallway to monitor the students changing class. The students who were given the twelve-minute grace period were allowed to get to class and Dr. McGhee and Principal Anselman began to make their way back to the office.

When they returned to the office, School Security Officer Lawrence responded to the office and advised everyone that something was going on and that they were to lock everything down.

Officer Findley stated maybe that was why he spared his life; because of the conversations he had with the suspect in the past.

Detective Williams asked Officer Findley if he knew of any special reason why the suspect may have chosen the third floor.

She advised that she's scheduled to report to work at 6:00 AM. She stated that she was late for work on this date due to carpooling with another teacher (employed at CVPA), who decided at the last minute he was not going to work.

Rosenberg-Cox stated that when she arrived at school, it was discovered that she was going to be short-staffed. She advised that usually there would be at least seven instructors, but on this date (10/24/2022), the only instructors that would be on staff was she, Susie Morgan, and Ray Parks.

Rosenberg-Cox advised that the dance classes were under way and second period students were held over and the students for the third period were filtering in. She stated this made it difficult to account for all the students. She stated the decision was made that she would leave the office and make her rounds through the Annex to ensure that the students were responding to their respective classes.

Rosenberg-Cox stated after concluding her rounds, she returned to her office and heard gunshots. She stated that the office, the locker rooms, and access to the dance studios are all situated in an area which is closed off from the main thoroughfares of the adjoining large hallways of the Annex building.

Rosenberg-Cox stated as he continued to walk in the office, he fired a shot into the dance room (Studio A). After he fired the shot and was observed exiting the office, she watched Orlando H. "fiddling" around with the firearm, which led her to believe that it must have jammed.

Rosenberg-Cox stated when Orlando H. left the office, she did the same. She ran to the locker rooms and placed her entire weight up against the locker room door because it would not lock.

She stated as she stood in the locker room, she discovered that there were female students in the locker room who were scared and crying. While in the locker room, person(s) unknown attempted to push open the locker room door, however their attempts were to no avail.

Rosenberg-Cox stated that they all remained inside the locker room and were eventually located by police officers and escorted from the school.
